Coeur d'Alene Begins Major Street Overlay Repair

The City of Coeur d'Alene will place more than three miles of new asphalt on streets throughout the community through mid-August, and drivers are urged to use caution while in road work areas. Streets being “overlayed”—where old asphalt is ground up and new asphalt is placed—include Front Avenue and portions of its side streets between 8th & 21st streets; Hanley Avenue between Ramsey Road and Highway 95; and Dalton Avenue between N. Stafford Road and N. Pleasant Way. Motorists are asked to use caution in these areas. The City of Coeur d'Alene spends about \$1.2 million annually on street maintenance, including overlay and chip sealing, to ensure a great commute for residents and visitors. Tell us a little bit about your background and experience: I have spent the last 14 plus years working for the City of Salem, Oregon, originally as a Parking Services Officer, and then as an Office Assistant/Cashier. The last 4 plus years I had the pleasure of working for the Building & Safety Department gaining experience as a Permit Specialist at the front counter, where I was very involved in the intake process for all types of building permits.

What are your current duties and responsibilities? I am currently training, learning the processes of issuing over-the-counter plumbing, mechanical, re-roofing, siding, encroachment, etc. permit applications for both homeowners and contractors. In addition, I will be scheduling inspections, responding to public information requests, and directing the public to the appropriate department or agency.

What does customer service mean to you? Customer service, to me, means leaving the customer with all of their

questions or concerns answered to the best of my ability and/or directing the customer to the right person or department. I try to make every person I come in contact with feel welcome and as if they will receive the help or assistance that they are seeking.

What is the most fulfilling aspect of your job? I would say the most fulfilling aspect of my job is speaking with our customers. Whether my contact with them is over the phone, in person, at the counter or via email, I really am a people person and very much enjoy interacting with so many types of people every day.

What about your family and interests? My interests are pretty much my family. I have always been very close with my family even when living in Oregon for all those years. I have always kept in touch and visited as much as possible.
