

It's your City—help plan it!

The City of Coeur d'Alene is seeking community input for its Community Development Block Grant (CDBG) Consolidated Planning Process. CDA residents are encouraged to attend two public workshops and share their input about current community needs and spending priorities. You can influence where these Federal funds are spent for the program years 2018-2022!

Get involved — your participation is important! Public forums have been scheduled for you to share your ideas on how the city should direct this federal funding.

Can't make the public forum? Be sure to send a letter or email your ideas.

More information on the CDBG program and past year funding priorities can be found online:
