Q7 Because the City's CDBG annual allocation is relatively modest in relation to the high costs related to many of the City's 6 Planning Goals, partnerships are important in establishing the feasibility of larger projects.

Would you like to hold a future meeting where needs and goals are shared to see where organizations can collaborate to utilize CDBG funds and better serve community needs? If so, please check 'yes' below.

Q8 ADA Accessible Sidewalks have been established as an important CDBG funded goal in Coeur d'Alene. These funds work in partnership with City efforts to meet its ADA goals. This project is usually funded at \$14,600 annually with CDBG funding. In the past, this funding has resulted in two small scale projects with a third underway in June of 2019. Do you support maintaining this funding amount? Do you wish to see an increase?

Q9 What are the unmet needs you see in your community? Do you have any project ideas that you think may serve that need? Please explain.

Answered: 33 Skipped: 22

#	RESPONSES	DATE
1	Accessible and free public transportation; accessibility throughout Coeur d'Alene regarding mobility (being able to get to and from using, for example, a wheel chair; high housing costs for poor housing (unattainable).	12/28/2018 11:17 AM
2	Penalizing business and property owners for not shoveling their sidewalks.	12/27/2018 1:01 PM
3	I believe that the city could do a better job of educating the community regarding best practices in recycling including school children. As a somewhat new member of the community, there are many things I like to learn in order to maybe become engaged. Educating the community is on-going and should be ever present through the paper, website, TV, brochures. A project idea might be utilizing a person to make sure topics are publicized, and lead events for community project awareness /education (&/or making contacts of people knowledgeable of the project)	12/21/2018 5:18 PM
4	The unmet needs seen in our community are almost too large to write down. There are project ideas and or potential solutions to all/most of them. The CDA 2030 plan is a community driven plan, and is full of many impactful projects. Our Community Health Improvement Plan has a non-public facing strategic planning section that is also full of community driven SMART objectives focusing on access to care, mental health/suicide prevention and substance abuse prevention. We can share objectives if you are interested. The challenge that you have is that your goals are extremely broad. My recommendation would be to focus on one goal at a time or one geographic area, for three to five years. This funding amount, strategically focused in one area, serving the highest need LMI residents would really move the needle on these important projects.	12/21/2018 10:41 AM
5	short term rental housing located in or walking distance to downtown. This would benefit students and people in transition, and would help them stabilize and be able to access resources. Question: how does the city assure that revitalized LMA residences stay available for LMI individuals? What is to keep a landowner from selling or pricing out LMI renters after improvements are made to the property?	12/21/2018 9:16 AM
6	The lack of early childhood education condemns parents and their children to welfare. By offering early educational programs, children are better prepared to succeed, won't drag down the learning environment and parents can advance in their careers or education.	12/21/2018 8:44 AM
7	Public transportation	12/21/2018 8:38 AM
8	Community Addiction Recovery Resources	12/20/2018 4:51 PM
9	Affordable quality childcare, affordable housing (application pool or \$ for CBCs)	12/20/2018 4:13 PM
10	Affordable housing for our large restaurant and retail industry as well as short-term rentals for rotating nurses at the hospital.	12/20/2018 1:21 PM
11	Community/Commercial Kitchen and small food/drink business incubator. Support center for the service industry.	12/20/2018 11:14 AM
12	Teen and Young Adult intervention programs.	12/20/2018 6:34 AM
13	The biggest unmet need we see is emergency shelter for women and children. We see it most with single women who are not victims of domestic violence. They are forced into situations where they may rent from someone in an unsafe situation just to have a place to go which often times will result in victimization.	12/19/2018 3:22 PM

Community Needs Assessment for the City of Coeur d'Alene's 2019 Annual Action Plan

14	Affordable housing and public transportation or infrastructure that supports other modes of transport besides motor vehicles. What happens when our waitstaff, minimum wage or mid-wage employees can no longer afford to live in the city? Businesses will have to close because of a lack of employees and there will be a ripple effect throughout our community. Create a public transportation system that charges riders (it can be affordable) so it can be expanded to hours that people can actually use the bus and it should run 7 days a week. As it currently is of course ridership is low. It doesn't run for a majority of people who could/would ride it. Example: Daughter works at the hospital, but is a swing shift worker. She could get to work, but would have no way to get home when her shift ended at 8:30PM. So, she drives, but how many in our community don't have the resources to be able to afford a vehicle?	12/19/2018 12:04 PM
15	Rentals to support low income families is still needed even with new complexes being built.	12/19/2018 11:41 AM
16	Low income Seniors always have needs. Elder help	12/18/2018 8:54 PM
17	Sidewalks to and around Bryan Elementary School	12/18/2018 1:17 PM
18	It seems a better job could be done mixing affordable housing into other areas of housing. If not done already, affordable housing efforts could be geographically tracked to ensure they do not end up clustered together. As it is, affordable housing appears pocketed together in Coeur d'Alene.	12/18/2018 12:56 PM
19	Neighborhood improvements in East Sherman	12/18/2018 8:08 AM
20	Improve East Sherman Ave. It has been talked about for many years with very little done.	12/17/2018 6:34 PM
21	Parking was a big one, but I feel this is being addressed appropriately.	12/17/2018 4:23 PM
22	Rethink zoning that prohibits affordable "tiny house" development and/or multi-family housing in residential areas	12/17/2018 3:56 PM
23	Complete the street light LED conversion.	12/17/2018 2:51 PM
24	Better multi-use paths/sidewalks/bike lanes in the city outside of lakefront.	12/17/2018 2:19 PM
25	lack of affordable/free adult technical education/training	12/17/2018 1:58 PM
26	Access to River and Lake with ADA and public accessibility	12/17/2018 1:37 PM
27	Lower rents for low and middle income residents. Better traffic flow - time and program signals more efficiently on Govt Way for example.	12/17/2018 1:32 PM
28	More support for elders that are shut-ins.	12/17/2018 1:02 PM
29	Emergency assistance and a dedicated CDA Food bank	12/17/2018 12:47 PM
30	Performing Arts are valuable to the quality of life of our community and enhances tourism. We are in great need of a large community venue to build on existing talent and opportunities while support struggling performing arts groups.	12/17/2018 12:40 PM
31	public transportation	12/17/2018 11:25 AM
32	Traffic Lights need to be re-evaluated. The cycles are way too long.	12/17/2018 9:38 AM

9	The Kroc Center provides space and program opportunities to low income residents, but received no funding support from the City of CdA. No funding or support for after school program transportation of students exist, and The Kroc Center is unable to accommodate transporting more than 44 students daily.	12/20/2018 6:34 AM
10	I think I outlined those in the sections above.	12/19/2018 12:04 PM
11	Bringing more for-profit businesses and business-related programs (e.g., NIC's small business and entrepreneurial program, Greater Spokane Inc., local business incubators, etc.) to the table may yield a wealth of information and connections.	12/18/2018 12:56 PM
12	Partnering with local churches would be more sustainable	12/18/2018 10:23 AM
13	It is possible the collaborative efforts with NIC are understated, or undervalued. I think there is an untapped resource of bright individuals within the student body that are educating themselves with progressive and visionary academics. It is likely that with the proper solicitation and enticement we might be able to keep some of these standout grads in town to ensure not only a bright future with new ideas, but maybe some new perspectives on public policy from a younger generation.	12/17/2018 4:23 PM
