TRAIL OF THE COEUR D'ALENES

Most of the trail is far away from habitation, giving you solitude as well as exercise...so pack a lunch and a repair kit.

The small treasures you encounter along the Trail include beaver homes

In the fall of 2002, all the railroad bridges were resurfaced for bikes and pedestrians.

Straight, flat and well constructed, the bike path connects dramatically different places.

If you're lucky, you'll spot wildlife along the trail.

Biking along the shore of Lake Coeur d'Alene at dusk is naturally a high point of your adventures.
