Tell us a little bit about your education and experience:

I graduated in 1993 from N.I.C.S., and worked in construction developing property and building houses until 2000, when I was hired by the City of Coeur d’Alene Water Department.

Why the City of Coeur d’Alene?

I wanted to pursue an occupation that provided a good means to raise a family and stay in the city where I was born and raised.

What are your current job responsibilities?

I am responsible for making sure that all the water meters (approximately 20,000) are read every month and entered so that Utility Billing can bill the customer. I also oversee our Water meter change-out program. We change out roughly 1,500—2,000 water meters annually. I am responsible for our Service Truck personnel, and also oversee updating of our GIS water maps.

What would you like citizens to know about the Water Department?

I would like citizens to know how fortunate they are to have an excellent source of drinking water, and to not take it for granted. I would also like citizens to know what an excellent group of employees the Water Department has. The Water Department’s goal is to provide tasty and healthful water at a reasonable price at consistent pressures and in

What does customer service mean to you? Customer service means being able to adapt to different circumstances. Every customer has different needs, and having clear communication ensures that you convey exactly what you mean. Ultimately, customers rely on us to have knowledge of the situation at hand.

What about your family and interests? I have been married for almost 20 years, and have three children—one daughter that was recently married, and two sons. My oldest son graduated this year and will be joining the military. I love the outdoors, and enjoy hunting and fishing. I also spend time playing the BEST SPORT EVER (Hockey)!
