What is a historic preservation plan? And why does the city want/need one?

A historic preservation plan is a planning document that develops a vision for historic preservation in the city and a series of goals, policies, and actions that will help the city pursue that vision. Now is a great time for the city to create a historic preservation plan since the city's program is new and a plan will help build momentum. It also provides an opportunity for the public to comment on the direction of the program.
