2014 Year in Review

The City of Coeur d'Alene is located in beautiful northern Idaho and is home to over 45,000 residents. Our City serves as the cultural center for Kootenai County and boasts a fantastic downtown area, beautiful parks and public spaces, and proximity to numerous lakes, rivers, and outdoor recreation areas.

Policing in the United States is among the most noble of professions and one of the most challenging. The men and women dedicated to providing selfless service to our community must balance the absolute necessity to protect the constitutional rights of our citizens with the requirement to keep our community safe and crime free. The Coeur d'Alene Police Department continually strives to work in partnership with our community to accomplish these goals.

Since my arrival in September of 2014, I have come to know the 103 men and women of our department as consummate professionals. They are committed to our efforts to improve relationships with the public and reduce crime in our community while ensuring this amazing area is a safe place to work, live, and visit.

I am truly honored to lead an extremely professional and competent group of dedicated public servants, committed to providing outstanding service to our community and our beautiful city.

SCHOOL RESOURCE OFFICER PROGRAM

The School Resource Officer program is a continuing effort between CDA Police and the Coeur d'Alene School District to provide for the safety and well being of students and school personnel on our campuses. In 2014, SROs assisted in implementing new safety features in area schools, actively trained for school emergencies and attended a conference that focused on “active shooter” training. Our partnership with the School District increased by adding an Elementary School SRO. We also formed a partnership with North Idaho College and added an SRO to their campus.

The presence of uniformed police officers in our schools allows for an array of police services to be provided to both students and staff including counseling and mentoring of students on a daily basis.

Officers interact with students through education and enforcement. They investigate cases, solve crime, and work with the Juvenile Court System on a regular basis.
