MESSAGE FROM THE CHIEF OF POLICE

Law enforcement agencies throughout the United States are expected to carry out their missions successfully 24 hours a day, 7 days a week, even while members are faced with constant challenges and a myriad of tasks in one of the most complex and high liability jobs in America. Our sworn members are charged with life and death decisions; with collecting and identifying criminal information and evidence which require special training and handling; with exercising the necessary use of force; with lawfully depriving citizens of their freedom; and with treating victims with compassion and care.

In order to guide our sworn and non-sworn members through such a complex responsibility, our department has a written Policy Manual to assure updated, safe, professional, and legal procedures are in place consistent with best practices. The purpose of this manual is to provide a guideline for our members in carrying out their responsibilities in a professional, ethical, and legal manner.

This manual is important to our overall success. The contents of the manual reflect how the department conducts business by documenting rules and establishing guidelines for consistent, efficient, proper and best practices. By closely following the directives herein, members are enabled to provide reliable, and effective service to our community.

It is important to our success that this manual be read, understood, and accepted by all members. However, this manual should not be regarded as the creation of a higher legal standard. Additionally, while this manual attempts to give guidance for a variety of situations, policy cannot be written to cover every circumstance and common sense should prevail.

While our department is obligated to adhere to the contents of this manual, it is understood that change is both constant and imminent. Whether this change occurs in statutory mandates, technological advancements, or the needs of the community we serve, we will strive to ensure our Policy Manual remains modern and subject to updates and revisions.

LAW ENFORCEMENT CODE OF ETHICS

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all; and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, or friendships to influence my decisions. With no compromise for crime and the relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of law enforcement service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other law enforcement officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

101.2.4 ADDRESSING SWORN MEMBERS

As a matter of professional courtesy, when in the presence of persons from outside the department, members should address fellow sworn members by their rank, or by rank and last name. All other times, members may be addressed by their first names unless a member is making a formal introduction.

101.2.5 ATTENTION TO DUTY AND JOB PERFORMANCE

As most police work is necessarily performed without close supervision, the responsibility for proper job performance lies primarily with each individual member. A sworn member also carries with him the responsibility for the safety of the community and other department members, and he discharges that responsibility by the faithful and diligent performance of his assigned duty. Anything less violates the trust placed in him by the department and the community, and nothing less qualifies as professional conduct.

During their assigned shift, members must keep occupied with department business and not give the appearance of loitering or inattention to duty by engaging in personal business or conversations to the extent that it neglects work performance.

Inattention to duty and poor or unacceptable job performance shall also include, but not be limited to the following actions and attitudes:

101.2.6 INTEGRITY

The public demands that the integrity of members of its police department be above reproach, and the dishonesty of a single member may impair public confidence and cast suspicion on the entire department. Succumbing to even minor temptation can be the genesis of a malignancy, which may ultimately destroy an individual's effectiveness and may contribute to the corruption of

Member Conduct

countless others. A member must scrupulously avoid any conduct, which might compromise the integrity of himself, his fellow members or the department.

101.2.7 COURTESY

Effective law enforcement depends on a high degree of cooperation between the department and the public. Members shall be courteous in all public contacts, and during interactions with other department members, City employees and any other Government entity.

101.2.8 MEMBER INTERACTIONS WITH THE PUBLIC

In each contact with the public, a member must be aware that their actions, appearance and statements are generally considered by citizens to be representative of the department and not necessarily solely of the individual member. For that reason, and because of the inherent potential for conflict in many police contacts, a member must develop fair, impartial and reasonable attitude, and perform their tasks in a business-like manner. Member's statements must be the result of considered judgment and be absent of personal opinion, bias or editorial comment. Extended conversation, which reflects the member's personal opinions will normally be considered inappropriate.

101.2.9 MEMBER RESPONSIBILITY

When any member becomes aware of possible misconduct by another member of this department, they shall immediately notify a supervisor through the proper chain of command.

101.2.10 SUPERVISOR RESPONSIBILITY

Chapter 2 - Organization and Administration

Organizational Structure and Responsibility

200.1 PURPOSE AND SCOPE

This policy establishes the organizational structure of the department and defines general responsibilities of department members.

200.2 DIVISIONS

The Chief of Police is responsible for administering and managing the Department. There are two divisions within the department as follows:

- Patrol Division
- Investigations Division

200.2.1 PATROL DIVISION

The Patrol Division is commanded by a Captain whose primary responsibility is to provide general management direction and control. The Patrol Division consists of uniformed patrol and special operations which includes Traffic, Police Aides / Assistants, and other enforcement based units.

200.2.2 SUPPORT SERVICES DIVISION

The Investigations Division is commanded by a Captain whose primary responsibility is to provide general management direction and control for the Division. The Investigations Division consists of Investigations, Crime Analysis Unit, Property and Evidence Office, Records and other support services units.

200.3 COMMAND PROTOCOL

The Chief of Police exercises command over all personnel in the Department. During planned absences, the Chief of Police will designate a Division Commander to serve as the acting Chief of Police.

200.3.1 SUCCESSION OF COMMAND

The Chief of Police exercises command over all personnel in the Department. During planned absences the Chief of Police will designate a Division Commander to serve as the acting Chief of Police.

200.3.2 UNITY OF COMMAND

The principles of unity of command ensure efficient supervision and control within the Department. Generally, each member shall be accountable to one supervisor at any time for a given assignment or responsibility. Except where specifically delegated authority may exist by policy or special assignment (*i.e. Canine, SIRT or SWAT*), any supervisor may temporarily direct any subordinate if an operational necessity exists.

200.3.3 DELEGATION OF AUTHORITY

To create an efficient means to accomplish our mission and goals, and to provide for the best possible service to the public, delegation of authority is essential throughout every level within

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Organizational Structure and Responsibility

the department. This provides personnel with the authority to make decisions necessary for the accomplishment of objectives and goals. The ultimate responsibility is still on the command staff member who authorized, or failed to authorize, the delegation of authority.

200.4 POLICY

The Coeur d'Alene Police Department will implement and maintain an organizational structure that provides clear and identifiable roles for command, control, and guidance of the department. Each position and assignment should have clearly identified responsibilities and a defined chain of command.

200.5 AUTHORITY AND RESPONSIBILITIES

Each member will be assigned duties and responsibilities. Each member is delegated the authority necessary to effectively execute those responsibilities. Each member will also be held accountable for the appropriate application of that delegated authority.

Allocation of Personnel

201.1 PURPOSE AND SCOPE

The Department periodically conducts and documents an analysis of staffing levels to determine if changes are needed in the number of personnel assigned to function sufficiently to meet organizational goals and objectives and the community needs.

201.2 ALLOCATION OF PERSONNEL

The allocation of resources and staffing levels within the Department is dependent upon the City of Coeur d'Alene's fiscal year budget, which begins October 1st and ends September 30th.

The Department conducts an annual review of staffing levels based on various statistics obtained through the Records Division and/or Crime Analysis. The following types of documentation are used to assist in determining calls for service trends, nature and percentage of time allocated for types of calls, juvenile and adult arrests, citations, warnings, field interviews, number and type of police reports taken, accident trends, property crime trends, person crime trends, drug offenses, DUI arrests, property and evidence received, and other specialized programs within the Department.

- Monthly Crime Statistics
- Downtown Bar Report
- Specialized Crime Pattern Reports
- Police Department Annual Review
- Crime in Idaho Annual Report
- Annual Case Load Comparison

201.2.1 INVESTIGATIONS DIVISION

The allocation of case load assignments in the Investigations Division usually begins in January of each year. Investigation supervisors conduct audits and case load comparison between years and use that data, along with Crime Analysis reports, to adjust case loads amongst the Detectives.

201.2.2 UNIFORMED PATROL DIVISION

The Uniformed Patrol Division operates 24 hours a day, 7 days a week and provides a wide variety of services to the community. Members assigned to this division are sworn and non-sworn and assigned to work a particular shift or unit. The Patrol Lieutenants and Operations Division Commander will review data and statistics to make the necessary adjustments to staffing levels on those shifts, to include Civilian Report Takers.

In order to provide adequate services to the community and to alleviate heavy workloads on members, a critical staffing standard for sworn members on each shift has been established. This standard is dependent upon many factors, including, but not limited to, calls for service, available

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Allocation of Personnel

resources and personnel. This critical staffing number is subject to change upon authorization of the Chief of Police or the Operations Division Commander.

Although critical staffing requirements may be established for shifts, the Shift Supervisor has the authority to deny a member's leave request (use of vacation or comp time) even if it leaves the shift at or above the critical staffing level set for that shift. The reasons why a supervisor may deny a leave request includes, but is not limited to:

- High volume of calls for service either occurring, or expected to occur during the shift;
- High priority calls that may deplete the availability of assigned members to conduct routine patrol or responds to other calls for service;
- Allowing members backed up on reports time to complete reports without having to respond to additional calls for service and later require overtime to complete the reports;
- Members being on-duty, but under subpoena to attend court during their shift;
- Approved, requested or required training dates;
- Special Events and/or Holidays that may increase calls for service or special deployment of personnel (i.e. New Years Eve, 4th of July, Car d'Lane, Halloween night)

201.2.3 ADMINISTRATIVE, NON-SWORN AND SPECIAL UNIT MEMBERS OR ASSIGNMENTS

In addition to reviewing the allocations of resources and members assigned to Detectives in the Support Services and Uniformed Patrol Divisions, other positions or special assignments within the Department could be impacted due to budget constraints, staffing levels, crime patterns, etc. and adjustments may be needed as necessary.

Directives

202.1 PURPOSE AND SCOPE

Directives establish an interdepartmental communication that may be used by the Chief of Police to make immediate changes or additions to policy and procedure. Directives will immediately modify or change and supersede sections of this manual to which they pertain.

202.1.1 DIRECTIVES PROTOCOL

Directives will modify existing policies or create a new policy as appropriate and will be rescinded upon incorporation into the manual.

The Chief of Police, or his designee, shall issue all Directives.

203.1 PURPOSE AND SCOPE

Chapter 3 - General Operations

Use of Force

300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner.

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Devices and Techniques and Conducted Energy Device policies.

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Coeur d'Alene Police Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests.

300.2.1 USE OF FORCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force

unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.2.2 LESS-LETHAL FORCE APPLICATIONS

Less-lethal force is force that is not reasonably anticipated nor intended to create a substantial likelihood of death or very serious injury. Less-lethal force applications can include the use of equipment and control devices, as well as the member's own physical force. The use of less-lethal force applications is authorized in accordance within this policy.

300.2.3 DEADLY FORCE OPTIONS

When reasonable, the officer shall, prior to the use of deadly force, make efforts to identify him/herself as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts.

Use of deadly force is justified in the following circumstances involving imminent threat or imminent risk:

- (a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes is an imminent threat of death or serious bodily injury.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the individual is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes that the individual has a weapon or is attempting to access one and intends to use it against the officer or another person. An imminent danger may also exist if the individual is capable of causing serious bodily injury or death without a weapon, and the officer believes the individual intends to do so.

300.3 ALTERNATIVE TACTICS - DE-ESCALATION

When circumstances reasonably permit, officers should use tactical de-escalation techniques to reduce the intensity of an encounter with a suspect to have additional options in an effort to gain voluntary compliance or mitigate the need to use a higher level of force while maintaining control of the situation.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force

Tactical de-escalation does not require that an officer compromise his or her safety or increase the risk of physical harm to the public. De-escalation should only be used when it is safe and prudent to do so.

300.3.1 WARNING

Where feasible, a warning should be given before a member uses control devices, other than handcuffs. A specific warning that deadly force will be used is not required by this policy, only that a warning be given if feasible.

However, this section shall not apply in the event tactical considerations, including but not limited to member safety, would warrant a warning not being given.

300.3.2 RESPIRATORY RESTRAINTS

The use of a respiratory restraint, also known as a chokehold, is limited to circumstances where deadly force is authorized and if applied, is subject to the same guidelines and requirements as a carotid control hold.

300.4 DUTY TO INTERCEDE

Any officer present and observing another law enforcement officer or a member using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force.

Any officer who observes another law enforcement officer or a member use force that is potentially beyond that which is objectively reasonable under the circumstances should report these observations to a supervisor as soon as feasible.

An allegation of excessive use of force by a member, whether reported by a citizen or other department member, shall be investigated. The supervisor receiving such allegation shall complete a Personnel Complaint form and forward it through his chain of command to the member's Division Commander. The Chief of Police or his designee may convene a review board per policy to review the use of force in conjunction with any Administrative Investigation.

300.4.1 PERSPECTIVE

When observing or reporting force used by a law enforcement officer, each officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject.

300.4.2 MOTOR VEHICLES

Shots fired at or from a moving vehicle involve additional considerations and risks, and are rarely effective.

When feasible, officers should take reasonable steps to move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force

An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the imminent threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

Firearms are generally ineffective at stopping vehicles. When a person is attempting to use a vehicle as a weapon, the following restrictions apply:

- A Department member shall not discharge a firearm at the operator of a vehicle unless the officer reasonably believes that the subject poses an immediate threat of death or serious physical injury to the officer or another person, and there is no reasonable alternative course of action for the officer to prevent the death or serious physical injury. If at all practicable, an officer threatened by an oncoming vehicle shall move out of its path instead of discharging a firearm at it or any of its occupants.
- Firearms shall not be discharged from a moving vehicle except in the immediate defense of life.

Officers should refrain from reaching into a vehicle to turn off the vehicle or control the occupant(s) unless extremely exigent circumstances apply.

300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this department shall be documented promptly, completely, and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances.

To collect data for purposes of training, resource allocation, analysis, and related purposes, the department may require the completion of additional report forms, as specified in department policy, procedure, or law. See the Report Preparation Policy for additional circumstances that may require documentation.

300.5.1 NOTIFICATION TO SUPERVISORS

Supervisory notification shall be made as soon as practical following the application of physical force, under any of the following circumstances:

- (a) The application of force has caused a physical injury or death.
- (b) Although a physical injury is not immediately apparent, a member reasonably believes a person has been injured by the use of force.
- (c) Any application of a control device.
- (d) The individual could have been or has been rendered unconscious.
- (e) Emergency medical personnel have been called to assess an individual.

300.5.2 MEDICAL ATTENTION FOR INJURIES SUSTAINED USING FORCE

Prior to booking or release, medical assistance shall be obtained for any person that has sustained visible injury, or for any person the member reasonably believes has been injured or has been

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force

rendered unconscious. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practical, should be witnessed by another member and/or medical personnel. If an audio and/or video recording is made of contact or an interview with the individual, any refusal should be included, if possible.

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond physical characteristics, unusually high tolerance to pain or who require a protracted physical encounter with multiple members to bring under control may be at an increased risk of sudden death and should be examined by qualified medical personnel as soon as practicable. Any individual exhibiting signs of distress after such an encounter shall be medically cleared prior to booking.

300.5.3 SUPERVISOR RESPONSIBILITY

- (a) A supervisor shall ensure any use of force is properly documented in the member's report(s).
- (b) When a member has used force that results in an apparent injury or, although an injury is not apparent, the member reasonably believes a person is injured, a supervisor shall ensure the following occurs:
 - (a) The application of force is fully documented in an appropriate report.
 - (b) Ensure that any injured parties are examined and treated or refusal is properly documented.
 - (c) Ensure the subject(s) upon whom the force was applied is interviewed and/or allowed to provide a statement.
 - (d) Ensure that photographs have been taken of any areas involving visible injury or complaint of pain as well as overall photographs of uninjured areas.
 - (e) Identify any witnesses not already included in related reports.
 - (f) Review and approve all related reports.
- (c) The supervisor shall complete a separate Use of Force Report under any of the following circumstances:
 - (a) The application of force has caused a physical injury or death.
 - (b) Although a physical injury is not immediately apparent, a member reasonably believes a person has been injured by the use of force.
 - (c) The application of any control device.
 - (d) An individual could have been or has been rendered unconscious.
 - (e) Emergency medical personnel have been called to assess an individual.
 - (f) The application of force against an individual who exhibits extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond physical characteristics, unusually high tolerance to pain and may be at an increased risk of sudden death.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force

- (g) If the supervisor believes an incident where force was used may give rise to potential civil litigation.
- (d) Internal Tracking Numbers shall be assigned to each Use of Force Report. This tracking number shall be obtained by the supervisor during the shift in which the use of force was reported to them. Upon obtaining a tracking number, the supervisor shall notify their chain of command via e-mail, including the Chief of Police and Executive Assistant to the Chief, of the assigned tracking number.
- (e) The completed Use of Force Report shall be forwarded through the chain of command to the Chief of Police by submitting the Use of Force report to the appropriate Lieutenant. The Lieutenant will ensure a printed copy is submitted to the Division's Commander. The Commander will sign the form and submit to the Chief of Police.
- (f) Should the final determination be that any application of force was not within policy, one or more separate internal administrative investigations may be initiated.
- (g) When deadly force has been initiated, the incident shall be reviewed under Policy Manual Use of Deadly Force Review Board.

Shooting Policy

301.1 PURPOSE AND SCOPE

The purpose of the shooting policy is to establish procedures for the use and reporting of incidents involving the discharge of firearms. This policy is for internal use only and does not increase this department's and/or sworn member's civil or criminal liability in any way. Violations of this policy can only form the basis for administrative actions by this department.

301.1.1 POLICY

It is the policy of this department to resort to the use of a firearm, when it reasonably appears to be necessary under the factors and guidance set forth in Policy Manual Use of Force.

301.1.2 REPORT OF WEAPON DISCHARGE

Except during training or recreational use, any member who discharges a weapon accidentally or intentionally, on or off-duty, shall make a verbal report to their supervisor as soon as circumstances permit.

301.1.3 WARNING SHOTS

Generally, warning shots or shots fired for the purpose of summoning aid are discouraged and may not be discharged unless the member reasonably believes that they appear necessary, effective, and reasonably safe.

Use of Force Review Boards

302.1 PURPOSE AND SCOPE

This policy establishes a process for the Coeur d' Alene Police Department to review the use of force by its employees.

This review process shall be in addition to any other review or investigation that may be conducted by any outside or multi-agency entity having jurisdiction over the investigation or evaluation of the use of deadly force.

302.2 POLICY

The Coeur d' Alene Police Department will objectively evaluate the use of force by its members to ensure that their authority is used lawfully, appropriately and is consistent with training and policy.

302.3 REMOVAL FROM LINE DUTY ASSIGNMENT

Generally, whenever an employee's actions or use of force in an official capacity, or while using department equipment, results in death or very serious injury to another that employee will be placed in a temporary administrative assignment pending an administrative review. The Chief of Police may exercise discretion and choose not to place an employee in an administrative assignment in any case.

302.4 REVIEW BOARD

The Use of Force Review Board may be convened when the use of force by a member results in very serious injury or death to another.

The Chief of Police may request the Use of Force Review Board to investigate the circumstances surrounding any use of force incident.

The Support Services Commander will convene the Use of Force Review Board as necessary. It will be the responsibility of the Division Commander or supervisor of the involved employee to notify the Support Services Division Commander of any incidents requiring board review. The involved employee's Division Commander or supervisor will also ensure that all relevant reports, documents and materials are available for consideration and review by the board.

This Review Board shall be supplemental to a Critical Incident Task Force investigation involving a member(s) of this department.

302.4.1 COMPOSITION OF THE BOARD

The Support Services Division Commander may select five Use of Force Review Board members from the following, as appropriate:

The Division Commander will ensure all relevant reports, documents, photos, videos and other materials are available for consideration and review by the Board members.

302.4.2 RESPONSIBILITIES OF THE BOARD

The Use of Force Review Board is empowered to conduct an administrative review and inquiry into the circumstances of an incident.

The board members may request further investigation, request reports be submitted for the board's review, call persons to present information and request the involved employee to appear. The involved employee will be notified of the meeting of the board and may choose to have a representative through all phases of the review process.

The board does not have the authority to recommend discipline.

The Chief of Police will determine whether the board should delay its review until after completion of any criminal investigation, review by any prosecutorial body, filing of criminal charges, the decision not to file criminal charges, or any other action. The board should be provided all relevant available material from these proceedings for its consideration.

The review shall be based upon those facts which were reasonably believed or known by the officer at the time of the incident, applying any legal requirements, department policies, procedures and approved training to those facts. Facts later discovered but unknown to the officer at the time shall neither justify nor call into question an officer's decision regarding the use of force.

The board shall make one of the following recommended findings:

- (a) The employee's actions were within department policy and procedure.
- (b) The employee's actions were in violation of department policy and procedure.

A recommended finding requires a majority vote of the board. The board may also recommend additional investigations or reviews, such as disciplinary investigations, training reviews to consider whether training should be developed or revised, and policy reviews, as may be appropriate. The board chairperson will submit the written recommendation to the Chief of Police.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Use of Force Review Boards

The Chief of Police shall review the recommendation, make a final determination as to whether the employee's actions were within policy and procedure and will determine whether any additional actions, investigations or reviews are appropriate. The Chief of Police's final findings will be forwarded to the involved employee's Division Commander for review and appropriate action. If the Chief of Police concludes that discipline should be considered, a disciplinary process will be initiated.

At the conclusion of any additional reviews, copies of all relevant reports and information will be filed with the Chief of Police.

302.5 FINDINGS

Upon completion of its review, the Chairperson shall submit a written finding of the board to the Chief of Police or his designee within 45 days, unless otherwise extended with prior approval of the Chief of Police.

- (b) Whenever the duty knife is used as a rescue tool, it's use will be documented in an incident report.
- (c) Whenever the duty knife is used in a use of force situation, it's use will be documented in an incident report and a supervisor shall also complete a Use of Force Report.

Handcuffing and Restraints

304.1 PURPOSE AND SCOPE

To reduce and minimize altercation-related injuries to members and others, the department authorizes the use of Leg Restraint Devices in order to control violent or potentially violent individuals and to assist members in bringing an incident under control.

304.2 USE OF RESTRAINTS

Only members who have successfully completed department-approved training on the use of restraint devices described in this policy are authorized to use these devices.

When deciding whether to use any restraint, officers should carefully balance officer safety concerns with factors that include, but are not limited to:

- The circumstances or crime leading to the arrest.
- The demeanor and behavior of the arrested person.
- The age and health of the person.
- Whether the person is known to be pregnant.
- Whether the person has a hearing or speaking disability. In such cases, consideration should be given, safety permitting, to handcuffing to the front in order to allow the person to sign or write notes.
- Whether the person has any other apparent disability.

304.3 APPLICATION OF SPIT HOODS/MASKS/SOCKS

The restraint device is designed to reduce the likelihood of injury to the restrained person or others, and to reduce the likelihood of property damage caused by the restrained person by preventing them from using their legs in a manner likely to result in injury or damage. The restraint will only be used to bind and immobilize a person's legs. Only those members trained in the use of the restraint are authorized to employ it on any person. The following guidelines shall be used when applying the restraint device:

- (a) In all cases, a supervisor shall be notified as soon as practical after the application of the restraint.
- (b) Absent a medical emergency, the person being restrained shall remain restrained until the member arrives at the jail or other facility or the person no longer poses a threat.
- (c) Once secured, the restrained person should be placed in a seated or upright position and shall not be placed on their stomach for an extended period as this may potentially reduce the person's ability to breathe.
- (d) The restrained person should be constantly watched by a member while in the restraint. The member is to ensure the person does not roll onto their stomach.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Handcuffing and Restraints

- (e) The member should look for signs of labored breathing and, where practical, take appropriate steps to relieve and minimize any obvious factors contributing to this condition.

There are four basic techniques when applying linear restraint lines. Pain compliance may be needed and used when reasonable and necessary to gain suspects compliance, while a second member applies the linear restraint line. When practical, the suspect should be kneeling or in the prone position when the restraint line is applied in order to avoid injury to the members or suspect.

Limiting Mobility:

- (a) Wrap restraint line once around suspects right leg and pull tight, just above the ankle.
- (b) Wrap twice around the left leg just above the ankle and then snap to the cross member of the restraint.
- (c) Restraint line may be stepped on to assist in controlling the suspect while walking slowly or to kneel the suspect down.

Prevent Slipping of Handcuffs:

- (a) Restraint line is looped around the waist and wrapped around the hinge or clipped to the chain.
- (b) When restraining a large suspect, two restraint lines can be used together in the same technique.

Controlling Movement of Suspects Feet During Transport:

- (a) Make sure the suspect is seated in an upright position.
- (b) Loop the suspects right foot above the ankle and pull the restraint line tight.
- (c) Wrap the restraint line around the suspects left leg above the ankle and then through the middle of both legs.
- (d) Clip the restraint line to the eye bolt which has been installed on the floor of the patrol car in the back seat near the cage.
- (e) Make sure the suspects feet are close to the floor.
- (f) The less slack in the restraint line, the more control you will have.
- (g) The suspect should be seat belted before transport.

Temporarily Restraining Violent Suspects During Arrest:

- (a) After handcuffing suspect, place him on his stomach.
- (b) One member controls the suspect while the other wraps the restraint line around both ankles as described in "*Controlling Movement of Suspects Feet During Transport*" technique.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Handcuffing and Restraints

- (c) The restraint line is then looped through the suspects belt loop or belt and clipped back onto itself between the ankles.
- (d) If there are no belt loops or a belt, a second restraint line can be used as a substitute around the suspects waist.
- (e) The suspect must not be left in this prone position for a prolonged duration due to possible respiratory issues that could result.
- (f) This technique should only be used to assist members in transporting the suspect from the area of the arrest to the transport vehicle.
- (g) When using this technique, 3 or 4 members should be used to carry the suspect when practical. A suspect shall not be moved in this position by only one member. The suspect should be carried by his legs and shoulders.
- (h) Once at the transporting vehicle, the restraint line must be switched to the technique described in "*Controlling Movement of Suspects Feet During Transport*".
- (i) The suspect should be seat belted before transport.

304.3.1 TRANSPORTING RESTRAINED PERSONS

When transporting a suspect(s) who has been restrained, members shall observe the following procedures:

- (a) Restrained persons may be transported in a police vehicle. They shall be seated in an upright position and secured by a seat belt. The long lead of the restraint will be securely attached to the floor anchors and/or partition post inside the vehicle. When the person cannot be transported in a seated position, a Supervisor may consider the use of a medical unit or jail van.
- (b) When taken by ambulance, the restrained person shall be accompanied by a member. The transporting member should inform medical personnel that the person should remain in an upright position where practicable. If medical personnel determine that it is in the best interest of the restrained person to be transported while lying down, the person should be kept on his/her side or back with appropriate adjustments to restraints so that the person's arms are not pinned beneath them.
- (c) Members shall inform the jail staff that a restraint device was used on the arrestee prior to arrival at the jail.

304.4 APPLICATION OF AUXILIARY RESTRAINT DEVICES

Anytime the restraint device is used, the circumstances requiring its use shall be documented in the related report(s). The member should include the following in the report:

- (a) The amount of time the suspect was restrained.
- (b) How the suspect was transported and the position of the suspect.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Handcuffing and Restraints

- (c) Observations of the suspect's physical and physiological actions.
- (d) Any known or suspected drug use or other medical problems.

304.5 TRAINING

Subject to available resources, the Training Lieutenant should ensure that officers receive periodic training on the proper use of handcuffs and other restraints, including:

- (a) Proper placement and fit of handcuffs and other restraint devices approved for use by the Department.
- (b) Response to complaints of pain by restrained persons.
- (c) Options for restraining those who may be pregnant without the use of leg irons, waist chains, or handcuffs behind the body.
- (d) Options for restraining amputees or those with medical conditions or other physical conditions that may be aggravated by being restrained.

Protective Transport Hoods & Helmets

305.1 PROTECTIVE TRANSPORT HOOD

Protective transport hoods are available for protection from the hazards of suspects who attempt to expectorate saliva, mucous or blood on members.

Only hoods that are provided by the department should be used on detained persons and they should follow the instructions provided with the hood. This shall not prevent members from using other safe and reasonable means to protect themselves in the event that they do not have a hood available to them or have more than one suspect in custody.

Members should be aware that serious injury or death due to asphyxiation, suffocation or drowning in one's own fluids could result by improper use of a protective transport hood or by using other unsafe or unreasonable means if a hood is not immediately available.

- (a) The provided protection hood may be used on detained persons only in such situations:
 - 1. Where the suspect spits on or threatens to spit at any person; and/or
 - 2. Where the suspect spits on personal property
- (b) The hood shall not be used by a member based on his assumption that a person will spit on him.
- (c) The hood shall be used after the person has been placed into custody and handcuffed.
- (d) When the hood is used it shall be the member's responsibility to maintain contact with the suspect at all times. At no time should a suspect be left alone with the hood on.
- (e) The suspect shall be closely monitored to ensure he is able to properly breathe. Periodic lifting up the rear of the hood to allow for a full air exchange inside the hood may be needed.
- (f) Members are encouraged to use audio and/or video recorders when a protective hood is used.
- (g) At no time should a protection hood be loaned to another agency.
- (h) If it appears that a hooded person is having difficulty breathing, is hyperventilating, is vomiting, bleeding profusely from the area around the mouth or nose, or has stopped breathing, the officer shall immediately remove the hood and take any necessary medical action.
- (i) Members shall use additional care in handling hooded persons to keep them from bumping their heads or tripping.
- (j) After using the hood on a detained person, the hood shall be discarded and a new one placed into service as soon as practical by contacting the a Supervisor or Equipment Specialist.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Protective Transport Hoods & Helmets

305.2 PROTECTIVE TRANSPORT HELMET

Protective transport helmets are available for members to protect suspects who are arrested or detained and choose to intentionally inflict injury upon themselves and/or damage property by hitting their head against any object or any portion of the police vehicle during detention and/or transportation.

Only helmets that are provided by the department should be used on detained persons. This shall not prevent members from using other safe and reasonable means to protect suspects in the event that they do not have a helmet available to them or have more than one suspect in custody.

- (a) Members are encouraged to use audio and/or video recorders when a protective helmet is used.
- (b) At no time should a helmet be loaned to another agency.
- (c) After using the helmet on a detained person who has been sweating profusely or bleeding, the helmet shall be cleaned and disinfected before being placed back into service.
- (d) If a helmet becomes damaged, it shall be removed from service and a Supervisor and Equipment Specialist notified as soon as practical.

Control Devices and Techniques

306.1 PURPOSE AND SCOPE

This policy provides guidelines for the use and maintenance of control devices and techniques used to reduce and minimize altercation-related injuries to members and others, and to provide an intermediate level of force between personal weapons and lethal force. The department authorizes the use of certain control devices and control techniques in order to control violent or potentially violent individuals and to assist members in bringing an incident under control.

306.1.1 WHEN DEVICES/TECHNIQUES MAY BE USED

Sworn members may use approved control devices and employ control techniques when reasonable under the circumstances and in compliance with Policy Manual Use of Force.

Only members trained and having shown adequate proficiency in the use of any control device or technique are authorized to carry and/or use the device/technique.

Members shall promptly document the use of any control device or control technique in their reports and shall fill out any additional documentation or reports that may be mandated by this Policy or required by their supervisor.

306.1.2 INSPECTION & APPROVAL

Only those control devices and techniques that have been approved by the Chief of Police or his designee are authorized to be carried and/or used by authorized members.

Every control device shall be periodically inspected by an authorized member of the department.

306.1.3 TRAINING FOR CONTROL DEVICES

- (a) Proficiency training shall be monitored and documented by the designated instructor. Class rosters and/or certifications shall be added to the members training file.
- (b) Training for all control devices should occur at least every two years at a minimum unless otherwise determined by the Chief of Police or his designee.
- (c) Training for control devices should be added to the members training file and/or MTRS training file.
- (d) Sworn members failing to demonstrate proficiency with the control device or technique will be provided remedial training. If the member still cannot demonstrate proficiency, he/she may be subject to discipline if the control device or technique is needed to properly and safely perform a job requirement.

306.2 BATON

The baton is authorized for use when, based upon the circumstances perceived by an authorized member, such force reasonably appears justified and necessary to result in the safe control of an individual or situation and in conjunction with Policy Manual Use of Force.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

306.3 CHEMICAL AGENTS

The use of chemical agents for crowd control, crowd dispersal or against barricaded suspects shall be based on the circumstances. The Incident Commander or SWAT Commander may authorize the delivery and use of chemical agents, evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary to result in the safe control of the suspect(s).

When practical, fire personnel should be alerted or summoned to the scene to control any fires and to assist in providing medical aid or gas evacuation when the scene is safe. Only members trained in the use of chemical agents weapons should discharge such devices at the scene.

306.4 OLEORESIN CAPSICUM (OC) SPRAY AND OTHER CHEMICAL AGENTS

Only trained authorized members may possess and maintain oleoresin capsicum spray or other chemical agents issued by this department. The use of oleoresin capsicum spray or other chemical agents is authorized when, based upon the circumstances perceived by the member, such force reasonably appears justified and necessary to result in safe control of an individual or situation and in conjunction with Policy Manual Use of Force.

306.4.1 CARRYING OF OLEORESIN CAPSICUM (OC) SPRAY

Uniformed members carrying the oleoresin capsicum spray shall carry the device in its holster on their duty belt. Plainclothes members may carry the oleoresin capsicum spray as authorized, consistent with the needs of their assignment or at the direction of their supervisor.

Canisters involved in any type of malfunction or damage shall be turned in to the Equipment Specialist for exchange.

306.4.2 TREATMENT FOR OC SPRAY OR OTHER CHEMICAL AGENT EXPOSURE

The affected areas on people who have been exposed to OC spray or other chemical agents should be cleansed as soon as practical.

Those persons who complain of further severe effects shall be further checked by medical personnel.

306.4.3 REPORT OF USE

All uses of control devices in this policy shall be documented in the related arrest/crime report and reported to a supervisor pursuant to Policy Manual Use of Force.

306.4.4 POST-APPLICATION NOTICE

Whenever oleoresin capsicum or other chemical agents have been introduced into a residence, building interior, vehicle or other enclosed area, members should provide the owners or available occupants with notice of the possible presence of residue that could result in irritation or injury if the area is not properly cleaned. Such notice should include an advisement that clean up will be at the owner's expense. Information regarding the notice being given and the name of the person(s) notified should be included in any related incident reports.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

306.5 SPECIALTY IMPACT MUNITIONS

The use of specialty impact munitions is authorized when, based upon the circumstances perceived by the member, such force reasonably appears justified and necessary to result in safe control of an individual or situation and in conjunction with Policy Manual Use of Force.

306.5.1 DEPLOYMENT

Approved munitions are justified and may be used to compel an individual to cease their actions when such munitions present a reasonable option for resolving the situation at hand.

Members are not required or compelled to use approved munitions in lieu of other reasonable tactics if the involved member(s) determine that deployment of these munitions cannot be done safely. The safety of hostages, innocent persons, and members takes priority over the safety of subjects engaged in criminal or suicidal behavior.

306.5.2 EXAMPLES OF CIRCUMSTANCES APPROPRIATE FOR DEPLOYMENT

Examples include, but are not limited to, the following types of situations where the subject:

- (a) Is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions.
- (b) Has made credible threats to harm themselves or others.
- (c) Is engaged in riotous behavior or is throwing rocks, bottles, or other dangerous projectiles at any person, including members of law enforcement.

306.5.3 DEPLOYMENT CONSIDERATIONS

Before discharging projectiles, the member should consider the following factors:

- (a) Severity of the crime or incident.
- (b) Subject's capability to pose an imminent threat to the safety of members or others.
- (c) If the subject is actively resisting arrest or attempting to evade arrest by flight.
- (d) The credibility of the subject's threat as evaluated by the members present, and physical capacity/capability.
- (e) The proximity of weapons available to the subject.
- (f) The member's versus the subject's physical factors (*i.e., age, size, relative strength, skill level, injury/exhaustion, the number of member(s) versus subject(s)*).
- (g) The availability of other force options and their possible effectiveness.
- (h) Distance and angle to target.
- (i) Type of munitions employed.
- (j) Type and thickness of subject's clothing.
- (k) The subject's actions dictate the need for an immediate response and the use of control devices appears appropriate.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

Unless circumstances dictate otherwise, a backup member shall accompany any member using less lethal munitions. Whenever practical, in order to try and avoid sympathetic firearms response from other members on scene, members using less lethal munitions should broadcast over the radio that less lethal munitions are about to be deployed.

306.5.4 DEPLOYMENT DISTANCES

Members will keep in mind the manufacturer's recommendations regarding deployment when using control devices, but are not solely restricted to use according to these manufacturer recommendations. Each tactical situation must be evaluated on the totality of circumstances at the time of deployment.

306.5.5 SHOT PLACEMENT

The need to immediately incapacitate the subject must be weighed against the risk of causing serious injury or death. The head and neck should not be intentionally targeted when deadly force is not reasonably justified.

Members should generally follow the manufacturer's recommendations regarding minimum deployment distances and target areas however any target area or distance may be considered when it reasonably appears necessary to accomplish immediate incapacitation in order to prevent serious injury or death and other reasonable methods have failed or reasonably appear ineffective.

306.5.6 APPROVED MUNITIONS

Members shall carry and deploy only department-approved specialty impact munitions.

306.5.7 USE OF SPECIALTY IMPACT MUNITION PROJECTILES BY DEPARTMENT MEMBERS

Members who have completed a training course approved by this department may carry and deploy 12 gauge or 37/40 mm projectiles while on duty.

A specially marked shotgun, designated for the use of 12-gauge projectiles, will normally be carried in each patrol unit. The weapon will be in the "Patrol Ready" position; empty chamber, magazine loaded, on safe and secured in the gun lock.

Members will inspect this shotgun at the beginning of each shift to ensure that it is in proper working order and loaded with approved projectiles only.

306.5.8 MEDICAL TREATMENT

Any person taken into custody who has been subjected to less lethal rounds, including bean bags, foam batons, or other less lethal rounds intended to strike a suspect, shall, as soon as practical and prior to booking, be transported to the hospital for examination. Photographs of the injury, or lack of, shall be taken.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

306.5.9 SAFE HANDLING OF WEAPONS

The intent of this policy is to promote proper safety while handling specialty impact munitions. Members shall maintain the highest level of safety when handling these devices and shall consider the following:

- (a) Members shall not unnecessarily display or handle any specialty impact munitions.
- (b) Members shall be governed by all rules and regulations pertaining to the use of the police range or training facility, and shall obey all orders issued by the Rangemaster or instructor.
- (c) Any member who discharges a specialty impact munition accidentally or intentionally, on or off-duty, except during training, shall make a verbal report to the on-duty supervisor as soon as circumstances permit and shall file a written report prior to the end of shift if on-duty. If off-duty, as directed by the supervisor.
- (d) Members shall not place or store any specialty impact munitions on the premises of this department except when the place of storage is locked.

306.6 CAROTID CONTROL

The use of the carotid control technique or VNR is limited to circumstances when deadly force would reasonably be justified or when all other methods of apprehension or control have been exhausted or would clearly be ineffective.

- (a) The carotid restraint control hold is a bilateral vascular restraint where pressure is applied bilaterally to the sides of the neck, resulting in diminished oxygenated blood flow to the brain. **Unless lethal force is justified, at no time will pressure be administered to the front of the neck or throat, resulting in a respiratory choke hold.** The carotid restraint control hold may be effective in establishing control of a subject whose level of resistance would be classified as combative, assaultive, or high risk. The purpose is to gain quick and safe control of a subject who is aggressive, physically threatening, or violent.
- (b) Use of the carotid restraint control hold can be used in situations of active aggression on the part of the subject. The carotid restraint control hold should only be used when the officer reasonably believes that the application of the hold appears necessary to prevent serious injury or death to an officer or other person(s).
- (c) The hold should generally not be used on subjects who are elderly, infirm, visibly pregnant females, or in circumstances when it is clear a lesser level of force would suffice.
- (d) Only officers who have successfully completed a four (4) hour Department approved training course on the use of the carotid restraint control hold and the department use of force policy are authorized to use the technique. After initial training, officers shall complete a four (4) hour recertification training at least every two years in order to continue to use the carotid restraint control hold.
- (e) **If application of the carotid restraint control appears reasonable based on the totality of the circumstances, the officer should:**

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

1. Attempt to apply the carotid restraint control hold from a ground position to reduce the risk of secondary injuries to the officer and subject.
 2. If time and circumstances permit, the officer should provide verbal commands and direction during the application of the hold in an effort to obtain voluntary compliance prior to rendering any person unconscious.
 3. Continually monitor the correct positioning and placement of the hold on the subject's neck to prevent respiratory obstruction or serious injury. If improper positioning is identified, immediately obtain the correct position or discontinue the hold.
 4. If the hold has not achieved the desired effect within approximately 30 seconds, the officer should release bilateral pressure and either disengage from the carotid restraint control hold, re-assess placement and tactically reposition, or transition to another reasonable force option.
- (f) **After any application or attempted application of the carotid restraint control hold, the officer shall ensure the following steps occur:**
1. Initially position the subject onto their side into a lateral recovery position, check vital signs, and once consciousness is regained, the officer will assess the subject for a reasonable level of cognitive function.
 2. Any individual who has had the carotid restraint control hold applied, regardless of whether he/she was rendered unconscious, shall be promptly examined by paramedics, preferably at the scene prior to transport.
 3. Notify a supervisor of the use or attempted use of the hold.
 4. Receive full medical clearance from an authorized medical facility prior to booking.
 5. Maintain constant visual monitoring of the subject for signs of medical distress for a minimum of two (2) hours after application of the hold.
 6. Inform any person receiving custody, or any person placed in providing care, that the individual has been subjected to the hold. The time of application and any pertinent medical information will also be included.
 7. The use or attempted use of the carotid restraint control hold shall be thoroughly documented and justified by the officer in the related incident report.

306.7 WATCH COMMANDER RESPONSIBILITIES

The Watch Commander shall monitor the use of control devices in the same manner as all other use of force incidents.

(a) The Watch Commander shall review each use of control devices by any member within his/her command.

(b) The Watch Commander shall ensure briefing training on the use of control devices is provided, as needed.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Control Devices and Techniques

306.7.1 INVENTORY RESPONSIBILITY FOR CONTROL DEVICES

The Rangemaster or other designated member shall control the inventory for any specialty impact munitions and chemical agents. All damaged, inoperative and/or expended munitions/canisters shall be returned to the Rangemaster or designated member for disposition, repair or replacement.

The Equipment Specialist shall control the inventory for any OC canisters and batons, as well as leg restraint devices and protection hoods.

306.7.2 MAINTENANCE RESPONSIBILITY

All normal maintenance, charging or cleaning shall remain the responsibility of members using the various devices.

306.8 REPORTING USE OF CONTROL DEVICES AND TECHNIQUES

Any application of a control device and/or technique listed within this section shall be documented pursuant to Policy Manual Use of Force.

306.9 SPECIALTY EQUIPMENT

Members of the Coeur d'Alene Police Department assigned to the Kootenai County/Coeur d'Alene Department SWAT Team are encouraged to have their assigned specialty equipment with them while on duty. Those members qualified to deploy specialty chemical agents, specialty impact munitions or other specialty less lethal tools not typically assigned to the patrol function may deploy these tools outside of SWAT capacity with the approval of a SWAT Team Leader, Assistant Team Leader, or the on scene supervisor. Appropriate precautions and communication should be taken to ensure that planning for contingencies is conducted with any supervisors or other officers on scene as these tools are not routinely deployed in a regular patrol capacity. Members shall report the use of specialty SWAT tools through the standard use of force reporting in addition to notifying the SWAT Team Leader or Assistant Team Leader.

Conducted Energy Device

307.1 PURPOSE AND SCOPE

This policy provides guidelines for the issuance and use of the conducted energy device (CED).

307.2 POLICY

The CED is used in an attempt to control a violent or potentially violent individual. The appropriate use of such a device may result in fewer serious injuries to officers and suspects.

307.2.1 TRAINING & AUTHORIZED USERS

The CED will only be carried by authorized sworn members. All CED users shall first attend and successfully complete a training and certification course taught by a certified CED instructor.

All CED's will be purchased and maintained by the department. A record of user certifications will be maintained in the members training file.

Users who are assigned a CED are required to perform the necessary checks to ensure the CED is in working order prior to taking it out into the field at the beginning of each shift.

307.2.2 MISUSE OF THE CONDUCTED ENERGY DEVICE

The CED shall not be used outside of its intended purpose. Any member found misusing the CED will be subject to disciplinary action.

307.3 ISSUANCE AND CARRYING THE CEDS

Only members who have successfully completed department-approved training may be issued and may carry the CED.

The Department's CED instructor or other authorized persons should keep a log of issued CED devices and the serial numbers of cartridges/magazines issued to members.

CEDs are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the Department's inventory.

Officers shall only use the CED and cartridges/magazines that have been issued by the Department. Cartridges/magazines should not be used after the manufacturer's expiration date.

Uniformed officers who have been issued the CED shall wear the device in an approved holster.

Officers who carry the CED while in uniform, shall carry it in a holster on the side opposite the duty weapon.

- (a) All CEDs shall be clearly distinguishable to differentiate them from the duty weapon and any other device.
- (b) For single-shot devices, whenever practicable, officers should carry an additional cartridge on their person when carrying the CED.
- (c) Officers should not hold a firearm and the CED at the same time.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Conducted Energy Device

Non-uniformed officers may secure the CED in a concealed, secure location in the driver's compartment of their vehicles.

307.3.1 USER RESPONSIBILITIES

Officers shall be responsible for ensuring that the issued CED is properly maintained and in good working order. This includes a function test and battery life monitoring, as required by the manufacturer, and should be completed prior to the beginning of the officer's shift.

CEDS that are damaged or inoperative, or cartridges that are expired or damaged, shall be returned to the authorized CED instructor for disposition. Officer shall submit documentation stating the reason for the return and how the CED or cartridge was damaged or became inoperative, if known.

307.4 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the CED should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply.
- (b) Provide other officers and individuals with a warning that the CED may be deployed.

If, after a verbal warning, an individual fails to voluntarily comply with an officer's lawful orders and it appears both reasonable and feasible under the circumstances, the officer may, but is not required to, activate any warning the device may be equipped with, which may include display of the electrical arc, an audible warning, or the laser in a further attempt to gain compliance prior to the application of the CED. The laser should not be intentionally directed into anyone's eyes.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the CED in the related report.

307.5 MEDICAL TREATMENT

CED probes may be removed by a properly trained member.

Any individual who has been exposed to a TASER deployment shall, as soon as practicable, be examined by paramedics or other qualified medical personnel.

If any individual refuses medical attention, such a refusal should be witnessed by another member and/or medical personnel and be fully documented in related reports. If an audio or video recording is made of contact or an interview with the individual, any refusal should be included, if possible.

The transporting member shall inform any person receiving custody, or any person placed in a position of providing care, that the individual has been subjected to the application of the CED.

307.6 DOCUMENTATION

Officers shall document all CED discharges in the related arrest/crime reports and the Use of Force form when applicable. Photographs should be taken of any obvious probe impact or drive-stun application sites and attached to the CED report form. Notification shall also be made to

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Conducted Energy Device

a supervisor in compliance with the Use of Force Policy. Unintentional discharges, pointing the device at a person, audible warning, laser activation, and arcing the device, other than for testing purposes, will also be documented appropriately. Data downloads from the CED after use on a subject should be done as soon as practicable using a department-approved process to preserve the data.

307.7 REPORTS AND DOCUMENTATION

All deployments of a CED, except during training exercises, shall be documented in an incident report by the user.

The member should include the following items in the incident report:

- (a) The reason for deploying the TASER device
- (b) Identification of all personnel deploying a TASER device
- (c) Identification of all witnesses
- (d) Medical care provided to the subject(s)
- (e) Observation of the subject's physical and physiological actions
- (f) Any known or suspected drug use, intoxication, or other medical problems for the subject
- (g) The serial number of the TASER used
- (h) The serial number of the cartridge(s) deployed

If a member deploys the TASER device during an arrest or control situation and contact was not made with the subject, the member shall document that information in an incident report and shall also forward an e-mail to their immediate supervisor for documentation.

In the event of an unintentional discharge of a TASER device, an e-mail shall be sent from the member to their immediate supervisor for documentation.

307.8 SUPERVISOR RESPONSIBILITIES

When possible, supervisors should respond to calls when they reasonably believe there is a likelihood the CED may be used. A supervisor should respond to all incidents where the CED was activated.

A supervisor should review each incident where a person has been exposed to a CED. The device's internal logs should be downloaded by a supervisor or Rangemaster and saved with the related arrest/crime report. The supervisor should arrange for photographs of probe sites to be taken and witnesses to be interviewed.

307.9 TRAINING

Personnel who are authorized to carry the CED shall be permitted to do so only after successfully completing the initial department-approved training. Any personnel who have not carried the CED as a part of their assignments for a period of six months or more shall be recertified by a qualified CED instructor prior to again carrying or using the device.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Conducted Energy Device

Proficiency training for personnel who have been issued CEDs should occur every year. A reassessment of an officer's knowledge and/or practical skills may be required at any time, if deemed appropriate, by the Training Lieutenant. All training and proficiency for CEDs will be documented in the officer's training files.

Command staff, supervisors, and investigators should receive CED training as appropriate for the investigations they conduct and review.

Officers who do not carry CEDs should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

The Training Lieutenant is responsible for ensuring that all members who carry CEDs have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of CEDs during training could result in injuries and should not be mandatory for certification.

The Training Lieutenant should include the following training:

- (a) A review of this policy.
- (b) A review of the Use of Force Policy.
- (c) Performing weak-hand draws or cross-draws until proficient to reduce the possibility of unintentionally drawing and firing a firearm.
- (d) Target area considerations, to include techniques or options to reduce the unintentional application of probes to the head, neck, area of the heart, and groin.
- (e) Scenario-based training, including virtual reality training when available.
- (f) Handcuffing a subject during the application of the CED and transitioning to other force options.
- (g) De-escalation techniques.
- (h) Restraint techniques that do not impair respiration following the application of the CED.
- (i) Proper use of cover and concealment during deployment of the CED for purposes of officer safety.

Officer-Involved Shootings and Deaths

308.1 PURPOSE AND SCOPE

The purpose of this policy is to establish policy and procedures for the investigation of an incident in which a person is injured as the result of an officer-involved shooting or dies as a result of other action of an officer.

In other incidents not covered by this policy, the Chief of Police may decide that the investigation will follow the process provided in this policy.

308.2 POLICY

The policy of the Coeur d'Alene Police Department is to ensure that officer-involved shootings and deaths are investigated in a thorough, fair and impartial manner.

308.3 TYPES OF INVESTIGATIONS

Officer-involved shootings involve several separate investigations. The investigations may include:

- (a) A criminal investigation of the suspect's actions.
- (b) A criminal investigation of the involved officer(s) actions
- (c) An administrative investigation as to policy compliance by involved officers.
- (d) A civil investigation to determine potential liability.

308.4 CONTROL OF INVESTIGATIONS

This department conforms to the Critical Incident Task Force (CITF) Protocol for investigating officer-involved shootings and deaths. The following scenarios outline the jurisdictional responsibilities for investigating officer-involved shootings and deaths.

308.4.3 CRIMINAL INVESTIGATIONS

The Critical Incident Task Force (CITF) is generally responsible for the criminal investigation of the suspect's actions and the officer's actions. The Chief of Police or his designee may relinquish the criminal investigation to an outside agency or the CITF. The criminal investigation will be reviewed by an outside prosecuting attorney's office or the Office of the Attorney General.

Under the CITF Protocol, the criminal investigation is generally referred to one or more outside agencies with a lead agency being ultimately responsible for the investigation.

Refer to the District One Officer Involved Critical Incident Investigations MOU.

308.4.2 OTHER LAW ENFORCEMENT AGENCY INVOLVED INCIDENT WITHIN THIS JURISDICTION

This department will be responsible for the criminal investigation unless the Chief of Police or a Division Commander relinquishes the investigation to an outside agency or the Critical Incident Task Force.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

The involved law enforcement member's agency will be responsible for any civil and/or administrative investigation(s).

The completed criminal investigation, including actions of the involved law enforcement member, will be reviewed by the Kootenai County Prosecutor or his designee.

308.5 MEMBER INVOLVED IN ANOTHER JURISDICTION

The agency where the incident occurred has jurisdiction over the criminal investigation.

The Coeur d'Alene Police Department will be responsible for a timely administrative investigation(s) for all sworn members at the rank of Captain or below. In the event the Chief of Police is involved in the incident, the City Administrator or his designee will be responsible for ensuring an administrative investigation is completed in a timely manner.

308.6 THE INVESTIGATION PROCESS

The following procedures are guidelines used in the investigation of an officer-involved shooting.

308.6.1 DUTIES OF ON-SCENE OFFICERS

Members at the scene of a law enforcement involved shooting or critical injury or death incident should consider the following actions, undertaken in the order deemed appropriate:

- (a) Ensure that the threat of safety to the officers and of others is over.
- (b) Take all reasonable steps to obtain medical attention for injured individuals.
- (c) Secure the scene and separate suspects and witnesses
- (d) Relay information on fleeing suspect(s) to Central Dispatch and other officers to establish a containment area.
- (e) Request a supervisor and additional officers if necessary.
- (f) If applicable, holster or secure any firearm used or secure them in place as evidence.
- (g) Do not open, reload, or remove shell casings, or in any manner tamper with the involved firearms.
- (h) If applicable, secure any other weapon or control device used by the involved member during the incident as evidence.
- (i) Take note of the time, survey the entire area for relevant facts, individuals who are present or departed the scene.
- (j) As time and capabilities permit before supervisory and other assistance arrives:
 1. Secure the area, establish a perimeter with crime scene tape and limit access to authorized personnel necessary to investigate the incident and assist the injured.
 2. Protect evidence from loss, destruction or damage. Ensure evidentiary items are not moved. If evidentiary items have to be moved based on safety concerns or for the preservation of the evidence, the removal should be witnessed, photographed and thoroughly documented.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

3. Document names, addresses and phone numbers of all witnesses and other people present at the scene and request they remain on scene in order to make a brief statement as to whether or not they witnessed the incident.

308.6.2 DUTIES OF INITIAL ON SCENE SUPERVISOR

Upon arrival at the scene of an officer-involved shooting, the first uninvolved supervisor should:

- (a) Take all reasonable steps to obtain emergency medical attention for all apparently injured individuals.
- (b) Confirm that the preliminary steps by the on scene officers have been adequately addressed and if not, take appropriate steps to ensure the necessary actions are taken.
- (c) Appoint an officer to start a crime scene log documenting activities at the scene. This should include fire and medical personnel.
- (d) Attempt to obtain a brief overview of the situation from any non-shooter officer(s).
 1. In the event that there are no non-shooter officers, the supervisor should attempt to obtain a brief voluntary overview from one shooter officer.
- (e) If necessary, the supervisor may administratively order any officer from this department to immediately provide public safety information necessary to secure the scene and pursue suspects.
 1. Public safety information shall be limited to such things as outstanding suspect information, number and direction of shots fired, parameters of the incident scene, identity of known witnesses and similar information.
- (f) Absent a voluntary statement from any officer(s), the initial on scene supervisor should not attempt to order any officer to provide other than public safety information.
- (g) Provide all available information to the Shift Commander and Central Dispatch. If feasible, sensitive information should be communicated over secure networks.
- (h) Take command of and secure the incident scene with additional personnel until relieved by a detective supervisor or other assigned personnel.
- (i) If a person is transported to a hospital with possible life threatening injuries, when feasible, an officer should accompany that injured person in order to:
 1. Locate, preserve, safeguard and maintain chain of custody for physical evidence.
 2. Record a dying declaration, spontaneous statements, and statement of then-existing or previous mental or physical state.
 3. Maintain custody of the person if arrested.

Coeur d'Alene Police Department

Officer-Involved Shootings and Deaths

4. Provide information to medical personnel about the incident as relevant to treatment, and to obtain information from medical personnel relevant to the investigation.
 5. Collect all clothing items removed from the injured person and maintain chain of custody of the evidence.
 6. Remain with the injured/deceased person until relieved by a detective or other assigned personnel.
- (j) As soon as practical, the shooter officer should respond or be transported (separately, if feasible) to a neutral location.
1. Each involved officer should be given an administrative order not to discuss the incident with other involved officers pending further direction from a supervisor.
 2. When an officer's weapon is taken or left at the scene (e.g., evidence), the officer will be provided with a comparable replacement weapon or transported to the station by other officers.
- (k) The interview with one of the involved members falls under one of two categories:
1. Voluntary Statement: The involved member agrees to provide a voluntary statement. The on scene supervisor's interview of the involved member should be brief and only cover exigent circumstances; public safety; crime scene management issues; capture of outstanding suspects; and a summary of the incident for briefing investigators and management; or
 2. Coerced Statement: The on scene supervisor may administratively order a member from this department to immediately provide information about exigent circumstances: public safety; crime scene management issues; capture of outstanding suspects; and summary of the incident for briefing investigators and management.
- (l) Specific information that can be obtained from involved members must be limited to:
1. Injured people who may need medical attention.
 2. Suspect information, including description, identity, crimes committed, direction of travel, vehicle, level of hazard to the public and probable cause for an arrest.
 3. Physical evidence identity and location, and information relating to the preservation of the evidence.
 4. Weapons used, who used them, current location of weapons. If weapon was a firearm, the approximate number of shots fired and direction of fire.
 5. The identity of people who were involved in the incident as suspects, victims and witnesses.
- (m) Photograph the scene from outside the perimeter and consider use of the mobile video system or body worn cameras to record the actions taken at the scene.
- (n) If the involved member(s) are not injured, move them away from the center of activity, and if possible, be accompanied by another non-involved member.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

- (o) If the incident involves the member discharging his duty firearm, the firearm generally should not be collected at the scene, unless trace evidence adhering to the firearm or holster will be compromised if not collected immediately or if the supervisor has reason to dictate otherwise. If the removal of the member's firearm is immediately necessary at the scene, the supervisor shall promptly but discretely obtain possession of the firearm. Firearms should be replaced by the supervisor as quickly as possible if the member wishes, or circumstances dictate otherwise.
 - 1. Generally, firearms should not be removed from their holsters. The entire gun belt should be obtained to avoid removing the sidearm from the holster.
 - 2. The supervisor collecting any firearm, weapon or other control device used in the incident, will make note of its readily visible description and condition, the appearance, and the location of any trace evidence adhering to it, without removing the firearm from its holster or otherwise compromising any physical evidence.
 - 3. The location of where the firearm, weapon or other control device used was first observed by the supervisor, and the identity of the person or location from which the firearm or control device was received, must be documented.
- (p) Provide all available information to the Shift Commander and/or Division Commander. If feasible, sensitive information should be communicated over secure networks.
- (q) Take command of and secure the incident scene with additional personnel until relieved by a detective supervisor or other assigned personnel.

 - 5. Remain with the injured/deceased member until relieved by a detective or other assigned personnel.

308.6.3 SHIFT COMMANDER DUTIES

Upon learning of an officer-involved shooting, the Shift Commander shall be responsible for coordinating all aspects of the incident until relieved by the Chief of Police or a Division Commander.

308.6.4 NOTIFICATIONS

Coeur d'Alene Police Department

308.6.5 INVOLVED OFFICERS

The following shall be considered for the involved officer:

- (a) Any request for or legal or union representation will be accommodated.
 1. Involved officers shall not be permitted to meet collectively or in a group with an attorney or any representative prior to providing a formal interview or report.
 2. Requests from involved non-CDAPD officers should be referred to their employing agency.
- (b) Discussions with licensed attorneys will be considered privileged as attorney-client communications.
- (c) Discussions with agency representatives/employee groups will be privileged only as to the discussion of non-criminal information.
- (d) A psychotherapist shall be arranged by CITF to each involved CDAPD officer. A licensed psychotherapist may also be provided to any other affected CDAPD members, upon request.
 1. Interviews with a licensed psychotherapist will be considered privileged.
 2. An interview or session with a licensed psychotherapist may take place prior to the member providing a formal interview or report. However, involved members shall not be permitted to consult or meet collectively or in a group with a licensed psychotherapist prior to providing a formal interview or report.
 3. A separate fitness-for-duty exam may also be required (see the Fitness for Duty Policy).
- (e) Although the department will honor the sensitivity of communications with peer counselors, there is no legal privilege to such communications. Peer counselors are cautioned against discussing the facts of any incident with an involved or witness officer.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

Care should be taken to preserve the integrity of any physical evidence present on the involved officer's equipment or clothing, such as blood or fingerprints, until investigators or lab personnel can properly retrieve it.

Each involved CDAPD officer shall be given reasonable paid administrative leave following an officer-involved shooting or death. It shall be the responsibility of the Shift Commander to make schedule adjustments to accommodate such leave.

308.7 THE SHOOTING INCIDENT CRIMINAL INVESTIGATION

308.7.1 REPORTS BY INVOLVED CDAPD OFFICERS

In the event that suspects remain outstanding or subject to prosecution for related offenses, this department shall retain the authority to require involved officers to provide sufficient information for related criminal reports to facilitate the apprehension and prosecution of those individuals.

While the involved officer may write the report, it is generally recommended that such reports be completed by assigned investigators who should interview involved officers as victims/witnesses. Since the purpose of these reports will be to facilitate criminal prosecution, statements of involved officers should focus on evidence to establish the elements of criminal activities by involved suspects. Care should be taken not to duplicate information provided by involved officers in other reports.

Nothing in this section shall be construed to deprive an involved officer of the right to consult with legal counsel prior to completing any such criminal report.

Reports related to the prosecution of criminal suspects will be processed according to normal procedures, but should also be included for reference in the investigation of the officer-involved shooting.

308.7.2 WITNESS IDENTIFICATION AND INTERVIEWS

Because potential witnesses to an officer-involved shooting or death may become unavailable or the integrity of their statements compromised with the passage of time, a supervisor should take reasonable steps to promptly coordinate with criminal investigators to utilize available personnel for the following:

- (a) Identify all persons present at the scene and in the immediate area.
 1. When feasible, a recorded statement should be obtained from those persons who claim not to have witnessed the incident but who were present at the time it occurred.
 2. Any potential witness who is unwilling or unable to remain available for a formal interview should not be detained absent reasonable suspicion to detain or probable cause to arrest. Without detaining the individual for the sole purpose of identification, attempts to identify the witness prior to his/her departure should be made whenever feasible.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

- (b) Witnesses who are willing to provide a formal interview should be asked to meet at a suitable location where criminal investigators may obtain a recorded statement. Such witnesses, if willing, may be transported by a member of the Department.
 - 1. A written, verbal or recorded statement of consent should be obtained prior to transporting a witness. When the witness is a minor, consent should be obtained from the parent or guardian, if available, prior to transportation.
- (c) Promptly contacting the suspect's family and associates to obtain any available and untainted background information about the suspect's activities and state of mind prior to contact with the officers in the incident.

308.8 ADMINISTRATIVE INVESTIGATION

In addition to all other investigations associated with an officer-involved shooting, this department or a designated outside agency will conduct an internal administrative investigation to determine conformance with policy of this department. This investigation will be conducted under the supervision of the Professional Standards Review Board and will be considered a confidential peace officer personnel file.

- (a) Any officer involved in a shooting may be administratively compelled to provide a blood sample for alcohol/drug screening. Absent consent from the officer, such compelled samples and the results of any such testing shall not be disclosed to any criminal investigative agency.
- (b) If any officer has voluntarily elected to provide a statement to criminal investigators, the assigned administrative investigator should review that statement before proceeding with any further interview of that involved officer.
 - 1. If a further interview of the officer is deemed necessary to determine policy compliance, care should be taken to limit the inquiry to new areas with minimal, if any, duplication of questions addressed in the voluntary statement. The involved officer shall be provided with a copy of his or her prior statement before proceeding with any subsequent interview(s).
- (c) In the event that an involved officer has elected to not provide criminal investigators with a voluntary statement, the assigned administrative investigator shall conduct an administrative interview to determine all relevant information.
 - 1. Although this interview should not be unreasonably delayed, care should be taken to ensure that the officer(s) physical and psychological needs have been addressed before commencing the interview.
 - 2. If requested, the officer shall have the opportunity to select an uninvolved representative to be present during the interview. However, in order to maintain the integrity of each individual officer's statement, involved officers shall not

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

consult or meet with a representative or attorney collectively or in groups prior to being interviewed.

3. Administrative interview(s) should be recorded by the investigator (the officer may also record the interview).
4. The officer shall be informed, assuming no voluntary waiver, an administrative order to provide full and truthful answers to all questions. The officer shall be informed, however, that the interview will be for administrative purposes only and that the statement cannot be used criminally (*Garrity* admonishment).
5. The administrative interview shall be considered part of the officer's confidential personnel file.
6. The Professional Standards Review Board shall compile all relevant information and reports necessary for this department to determine compliance with applicable policies.
7. The completed administrative investigation shall be submitted to the Use of Deadly Force Review Board, which will restrict its findings as to whether there was compliance with this department's use of deadly force policy.
8. Any other indications of potential policy violations shall be determined in accordance with standard disciplinary procedures.

308.9 AUDIO AND VIDEO RECORDINGS

Any officer involved in an incident may be permitted to review available Mobile Audio Video (MAV) or other video or audio recordings prior to providing a recorded statement or completing reports.

Upon request, non-law enforcement witnesses who are able to verify their presence and their ability to contemporaneously perceive events at the scene of an incident may also be permitted to review available MAV or other video or audio recordings with approval of assigned investigators or a supervisor.

Any MAV and other known video or audio recordings of an incident should not be publicly released during an ongoing investigation without consulting the prosecuting attorney or Prosecutor's Office as appropriate.

308.10 DEBRIEFING

Following an officer-involved shooting or death, the Coeur d'Alene Police Department should conduct both a critical incident/stress debriefing and a tactical debriefing.

308.10.1 CRITICAL INCIDENT/STRESS DEBRIEFING

A critical incident/stress debriefing should occur as soon as practicable. The Administration Division Commander is responsible for organizing the debriefing. Notes and recorded statements should not be taken because the sole purpose of the debriefing is to help mitigate the stress-related effects of a traumatic event.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Officer-Involved Shootings and Deaths

The debriefing is not part of any investigative process. Care should be taken not to release or repeat any communication made during a debriefing unless otherwise authorized by policy, law or a valid court order.

Attendance at the debriefing shall only include those members of the Department directly involved in the incident, which can include support personnel (e.g., dispatchers, other civilian). Family or other support personnel may attend with the concurrence of those involved in the incident. The debriefing shall be closed to the public and should be closed to all other members of the Department, including supervisory and Professional Standards Review Board personnel.

308.10.2 TACTICAL DEBRIEFING

A tactical debriefing should take place to identify any training or areas of policy that need improvement. The Chief of Police should identify the appropriate participants. This debriefing should not be conducted until all involved members have provided recorded or formal statements to criminal and/or administrative investigators.

308.11 MEDIA RELATIONS

Any media release shall be prepared with input and concurrence from the supervisor and department representative responsible for each phase of the investigation. Releases will be available to the Shift Commander, Investigation Division Commander and Public Information Officer in the event of inquiries from the media.

No involved CDAPD officer shall make any comment to the media unless he/she is authorized by the Chief of Police or a Division Commander.

Department members receiving inquiries regarding officer-involved shootings or deaths occurring in other jurisdictions shall refrain from public comment and will direct those inquiries to the agency having jurisdiction and primary responsibility for the investigation.

- (d) Shotguns or rifles removed from vehicles or the equipment storage room shall be loaded and unloaded in the parking lot and outside of the vehicle, using clearing barrels.
- (e) Members shall not place or store any firearm or other weapon on department premises except where the place of storage is locked. No one shall carry firearms into the jail section or any part thereof when securing or processing an arrestee, but shall place all firearms in a secured location. Members providing access to the jail section to persons from outside agencies are responsible for ensuring firearms are not brought into the jail section.
- (f) Members shall not use any automatic firearm, heavy caliber rifle, gas or other type of chemical weapon or firearm from the armory, except with approval of a supervisor.
- (g) Any firearm authorized by the Department to be carried on- or off-duty that is determined by a member to be malfunctioning or in need of service or repair shall not be carried. It shall be promptly presented to the Department or a Rangemaster approved by the Department for inspection and repair. Any firearm deemed in need of repair or service by the Rangemaster will be immediately removed from service. If the firearm is the member's primary duty firearm, a replacement firearm will be issued to the member until the duty firearm is serviceable.

309.6 MAINTENANCE AND REPAIR

Firearms and ammunition carried on duty shall be maintained in a clean, serviceable condition. Since the use of personally owned secondary firearms is at the option of the individual member, that member will be responsible for the furnishing, maintenance and repair of such firearm.

The Rangemaster or designee shall be the only person authorized to repair or modify any firearm owned by this department. All repairs and/or modifications of firearms owned by this Coeur d'Alene Police Department not performed by the Rangemaster or designee, must be approved in advance by the Rangemaster and accomplished by an individual approved by this department. With the authorization of the member, the Rangemaster or designee may repair or modify a member's personally owned secondary firearm, but the member may be responsible for some or all expenses.

309.6.1 TEST FIRING OF REPAIRED / REPLACED FIREARMS

The Ragemaster or his/her designee(s) shall have the ability to test fire weapons systems on Department grounds after inspection, repair or for other good cause as approved by the Chief of Police or his/her designee. Test firing will utilize approved Department equipment and an authorized bullet retention system and backdrop location. Additionally, the following safety protocols will be utilized during test firing:

- a. At least two (2) members of the Firearms Range Staff will be present during test firing. One member of the staff will have the responsibility of conducting the testing, the second member will

solely be responsible for safety. Only members of the Firearms Range staff will be permitted to test fire weapons.

b. A primary and secondary sweep of the location where test firing is occurring will be conducted prior to any weapon discharge and the location will be cordoned off with appropriate safety tape and signage indicating test firing is occurring.

c. Appropriate eye protection, hearing protection and ventilation will be utilized during test firing.

d. The on-duty Watch Commander and Dispatch will be notified at the initiation and conclusion of test firing.

309.7 FLYING WHILE ARMED

The Transportation Security Administration (TSA) has imposed rules governing officers flying armed on commercial aircraft. The following requirements apply to personnel who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (*49 CFR 1544.219*):

- (a) Sworn members wishing to fly armed must be flying in an official capacity and not for vacation or pleasure purposes.
- (b) Sworn members must carry the identification card issued by this department, which must contain a full-face picture, the members signature and the signature of the Chief of Police or the official seal of the department, and must present this identification to airline officials when requested. The member should also carry the standard photo identification needed for passenger screening by airline and TSA officials (*i.e. driver's license, passport*).
- (c) In accordance with TSA procedures, the Department will obtain a message containing a unique alphanumeric identifier from TSA through the National Law Enforcement Telecommunications System (NLETS) prior to the officer's travel. The member must present the message to airport personnel as authorization to travel while armed on the day of travel.
- (d) An official letter signed by the Chief of Police authorizing armed travel must accompany the member. The letter must outline the member's need to fly armed, must detail his/her itinerary, and should include that the officer has completed the mandatory TSA training for law enforcement officers flying while armed.
- (e) A member must have completed the mandated TSA security training, covering law enforcement officers flying while armed. The training shall be given by the department-appointed instructor.
- (f) It is the member's responsibility to notify the air carrier in advance of the intended armed travel. This notification can be accomplished by early check-in at the carrier's check-in counter.
- (g) Discretion must be used to avoid alarming passengers or crew by displaying a firearm. The member must keep the firearm concealed on his/her person at all times. Firearms are not permitted in carry-on luggage and may not be stored in an overhead compartment.

Coeur d'Alene Police Department

Firearms

- (h) Members should not surrender their firearm but should try to resolve any problems through the flight captain, ground security manager, or other management representative of the air carrier.
- (i) The member shall not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft.

309.8 CARRYING FIREARMS OUT OF STATE

Full-time sworn members of this department are authorized to carry a concealed firearm in all other states subject to the following conditions (*18 United States Code 926B and C*):

- (a) The member shall carry his/her department identification card whenever carrying such weapon.
- (b) The member is not the subject of any current disciplinary action.
- (c) The member may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.
 1. The member will remain subject to this and all other department policies (including qualifying and training).
 2. Members are cautioned that individual states may enact local regulations that permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property, or that prohibit or restrict the possession of firearms on any state or local government property, installation, building, base or park. Federal authority may not shield a member from arrest and prosecution in such locally restricted areas.

Visiting active and retired peace officers from other states are subject to all requirements set forth in 18 United States Code 926B and C.

Vehicle Pursuits

310.1 PURPOSE AND SCOPE

The primary purpose of this policy is to provide members guidance in balancing the safety of the public and themselves against law enforcement's duty to apprehend violators of the law.

It is recognized that vehicular pursuit situations are not always predictable and decisions made pursuant to this policy will be evaluated according to the totality of the circumstances reasonably available at the time of the pursuit.

310.1.1 PURSUIT DEFINED

A vehicle pursuit is an event involving one or more law enforcement officers attempting to apprehend a suspect who is attempting to avoid apprehension while operating a motor vehicle by using high speed driving or other evasive tactics such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to an officer's signal to stop.

310.1.2 FAILURE TO YIELD

Refers to the actions of the driver of a vehicle who fails to stop or respond to the emergency light(s) and siren of a police vehicle. Generally, the driver continues to travel forward at or below the speed limit, observes applicable rules of the road and does not change the direction of travel in an evasive manner.

310.2 OFFICER RESPONSIBILITIES

While engaging in a vehicle pursuit members must drive with due regard for the safety of all other persons. However, while engaging in a vehicle pursuit, members are generally not required to follow the rules of the road. In addition, this exemption from following the rules of the road only applies when the member is operating an authorized emergency vehicle. The following policy is established to provide members with guidelines for driving with due regard and caution for the safety of all persons.

310.2.1 WHEN TO INITIATE A PURSUIT

Sworn members are authorized to initiate a pursuit only when it is reasonable to believe that a suspect is attempting to evade arrest or detention by fleeing in a vehicle and the violation is a serious felony against persons; or there is danger of serious injury or death to the public or members if the violator is not apprehended, and such knowledge is known to the member prior to the pursuit. In order to diminish the likelihood of a pursuit, members intending to stop vehicles shall, when practicable, be within close proximity to the vehicle before activating the emergency lights and attempting to stop the violator.

The following factors, individually and collectively, shall be considered in deciding whether to initiate a pursuit:

- (a) Seriousness of the known or reasonably suspected crime and its relationship to community safety.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

- (b) The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to members, innocent motorists and others.
- (c) Apparent nature of the fleeing suspect(s) (*i.e., whether the suspect(s) represent a serious threat to public safety*).
- (d) The identity of the suspect(s) has been verified and there is comparatively minimal risk in allowing the suspect(s) to be apprehended at a later time.
- (e) Safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic and the speed of the pursuit relative to these factors.
- (f) Pursuing member(s) familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher/supervisor and the driving capabilities of the pursuing members under the conditions of the pursuit.
- (g) Weather, traffic and road conditions that substantially increase the danger of the pursuit beyond the worth of apprehending the suspect.
- (h) Performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit.
- (i) Vehicle speeds.
- (j) Other persons in or on the pursued vehicle (*i.e., passengers, co-offenders and hostages*).
- (k) Availability of other resources such as aircraft assistance.
- (l) The police vehicle is carrying passengers other than sworn members of this department. Pursuits should not be undertaken with a prisoner(s) in the police vehicle.

310.2.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be discontinued whenever the totality of objective circumstances known or which reasonably ought to be known to the member or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect(s)' escape.

The factors listed in Policy Manual § 310.2.1 are expressly included herein and will apply equally to the decision to discontinue as well as the decision to initiate a pursuit. Members and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists and themselves when electing to continue a pursuit. In the context of this policy, the term "terminate" shall be construed to mean discontinue or to stop chasing the fleeing vehicle(s).

In addition to the factors listed in Policy Manual § 310.2.1 the following factors should also be considered in deciding whether to terminate a pursuit:

- (a) Distance between the pursuing members and the fleeing vehicle(s) is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

- (b) Pursued vehicle's location is no longer definitely known.
- (c) Member's pursuit vehicle sustains any type of damage that renders it unsafe to drive.
- (d) Hazards to uninvolved bystanders or motorists.
- (e) If the identity of the offender is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit, members should strongly consider discontinuing the pursuit and apprehending the offender at a later time.
- (f) Directed by a supervisor.

310.2.3 HOW TO TERMINATE A PURSUIT

Whenever a pursuit is terminated, the pursuing officer shall notify dispatch by voicing "Pursuit terminated at..." followed by the approximate location.

Pursuing vehicles shall deactivate lights/ sirens and, as soon as reasonably possible, make a turn away from the offender and stop the patrol car for a reasonable period of time. After the waiting period has passed, officers should make reasonable attempts to remain unseen by occupants of the offending vehicle and should not attempt to follow the vehicle.

Other officers responding to the area should take reasonable measures to remain unseen by the offender unless authorized by a supervisor.

Pursuits may be re-initiated based on new information, consistent with this policy.

310.2.4 SPEED LIMITS

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the member and supervisor. Evaluation of vehicle speeds shall take into consideration public safety, member safety and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, members and supervisors shall also consider these factors when determining the reasonableness of the speed of the pursuit:

- Are the pursuit speeds unsafe for the surrounding conditions?
- Are the speeds being reached beyond the driving ability of the member?
- Are the speeds beyond the capabilities of the police vehicle thus making its operation unsafe?

310.3 PURSUIT UNITS

Pursuit units should be limited to two vehicles; however, the number of units involved will vary with the circumstances. A member or supervisor may request additional units to join a pursuit if, after assessing the factors outlined above, it appears that the number of members involved would be insufficient to safely arrest the suspect(s). All other members should stay out of the pursuit, but should remain alert to its progress and location. Any member who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

310.3.1 MOTORCYCLE OFFICERS

A patrol vehicle equipped with distinguishable emergency lights and siren should replace a motor unit as primary and/or secondary pursuit unit as soon as practical.

310.3.2 VEHICLES WITHOUT EMERGENCY EQUIPMENT

Vehicles not equipped with emergency lights and siren are generally prohibited from initiating or joining in any pursuit. Members in such vehicles, however, may become involved in emergency activities involving serious crimes or life threatening situations. Those members should terminate their involvement in any pursuit immediately upon arrival of a sufficient number of emergency police vehicles.

310.3.3 PRIMARY UNIT RESPONSIBILITIES

The initial pursuing unit will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless it is unable to remain reasonably close enough to the violator's vehicle. The primary responsibility of the member initiating the pursuit is the apprehension of the suspect(s) without unreasonable danger to themselves or other persons.

Notify Central that a vehicle pursuit has been initiated and as soon as practical provide information including, but not limited to:

- Reason for the pursuit.
- Location and direction of travel.
- Speed of the fleeing vehicle.
- Description of the fleeing vehicle and license number, if known.
- Number of known occupants.
- The identity or description of the known occupants.
- Information concerning the use of firearms, threat of force, injuries, hostages or other unusual hazards.
- Ensure a supervisor is aware of the pursuit.

Unless relieved by a supervisor or a secondary unit, the member in the primary unit shall be responsible for the broadcasting of the progress of the pursuit. Unless practical circumstances indicate otherwise and, in order to concentrate on pursuit driving, the primary unit should relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit.

310.3.4 SECONDARY UNIT RESPONSIBILITIES

The second member in the pursuit is responsible for the following:

- (a) The member in the secondary unit should immediately notify the dispatcher of entry into the pursuit.
- (b) Remain a safe distance behind the primary unit unless directed to assume the role of primary unit, or if the primary unit is unable to continue the pursuit.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

- (c) The secondary unit should be responsible for broadcasting the progress of the pursuit unless the situation indicates otherwise.

310.3.5 PURSUIT DRIVING TACTICS

The decision to use or not use specific driving tactics requires the same assessment of considerations outlined in the factors to be considered concerning pursuit initiation and termination. The following are tactics for units involved in the pursuit:

- (a) Members, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle;
- (b) As a general rule, members should not pursue a vehicle driving left of center (*wrong way*) on a freeway. In the event the pursued vehicle does so, the following tactics should be considered:
 1. Maintaining visual contact with the pursued vehicle by paralleling it on the correct side of the roadway;
 2. Requesting other units to observe exits available to the suspect(s).
- (c) Notifying the Idaho State Police and/or other agency if it appears that the pursuit may enter their jurisdiction;
- (d) Members involved in a pursuit should not attempt to pass other units unless the situation indicates otherwise or requested to do so by the primary unit.

310.3.6 TACTICS/PROCEDURES FOR UNITS NOT INVOLVED IN THE PURSUIT

- (a) There should be no paralleling of the pursuit route. Members are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Members should not become involved with the pursuit unless directed otherwise by a supervisor.
- (b) Non-pursuing members needed at the termination of the pursuit should respond in a non-emergency manner, observing the rules of the road.
- (c) The primary and secondary units should be the only units operating under emergency conditions (*emergency lights and siren*) unless other units are assigned to the pursuit.

310.3.7 PURSUIT TRAILING

In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of supervisor, trail the pursuit to the termination point in order to provide necessary information and assistance for the arrest of the suspect(s).

The term trail means to follow the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing unit will maintain sufficient distance from the pursuit units so as to clearly indicate an absence of participation in the pursuit.

310.4 NOTIFICATION TO SUPERVISORS

Any member, regardless of assignment, shall notify a supervisor of this Department when they are involved in a pursuit incident in the City of Coeur d'Alene or any other jurisdiction.

310.5 SUPERVISORY CONTROL AND RESPONSIBILITY

It is the policy of this department that available supervisory and management control will be exercised over all pursuits involving members from this department.

The supervisor will be responsible for the following:

- (a) Upon becoming aware of a pursuit, immediately ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within guidelines established by this department.
- (b) Engaging in the pursuit, when appropriate, to provide on-scene supervision.
- (c) Exercising management and control of the pursuit even if not engaged in it.
- (d) Ensuring that no more than the number of required police units needed are involved in the pursuit under the guidelines set forth in this policy.
- (e) Directing that the pursuit be terminated if, in his/her judgment, it is unjustified to continue the pursuit under the guidelines of this policy.
- (f) Ensuring that the proper radio channel is being used.
- (g) Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this agency.
- (h) Control and manage CDAPD units when a pursuit enters another jurisdiction.
- (i) Preparing post-pursuit critique and analysis of the pursuit for training purposes.

310.5.1 SHIFT COMMANDER RESPONSIBILITY

Upon becoming aware that a pursuit has been initiated, the Shift Commander should monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. The Shift Commander has the final responsibility for the coordination, control and termination of a motor vehicle pursuit and shall be in overall command.

The Shift Commander shall review all pertinent reports for content and forward to the Division Commander.

310.6 COMMUNICATIONS

If the pursuit is confined within the City limits, radio communications will be conducted on the primary channel unless otherwise instructed. If the pursuit leaves the jurisdiction of this department or such is imminent, involved units should, whenever available, switch radio communications to an emergency channel most accessible by participating agencies and units.

310.6.1 CENTRAL DISPATCH RESPONSIBILITIES

Upon notification that a pursuit has been initiated, Central may be requested to:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

- Coordinate pursuit communications of the involved units and personnel.
- Notify and coordinate with other involved or affected agencies as practical.
- Ensure that a field supervisor is notified of the pursuit.
- Assign an incident number and log all pursuit activities.
- Broadcast pursuit updates as well as other pertinent information as necessary and practical.

310.6.2 LOSS OF PURSUED VEHICLE

When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

310.7 INTER-JURISDICTIONAL CONSIDERATIONS

When a pursuit enters another agency's jurisdiction, the primary member or supervisor, taking into consideration distance traveled, unfamiliarity with the area, and other pertinent facts, should determine whether or not to terminate the pursuit or request the other agency to assume the pursuit. Unless entry into another jurisdiction is expected to be brief, it is generally recommended that the primary member or supervisor ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether or not such jurisdiction is expected to assist.

310.7.1 ASSUMPTION OF PURSUIT BY ANOTHER AGENCY

Members originally involved will discontinue the pursuit when advised that another agency has assumed the pursuit and assistance of this department is no longer needed. Upon discontinuing the pursuit, the primary member may proceed upon request, with or at the direction of a supervisor, to the termination point to assist in the investigation.

The role and responsibilities of officers at the termination of a pursuit initiated by this department shall be coordinated with appropriate consideration of the units from the agency assuming the pursuit.

Notification of a pursuit in progress should not be construed as a request to join the pursuit. Requests to or from another agency to assume a pursuit should be specific and should be by, and to, the supervisor.

310.7.2 PURSUITS BY ANOTHER AGENCY IN THIS JURISDICTION

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Members from this department should not join a pursuit unless specifically requested to do so by the agency whose members are in pursuit and not until authorized to do so by a supervisor of this department.

When a request is made for this department to assist or take over a pursuit from another agency that has entered this jurisdiction, the supervisor should consider the following additional factors:

- (a) Ability to maintain the pursuit.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

- (b) Circumstances serious enough to continue the pursuit.
- (c) Adequate staffing to continue the pursuit.
- (d) The public's safety within this jurisdiction.
- (e) Safety of the pursuing members.

As soon as practical, a supervisor or the Shift Commander should review a request for assistance from another agency. The Shift Commander or supervisor, after consideration of the above factors, may decline to assist in, or assume the other agency's pursuit.

Assistance to a pursuing allied agency by member of this department will terminate at the City limits provided that the pursuing peace officers have sufficient assistance from other sources. Ongoing participation from this department may continue only until sufficient assistance is present and only with supervisor approval.

In the event that a pursuit from another agency terminates within this jurisdiction, members shall provide appropriate assistance to members from the pursuing agency including, but not limited to, scene control, coordination and completion of supplemental reports and any other assistance requested or needed.

310.8 PURSUIT INTERVENTION

Pursuit intervention is an attempt to terminate the ability of a suspect to continue to flee in a motor vehicle through tactical application of technology, tire deflation devices, blocking, boxing, PIT (*Pursuit Intervention Technique*), ramming or roadblock procedures.

310.8.1 WHEN USE AUTHORIZED

Use of pursuit intervention tactics should be deployed only after approval of a supervisor. In deciding whether to use intervention tactics, members/supervisors should balance the risks of allowing the pursuit to continue with the potential hazards arising from the use of each tactic to the public, the members and persons in or on the pursued vehicle. With these risks in mind, the decision to use any intervention tactic should be reasonable in light of the circumstances confronting the officer at the time of the decision.

310.8.2 DEFINITIONS

Blocking or Vehicle Intercept - A slow speed coordinated maneuver where two or more patrol vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop, with the goal of containment and preventing a pursuit. Blocking is not a moving or stationary road block.

Boxing-in - A tactic designed to stop a violator's vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

Ramming - The deliberate act of impacting a violator's vehicle with another vehicle to functionally damage or otherwise force the violator's vehicle to stop.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

Roadblocks - A tactic involving any structure, device, or means used by duly authorized law enforcement officers for the purpose of controlling all traffic through a point on a highway whereby all vehicles may be slowed or stopped (Idaho Code 19-620).

Tire Deflation Device - A device that extends across the roadway designed to puncture the tires of the pursued vehicle.

The Pursuit Intervention Technique (PIT) - A low speed maneuver designed to cause the suspect vehicle to spin out and terminate the pursuit.

310.8.3 USE OF FIREARMS

The use of firearms to disable a pursued vehicle is not generally an effective tactic and involves all the dangers associated with discharging firearms. Members should not utilize firearms during an ongoing pursuit unless the conditions and circumstances dictate that such use reasonably appears necessary to protect life. Nothing in this section shall be construed to prohibit any sworn member from using a firearm to stop a suspect from using a vehicle as a deadly weapon.

310.8.4 INTERVENTION STANDARDS

Any pursuit intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to members, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of deadly force and subject to the requirements for such use. Members who have not received training certified by this department in the application and use of any intervention tactic or equipment shall consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

- (a) Only those members trained in the use of the PIT will be authorized to use this procedure and only then with approval of a supervisor upon consideration of the circumstances and conditions presented at the time, including the potential for risk of injury to members, the public and occupants of the pursued vehicle. Application of PIT is generally discouraged at speeds exceeding 35 miles-per-hour.
- (b) Blocking or vehicle intercept should only be considered in cases involving felony suspects or impaired drivers who pose a threat to public safety when officers reasonably believe that attempting a conventional enforcement stop will likely result in the driver attempting to flee in the vehicle. Because of the potential risks involved this technique should only be employed by members who have received training in such tactics after giving consideration to the following:
 1. The need to immediately stop the suspect vehicle or prevent it from leaving substantially outweighs the risks of injury or death to occupants of the suspect vehicle, members, or the public.
 2. All other reasonable intervention techniques have failed or reasonably appear ineffective.
 3. Employing the blocking maneuver does not unreasonably increase the risk to member safety.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Pursuits

4. The target vehicle is stopped or traveling at a low speed.
 5. At no time should civilian vehicles be used to deploy this technique.
- (c) Ramming a fleeing vehicle should be done only after other reasonable tactical means at the member's disposal have been exhausted. This tactic should be reserved for situations where there does not appear to be another reasonable and alternative method. Ramming a vehicle is generally discouraged at speeds exceeding of 35 miles-per-hour. This policy is an administrative guide to direct members in their decision-making process before the fact of ramming another vehicle. It is not a standard for civil or criminal litigation to judge the propriety of the act; that is a matter for the courts to determine by established law. When ramming is to be deployed as a means with which to stop a fleeing vehicle, one or more of the following factors should be present:
1. The suspect is an actual or suspected felon who reasonably appears to represent a serious threat to society if not apprehended.
 2. The suspect is driving in willful or wanton disregard for the safety of persons; or, driving in a reckless and life-endangering manner.
 3. If there does not reasonably appear to be a present or immediately foreseeable serious threat to the public, the use of ramming is not authorized.
- (d) As with all intervention techniques, pursuing members should obtain supervisor approval before attempting to box a suspect vehicle during a pursuit. The use of such a technique must be carefully coordinated with all involved units, taking into consideration the circumstances and conditions presented at the time as well as the potential risk of injury to members, the public and occupants of the pursued vehicle.
- (e) The use of tire deflation devices shall be governed by Policy 313 Tire Deflation Devices.
- (f) Idaho Code 19-622 sets the minimum requirements for establishing roadblocks for the purpose of warning and protecting the public. Because roadblocks involve a potential for serious injury or death to occupants of the pursued vehicle if the suspect does not stop, the intentional placement of roadblocks in the direct path of a pursued vehicle is generally discouraged and should not be deployed without prior approval of a supervisor and only then under extraordinary conditions when all other reasonable intervention techniques have failed or reasonably appear ineffective and the need to immediately stop the pursued vehicle substantially outweighs the risks of injury or death to occupants of the pursued vehicle, members, or the public.

310.8.5 CAPTURE OF SUSPECTS

Members shall use only that amount of force, which reasonably appears necessary under the circumstances, to properly perform their lawful duties.

Unless relieved by a supervisor the primary member should coordinate efforts to apprehend the suspect(s) following the pursuit. Members should consider safety of the public and the involved members when formulating plans to contain and capture the suspect.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

310.9 REPORTING REQUIREMENTS

The following reports should be completed:

- (a) The primary member shall complete appropriate crime/arrest reports.
- (b) The Shift Commander shall complete a Pursuit Report summarizing the pursuit and submit it to the Division Commander to evaluate the pursuit in terms of policy compliance. This pursuit report shall minimally contain the following information:
 - 1. Date and time of pursuit.
 - 2. Length of pursuit.
 - 3. Involved units and members.
 - 4. Initial reason for pursuit.
 - 5. Starting and termination points.
 - 6. Disposition: Arrest, citation, report taken. Arrestee information should be provided if applicable.
 - 7. Injuries and/or property damage.
 - 8. Medical treatment.
 - 9. Name of supervisor at scene.
 - 10. A preliminary determination, simply stating whether or not the pursuit appears to be in compliance with this policy.

310.9.1 REGULAR AND PERIODIC PURSUIT TRAINING

In addition to initial and supplementary POST training on pursuits, all sworn members of this department should participate in periodic training by this department addressing this policy and the importance of vehicle safety and protecting the public at all times, including a recognition of the need to balance the known offense and the need for immediate capture against the risks to members and citizens.

Handcuff Policy

311.1 PURPOSE AND SCOPE

This procedure provides guidelines for handling situations involving handcuffing during detentions and arrests. This policy is also applicable to Flexcuffs, which will be considered synonymous with handcuffs for purposes of this policy.

311.1.1 HANDCUFFING POLICY

Although recommended for most arrest situations, handcuffing is a discretionary procedure and not an absolute rule of this department. When deciding whether to handcuff an arrestee, members should carefully balance safety concerns with factors including, but not limited to the following:

- The circumstances leading to the arrest.
- The attitude and behavior of the arrested person.
- Age, sex and health of the person.
- Whether the person has a hearing or speaking disability. In such cases consideration should be given, safety permitting, to handcuffing in the front in order to allow the person to sign or write notes.
- Whether the person has any other apparent disability.

It is not the intent of this department to dissuade members from handcuffing all persons they believe warrant that degree of restraint, nor is it the intent of this policy to create the atmosphere that in order to avoid risk, a member should handcuff all persons regardless of the circumstances. In most situations handcuffs should be applied with the hands behind the person.

Any handcuffed person requiring transportation from any location shall be properly searched by the transporting member prior to departure. The handcuffs should be removed when it is safe for the member to do so.

311.1.2 IMPROPER USE OF HANDCUFFS

Handcuffing is never done to punish, to display authority, or as a show of force.

Persons are generally handcuffed to prevent escape, prevent evidence destruction, protect the members or protect people.

When practical, handcuffs shall be double locked to prevent tightening which may cause undue discomfort or injury to the hands or wrists.

311.1.3 JUVENILES

Juveniles may be handcuffed when the act committed is of a criminal nature or when their acts have amounted to crimes where the member has a reasonable suspicion the suspect may have a desire to escape, injure themselves, injure the member, or destroy property.

Handcuff Policy

311.1.4 HANDCUFFING OF DETAINEES

Situations may arise where it may be reasonable to handcuff an individual who may, after subsequent investigation, be released prior to arrest. Such a situation is considered a detention, rather than an actual arrest. Unless it is determined that a detainee is to be arrested, the use of handcuffs on detainees should continue for only as long as is reasonably necessary to assure the safety of members and others.

Members should continuously weigh the safety interests at hand against the intrusion upon the detainee when deciding to remove handcuffs from a person being detained.

- When an individual is handcuffed and released without an arrest, the member will document the detention in a police report if applicable, F.I. card, or in the Records Management System (radio call log).

311.1.5 COURTESY TRANSPORTS

There may be situations that arise when members may decide to do a courtesy transport for a person who is not under arrest or detained for any criminal investigation and therefore should not be handcuffed.

Examples of such situations could be, but not limited to, transporting a victim of domestic violence to a place of safety or transporting a stranded motorist to another location.

For safety reasons, persons being transported in these types of situations should be asked if they are carrying any weapons or contraband, and asked if they would consent to a pat search of their person and a search of any property they are carrying. Should the person refuse to consent to such a search, then the member can choose not to provide the courtesy transport and offer any reasonable alternative means, such as calling a taxi service, friend or family member.

Patrol Rifles

312.1 PURPOSE AND SCOPE

In order to more effectively and accurately address the increasing level of fire power and body armor utilized by criminal suspects, the department will make patrol rifles available to qualified sworn members as an additional and more immediate tactical resource.

312.2.2 AUTHORIZED PATROL RIFLES

Only patrol rifles issued by this department will be authorized for carry by members on duty.

312.2.3 RIFLE MAINTENANCE

 2. Patrol rifles which are not assigned to specific members will be retained as surplus inventory to be used for training, or for replacement should a member's assigned rifle be taken out of service for any reason.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Patrol Rifles

With the exception of Rangemasters, members shall not tamper with, adjust or otherwise remove any part from a patrol rifle issued to another member. This shall also include ammunition, magazines and flashlight holders.

Sworn members shall not utilize the patrol rifle until they have successfully completed approved training through this department. Initial training shall consist of a patrol rifle user's course and a qualification course with a certified patrol rifle instructor/Rangemaster.

Members will be required to attend scheduled mandatory patrol rifle qualification courses, unless otherwise authorized by a Supervisor. Members who fail to qualify after two attempts shall be provided remedial training in an attempt to improve demonstrated proficiency. The member shall not be allowed a third attempt to qualify on the same date. Those members shall also be subjected to the following requirements:

- (a) The member shall not be allowed to utilize the patrol rifle for field duty.
- (b) After receiving remedial training, the member shall attend the next available qualification course, or if approved by his Division Commander, schedule another time with a Rangemaster and attempt to qualify.
- (c) The member shall be given two additional attempts to qualify with their patrol rifle at a second qualification course. Members still failing to qualify after those two attempts will be provided remedial training and then allowed one additional attempt to qualify during that same scheduled range date.
 - (a) If the member still is unable to qualify, the Rangemaster will take possession of the member's patrol rifle and notify the member's immediate supervisor and Division Commander.
 - (b) After consulting with the Rangemaster, the member's Division Commander will consult with the Chief of Police to determine if the member shall be subject to disciplinary sanctions and/or any additional remedial training.

312.2.5 DEPLOYMENT OF THE PATROL RIFLE

Members may deploy the patrol rifle in any circumstance where they can articulate a reasonable expectation that the rifle may be needed. Examples of some general guidelines for deploying the patrol rifle may include, but are not limited to:

- Situations where the member reasonably anticipates an armed encounter.
- When a member is faced with a situation that may require the delivery of accurate and effective fire at long range.
- Situations where a member reasonably expects the need to meet or exceed a suspect's firepower.
- When a member reasonably believes that there may be a need to deliver fire on a barricaded suspect or a suspect with a hostage.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Patrol Rifles

- When a member reasonably believes that a suspect may be wearing body armor.
- When authorized or requested by a supervisor.

312.2.6 DISCHARGE OF THE PATROL RIFLE

The discharge of the patrol rifle shall be governed by Policy Manual Use of Force.

312.2.7 PATROL READY

Any qualified member carrying a patrol rifle in the field shall maintain the weapon in a patrol ready condition until deployed. A rifle is considered patrol ready when it has been inspected by the assigned member and meets the following conditions:

- The chamber is empty.
- The rifle bolt is forward with the hammer is down.
- The rifle safety is on.
- There is a fully loaded magazine in the rifle.
- The dust cover is closed.
- The rifle is locked in the patrol vehicle's rifle rack or trunk.

312.2.8 RIFLE STORAGE

When the member is off duty, the rifle shall be stored and properly secured by utilizing only the following options:

- In the armory in the provided rifle rack;
- Properly secured in the member's residence where it is not easily accessible by children or other persons;
- If the member is assigned a department vehicle, the rifle may secured in a locked rifle rack or trunk, provided the vehicle is parked in a garage, otherwise the rifle must be secured inside the member's residence;
- Any other location authorized by the Chief of Police or his designee.

312.2.9 AMMUNITION AND MAGAZINES

Members shall only carry rifle ammunition and magazines issued by this department. Members shall be issued fresh duty ammunition in the specified quantity for all firearms issued or authorized by this department. Replacements for unserviceable or depleted ammunition issued by this department shall be dispensed by the Rangemaster when necessary.

Tire Deflation Devices

313.1 PURPOSE AND SCOPE

Tire deflation devices placed across the roadway may be used when members are engaged in certain types of pursuits. The pursuits initiated by the members shall strictly adhere to the vehicle pursuit policy set forth in the Policy: Pursuits.

This policy will also cover pursuits initiated by outside law enforcement agencies when the department is requested by that agency to assist with the pursuit that passes through or continues within our jurisdiction.

313.1.1 USE OF TIRE DEFLATION DEVICES

Prior to using the tire deflation devices, the member shall successfully complete required training. The safety of the involved members, the public, and the fleeing subject must never knowingly be sacrificed.

Tire deflation devices shall not be used on the following types of vehicles:

- (a) Motorcycles, mopeds, two- or three-wheeled vehicles, all terrain vehicles, or similar vehicles.
- (b) Tire deflation devices should not be deployed to stop the following vehicles, unless continued movement of the pursued vehicle would result in an unusual or significant hazard to others:
 1. Any vehicle where the member reasonably should know the vehicle is transporting a hazardous material.
 2. Any passenger bus transporting passengers.
 3. Any school bus transporting pupils.
 4. Any vehicle that would pose an unusual hazard to innocent parties (*i.e. vehicle transport carrier, large construction equipment carrier, etc.*).

313.1.2 AUTHORIZATION

Members may deploy the tire deflation device only after receiving approval from a Supervisor and in conjunction with the safe termination of a pursuit that otherwise would pose a threat to the safety of others. Potential strategic locations for placement shall be discussed and established beforehand, as much as practical.

313.1.3 DEPLOYMENT

The member deploying the system should use any available safety barriers such as guardrails, abutments, bridges, or patrol vehicles. Measures should be taken to divert other traffic from the area to prevent unnecessary damage to other vehicles.

- (a) The police vehicle will be placed on the side of the roadway, facing the direction of the pursuit with all emergency lights activated. The patrol vehicle may be angled slightly

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Tire Deflation Devices

to narrow the roadway and force the suspect to drive over the tire deflation device. If time or circumstances do not permit the above placement of the police vehicle, it may be positioned facing the upcoming pursuit.

- (b) The police vehicle(s) will not be occupied.
- (c) When possible, a second police vehicle should be placed on the opposite side of the roadway, with all emergency lights activated, in order to funnel the suspect vehicle over the tire deflation device.
- (d) It is imperative that all members involved are aware of the exact location of the deployed tire deflation device, so the pursuing members slow down in time to allow the removal of the device after the violator's vehicle crosses it.
- (e) The member who deploys the tire deflation device should remove them immediately after the violator's vehicle crosses them. The violator's vehicle will be slowing rapidly and the pursuing member should be prepared to take evasive action to avoid contact with the violator's vehicle.

313.1.4 REPORTING

The supervisor authorizing the use of the tire deflation device shall be responsible for submitting a Use of Force Report to the Operations Division Commander, only if an injury occurs to any occupant of the vehicle which can be contributed to the use of the tire deflation device. In all other circumstances, the use of the tire deflation device shall be documented in the crime report, if applicable. The Equipment Specialist will be responsible for replacement procedures for the tire deflation device.

- (a) If the tire deflation device is deployed and has contact with the violator's vehicle/ tires, the device shall be collected and booked into the evidence until released by an authorized member.

Member Response to Calls

314.1 PURPOSE AND SCOPE

This policy provides for the safe and appropriate response to emergency and non-emergency situations whether dispatched or self-initiated.

314.1.1 POLICY

Often, because there are no other public or private agencies available, the public relies upon this department for assistance and advice in many routine and emergency situations. For this reason and because there is frequently a potential for crime, it is the policy of this department to make every reasonable effort to respond to calls for service as resources permit and to render such aid or advice as circumstances appear to indicate would be warranted.

When appropriate, members should refer citizens to available resources through other public agencies or charitable organizations.

314.2 RESPONSE TO CALLS

The department recognizes the following radio "Code" definitions:

- **Code Two** Responding as soon as practical, obeying all traffic laws. Use of emergency lights/siren not required.
- **Code Three** Responding with emergency lights and/or siren activated and driving as authorized for an emergency vehicle by Idaho Code.
- **Code Four** The situation is under control and no further assistance is needed.

When practical, a member needing assistance shall do so by advising Central and/or other members of his need for assistance **and** the appropriate Code response. The member should also announce his location when time or circumstances permit. (*i.e.* "Central K12, request cover unit Code-2 to 1512 4th Street" or "Central K12, Code-3 cover to 4th Street and Sherman Avenue").

Responding with emergency light(s) and siren does not relieve the member of the duty to continue to drive with due regard for the safety of all persons. Members who fail to use appropriate warning equipment, are not exempt from following the rules of the road nor is the driver of an authorized emergency or police vehicle relieved from the duty to drive with due regard for the safety of all persons.

314.3 INITIATING CODE 3 RESPONSE

If a member believes a Code 3 response to any call is appropriate, the responding member(s), when appropriate and will not interfere with other radio traffic should broadcast they will be enroute Code 3.

314.4 RESPONSIBILITIES OF RESPONDING OFFICER(S)

Members shall exercise sound judgment and care with due regard for life and property when responding to any call. When responding Code 3 to an emergency call, members shall reduce

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Member Response to Calls

speed at all street intersections to such a degree that they shall have complete control of their vehicle and so that any oncoming traffic is reasonably aware of the member's presence and the need to proceed immediately through the intersection.

The decision to continue a Code 3 response is at the discretion of the member. If, in the member's judgment, the roadway conditions or traffic congestion does not permit such a response without unreasonable risk, the member may elect to respond to the call without the use of lights and siren at the legal speed limit. A member shall also discontinue the Code 3 response when directed by a supervisor.

Upon determining a Code-3 response, the responding member(s), when appropriate and will not interfere with other radio traffic should broadcast the location from which he is responding.

314.5 SUPERVISORY RESPONSIBILITIES

Upon being notified that a Code-3 response has been initiated, the supervisor shall verify the following:

- (a) The proper response has been initiated.
- (b) No more than those units reasonably necessary under the circumstances are involved in the response.
- (c) Affected outside jurisdictions are being notified as practical.

The supervisor shall monitor the response until it has been stabilized or terminated and assert control by directing units into or out of the response if necessary. If, in the supervisor's judgment, the circumstances require additional units to be assigned a Code-3 response, the supervisor may do so.

It is the supervisor's responsibility to terminate a Code-3 response that, in his judgment is inappropriate due to the circumstances.

When making the decision to authorize a Code-3 response, the supervisor should consider the following:

- The type of call.
- The necessity of a timely response.
- Traffic and roadway conditions.
- The location of the responding units.

314.6 FAILURE OF EMERGENCY EQUIPMENT

If the emergency equipment on the vehicle should fail to operate, the member must terminate the Code-3 response and respond accordingly. The member shall notify a supervisor and/or Central of the equipment failure so that another unit may be assigned to the emergency response if necessary.

Canines

315.1 PURPOSE AND SCOPE

This policy establishes guidelines for the use of canines to augment law enforcement services in the community, including but not limited to locating individuals and contraband and apprehending criminal offenders.

315.1.1 CANINE UNIT MEMBERS AND SUPERVISORS

The department may have a Canine Unit that utilizes handlers and canines that are trained specifically in narcotics detection, apprehension, tracking or a combination of those abilities.

- **Canine Handler** - Canine Handlers may only hold the rank of Police Officer and will be assigned to the Uniformed Patrol Division.
- **Canine Administrator** - The Canine Administrator will be a Patrol Lieutenant assigned to the Operations Division unless otherwise designated.
- **Canine Supervisor** - The Canine Supervisor will be a Sergeant assigned to the Uniformed Patrol Division unless otherwise designated.

315.1.2 CANINE HANDLER SELECTION PROCESS

Canine Handlers will be selected based on the following:

- Have standard or above standard evaluations within the previous two evaluation cycles.
- Successful completion of an oral interview and Idaho POST physical fitness test.
- Reside in an adequately fenced (*minimum 6 foot high fence with locking gates*) single-family residence; or if not fenced, be able to adequately secure a department approved kennel.
- Maintain an enclosed chain-link kennel provided by the department.

- Reside within 30 minutes travel time from the city limits of Coeur d'Alene.
- Recommendations and/or feedback from immediate supervisors.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Canines

- The Chief of Police will approve final selection of a Canine Handler based on recommendations from the Operations Division Commander, Canine Supervisor and Canine Administrator

315.1.3 CANINE SUPERVISOR

The Canine Supervisor will be selected by the Operations Division Commander and shall be a Sergeant assigned to the Uniformed Patrol Division unless otherwise designated.

The Canine Supervisor shall have the responsibility of, but not limited to the following:

- (a) Conducting Canine Unit meetings.
- (b) Monitoring and evaluating individual canine handler performance.
- (c) Reviewing all Canine Use Reports to ensure compliance with policy, laws or criminal procedure.
- (d) Maintain liaison with any canine vendors.
- (e) Maintain liaison with other Uniformed Patrol Supervisors, Canine Administrator and Operations Division Commander.
- (f) Maintain liaison with other law enforcement agency canine units.
- (g) Maintain accurate records to document canine use, training and other activities.
- (h) Recommend and oversee the procurement of needed equipment and services for the Canine Unit.
- (i) Schedule all Canine Unit related activities outside of the handlers normal assigned patrol shift.
- (j) Ensure the canine handlers are scheduled for continuous training to maximize the capabilities of the handlers and canines.
- (k) Conduct inspections of kennels and equipment.
- (l) Procure and conduct audits of training aids, to include the evaluation and replacement of such aids.

315.1.4 CANINE ADMINISTRATOR

The Canine Administrator will be a Lieutenant assigned to the Operations Division unless otherwise designated, and shall monitor the overall progress of the Canine Unit and act as a liaison between the Canine Supervisor and the Operations Division Commander.

315.1.5 REQUIRED SERVICE YEARS OF CANINE HANDLER

Once selected as a Canine Handler, that member will be expected to remain assigned to the Canine Unit for the service life of the canine. The only exceptions to this requirement will be:

- Opportunity for promotion and the appointment to the rank of Sergeant; or

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Canines

- Upon approval of the Chief of Police, Operations Division Commander, and the Canine Administer to resign as a Canine Handler; or
- Removed for disciplinary reasons.

It is recognized that canine handlers have special knowledge and skills associated with canines. At the end of the service life of the canine, the handler will be evaluated by the Canine Supervisor and Canine Administrator to remain as a canine handler and a new canine issued to the handler if the handler so desires and the department needs for a new canine.

315.1.6 ASSIGNMENT OF CANINE HANDLERS

The Canine Unit will be assigned to the Uniformed Patrol Division in the Operations Division. Canine handlers will be assigned to patrol shifts to function primarily as cover units, however, they may be assigned by the Shift Commander to act as primary units or perform other functions based on the needs of the shift.

Canine handlers should not be assigned to handle matters that will take them out of service for extended periods of time unless absolutely necessary.

315.1.7 TRAINING AND CERTIFICATION

Prior to assignment in the field, each canine and canine handler shall be trained and have received applicable Idaho POST certifications.

Each canine and canine handler shall also maintain their certification requirements and standards. Handlers and/or canines not meeting those requirements or standards shall not operate as a canine unit until such requirements or standards are met and the handler may be temporarily reassigned to normal patrol officer duties otherwise advised by the Canine Supervisor, Canine Administrator or Operations Division Commander. Failure of the canine or handler to meet certification requirements or standards after two attempts may result in the canine being removed from service and the handler being reassigned.

Each canine and handler shall continue in-service training after initial certification is obtained.

- All Canine Unit training shall be conducted on duty unless otherwise approved by the Canine Supervisor or Canine Administrator.
- To ensure training is consistent, no handler, trainer or outside vendor is authorized to train to a standard that is contrary to the policies of this department or Idaho POST certification standards and requirements for the particular canine usage.
- Handler training should be no less than three shifts per month for narcotic-detection trained canines and four shifts per month for apprehension or dual purpose trained canines in order to keep training of both the handler and canine current. In the event that three shifts of training per month for narcotic-detection-trained canines or four shifts per month for apprehension or dual purpose canines does not occur, additional training may be deemed necessary by the Canine Supervisor and scheduled accordingly.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Canines

315.1.8 TRAINING RECORDS

All canine and canine handler training records shall be maintained in a training file specific for each canine.

315.2 GUIDELINES FOR THE USE OF APPREHENSION CANINES

These guidelines shall be followed for the use of a department owned apprehension canine. In the event this department does not own or immediately have access to our own apprehension canine, and require or request the use of another law enforcement agency's apprehension canine, the agency requested will follow their own policy and procedures regarding the use of the canine.

A canine may be used to locate and apprehend a suspect if the canine handler reasonably believes that the individual has either committed or threatened to commit a violent felony and if any of the following conditions exist:

- (a) There is a reasonable belief that the individual poses an imminent threat of violence or serious harm to the public, any member or the handler.
- (b) The individual is physically resisting arrest by actively fighting officers and the use of a canine reasonably appears to be necessary to overcome such resistance. Merely struggling against the officers control or running away is not sufficient justification for the use of the canine.
- (c) The individual is believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of members or the public.

It is recognized that situations may arise that do not fall within the provisions set forth in this policy. Such events require consideration of the totality of the circumstances and the use of an objective reasonableness standard applied to the decision to use a canine..

If the canine has apprehended the suspect with a secure bite, and the handler believes that the suspect no longer meets the criteria for apprehension, the handler should promptly remove the canine from the suspect.

315.2.1 PREPARATIONS FOR UTILIZING AN APPREHENSION CANINE

Prior to the use of a canine to search for or apprehend any individual, the canine handler and/or the supervisor on scene should carefully consider all pertinent information that is reasonably available at the time. The information should include, but is not limited to the following:

- The suspect's known or perceived age.
- The nature of the suspected offense.
- Whether violence or weapons were used or anticipated.
- Any potential danger to the public and/or other members at the scene if the canine is released.
- The degree of resistance or threatened resistance, if any, the subject has shown (*i.e. verbal threats, threat or display of weapon, drug use, mental state*).
- The potential for escape or flight if the canine is not utilized.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Canines

- The potential for injury to members or the public caused by the suspect if the canine is not utilized.

As circumstances permit, the canine handler should make every reasonable effort to communicate and coordinate with other involved members to minimize the risk of unintended injury.

It is the canine handler's responsibility to evaluate each situation and determine whether the use of a canine is appropriate and reasonable. The canine handler shall have the authority to decline the use of the canine whenever he/she deems deployment is unsuitable.

A supervisor who is sufficiently apprised of the situation may prohibit deploying the canine.

Unless otherwise directed by a supervisor, assisting members should take direction from the handler in order to minimize interference with the canine.

315.2.2 WARNINGS GIVEN TO ANNOUNCE THE USE OF A CANINE

Unless it would otherwise increase the risk of injury or escape, a clearly audible warning to announce that a canine will be released if the person does not come forth, shall be made prior to releasing a canine. In the event of an apprehension, the investigating member(s) and handler shall document in any related report whether or not a verbal warning was given and, if none was given, the reasons why.

315.2.3 USE OF NARCOTIC-DETECTION CANINES

A narcotic-detection-trained canine may be used in accordance with current case law under the following circumstances:

- To assist in the search for narcotics during a search warrant service.
- To obtain a search warrant by using the detection canine in support of probable cause.
- To search aircraft, vehicles, buildings, bags, parcels, clothing not on a person(s) and any other articles deemed necessary.
- A narcotic-detection canine will not be used to search a person for narcotics.

315.2.4 GUIDELINES FOR NON-APPREHENSION USE

These guidelines shall be followed for the use of a department owned canine trained in non-apprehension, tracking or searching. In the event this department does not own or immediately have access to our own such canine, and require or request the use of another law enforcement agency's canine, the agency requested will follow their own policy and procedures regarding the use of the canine.

Because canines have senses far superior to those of humans, they may often be effectively utilized to track or search for non-criminals (*i.e. lost children, individuals who may be disoriented or in need of medical attention*). In such circumstances, it will be necessary for the handler to evaluate the conditions and the ability of the canine to determine the feasibility of such an application.

- (a) Absent a change in circumstances that present an immediate threat to members, the canine or the public, such applications should be conducted on leash or under

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Canines

conditions that will minimize the likelihood that the canine will bite or otherwise injure the individual.

- (b) Assisting members should take direction from the handler in order to minimize interference with the canine. A supervisor may control other members, but should be aware of the canine's location.

315.2.5 REPORTING CANINE USE, BITES AND INJURIES

Whenever a Department owned canine is deployed, the criminal incident report shall be completed by the handler and turned in to a Supervisor before going off duty. The Canine Use Report/PackTracks shall be completed by the handler by the end of their workweek.

If an intentional bite or injury results from the use of a department owned canine, the Shift Commander and the Canine Supervisor and/or Canine Administrator shall be notified as soon as practical and the injuries documented in a supplemental report by the handler. Notification of other personnel will be consistent with the policy regarding "Major Incident Notification." The Shift Commander and/or the Canine Supervisor/Canine Administrator shall complete a separate Use of Force Report as set forth in Policy Manual 300.5.3. If an intentional bite or injury results from the use of another agency canine that was deployed at the request of our department, the Shift Commander shall be notified as soon as practical and the Shift Commander shall complete a separate Use of Force Report and ensure photographs are taken as soon as practical.

- (a) In all cases of bites or injury resulting from the use of a department owned canine, photographs should be taken of the bite or injury as soon as practical by the handler after first tending to the immediate needs for medical treatment of the injured person. The canine handler should also attempt to obtain a signed medical release form from the injured person.
 1. The photographs will be labeled under the Use of Force Report number for the incident and uploaded into VIPER.
 2. It is the responsibility of the Unit Supervisor to ensure that such photographs are retained until the potential need for use in any related civil proceeding has expired.
- (b) If an injury occurs, medical personnel shall be requested to respond to the scene for an evaluation and treatment. The subject shall be transported to the hospital for additional evaluation, treatment and medical clearance. In the event an in-custody suspect requires medical attention, a member shall standby with the suspect until treatment has been rendered.
- (c) If a subject alleges an injury that is not visible, notification should be made to a supervisor and the location of the alleged injury should be photographed. Any claim of injury by the subject shall result in the subject being transported to the hospital for evaluation, treatment and medical clearance.

315.2.6 REPORTING CANINE INJURIES

In the event that a department owned canine is injured, the injury will be immediately reported to the Shift Commander. The Canine Supervisor and Canine Administrator will be notified as soon as practicable.

Medical care for any injured canine should follow the protocol established in Policy §315.5.2.

The injury will be documented in a supplemental report if the injury occurred during an incident. In the event the injury occurred in a non-incident, a memo shall be prepared and forwarded to the Canine Supervisor detailing the events of the incident.

315.3 ASSIGNMENT

Canine teams should be assigned to assist and supplement the Patrol Division to function primarily in assist or cover assignments. However, they may be assigned by the Shift Commander to other functions, such as routine calls for service, based on the current operational needs.

Canine teams should generally not be assigned to handle routine matters that will take them out of service for extended periods of time. If such assignment is necessary, it should only be made with the approval of the Shift Commander.

315.3.1 REQUEST FOR ASSISTANCE FROM OTHER AGENCIES

The Shift Commander, Canine Supervisor or Canine Administrator must approve all requests for canine assistance from outside agencies subject to the following provisions:

- (a) Canine teams should not be used for any assignment that is not consistent with this policy.
- (b) The handler may provide information if the canine should or shouldn't be used for any specific assignment and shall have the final authority in any decision as to whether or not to deploy the canine.
- (c) Canine teams should not be called out while off-duty or used outside the jurisdiction of the City of Coeur d'Alene unless authorized by the Shift Commander or the Canine Supervisor and/or Canine Administrator.
- (d) It shall be the responsibility of the canine handler to coordinate with the outside agency.

315.3.2 REQUEST FOR PUBLIC DEMONSTRATIONS

Requests for public demonstrations of a canine shall be forwarded to the Canine Supervisor and Canine Administrator for approval.

315.4 REQUESTS FOR CANINE TEAMS

Patrol Division members are encouraged to request the use of a canine. Requests for a canine team from department units outside of the Patrol Division shall be reviewed by the Shift Commander.

315.4.1 PUBLIC DEMONSTRATION

All public requests for a canine team shall be reviewed and, if appropriate, approved by the canine supervisor prior to making any resource commitment. The canine supervisor is responsible for

Coeur d'Alene Police Department

Canines

obtaining resources and coordinating involvement in the demonstration to include proper safety protocols. Canine handlers shall not demonstrate any apprehension work unless authorized to do so by the canine supervisor.

315.4.2 CANINE IN PUBLIC AREAS

All canines shall be kept on a leash when in areas that allow access to the public. Exceptions would include specific police operations for which the canines are trained.

- (a) Canines shall not be left unattended in any area to which the public may have access.
- (b) When the canine unit is left unattended all windows and doors shall be secured in such a manner as to prevent unauthorized access to the dog. The handler shall also insure that the unattended unit remains inhabitable for the canine.
- (c) The handler shall not allow any person to approach the dog without the handler's approval.

315.4.3 HANDLER COMPENSATION

The Canine Handler shall be compensated for time spent in the care, feeding, grooming and other needs of the dog as provided in the Fair Labor Standards Act.

315.5 EMERGENCY MEDICAL CARE

The handler should notify the Canine Supervisor or Canine Administrator as soon as practicable when emergency medical care for the canine is required.

Depending on the severity of the illness or injury, the canine should either be treated by the designated veterinarian or transported to a designated emergency veterinarian facility for treatment. If the handler and dog are out of the area, the handler may use the nearest available veterinarian.

315.6 HANDLER RESPONSIBILITIES

The canine handler shall ultimately be responsible for the health and welfare of the canine and shall ensure that the canine receives proper nutrition, grooming, training, medical care, affection, and living conditions.

The canine handler will be responsible for the following:

- (a) Except as required during appropriate deployment, the handler shall not expose the canine to any foreseeable and unreasonable risk of harm.
- (b) The handler shall maintain all department equipment under his/her control in a clean and serviceable condition.
- (c) When not in service, the handler shall maintain the canine vehicle in a locked garage, away from public view.
- (d) When a handler is off-duty for an extended number of days, the assigned canine vehicle should be stored at the Coeur d'Alene Police Department facility.

- (l) The handler will immediately submit any medical documentation and/or other administrative documentation received for the canine, to the canine supervisor.

315.7 DISPOSITION OF CANINES WHEN CONSIDERED NO LONGER SERVICEABLE

Whenever a canine handler is transferred or otherwise leaves the Canine Unit, the canine assigned to him will remain the property of the City of Coeur d'Alene and under the control of the department. The decision as to the serviceability of any canine will be determined by the Canine Supervisor. Canines which are still serviceable may be assigned to a new handler.

Canines considered to be unserviceable and of no further value to the department will be surplus by the department. If the canine is to be surplus, the person obtaining the canine shall be required to waive any liability and release the City of Coeur d'Alene, the Police Department, the Canine Unit and its members from any and all liability or responsibility for concerns of such canine from that date forward.

The person receiving the canine must, as a condition of receipt of the canine, immediately relicense the canine in their own name and at their own expense if required by the jurisdiction in which they reside. All pedigree papers will be given to the person receiving the canine.

Any current kennel that has been provided to house the canine will become property of the person who takes possession of the canine.

Civil Matters

316.1 CIVIL MATTERS

Members frequently respond to calls for service that do not involve any crime being committed and are civil in nature. Members should avoid becoming unnecessarily involved in civil matters and may advise the parties involved to seek the advice of legal counsel. The presence of members at such scenes is primarily to keep the peace and to prevent a crime from occurring and not to provide legal advice nor recommend any legal counsel.

Domestic Violence

317.1 PURPOSE AND SCOPE

The purpose of this policy is to provide the guidelines necessary to deter, prevent and reduce domestic violence through vigorous enforcement and to address domestic violence as a serious crime against society. The policy specifically addresses the commitment of this department to take enforcement action when appropriate, to provide assistance to victims and to guide officers in the investigation of domestic violence.

317.2 POLICY

The Coeur d'Alene Police Department's response to incidents of domestic violence and violations of related court orders shall stress enforcement of the law to protect the victim and shall communicate the philosophy that domestic violence is criminal behavior. It is also the policy of this department to facilitate victims' and offenders' access to appropriate civil remedies and community resources whenever feasible.

317.3 OFFICER SAFETY

The following guidelines should be considered and followed by members investigating domestic violence cases:

- (a) Obtain and document as many statements as practical from the victim, suspect and any witnesses, including credible children in the household.
- (b) List the full name and date of birth of each person present in the household at the time of the offense.
- (c) Audio or video record if practical, and document all significant statements and observations within the narrative of the report.
- (d) Members should assist any injured person in obtaining appropriate medical treatment. If a person complains of or displays injuries, obtain a medical evaluation as soon as possible.
- (e) Take photographs of the victim, the suspect and any children witnessing the incident, to include all visible injuries or the lack thereof. Victims whose injuries are not visible at the time of the incident, shall be advised to contact the police department in the event the injuries become visible. When applicable, members should also take photographs of the incident, including any property damage.
- (f) Members shall provide the victim a domestic violence pamphlet which advises the victim of their rights and the availability of shelter and other community resources.
- (g) Members may also assist in arranging transport of the victim to a shelter, and may stand-by for a reasonable amount of time while an involved person requests police assistance to remove essential items of personal property.

Investigation of domestic violence cases places officers in emotionally charged and sometimes highly dangerous environments. No provision of this guideline is intended to supersede the

Coeur d'Alene Police Department

Domestic Violence

responsibility of all officers to exercise due caution and reasonable care in providing for the safety of any officers and parties involved.

317.3.1 MEMBER IMMUNITY AND DISCRETION

Pursuant to Idaho law, no member shall be held criminally or civilly liable for actions or omissions in the performance of the member's duties in investigating incidents of domestic violence as long as the member acts in good faith and without malice. No provision of these guidelines is intended to supersede the responsibility of members to exercise reasonable care for the safety of any members or parties involved.

In the event a member, in their discretion, determines there is insufficient evidence to justify arresting or issuing a citation to the persons involved in the incident, the member shall provide the domestic violence pamphlet and document the incident in a written report which shall be forwarded to the proper prosecuting attorney's office for review.

317.3.2 DEFINITION

 3. A clear delineation of assignments.

Search and Seizure

318.1 PURPOSE AND SCOPE

Case law regarding search and seizure is ever changing and frequently subject to interpretation under the varying facts of each situation. Specific situations should be handled according to current training and a member's familiarity with clearly established case law.

318.2 POLICY

- (a) Members of this Department will conduct person searches with dignity and courtesy.
- (b) Members of this Department will conduct property searches in a manner that returns the condition of the property to its pre-search status as nearly as reasonably practical.
- (c) Members of this Department should attempt to gain keys to locked property when a search is anticipated and the time and effort required to gain the keys makes it a practical option.
- (d) When the person to be searched is of the opposite sex, a sworn member of the like sex should be summoned to the scene to conduct the search, if practical.
- (e) A search may be undertaken of a person of the opposite sex when it is not practical to summon a sworn member of the like sex. In these instances the members will adhere to the following guidelines:
 1. A supervisor and/or one other member should witness the search, if practical.
 2. Members will use the back side of their hands and fingers to search sensitive areas of the opposite sex to include the breast, crotch and buttocks areas.
- (f) The member will explain to the person being searched the reason for the search and how the member will conduct the search.
- (g) Prisoners should be searched each time they come into a transporting member's custody.

318.3 SEARCHES

The U.S. Constitution generally provides that a valid warrant is required in order for a search to be valid. There are, however, several exceptions that permit a warrantless search.

Examples of law enforcement activities that are exceptions to the general warrant requirement include, but are not limited to, searches pursuant to the following:

- Valid consent
- Incident to a lawful arrest. Arrest defined pursuant to [Idaho Code 19-601](#)
- Legitimate community caretaking interests
- Vehicle searches under certain circumstances

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Search and Seizure

- Exigent circumstances

Certain other activities are recognized by federal and state courts and by certain statutes as legitimate law enforcement activities that also do not require a warrant. Such activities may include seizure and examination of abandoned property, and observations of activities and property located on open public areas.

Because case law regarding search and seizure is constantly changing and subject to interpretation by the courts, each member of this department is expected to act in each situation according to current training and his/her familiarity with clearly established rights as determined by case law.

Whenever practicable, officers are encouraged to contact a supervisor to resolve questions regarding search and seizure issues prior to electing a course of action.

318.4 SEARCH PROTOCOL

Strip Search: The removal or rearrangement of some or all of the clothing of any person to permit a visual inspection of that person's genitals, buttocks, anus, female breasts or undergarments.

No member of this department shall conduct a strip search of any person, with the following exceptions:

- (a) **Confidential Informants:** Consensual strip searches of cooperative confidential informants being utilized in an undercover operation may be necessary by department members to ensure the informant is not carrying weapons that could endanger any members of law enforcement during an operation and/or to ensure the informant is not concealing any currency or narcotics obtained in connection to the operation. Additionally, department members shall:
 1. Notify the department the appropriate Supervisor, of the need to conduct a strip search of an informant;
 2. Explain to the informant:
 - (a) The reason for the strip search.
 - (b) That such search is strictly voluntary.
 - (c) The informant can have the search stopped at any time.
 3. Give the informant the opportunity to tell the member if any weapon is concealed and if so, where it is concealed;
 4. Have such strip search conducted by a member of the same sex as the person being searched and have one other department member or other law enforcement agency member, preferably of the same sex as the informant, present during the search;
 5. Conduct such search in a secure area and isolated from the view of unauthorized persons;
 6. Not touch any body cavity, other than the mouth, nor fondle the buttocks, genitalia or breasts;

 - (c) The reasons less intrusive methods of searching were not used or were insufficient.
 - (d) The date, time and location of the search.
 - (e) A list of the items, if any, recovered during the search.
 9. No photographs or video of the strip search shall be taken.
- (b) In the event that any sworn member of this department, upon arresting and/or transporting any person to the jail or other detention facility, has reason to believe the person arrested may be concealing weapons or contraband in or under their clothing that can not be reasonably searched without exposing their genitals, buttocks, anus, breasts or undergarments shall notify the jail or detention staff of such concern. Jail staff can then initiate their own procedures for dealing with inmates in their custody.
- (c) If the member believes this person cannot be safely transported and believes it is imperative an immediate strip search needs to be conducted, the member shall:
- (a) Attempt to obtain lawful consent, which shall be in writing and/or recorded via video and/or audio, and if such consent is given, proceed with the search as described above for confidential informants; or

Jail or detention staff may initiate their own procedures for dealing with inmates in their custody.

Temporary Custody of Juveniles

319.1 PURPOSE AND SCOPE

This policy provides guidelines consistent with the Juvenile Justice and Delinquency Prevention Act for juveniles taken into temporary custody by members of the Coeur d'Alene Police Department (34 USC § 11133).

319.2 CUSTODY OF JUVENILES

Officers should take custody of a juvenile and temporarily hold the juvenile at the Coeur d'Alene Police Department when there is no other lawful and practicable alternative to temporary custody. Refer to the Child Abuse Policy for additional information regarding detaining a juvenile that is suspected of being a victim.

No juvenile should be held in temporary custody at the Coeur d'Alene Police Department without authorization of the arresting officer's supervisor or the Shift Commander.

Any juvenile taken into custody shall be released to the care of the juvenile's parent or other responsible adult or transferred to a juvenile custody facility or to other authority as soon as practicable and in no event shall a juvenile be held beyond six hours from the time of his/her entry into the Coeur d'Alene Police Department (34 USC § 11133).

319.2.1 CUSTODY OF JUVENILE OFFENDERS

Juvenile offenders should be held in non-secure custody while at the Coeur d'Alene Police Department unless another form of custody is authorized by this policy or is necessary due to exigent circumstances.

Generally, juvenile offenders may be taken into custody (Idaho Code 20-516):

- (a) When there is probable cause to believe the juvenile has committed an act which would be a misdemeanor or felony if committed by an adult without a warrant.
- (b) When, in the presence of an officer or private citizen, the juvenile has violated any local, state or federal law or municipal ordinance.
- (c) Upon written order or warrant signed by a judge (such as a detention order).

As soon as practicable after the juvenile is taken into custody, the officer shall notify the parents, guardian or other person responsible for the juvenile.

The officer taking the juvenile into custody shall release the juvenile to the custody of his/her parents, guardian or other responsible person in this state, unless the court has issued a warrant of arrest/detention or there is probable cause to believe that the welfare of the juvenile or others may be endangered by his/her release (Idaho Code 20-516).

If a juvenile is taken into custody and not released to the parent, guardian or other responsible person and the juvenile court has not instructed that he/she be released to an authorized person, the officer shall take the juvenile to the Juvenile Detention facility, shelter care or public or private agency designated by the court and notify the court that the juvenile has been taken into custody.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Temporary Custody of Juveniles

If a juvenile is taken to the police department, at no time should an adult prisoner be within sight or sound of the juvenile. An officer shall closely monitor the juvenile at all times in an unsecured room or area (i.e. interview rooms).

Except where the juvenile is taken into custody under an order of the court, the officer taking the juvenile into custody shall promptly complete a report detailing the circumstances and actions taken. A copy of the completed report shall be sent to the juvenile prosecuting attorney's office and this department's juvenile detention unit.

319.3 USE OF RESTRAINT DEVICES

Juvenile offenders may be handcuffed in accordance with Policy §311 Handcuff Policy. Other restraints shall only be used after less restrictive measures have failed. Restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others. The use of restraints shall be documented in the member's incident report.

319.4 INTERVIEWING OR INTERROGATING JUVENILE SUSPECTS

No interview or interrogation of a juvenile should occur unless the juvenile has the apparent capacity to consent, and does consent to an interview or interrogation after being advised of their Miranda Warnings, if applicable.

319.5 RECORDS OF JUVENILES

Records of juveniles shall be kept separate from records of adults and shall be subject to disclosure according to Chapter 3, Title 9 of the Idaho Code (Idaho Code 20-516).

319.6 SHELTERING OF CHILDREN (EMERGENCY REMOVAL)

- When the child is endangered and prompt removal is necessary to prevent physical or mental injury of the child;
- When a child is abandoned;
- Upon order of the Court that a child be removed and placed into shelter care.

Adult Abuse

320.1 MANDATORY NOTIFICATION

Members of the Coeur d'Alene Police Department shall notify the Idaho Commission on Aging (ICOA)'s local adult protective services provider when there is reasonable cause to believe that maltreatment of a vulnerable adult has occurred (Idaho Code 39-5303).

The following definitions apply to mandatory notification (Idaho Code 39-5302):

- Neglect means failure of a caregiver to provide food, clothing, shelter, or medical care, the absence of which impairs or threatens sustainable life or health of a vulnerable adult.
- Financial exploitation means an action which may include but is not limited to the illegal or improper use, control, or withholding of a vulnerable adult's financial assets by another person for profit or advantage other than the vulnerable adult's profit or advantage.
- Maltreatment means the intentional or negligent infliction of pain or injury upon a vulnerable adult, including financial exploitation, human trafficking, neglect, physical abuse, psychological abuse, or sexual abuse.
- Vulnerable adult is an adult who is unable to protect themselves from abuse, neglect, or financial exploitation due to:
 - A mental, physical, or developmental disability.
 - A degenerative brain disease.
 - An inability to communicate or implement decisions regarding the vulnerable adult's person.
 - Other infirmities of aging if the person is 65 years of age or older.

320.2 PROTECTIVE CUSTODY

Before taking an adult abuse victim into protective custody when facts indicate the adult may not be able to care for themselves, the officer should make reasonable attempts to contact an ICOA adult protective services provider. Generally, removal of an adult abuse victim from their family, guardian, or other responsible adult should be left to the welfare authorities when they are present or have become involved in an investigation.

Generally, members of this department should remove an adult abuse victim from their family or guardian without a court order only when no other effective alternative is reasonably available and immediate action reasonably appears necessary to protect the victim. Prior to taking an adult abuse victim into protective custody, the officer should take reasonable steps to deliver the adult to another qualified legal guardian, unless it reasonably appears that the release would endanger the victim or result in abduction. If this is not a reasonable option, the officer shall ensure that the adult is delivered to an ICOA adult protective services provider.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Adult Abuse

Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking an adult abuse victim into protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking the adult into protective custody.

When adult abuse victims are under state control, have a state-appointed guardian or there are other legal holdings for guardianship, it may be necessary or reasonable to seek a court order on behalf of the adult victim to either remove the adult from a dangerous environment (protective custody) or restrain a person from contact with the adult.

320.2.1 ICOA ASSISTANCE

An officer shall cooperate with ICOA and adult protective services providers when assistance is requested and the officer reasonably believes an emergency exists which requires immediate entry on public or private property to ensure the safety of a vulnerable adult who is allegedly being maltreated. Assistance may also include transporting the vulnerable adult to a medical facility, care-providing facility, or other appropriate and safe environment (Idaho Code 39-5305).

320.3 INTERVIEWS

320.3.1 PRELIMINARY INTERVIEWS

Absent extenuating circumstances or impracticality, officers should audio/video record the preliminary interview with a suspected adult abuse victim. Officers should avoid multiple interviews with the victim and should attempt to gather only the information necessary to begin an investigation. When practicable, investigating officers should defer interviews until a person who is specially trained in such interviews is available.

320.3.2 DETAINING VICTIMS FOR INTERVIEWS

An officer should not detain an adult involuntarily who is suspected of being a victim of abuse solely for the purpose of an interview or physical exam without his/her consent or the consent of a guardian unless one of the following applies:

- (a) Exigent circumstances exist, such as:
 - 1. A reasonable belief that medical issues of the adult need to be addressed immediately.
 - 2. A reasonable belief that the adult is or will be in danger of harm if the interview or physical exam is not immediately completed.
 - 3. The alleged offender is a family member or guardian and there is reason to believe the adult may be in continued danger.
- (b) A court order or warrant has been issued.

320.4 MEDICAL EXAMINATIONS

When an adult abuse investigation requires a medical examination, the investigating officer should obtain consent for such examination from the victim, guardian, agency or entity having legal custody of the adult. The officer should also arrange for the adult's transportation to the appropriate medical facility.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Adult Abuse

In cases where the alleged offender is a family member, guardian, agency or entity having legal custody and is refusing to give consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the adult for a medical examination, the supervisor should consider other government agencies or services that may obtain a court order for such an examination.

320.5 DRUG-ENDANGERED VICTIMS

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and longer-term medical and safety needs of an adult abuse victim who has been exposed to the manufacturing, trafficking or use of narcotics.

320.5.1 SUPERVISOR RESPONSIBILITIES

The Investigation Section supervisor should:

- (a) Work with professionals from the appropriate agencies, including ICOA, other law enforcement agencies, medical service providers and local prosecutors, to develop community-specific procedures for responding to situations where there are adult abuse victims endangered by exposure to methamphetamine labs or the manufacture and trafficking of other drugs.
- (b) Activate any available interagency response when an officer notifies the Investigation Section supervisor that he/she has responded to a drug lab or other narcotics crime scene where an adult abuse victim is present or where evidence indicates that an adult abuse victim lives.
- (c) Develop a report format or checklist for use when officers respond to drug labs or other narcotics crime scenes. The checklist will help officers document the environmental, medical, social and other conditions that may affect the adult.

320.5.2 OFFICER RESPONSIBILITIES

Officers responding to a drug lab or other narcotics crime scene where an adult abuse victim is present or where there is evidence that an adult abuse victim lives should:

- (a) Document the environmental, medical, social and other conditions of the adult, using photography as appropriate and the checklist or form developed for this purpose.
- (b) Notify the Investigation Section supervisor so an interagency response can begin.

320.6 STATE MANDATES AND OTHER RELEVANT LAWS

Idaho requires or permits the following:

320.6.1 RECORDS SECTION RESPONSIBILITIES

Child Abuse Reporting

322.6 PROTECTIVE CUSTODY

Before taking any child into protective custody, the officer should make reasonable attempts to contact the Department of Health and Welfare. Generally, removal of a child from his/her family, guardian or other responsible adult should be left to the child welfare authorities when they are present or have become involved in an investigation.

Generally, members of this department should remove a child from his/her parent or guardian without a court order only when no other effective alternative is reasonably available and immediate action reasonably appears necessary to protect the child. Prior to taking a child into protective custody, the officer should take reasonable steps to deliver the child to another qualified parent or legal guardian, unless it reasonably appears that the release would endanger the child or result in abduction. If this is not a reasonable option, the officer shall ensure that the child is delivered to the Department of Health and Welfare.

Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking a child into protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking a child into protective custody.

Children may only be removed from a parent or guardian in the following situations:

- (a) When a court order has been issued authorizing the removal of the child
- (b) Without a court order, when a child is abandoned or endangered and prompt removal is necessary to prevent serious physical or mental injury to the child (Idaho Code 16-1608)

322.6.1 PROCEDURE

When a child is taken into emergency protective custody without a court order, the officer shall immediately take the following actions (Idaho Code 16-1609):

- (a) Take the child to a place of approved shelter.
- (b) Notify the court of the action taken and the place to which the child was taken.
- (c) Except in the case of child abandonment, notify each of the parents, guardian or other legal custodian that the child has been taken into shelter care, the type and nature of shelter care, and that the child may be held for a maximum of 48 hours, excluding Saturdays, Sundays and holidays, and that within which time there must be a shelter care hearing pursuant to Idaho Code 16-1615.

322.6.2 SAFE HAVEN ACT PROVISIONS

If a child has been abandoned pursuant to the Idaho Safe Haven Act, the investigating officer shall take protective custody of the child, immediately notify the Department of Health and Welfare and transfer the child to their custody. If the child requires medical evaluation, the child shall be left in the care of a hospital. The officer shall notify the court and prosecutor of the action taken and the location of the child (Idaho Code 39-8204).

322.7 INTERVIEWS

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Child Abuse Reporting

322.7.1 PRELIMINARY INTERVIEWS

Absent extenuating circumstances or impracticality, officers should record the preliminary interview with suspected child abuse victims. Officers should avoid multiple interviews with a child victim and should attempt to gather only the information necessary to begin an investigation. When practicable, investigating officers should defer interviews until a person who is specially trained in such interviews is available. Generally, child victims should not be interviewed in the home or location where the alleged abuse occurred.

322.7.2 DETAINING SUSPECTED CHILD ABUSE VICTIMS FOR AN INTERVIEW

An officer should not detain a child involuntarily who is suspected of being a victim of child abuse solely for the purpose of an interview or physical exam without the consent of a parent or guardian unless one of the following applies:

- (a) Exigent circumstances exist, such as:
 1. A reasonable belief that medical issues of the child need to be addressed immediately.
 2. A reasonable belief that the child is or will be in danger of harm if the interview or physical exam is not immediately completed.
 3. The alleged offender is the custodial parent or guardian and there is reason to believe the child may be in continued danger.
- (b) A court order or warrant has been issued.

322.7.3 AUDIO AND VIDEO RECORDING OF INVESTIGATIVE INTERVIEWS

Unless otherwise demonstrated by good cause, all investigative interviews of alleged child abuse victims shall be documented by audio or video recording (Idaho Code 16-1618).

322.8 MEDICAL EXAMINATIONS

If the child has been the victim of abuse that requires a medical examination, the investigating officer should obtain consent for such examination from the appropriate parent, guardian or agency having legal custody of the child. The officer should also arrange for the child's transportation to the appropriate medical facility.

In cases where the alleged offender is the custodial parent or guardian and is refusing consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the child for a medical examination, the notified supervisor should consider obtaining a court order for such an examination.

322.9 DRUG-ENDANGERED CHILDREN

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and longer-term medical and safety needs of children exposed to the manufacturing, trafficking or use of narcotics.

326.3 PRIVACY EXPECTATION

Members forfeit any expectation of privacy with regard to emails, texts or anything published, shared, transmitted or maintained through file-sharing software or any Internet site that is accessed, transmitted, received or reviewed on any department computer system.

The Department reserves the right to access, audit and disclose, for whatever reason, any message, including attachments, and any information accessed, transmitted, received or reviewed over any technology that is issued or maintained by the Department, including the department email system, computer network and/or any information placed into storage on any department system or device. This includes records of all keystrokes or Web-browsing history made at any department computer or over any department network. The fact that access to a database, service or website requires a username or password will not create an expectation of privacy if it is accessed through department computers, electronic devices or networks.

Information Technology Use

326.4 RESTRICTED USE

Members shall not access computers, devices, software or systems for which they have not received prior authorization or the required training. Members shall immediately report unauthorized access or use of computers, devices, software or systems by another member to their supervisors or Shift Commanders.

Members shall not use another person's access passwords, logon information and other individual security data, protocols and procedures unless directed to do so by a supervisor.

326.4.1 SOFTWARE

Members shall not copy or duplicate any copyrighted or licensed software except for a single copy for backup purposes in accordance with the software company's copyright and license agreement.

To reduce the risk of a computer virus or malicious software, members shall not install any unlicensed or unauthorized software on any department computer. Members shall not install personal copies of any software onto any department computer.

When related to criminal investigations, software program files may be downloaded only with the approval of the information systems technology (IT) staff and with the authorization of the Chief of Police or the authorized designee.

No member shall knowingly make, acquire or use unauthorized copies of computer software that is not licensed to the Department while on department premises, computer systems or electronic devices. Such unauthorized use of software exposes the Department and involved members to severe civil and criminal penalties.

Introduction of software by members should only occur as part of the automated maintenance or update process of department- or City-approved or installed programs by the original manufacturer, producer or developer of the software.

Any other introduction of software requires prior authorization from IT staff and a full scan for malicious attachments.

326.4.2 HARDWARE

Access to technology resources provided by or through the Department shall be strictly limited to department-related activities. Data stored on or available through department computer systems shall only be accessed by authorized members who are engaged in an active investigation or assisting in an active investigation, or who otherwise have a legitimate law enforcement or department-related purpose to access such data. Any exceptions to this policy must be approved by a supervisor.

326.4.3 INTERNET USE

Internet access provided by or through the Department shall be strictly limited to department-related activities. Internet sites containing information that is not appropriate or applicable to department use and which shall not be intentionally accessed include, but are not limited to, adult forums, pornography, gambling, chat rooms and similar or related Internet sites. Certain

Downloaded information shall be limited to messages, mail and data files.

326.4.4 OFF-DUTY USE

Members shall only use technology resources provided by the Department while on-duty or in conjunction with specific on-call assignments unless specifically authorized by a supervisor. This includes the use of telephones, cell phones, texting, email or any other "off the clock" work-related activities. This also applies to personally owned devices that are used to access department resources.

326.5 INSPECTION OR REVIEW

A supervisor or the authorized designee has the express authority to inspect or review the computer system, all temporary or permanent files, related electronic systems or devices, and any contents thereof, whether such inspection or review is in the ordinary course of his/her supervisory duties or based on cause.

Reasons for inspection or review may include, but are not limited to, computer system malfunctions, problems or general computer system failure, a lawsuit against the Department involving one of its members or a member's duties, an alleged or suspected violation of any department policy, a request for disclosure of data, or a need to perform or provide an agency service.

The IT staff may extract, download or otherwise obtain any and all temporary or permanent files residing or located in or on the department computer system when requested by a supervisor or during the course of regular duties that require such information.

326.6 PROTECTION OF AGENCY SYSTEMS AND FILES

All members have a duty to protect the computer system and related systems and devices from physical and environmental damage and are responsible for the correct use, operation, care and maintenance of the computer system.

Members shall ensure department computers and access terminals are not viewable by persons who are not authorized users. Computers and terminals should be secured, users logged off and password protections enabled whenever the user is not present. Access passwords, logon information and other individual security data, protocols and procedures are confidential information and are not to be shared. Password length, format, structure and content shall meet the prescribed standards required by the computer system or as directed by a supervisor and shall be changed at intervals as directed by IT staff or a supervisor.

It is prohibited for a member to allow an unauthorized user to access the computer system at any time or for any reason. Members shall promptly report any unauthorized access to the computer system or suspected intrusion from outside sources (including the Internet) to a supervisor.

Report Preparation

327.1 PURPOSE AND SCOPE

The purpose of reports is to document sufficient information to refresh the member's memory and to provide sufficient information for follow-up investigation and successful prosecution. Additionally this policy will provide guidelines for case closure dispositions in the Spillman System.

327.1.1 REPORT PREPARATION

It is the primary responsibility of the assigned member to ensure that reports are fully prepared or that supervisory approval has been obtained to delay completion of the report before going off duty. The preparing member must ensure the report will be available in time for appropriate action to be taken, such as investigative leads or for finding probable cause when a suspect is in custody.

Citations and handwritten documents associated with reports must be prepared legibly and in blue ink. If it is not prepared legibly, the member will be required by the supervisor to promptly correct the forms or citations when applicable.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Members shall not repress, conceal or distort the facts of any reported incident, nor shall any member make a false report orally or in writing.

327.2 REQUIRED REPORTING

Written reports are required in all of the following situations on the appropriate approved form unless otherwise approved by a supervisor.

327.2.1 CRIMINAL ACTIVITY REPORTING

When a member responds to a call for service, or as a result of self-initiated activity becomes aware a crime has occurred, the member is required to document the incident appropriately. The fact that a victim is not desirous of prosecution is not always an exception to not documenting the incident. The following are examples of required documentation:

- (a) In every instance where a felony has occurred.
- (b) In every instance where a misdemeanor crime has occurred and the victim desires a report.
- (c) In every case where a member uses force.
- (d) All domestic violence related incidents will be documented. In instances where the domestic violence victim does not desire a report be taken, a report will still be completed and the victim's wishes documented in the report.
- (e) All arrests.
- (f) In every instance when an officer conducts a search of a residence or vehicle.
- (g) In every instance when property is damaged or reasonably thought to be damaged by law enforcement actions.

327.2.2 NON-CRIMINAL ACTIVITY

The following incidents shall be documented using the appropriate report form or other applicable format:

- (g) Status offenses.
- (h) Dog bites.
- (i) Animal offenses which result in a citation being issued or follow-up investigation needed.

327.2.3 DEATH CASES

Death investigations require specific investigation methods depending on circumstances and should be handled in accordance with Policy Manual Death Investigations. The responding member should notify a supervisor of the circumstances surrounding the incident. The following cases shall be appropriately investigated and documented using the approved report:

- (a) Sudden or accidental deaths.
- (b) Suicides.
- (c) Homicide or suspected homicide.
- (d) Unattended deaths (*No physician or qualified hospice care*).
- (e) Found dead bodies or body parts.

327.2.4 MISCELLANEOUS INJURIES

Any injury that is reported to this department shall require an incident report when:

- (a) The injury is a result of drug overdose.
- (b) Attempted suicide.
- (c) The injury is a result of the discharge of a firearm, even if accidental.
- (d) The injury is major/serious, whereas death could result.
- (e) The circumstances surrounding the incident are suspicious.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Report Preparation

The above reporting requirements are not intended to be all-inclusive. A supervisor may direct a member to document any incident he deems necessary.

327.3 GENERAL POLICY OF EXPEDITIOUS REPORTING

In general, all members shall act with promptness and efficiency in the preparation and processing of all reports. An incomplete report, unorganized reports or reports delayed without supervisory approval are not acceptable. Reports shall be processed according to established priorities or according to special priority necessary under exceptional circumstances.

327.4 REPORT CORRECTIONS

Supervisors shall review reports for content and accuracy. If a correction is necessary, the reviewing supervisor should return the report to the reporting member for correction as soon as practical. It shall be the responsibility of the originating member to ensure that any report returned for correction is processed in a timely manner.

327.5 REPORT CHANGES OR ALTERATIONS

Reports that have been approved by a supervisor and submitted to the Records Division for filing and distribution shall not be modified or altered except by way of a supplemental report. Reviewed reports that have not yet been accepted by the Records Division may be corrected or modified by the authoring member only.

327.6 CASE CLOSURE SYSTEMS

The purpose of this policy is to provide Coeur d'Alene Police Department members with the guidelines for case closure dispositions in the Spillman System.

327.6.1 GENERAL GUIDELINES

Case closure can be determined at the time of the initial report or at the conclusion of an investigation.

327.6.2 INITIAL REPORT AND CASE MANAGEMENT DISPOSITION OPTIONS

Initial Report:

When a case is closed at time of the initial report by Patrol, Report Takers, or a Detective, it will be given one of the following dispositions under Incident/Investigation "Status":

- Field Closed
- Cleared Arrest
- Juvenile Cleared
- Exceptionally Cleared
- Unfounded Report
- Investigation Continued

Case Management:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Report Preparation

When a case is closed in Case Management, it will be given one of the following dispositions under "Case Status."

- Cleared by Arrest
- Closed, Exceptionally Cleared
- Inactive
- Information
- Not Assigned
- Unfounded

327.6.3 INITIAL REPORT AND CASE MANAGEMENT DISPOSITION USE

Field Closed or Not Assigned:

A case may be given the status of "Field Closed" (in the Spillman Incident module) or "Not Assigned" (in the Spillman Case Management module) if the following exist:

- No suspect named
- No suspect identified
- No suspect vehicle identified
- There is no witness to the offense
- No stolen property is traceable
- No physical evidence has been collected that still requires processing
- No fingerprints have been lifted that still require processing
- There is no video of the incident
- The case has reached an impasse and there are no viable leads at that time. Information Cases, such as Other Agency Assist, where there was no crime or the crime occurred in another jurisdiction.
- The final paragraph of the report should include comments similar to: *"I have contacted all know witnesses and reviewed all available evidence and am unable to establish probable cause and there are no viable leads to follow up on. I request this case be field closed. FC"*
- A supervisor approval and workflow routing to Records indicates that the Sergeant has approved the report and is in agreement that the case is eligible to be Field Closed, FC.

Cleared by Arrest:

A case may be given the status of "Cleared Arrest" when a suspect is arrested and/or charged with the commission of the offense or a related offense.

- "Arrested" means the suspect has been taken into custody.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Report Preparation

- "Charged" means a complaint filed with a federal, state, or local court by the Department, or by another law enforcement agency when the Department's case is included in their filing.
- A "related offense", for purposes of clearance, is any offense which is included within the original crime or which is filed in lieu of the original crime. A further requirement is that it must be reasonably established that the person charged with the related offense actually committed the original crime.

Juvenile Cleared:

A case may be closed with the status of "Juvenile Cleared" in the "Status" section of the RMS Incident Module when:

- There is probable cause to support an arrest based on the offense or related offense, and
- The juvenile has been identified as the suspect, and
- A Juvenile Petition has been completed and submitted. (JP)

Investigation Continued:

A case may be closed with the status of "Investigation Continued" when:

- The case is open and needs to be assigned to a detective or officer for further investigation.
- There are more viable leads to follow up on but that cannot occur at the time of the initial report.

Inactive (Only used in the Spillman Case Management module):

A case may be given the status of "Inactive" when:

- The investigation has reached a point of impasse
- All known leads have been exhausted
- The information given is insufficient to identify a suspect
- There is an absence of solvability factors
- The victim peacefully settled the matter but declines to identify the suspect and the suspect's location to the police

A report will be written by an officer/detective and approved by a supervisor documenting the reason(s) for inactivation. A case may be reactivated at any time when new information is developed.

Closed, Exceptionally Cleared:

A case may be given the status of "Exceptionally Cleared" under specific circumstances:

- Exceptionally Cleared shall be indicated when a case has progressed to a point where further action cannot be taken and **ALL** of the following exist:
 - The identity of the suspect has definitely been established

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Report Preparation

- The exact location of the offender is known so that the subject could be taken into custody now
- The investigation established probable cause for an arrest and supports the offense(s) being charged
- There is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender.
- Examples of reasons for Exceptional Clearances are:
 - The victim refuses to cooperate in the prosecution of the case.
 - A victim's refusal to prosecute does not wholly preclude filing or prosecution when the case can be proven otherwise
- Death of Suspect
- Extradition is denied
- Offender is prosecuted by another agency for different offense or is prosecuted in another city or state by the federal government for an offense which may be the same.
- Prosecution Declined: A case is not filed based on prosecutorial discretion/turndown for other than the lack of probable cause.
 - Written documentation from prosecutor/agency of the reason for turndown must be attached to case.

Unfounded:

A case may be given the status of "Unfounded" if through investigation it is determined the complaint is false or baseless:

- A **crime** or incident alleged in the original report did not occur.
- The supplement to Unfound the report should clearly state the reason/s for reclassification and should either (1) show the statutory elements of the crime cannot be met, or (2) state that the crime occurred in a different jurisdiction and that the information was given to the appropriate agency. The appropriate agency **MUST** be a law enforcement agency with the ability to make arrests and charge individuals with crimes.
- The same crime or incident has been reported more than once.
 - The most accurate and thorough crime report shall be retained. Any additional report should be Unfounded.

Information:

A case may be given the nature code of "Information" when:

- The case does not involve a crime or does not meet assignment criteria
- The case is only used to document crime trends or unusual activity

Cases can be activated when new information becomes available

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Report Preparation

327.6.4 UCR PROTOCOLS

NIBRS Reporting:

- Only **crimes** which have a victim and are reported on an CDAPD crime report are reported to NIBRS.
- NIBRS only recognizes the following case closure dispositions:
 - Cleared Arrest
 - Closed, Exceptionally Cleared
 - Juvenile Cleared
 - Unfounded
- Therefore, when a **criminal case** is assigned for follow up to a detective or officer, the final disposition of the assigned **criminal case** will need to be updated in **two** RMS modules, the "Disposition Field" of the Law Incident Screen and the "Current Status" field of the Case Management module, when the criminal case is closed with "Cleared Arrest", "Closed, Exceptionally Cleared", "Juvenile Cleared", and "Unfounded."

NIBRS Guidelines:

- There can only be one clearance per Incident number.
- Several crimes may be cleared by the arrest of one person, or the arrest of several people may clear only one crime.
- If several people are involved in the commission of a crime and only one person is arrested and charged, the crime is **Cleared by Arrest** – in the law incident screen.

When the other people involved in the crime are arrested at a later date, another clearance cannot be reported to NIBRS as the offense was already cleared following the arrest of the first person. However, the additional arrests are reported to NIBRS and are documented/logged for CDAPD record keeping purposes.

327.7 USE OF ARTIFICIAL INTELLIGENCE

Members of the department shall not use Artificial Intelligence (AI) assistive programs such as Chat GPT or other similar programs to author police reports, supplements or other documentation of criminal investigations. These documents should be based on the author's own observation and knowledge obtained through experience and training and stand alone as the author's original work.

Media Relations

328.1 PURPOSE AND SCOPE

This policy provides guidelines for media releases and media access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities.

328.2 RESPONSIBILITIES

328.3 MEDIA ACCESS

Authorized members of the media shall be provided access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities subject to the following conditions:

- (a) The media representative shall produce valid press credentials that shall be prominently displayed at all times while in areas otherwise closed to the public.
- (b) Media representatives may be prevented from interfering with emergency operations and criminal investigations.
 - 1. Reasonable effort should be made to provide a safe staging area for the media that is near the incident and that will not interfere with emergency operations or a criminal investigation. All information released to the media should be coordinated through the Public Information Officer or other designated spokesperson.
 - 2. Whenever the presence of media or other aircraft poses a threat to public or officer safety or significantly hampers incident operations, the field supervisor should consider requesting a Temporary Flight Restriction (TFR). All requests for a TFR should be routed through the Shift Commander. The TFR request should include specific information regarding the perimeter and altitude necessary for the incident and should be requested through the appropriate control tower. If the control tower is not known, the Federal Aviation Administration (FAA) should be contacted (14 CFR § 91.137).
- (c) No member of this department who is currently under investigation shall be subjected to media visits or interviews without the consent of the involved member.
- (d) Media interviews with individuals who are in custody shall not be permitted without the approval of the Chief of Police and the express consent of the person in custody.

A tactical operation should be handled in the same manner as a crime scene, except the news media should be permitted within the outer perimeter of the scene, subject to any restrictions as determined by the supervisor in charge. Department members shall not jeopardize a tactical operation in order to accommodate the news media.

328.3.1 PROVIDING ADVANCE INFORMATION

To protect the safety and rights of members and other persons, advance information about planned actions by law enforcement personnel, such as movement of persons in custody or the execution of an arrest or search warrant, should not be disclosed to the news media, nor should media representatives be invited to be present at such actions except with the prior approval of the Chief of Police.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Media Relations

Any exceptions to the above should only be considered for the furtherance of legitimate law enforcement purposes. Prior to approving any exception the Chief of Police will consider, at minimum, whether the release of information or presence of the media would unreasonably endanger any individual, prejudice the rights of any person or is otherwise prohibited by law.

328.4 SCOPE OF INFORMATION SUBJECT TO RELEASE

The release and inspection of public records is controlled by Idaho Code 9-337 through 9-350. A public record includes any writing containing information relating to the conduct or administration of the public's business, prepared, owned, used or retained by any state agency, independent public body corporate and politic or local agency regardless of physical form or characteristics. There are several exemptions to records being provided under the public records law, included are records relating to investigatory information compiled for criminal law purposes. The record of an arrest or the report of a crime shall be disclosed unless and only for so long as there is a clear need to delay disclosure in the course of a specific investigation, including the need to protect the complaining party or the victim. Nothing in this section shall limit any right constitutionally guaranteed or granted by statute to discovery in criminal cases (Idaho Code 9-335 through 9-350).

328.4.1 RESTRICTED INFORMATION

Court Appearance & Subpoenas

329.1 PURPOSE AND SCOPE

This procedure has been established to provide for the acceptance of subpoenas and to ensure that members appear when subpoenaed, or are available to appear in court when requested, and present a professional appearance.

Members who receive subpoenas related to their employment with this department are subject to the provisions of this policy. Members should be aware that their compliance is mandatory on all cases for which they have been properly subpoenaed.

329.2 SUBPOENA PROCEDURE FOR THE CITY ATTORNEY

329.2.1 SERVICE OF CITY ATTORNEY SUBPOENA

- (a) The subpoena will be e-mailed as an attachment to the member along with a "Read Receipt" and the member will accept the receipt. The member must first be excused from the subpoena by the City Attorney's Office before disregarding it..
- (b) Members who are scheduled for their regular duty assignment are required to check their e-mail throughout their shift and immediately reply to any e-mail containing a subpoena attachment. Members are not required to print, sign and return a copy of the subpoena to the Records Division. 329.2.2 CANCELLATION OF CITY ATTORNEY SUBPOENAS

Jury Trials: The Records Division will provide a weekly recording of Jury Trial Status call-offs that members shall check by calling the designated phone number.

In the event a member has a scheduling conflict with a Court hearing date, an established procedure will be followed by members to assist the City Attorney's Office with a request to the Court to re-schedule the hearing. It shall be understood by the member, that the fact a Leave Affidavit has been forwarded to the City Attorney's Office does not formally excuse the member from a conflicting subpoena. It shall be the member's responsibility to follow up with the City Attorney's Office in the event a subpoena is served and it conflicts with a previously approved leave request.

The Leave Affidavit shall be used for the following types of approved leaves:

- (a) Vacation;

- (d) Upon receiving a signed and dated AOS, the Records Division will forward the documents to the Kootenai County Prosecutor's Office via inter-office mail.

In the event that the member does not receive the subpoena until after the date on the subpoena that the member was scheduled to appear (*i.e. member was not on scheduled duty between the date the member received the subpoena and the date the subpoena was requiring appearance*), the member shall still follow the above mentioned procedures but should add a notation on the AOS briefly explaining why it was not received by the member on time.

329.3.2 CANCELLATION OF COUNTY PROSECUTOR SUBPOENAS

Preliminary Hearings: Members can check the status of preliminary hearing cases by checking the Kootenai County Prosecutor's Office web page or their office voice mail system after 1100 hours. If a preliminary hearing is canceled on the same day, the County Prosecutor may call the member at the contact number they have on file.

Other Court Hearings: If the court hearing is canceled on the same date as the hearing, the County Prosecutor may call the member at the contact number they have on file.

329.3.3 LEAVE AFFIDAVIT FOR COUNTY PROSECUTOR'S OFFICE

The dates for Court hearings are set by the Court, who then prepare a "Notice of Hearing" which is forwarded to the County Prosecutor's Office. The County Prosecutor's Office will then prepare a subpoena to be served upon the appropriate member(s).

In the event a member has a scheduling conflict with a Court hearing date, an established procedure will be followed by members to assist the County Prosecutor's Office with a request to the Court to re-schedule the hearing. It shall be understood by the member, that the fact a

Leave Affidavit has been forwarded to the County Prosecutor's Office does not formally excuse the member from a conflicting subpoena. It shall be the member's responsibility to follow up with the County Prosecutor's Office in the event a subpoena is served and it conflicts with a previously approved leave request.

The Leave Affidavit shall be used for the following types of approved leaves:

- (a) Vacation;
- (b) Military Leave;
- (c) Training;
- (d) Medical Leave; and/or
- (e) Out of Town on Scheduled Day(s) Off

- (f) The following procedure shall be used to submit Leave Affidavit's to the County Prosecutor's Office:
 1. Whenever a member requests any leave from their normal duty assignment, which could potentially conflict with future Court hearings set during a week day, the member shall request their immediate supervisor prepare a Leave Affidavit and forward it to the County Prosecutor's Office once the leave is approved.
 2. The supervisor shall complete the Leave Affidavit by filling in the appropriate boxes and then forwarding the completed affidavit electronically to the member and a signed copy via inter-office mail to the County Prosecutor's Office.
 3. It shall be the member's responsibility to follow up with the County Prosecutor's Office in the event a subpoena is served and it conflicts with a previously approved leave request.

329.3.4 SUBPOENAS FOR OUT OF STATE OR OUT OF COUNTY PROCEEDINGS

A member shall consult with a supervisor and/or the Legal Department in the event the member is served with a subpoena for an out of county or out of state subpoena.

329.3.5 SUBPOENAS FOR CIVIL PROCEEDINGS

For civil cases related to on duty business, personal service of the subpoena upon the member is required. In the event the member is on duty and available, (*i.e. not on a call for service*), when a Process Server is attempting service of a subpoena, reasonable accommodations may be made to facilitate the service of the subpoena. Additionally the member should demand witness fees and reimbursement for mileage (*one way*) at the time of service of the subpoena, per Idaho Civil Rule 54(d)(1). In order for the member to be compensated by the City, the member shall submit (*endorse*) their received witness fee to the City.

If the member who needs to be served is not on duty at the time the Process Server is attempting service, a Supervisor or Records personnel may inform the Process Server the next date and assigned shift the member is on duty.

329.3.6 SUBPOENAS FROM PRIVATE DEFENSE COUNSEL OR PRIVATE PROCESS SERVERS

In the event defense counsel (*private attorney or public defender*) or a private process server is attempting to serve a subpoena, then personal service of the subpoena upon the member is required. In the event the member is on duty and available (*i.e. not on a call for service*) when service is attempted, reasonable accommodations may be made to facilitate the service of the subpoena. If the member who needs to be served is not on duty at the time, Records personnel or a Supervisor may inform the process server of the next date and assigned shift the member is scheduled for duty.

329.3.7 SUBPOENAS DELIVERED BY THE KOOTENAI COUNTY SHERIFF'S DEPARTMENT CIVIL DIVISION

The Kootenai County Sheriff's Department Civil Division may deliver criminal subpoenas for members of this department to the Records Division. The subpoenas may be from the County Prosecutor, the Public Defender's Office or a Private Criminal Attorney.

Any subpoena delivered by the Kootenai County Sheriff's Department Civil Division shall be processed and accepted using the same procedure as outlined in Policy Manual §329.3.

329.4 FAILURE TO OBEY SUBPOENA

Failure by any member without adequate excuse to obey a subpoena properly served may be deemed a contempt of the court for which there are penalties provided by law, and may be grounds for discipline up to and including termination of employment.

329.5 COURTHOUSE DECORUM AND TESTIFYING

- (a) Members shall be punctual, observe all rules of the court in which they are appearing, refrain from smoking or chewing gum and not use their cell phone in any manner while in the courtroom. Members shall remain alert to changes in the assigned courtroom where their matter is to be heard.
- (b) Prior to the date of testifying, the subpoenaed member shall review copies of relevant reports and become familiar with their content in order to be prepared for court. Should the court require the member to bring evidence to court with them, the member should give the Property Office at least 24 hours advance notice, excluding weekends and Holidays, so arrangements can be made for the member to take possession of the evidence.

329.6 OFF-DUTY RELATED SUBPOENAS

Members receiving valid subpoenas for actions taken off-duty not related to their employment with the department shall comply with the requirements of the subpoena. Members receiving these

329.7 TESTIFYING AGAINST THE INTEREST OF THE PEOPLE

In the event a member is subpoenaed or has agreed to testify on behalf of any person or entity other than the City of Coeur d'Alene or County of Kootenai, said member shall notify their immediate supervisor without delay. The supervisor will then notify the member's Division Commander and Chief of Police. The Chief of Police or his designee shall ensure the Legal Department and/or appropriate Department Head of the City and/or County are notified, as may be indicated by the case.

This includes, but is not limited to the following situations:

- (a) Providing testimony or information for the defense in any criminal trial or proceeding;
- (b) Providing testimony or information for the plaintiff in a civil proceeding against any State, any County, any City, or their employees;
- (c) Providing testimony or information on behalf of or at the request of any party in any administrative proceeding, including but not limited to personnel and/or disciplinary matter.

Outside Agency Assistance

330.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to members when requesting or responding to a request for mutual aid or when assisting another law enforcement agency.

330.2 POLICY

It is the policy of the Coeur d'Alene Police Department to promptly respond to requests for assistance by other law enforcement agencies, subject to available resources and consistent with the applicable laws and policies of this department.

330.3 ASSISTING OUTSIDE AGENCIES

Generally, requests for any type of assistance from another agency should be routed to the Shift Commander's office for approval. In some instances, a memorandum of understanding or other established protocol may exist that eliminates the need for approval of individual requests.

When another law enforcement agency requests assistance from this department, the Shift Commander may authorize, if available, an appropriate number of personnel to assist. Members are reminded that their actions when rendering assistance must conform with applicable laws and be consistent with the policies of this department.

Officers may respond to a request for emergency assistance, however, they shall notify a supervisor of their activity as soon as practicable.

Arrestees may be temporarily detained by this department until arrangements for transportation are made by the outside agency. Probation violators who are temporarily detained by this department will not ordinarily be booked at this department. Only in exceptional circumstances, and subject to supervisor approval, will this department provide transportation of arrestees to other facilities on behalf of another agency.

When transportation assistance is rendered, a report shall be prepared and submitted by the handling member unless otherwise directed by a supervisor.

330.3.1 INITIATED ACTIVITY

Any on-duty officer who engages in law enforcement activities of any type that are not part of a mutual aid request and take place outside the jurisdiction of the Coeur d'Alene Police Department shall notify his/her supervisor or the Shift Commander and Central Dispatch as soon as practicable. This requirement does not apply to special enforcement details or multi-agency units that regularly work in multiple jurisdictions.

330.4 REQUESTING OUTSIDE ASSISTANCE

If assistance is needed from another agency, the member requesting assistance should, if practicable, first notify a supervisor. The handling member or supervisor should direct assisting personnel to where they are needed and to whom they should report when they arrive.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Outside Agency Assistance

The requesting member should arrange for appropriate radio communication capabilities, if necessary and available, so that communication can be coordinated between assisting personnel.

330.5 REPORTING REQUIREMENTS

Incidents of outside assistance or law enforcement activities that are not documented in a crime report shall be documented in a general case report or as directed by the Shift Commander.

330.6 MANDATORY SHARING

Equipment and supplies purchased with federal funds or grants that require such equipment and supplies be shared with other agencies should be documented and updated as necessary by the Administration Division Commander or the authorized designee.

The documentation should include:

- (a) The conditions relative to sharing.
- (b) The training requirements for:
 - 1. The use of the supplies and equipment.
 - 2. The members trained in the use of the supplies and equipment.
- (c) Any other requirements for use of the equipment and supplies.

Copies of the documentation should be provided to the Division Commander to ensure use of the equipment and supplies is in compliance with the applicable sharing agreements.

The department should maintain documentation that the appropriate members have received the required training.

331.1 PURPOSE AND SCOPE

This policy establishes guidelines by which the Coeur d'Alene Police Department will address issues associated with certain offenders who are residing in the jurisdiction and how the Department will disseminate information and respond to public inquiries for information about registered sex offenders.

331.2 POLICY

It is the policy of the Coeur d'Alene Police Department to identify and monitor registered offenders living within this jurisdiction and to take reasonable steps to address the risks those persons may pose.

331.3 REGISTRATION

The Investigation Section Supervisor shall establish a process to reasonably accommodate registration of certain offenders. The process should rebut any allegation on the part of the offender that the registration process was too confusing, burdensome or difficult for compliance. If it is reasonable to do so, an investigator assigned to related investigations should conduct the registration in order to best evaluate any threat the person may pose to the community. Employees assigned to register offenders should receive appropriate training regarding the registration process.

Upon conclusion of the registration process, the investigator shall ensure that within three working days the registration information is provided to the Idaho State Police in accordance with Idaho Code 18-8307(3).

The refusal of a registrant to provide any of the required information or complete the process should initiate a criminal investigation for failure to register.

331.3.1 CONTENTS OF REGISTRATION

All sex offenders required to register must appear in person and provide the following information (Idaho Code 18-8305; Idaho Code 18-8307):

- Name and all aliases
- Complete physical description of registrant
- Address or physical description of his/her residence or residences
- If the offender is a student and attending classes at a physical location, the name and address of the school or schools
- License plate and description of any and all vehicles owned or regularly operated by the registrant
- All telephone numbers and e-mail addresses used by the offender
- Name and address of place of paid or unpaid employment

- Any professional license information
- Passport information and immigration status if applicable
- Driver's license or state-issued identification card

The completed form must be signed by the registrant.

The registering employee shall take photographs, fingerprints and palm prints of all registering sex offenders.

331.4 MONITORING OF REGISTERED OFFENDERS

The Investigation Section Supervisor should establish a system to periodically, and at least once annually, verify that a registrant remains in compliance with his/her registration requirements after the initial registration. This verification should include:

- (a) Efforts to confirm residence using an unobtrusive method, such as an Internet search or drive-by of the declared residence.
- (b) Review of information on the Idaho Central Sex Offender Registry.
- (c) Contact with a registrant's parole or probation officer.

Any discrepancies should be reported to the Idaho State Police.

The Investigation Section Supervisor should also establish a procedure to routinely disseminate information regarding registered offenders to Coeur d'Alene Police Department personnel, including timely updates regarding new or relocated registrants.

331.5 DISSEMINATION OF PUBLIC INFORMATION

Employees will not unilaterally make a public notification advising the community of a particular registrant's presence in the community. Employees who identify a significant risk or other public safety issue associated with a registrant should promptly advise their supervisor. The supervisor should evaluate the request and forward the information to the Chief of Police if warranted. A determination will be made by the Chief of Police, with the assistance of legal counsel as necessary, whether such a public alert should be made.

Members of the public requesting information on registrants should be directed to the Idaho Central Sex Offender Registry or the Coeur d'Alene Police Department's website.

The Records Supervisor shall release local registered offender information to residents in accordance with Idaho Code 18-8323 and in compliance with a request under the Idaho Public Records Act.

331.5.1 RELEASE NOTIFICATIONS

Registrant information that is released should include notification that:

- (a) The offender registry includes only those persons who have been required by law to register and who are in compliance with the offender registration laws.

Coeur d'Alene Police Department

Megan's Law

- (b) The information is provided as a public service and may not be current or accurate.
- (c) Persons should not rely solely on the offender registry as a safeguard against offenses in their communities.
- (d) The crime for which a person is convicted may not accurately reflect the level of risk.
- (e) Anyone who uses information contained in the registry to commit a crime or cause physical harm may be subject to criminal prosecution (Idaho Code 18-8326).

Major Incident Notification

332.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to members of this Department in determining when, how and to whom notification of major incidents should be made.

332.2 POLICY

The Department recognizes that certain incidents should be brought to the immediate attention, as soon as practical, to the Chief of Police and/or affected Division Commander to facilitate the coordination of activities and ensure that inquiries from City officials, the media and the public may be properly addressed.

332.3 MINIMUM CRITERIA FOR NOTIFICATION

Most situations where the media show a strong interest are also of interest to the Department and the affected Division Commander. The list of incident types in the Major Incident Notification attachment is provided as a guide for notification and is not intended to be all-inclusive:

[See attachment: Major Incident Notification Feb 2016.pdf](#)

332.4 STAFF NOTIFICATION

The Shift Commander or on-scene supervisor is responsible for making the appropriate notifications as soon as practical.

In the event an incident occurs which requires the notification of the Chief of Police or affected Division Commander, the on-scene supervisor or Shift Commander shall first attempt notification of the affected Division Commander, who in turn may contact the Chief of Police and/or any other member of the department he feels requires notification.

332.4.1 DETECTIVE NOTIFICATION

If the incident requires that a detective respond, the on scene supervisor or Shift Commander shall contact the Investigations Division Supervisor.

332.4.2 PUBLIC INFORMATION OFFICER

The Public Information Officer may be called after members of staff have been notified that it appears the media may have a significant interest in the incident.

PERSONNEL MOBILIZATION PLAN-TACTICAL ALERT

333.1 TACTICAL ALERT

A tactical alert is the preliminary stage of the Department Mobilization Plan for unusual occurrences. It provides for the controlled redistribution of on-duty personnel to achieve the resolution of a major police incident.

333.2 PURPOSE OF A TACTICAL ALERT

A tactical alert is initiated to achieve the following objectives:

- Alert all Department personnel to the possibility of personnel redistribution, and announce the existence of a major police incident; (i.e. either natural or man-made disasters, civil disturbances, major crimes, or any other event that would drastically affect critical staffing levels in the patrol division.)
- Provide a personnel reserve which can be used to achieve control and safe resolution of an incident.
- Control the depletion of field forces and discourage uncontrolled voluntary response to the scene of a major police incident.
- Encourage the use of the Incident Command System to clarify response roles and assignments.

333.3 INITIATING A TACTICAL ALERT PLAN

The watch commander (any rank) or the incident commander (any rank) may initiate a tactical alert. When there is a need for a tactical alert, it SHALL be initiated as soon as possible to restrict voluntary responses and avoid depletion of personnel from the involved area and surrounding areas.

The officer declaring a tactical alert shall provide the dispatch supervisor of Kootenai County Emergency Communications Center with the following information:

- Location and nature of the incident.
- Anticipated personnel and equipment needs.
- Anticipated duration of the incident.
- Likelihood of the incident escalating (short and long term)
- Staging area and contact information for internal and external resources requested.

333.4 TACTICAL ALERT BROADCAST

When a tactical alert has been declared, the declaring commander (any rank) SHALL request the Kootenai County Emergency Communications Center broadcast notice of the tactical alert department wide via radio. This notification should include any surrounding agencies in which the tactical alert may affect.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

PERSONNEL MOBILIZATION PLAN-TACTICAL ALERT

When requested by the declaring commander, the Kootenai County Emergency Communications Center SHALL make notifications of the tactical alert and the situation status to the Operations Division Commander who will then notify:

- Chief of Police
- Support Services Division Commander
- Public Information Officer

333.5 EFFECTS OF A TACTICAL ALERT

When the department is placed on tactical alert, the following provisions shall take effect:

- All field units shall continue patrol unless reassigned by the watch commander and/or incident commander.
- Unless otherwise directed, officers working shall confine their activities to **police work of major importance. Priority 3 and priority 4 calls will be automatically pended to the City, by the Kootenai Emergency Communications Center.**
- Watch Commanders and field supervisors shall ensure that all on-duty personnel are aware of the tactical alert.
- Uniformed patrol officers off the air shall, whenever possible, be required to resume patrol and/or begin patrol, and await further instructions by the watch commander.
- Kootenai County Emergency Communications Center shall screen all incoming calls and whenever possible, direct citizens to the Coeur d'Alene PD's website for online reporting.
- Watch commanders shall maintain an account of on-duty uniformed personnel, including duties performed during a tactical alert.
- Investigative personnel shall continue to perform their regular duties; however, they should be prepared to assist the patrol division, unless they may be needed for either activation by the SWAT (if so assigned), or if they are needed as part of a call-out.
- Twelve hour shifts may be established by the Chief of Police or by the Operations Division Commander.
- Lunches/breaks may be restricted during a tactical alert.
- The Operations Division Commander or Patrol Watch Commander may, if deemed necessary, direct a patrol sergeant to notify and request additional personnel to report to work for a tactical alert. Call-outs will be undertaken in the order deemed appropriate:
 - Next incoming shift.
 - Other members, if needed.
 - Members on regular days off.
 - Members just completing shift.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

PERSONNEL MOBILIZATION PLAN-TACTICAL ALERT

- Civilian personnel such as report writers and records personnel may also be called upon to assist with the tactical alert.
- Off-duty personnel should not respond unless requested, but may contact an on-duty supervisor to advise of availability.

333.6 HOLDING OVER WATCHES DURING A TACTICAL ALERT

When a tactical alert is initiated, on-duty shifts **SHALL** be held over as follows:

- The Operations Division Commander or Patrol Watch Commander **SHALL** determine which department entities will be held over. This decision **SHALL** be based on an evaluation of the situation status provided by the Incident Commander, the likelihood of an escalation of activity, and the likelihood of additional resources being needed.
- All division supervisors **SHALL** have the authority to hold over off-going shifts when it reasonably appears that their resources may be needed, even though a department wide tactical alert has yet been declared.

333.7 CANCELLATION OF A TACTICAL ALERT

- Once the incident has been resolved, the Operations Division Commander, or Patrol Watch Commander, has the authority to cancel the tactical alert.
- When a tactical alert is cancelled, the person initiating the cancellation **SHALL** notify the Kootenai County Emergency Communications Center, who **SHALL** then broadcast the cancellation via radio, and to any surrounding agencies that were originally notified of the tactical alert.
- The Public Information Officer should notify the media at their discretion.

333.8 AUTHORITY TO RELEASE PERSONNEL

- The Operations Division Commander or Patrol Watch Commander **SHALL** be responsible for releasing off-going shifts, including uniformed personnel not assigned to patrol.
- Personnel assigned to the actual incident will be relieved as directed by the Incident Commander.

333.9 MODIFIED TACTICAL ALERT

A modified tactical alert provides the department with a method of holding over shifts without the disruption of "routine" police duties. The following provisions apply during a modified tactical alert:

- Achieves the same objectives as a tactical alert, but without the restrictions of "police work of major importance."
- Alerts department personnel, not assigned to patrol, of a possibility that they may be re-deployed if necessary.
- Alerts all department personnel of a possible major event, such as a planned protest where additional resources may be needed.
- Alerts Kootenai County Emergency Communications Center to alter the dispatching protocols.

Death Investigation

334.1 PURPOSE AND SCOPE

The investigations of cases involving death include those ranging from natural cause to homicide. Some causes of death may not be readily apparent and some cases differ substantially from what they appeared to be initially.

334.2 INVESTIGATION CONSIDERATIONS

Death investigation cases require certain actions be taken. Medical personnel shall be called in all suspected death cases unless the death is obvious (*i.e. decapitated, decomposed, etc.*). Members are not authorized to pronounce death. A supervisor shall be notified in all death investigations.

Upon discovering any individual who is dead or near death, the investigating member shall make a reasonable search of the individual for the purpose of locating anatomical gift donor information. If such donor information is located the officer shall promptly notify the coroner or ensure such information accompanies the individual to the hospital as appropriate (Idaho Code 39-3413).

334.2.1 DEATH NOTIFICATION

The primary responsibility for death notification to the next of kin lies with the investigating member.

Calls from other jurisdictions with a request to deliver a death message will be routed to the Shift Commander for determination of how the request will be handled.

334.2.2 DEATH INVESTIGATION REPORTING

All incidents involving a death shall be documented in a written incident report.

334.2.3 SUSPECTED HOMICIDE

If the initially assigned member suspects that the death involves a homicide, suicide or other suspicious circumstances, the Investigations Division shall be notified to determine the possible need for a Detective to respond to the scene for further immediate investigation.

Identity Theft

335.1 PURPOSE AND SCOPE

Identity theft is a growing trend that frequently involves related crimes in multiple jurisdictions. This policy is intended to provide guidelines for the reporting and investigation of such crimes.

335.2 REPORTING

- (a) In an effort to maintain uniformity in reporting, officers presented with the crime of identity theft (Idaho Code 18-3126) shall initiate a report for victims residing within the jurisdiction of this department. For incidents of identity theft occurring outside this jurisdiction, officers should observe the following:
 - 1. For any victim not residing within this jurisdiction, the officer may either take a courtesy report to be forwarded to the victim's residence agency or the victim should be encouraged to promptly report the identity theft to the law enforcement agency where he or she resides.
- (b) While the crime of identity theft should be reported to the law enforcement agency where the victim resides, officers of this department should investigate and report crimes occurring within this jurisdiction which have resulted from the original identity theft (e.g., the identity theft occurred elsewhere, but the credit card fraud occurred and is reported in this jurisdiction).
- (c) Officers should include all known incidents of fraudulent activity (e.g., credit card number applied for in victim's name when the victim has never made such an application).
- (d) Officers should also cross-reference all known reports made by the victim (e.g., U.S. Secret Service, credit reporting bureaus, U.S. Postal Service and ITD) with all known report numbers.
- (e) Following supervisory review and processing by this department, the initial report should be forwarded to the appropriate detective for follow up investigation, coordination with other agencies and prosecution as circumstances dictate.

Citizens Arrests

336.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the handling of a citizen's arrest made pursuant to Idaho Code 19-604.

336.2 ADVISING PRIVATE PERSONS OF THE ARREST PROCESS

Although Idaho law does not expressly require members to advise citizens about their rights to make a private persons arrest, it is recommended that members advise citizens how to safely execute such an arrest.

- (a) When advising any individual regarding the right to make a private person's arrest, members should refrain from encouraging or dissuading any individual from making such an arrest and should instead limit advice to the legal requirements for such an arrest as listed below.
- (b) Citizens should be discouraged from using force to effect a citizen's arrest, and absent immediate threat to their own safety or the safety of others, citizens should be encouraged to refer matters to law enforcement officials for further investigation or arrest.

336.3 ARRESTS BY PRIVATE PERSONS

Idaho Code 19-604 provides that a private person (*citizen*) may arrest another:

- (a) For a public offense committed or attempted in his or her presence.
- (b) When the person arrested has committed a felony, although not in his or her presence.
- (c) When a felony has been in fact committed, and he or she has reasonable cause for believing the person arrested has committed it.

336.4 OFFICER RESPONSIBILITIES

Any sworn member presented with a citizen wishing to make an arrest should determine whether or not there is reasonable cause to believe that such an arrest would be lawful.

- (a) Should the member determine that there is no reasonable cause to believe that a citizen's arrest is lawful, the member should, out of the presence of the potential arrestee, explain to the citizen wishing to make the arrest the concerns about the absence of reasonable cause for the arrest and the potential ramifications should the citizen chose to proceed with the arrest.
 - 1. If, after being informed of the concerns of reasonable cause being absent, the citizen still wishes to pursue charges, the member shall only complete a crime report, which shall be forwarded to the Investigations Division for any possible follow-up investigation and/or to the appropriate Prosecutor's office for review.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Citizens Arrests

- (b) If the crime is a misdemeanor, the member should also explain that another option available would be for the citizen to sign a uniform citation against the person which could result in a trial date being set and the citizen needing to appear as a witness in the trial against the person he wanted arrested.
- (c) Should an arrest be made, a citation issued, or only a crime report taken, the member shall document all pertinent facts regarding the incident to assist with any required follow-up investigation or prosecution.

Limited English Proficiency Services

337.1 PURPOSE AND SCOPE

Language barriers can sometimes inhibit or even prohibit individuals with limited English proficiency (LEP) from gaining meaningful access to, or an understanding of important rights, obligations and services. It is therefore the policy of this department to follow the plan established by the City of Coeur d'Alene, located on CityNet at <http://citynet/deptimages/LEP.pdf>.

Members must make efforts to communicate effectively with individuals with disabilities.

The Department will not discriminate against or deny any individual access to services, rights, or programs based upon disabilities.

338.2.1 INITIAL AND IMMEDIATE CONSIDERATIONS

Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, members of this department should remain alert to the possibility of communication problems and exercise special care in the use of all gestures, and verbal and written communication in an effort to minimize initial confusion and misunderstanding when dealing with any individual(s) with known or suspected disabilities or communication impairments.

338.3 AMERICANS WITH DISABILITIES (ADA) COORDINATOR

- (g) Ensuring appropriate processes are in place to provide for the prompt and equitable resolution of complaints and inquiries regarding discrimination in access to department services, programs, and activities.

338.3.1 FIELD RESOURCES

Members are encouraged to utilize resources immediately available to them in any contact with a known or suspected disabled or impaired person. Examples of this would include such simple methods as:

- (a) Hand gestures or written communications exchanged between the member and a deaf or hearing impaired individual.
- (b) Facing an individual utilizing lip reading and speaking slowly and clearly.
- (c) Slowly and clearly speaking or reading simple terms to any visually or mentally impaired individual.

338.3.2 AUDIO RECORDINGS AND ENLARGED PRINT

This department may develop audio recordings of important information needed by blind or visually impaired individuals. In the absence of such audio recordings, members may elect to read aloud forms or documents or utilize a photocopier to enlarge printed forms for a visually impaired individual.

338.3.3 TELEPHONE INTERPRETER SERVICES

Central has a list of interpreter services to be contacted to assist deaf or hearing impaired individuals upon approval of a Supervisor. Prior to approving an interpreter to respond, the

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Communications with Persons with Disabilities

Supervisor shall inquire from the interpreter as to whether or not a fee would be charged for such services, and if so, what the total fee would be.

Requests to such interpreters for their services shall be made at the earliest reasonable opportunity and the interpreter should be available to respond within a reasonable time.

338.3.4 TTY AND RELAY SERVICES

Individuals who are deaf or hearing impaired must be given the opportunity to use available text telephones (TTY or TDD). All calls placed by such individuals through such services shall be accepted by this department.

338.3.5 COMMUNITY VOLUNTEERS

Depending on the circumstances, location and availability, responsible members of the community may be available to provide qualified interpreter services, such as those who are proficient in American Sign Language (ASL). Sources for these individuals may include local businesses, banks, churches, neighborhood leaders and school officials.

338.3.6 FAMILY AND FRIENDS OF DISABLED OR IMPAIRED INDIVIDUAL

While family and friends of a disabled or impaired individual may frequently offer to assist with interpretation, members should carefully consider the circumstances before relying on such individuals. For example, children should not be relied upon except in emergency or critical situations. Further, the nature of the contact and relationship between the disabled individual and the individual offering services must be carefully considered (e.g., victim/suspect).

338.4 FACTORS TO CONSIDER

Because the nature of any law enforcement contact may vary substantially from one situation to the next, members of this department should consider all information reasonably available to them when determining how to communicate with an individual with a disability. Members should carefully balance all known factors in an effort to reasonably ensure people who are disabled have equal access to services, programs, and activities. These factors may include but are not limited to:

- (a) Members should not always assume that effective communication is being achieved. The fact that an individual appears to be nodding in agreement does not always mean he/she completely understands the message. When there is any doubt, members should ask the individual to communicate back or otherwise demonstrate their understanding.
- (b) The nature of the disability (e.g., deafness or blindness vs. hard of hearing or low vision).
- (c) The nature of the law enforcement contact (e.g., emergency vs. non-emergency, custodial vs. consensual contact).
- (d) The availability of auxiliary aids. The fact that a particular aid is not available does not eliminate the obligation to reasonably ensure access. However, in an emergency, availability may factor into the type of aid used.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Communications with Persons with Disabilities

338.4.1 CUSTODIAL INTERROGATIONS AND BOOKINGS

In an effort to ensure the rights of all disabled and impaired individuals are protected during arrest and custodial interrogation, this department will provide reasonable communication assistance during such situations. It is further recognized that miscommunication during custodial interrogations may have a substantial impact on the evidence presented in any related criminal prosecution. As such, members providing communication assistance in these situations will make every reasonable effort to accurately and effectively communicate with disabled or impaired individuals.

Members providing such assistance shall also be aware of the inherent communication impediments to gathering information from disabled or impaired individuals throughout the booking process or any other situation in which a disabled or impaired individual is within the control of this department's members.

- (a) Individuals who require communication aids (e.g., hearing aids) should be permitted to retain such devices while in the custody of a member of this department.
- (b) While it may present safety or other logistical problems to allow a physically disabled individual to retain devices such as a wheel chair or crutches during a custodial situation, the removal of such items will require that other reasonable accommodations be made to assist such individuals with access to all necessary services.
- (c) Whenever a deaf or hearing impaired individual is detained or arrested and placed in handcuffs, members should consider, safety permitting, placing the handcuffs in front of the body in order to allow the individual to sign or write notes.

338.4.2 FIELD ENFORCEMENT AND INVESTIGATIONS

Enforcement contacts will generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control and other routine field contacts which may involve disabled or impaired individuals. The scope and nature of these activities and contacts will inevitably vary, therefore this department recognizes that it would be virtually impossible to provide immediate access to complete communication services to every member in the field. Each member must, however, assess each such situation to determine the need and availability for communication assistance to any and all involved disabled or impaired individuals.

Although not every situation can be addressed within this policy, it is important that members are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action taken with a disabled or impaired individual. For example, it would be meaningless to verbally request consent to search if the member is unable to effectively communicate with a deaf individual.

338.4.3 COMMUNITY OUTREACH

Community relations programs offered by this department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. As such, this

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Communications with Persons with Disabilities

department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services to disabled individuals and groups.

Child and Vulnerable Adult Safety

341.1 PURPOSE AND SCOPE

This policy provides guidelines to ensure that children and vulnerable adults are not left without appropriate care in the event their caregiver or guardian is arrested or otherwise prevented from providing care due to actions taken by members of this department.

This policy does not address the actions to be taken during the course of a child abuse or vulnerable adult investigation. These are covered in the Child Abuse Policy and the Adult Abuse Policy.

341.1.1 POLICY

It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when their parent or caregiver is arrested.

341.2 POLICY

It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when their parent or caregiver is arrested. The Coeur d'Alene Police Department will endeavor to create a strong, cooperative relationship with local, state and community-based social services to ensure an effective, collaborative response that addresses the needs of those affected, including call-out availability and follow-up responsibilities.

341.2.1 AFTER AN ARREST

Whenever an arrest is made, the members should take all reasonable steps to ensure the safety of the arrestee's disclosed or discovered children or vulnerable adults.

Members should allow the arrestee reasonable time to arrange for care of minor children and vulnerable adults. Temporary placement with family or friends may be appropriate. However, any decision should give priority to a child-care solution that is in the best interest of the child or vulnerable adult. In such cases the following guidelines should be followed:

- (a) Allow the person reasonable time to arrange for the care of minor children and vulnerable adults with a responsible party, as appropriate.
 1. Unless there is evidence to the contrary (*i.e., signs of abuse, drug use, unsafe environment*), members should respect the parent or caregivers judgment regarding arrangements for care. It is generally best if the child or vulnerable adult remains with relatives or family friends they know and trust because of their familiarity with surroundings and consideration for comfort, emotional state and safety are important.
 2. Except when a court order exists limiting contact, the member should attempt to locate and place children or vulnerable adults with the non-arrested parent, guardian or caregiver.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Child and Vulnerable Adult Safety

- (b) Provide for the immediate supervision of children or vulnerable adults until an appropriate caregiver arrives.
- (c) Notify Department of Health & Welfare Child Protective Services or to the Idaho Commission on Aging or Area Agency of Aging if appropriate.
- (d) Notify the Supervisor of the disposition of children or vulnerable adults.

If children or vulnerable adults are at school or another known location outside the household at the time of arrest, the arresting member should attempt to contact the school or other known location and inform the principal or appropriate responsible adult of the caregivers arrest and of the arrangements being made for the care of the arrestee's dependent, and the result of such actions should be documented in the incident report.

341.3 PROCEDURES DURING AN ARREST

Whenever an arrestee is unwilling or incapable of arranging for the appropriate care of any child or vulnerable adult, the investigating member should consider contacting the appropriate welfare service for the age of the individual for assistance, which may include placing the child or vulnerable adult into protective custody.

Under no circumstances should a child or vulnerable adult be left unattended or without appropriate care.

Service Animals

342.1 PURPOSE AND SCOPE

The purpose of this policy is to provide the guidelines necessary to ensure that the rights of individuals who use service animals to assist with disabilities are protected in accordance with Title II of the Americans with Disabilities Act (ADA).

342.1.1 DEFINITIONS

Definitions related to this policy include:

Service Animal - A dog that is trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. The work or tasks performed by a service animal must be directly related to the individual's disability. Service animal also includes a dog-in-training for an individual with a disability (28 CFR 35.104; Idaho Code 56-701A).

Service animal also includes a miniature horse if the horse is trained to do work or perform tasks for people with disabilities, provided the horse is housebroken, is under the handler's control, the facility can accommodate the horse's type, size, and weight, and the horse's presence will not compromise legitimate safety requirements necessary for safe operation of the facility (28 CFR 35.136(i)).

342.2 POLICY

It is the policy of the Coeur d'Alene Police Department to provide services and access to persons with service animals in the same manner as those without service animals. Department members shall protect the rights of persons assisted by service animals in accordance with state and federal law.

342.3 IDENTIFICATION AND USE OF SERVICE ANIMALS

Some service animals may be readily identifiable. However, many do not have a distinctive symbol, harness or collar. Service animals are not pets and may be trained by an individual or organization to assist people with disabilities.

The following examples are some of the ways service animals may be used to provide assistance:

- Guiding people who are blind or have low vision.
- Alerting people who are deaf or hard of hearing.
- Retrieving or picking up items, opening doors or flipping switches for people who have limited use of their hands, arms or legs.
- Pulling wheelchairs.
- Providing physical support and assisting with stability and balance.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Service Animals

- Doing work or performing tasks for persons with traumatic brain injury, intellectual disabilities or psychiatric disabilities, such as reminding a person with depression to take medication.
- Alerting a person with anxiety to the onset of panic attacks, providing tactile stimulation to calm a person with post-traumatic stress disorder, assisting people with schizophrenia to distinguish between hallucinations and reality, and helping people with traumatic brain injury to locate misplaced items or follow daily routines.

342.4 MEMBER RESPONSIBILITIES

Service animals that are assisting individuals with disabilities are permitted in all public facilities and areas where the general public is allowed. Department members are expected to treat individuals with service animals with the same courtesy and respect that the Coeur d'Alene Police Department affords to all members of the public (28 CFR 35.136).

342.4.1 INQUIRY

If it is apparent or if an officer is aware the animal is a service animal, the owner should not be asked any questions as to the status of the animal. If it is unclear whether an animal meets the definition of a service animal, the officer should ask the individual only the following questions (28 CFR 35.136(f)):

- Is the animal required because of a disability?
- What task or service has the service animal been trained to perform?

If the individual explains that the animal is required because of a disability and has been trained to work or perform at least one task, the animal meets the definition of a service animal and no further questions as to the animal's status should be asked. The person should not be questioned about his/her disabilities nor should the person be asked to provide any license, certification or identification card for the service animal.

342.4.2 CONTACT

Service animals are not pets. Department members should not interfere with the important work performed by a service animal by talking to, petting or otherwise initiating contact with a service animal.

342.4.3 REMOVAL

If a service animal is not housebroken or exhibits vicious behavior, poses a direct threat to the health of others, or unreasonably disrupts or interferes with normal business operations, an officer may direct the handler to remove the animal from the premises. Barking alone is not a threat, nor does a direct threat exist if the person takes prompt, effective action to control the service animal (28 CFR 35.136(b)).

Each incident must be considered individually, and past incidents alone are not cause for excluding a service animal. Removal of a service animal may not be used as a reason to refuse service to an individual with disabilities. Members of this department are expected to provide all services that are reasonably available to an individual with a disability, with or without a service animal.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Service Animals

342.4.4 COMPLAINTS

When handling calls of a complaint regarding a service animal, members of this department should remain neutral and should be prepared to explain the ADA requirements concerning service animals to the concerned parties. Businesses are required to allow service animals to accompany their owner into all areas that other customers or members of the public are allowed (28 CFR 36.302).

Absent a violation of law independent of the ADA, officers should take no enforcement action beyond keeping the peace. Individuals who believe they have been discriminated against as a result of a disability should be referred to the Civil Rights Division of the U.S. Department of Justice (DOJ).

Volunteer Program

343.1 PURPOSE AND SCOPE

Volunteers are intended to supplement and support, rather than supplant, sworn members and civilian personnel. Volunteers can be an important part of any organization and are proven to be a valuable asset to law enforcement agencies. Volunteers help to increase responsiveness, delivery of services and information input, and provide new program opportunities. In addition, volunteers bring new skills and expertise to the Department and prompt new enthusiasm.

Prior to being authorized as a Volunteer, an appropriate level background investigation must be completed on each applicant.

The Volunteer Program will be administered through the Support Services Division and program members are subject to the rules, policies and guidelines outlined in the department's Reference Book for Civilian Volunteers, which shall be issued to all new Volunteers. It can also be located on the department network in the F: Drive in the Volunteer folder (*F:\Volunteers\Reference Book for Civilian Volunteers*).

Volunteers also subject to applicable policies outlined in this Policy Manual.

Landlines, Cellular Telephones and other Personal Communication Devices

344.1 PURPOSE AND SCOPE

To establish procedures for the proper and safe usage of department telephones and personal/ department cellular telephones or other personal communication devices while on duty; and establish guidelines for the use of Department issued communications devices and restriction of personally owned devices while on duty and/or work-related purposes..

Due to evolving technical advances and varying manufacturer nomenclature, this policy will generally refer to all types of personal communication devices (PCD) or Department Communication Devices (DCD), but it is intended to include all mobile/cellular telephones, PDA's and other wireless two-way communication and/or portable Internet access devices.

344.1.1 PRIVACY POLICY

Any member utilizing any computer, Internet service, phone service or other wireless service provided by or funded by the department expressly acknowledges and agrees that the use of such service, whether for business or personal use, shall remove any expectation of privacy the member, the sender and the recipient of any communication utilizing such service might otherwise have, including as to the content of any such communication.

The department also expressly reserves the right to access and audit any and all communications, including content sent, received or stored through the use of such service.

344.1.2 RESIDENTIAL OR CELLULAR TELEPHONE REQUIREMENT

All sworn members, and every civilian member designated by a Division Commander as being subject to recall during off-duty hours, shall maintain either a landline telephone at their residence, or maintain a cellular telephone.

Members must keep the department advised of the current landline and/or cellular telephone numbers.

344.1.3 RELEASE OF MEMBER TELEPHONE NUMBERS

Members personal telephone numbers will not be given out to anyone requesting such information, unless the person inquiring is another department member. However, the member may be contacted by the department and given the name and phone number of the person making the request. DCD numbers may be given out to other City or public safety entities but shall not be given to the public without the approval of the member or the member's supervisor.

344.1.4 DEPARTMENT LANDLINE TELEPHONES

Use of department landline telephones should be limited to official business, however, members may make personal local telephone calls if necessary during their shift, but those shall be limited and not for extended durations.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Landlines, Cellular Telephones and other Personal Communication Devices

Long distance personal telephone calls shall not be made by a member except in emergency situations.

When answering a department telephone, members shall identify themselves and be professional and courteous throughout the duration of the call.

344.1.5 USE OF PERSONALLY OWNED CELLULAR TELEPHONES OR PERSONAL COMMUNICATION DEVICES ON DUTY

In general, personal business should not be conducted during the members on duty time; therefore the use of a member's personal cellular telephone or any other PCD while on duty should be limited.

Members who carry a PCD while on duty are subject to the following conditions and limitations:

- (a) The device shall not be used for work-related purposes except in exigent circumstances. Members will have a reduced expectation of privacy when using a PCD in the workplace and have no expectation of privacy with regard to any department business-related communication. When a member uses an individually owned PCD during the course and scope of employment, it is subject to subpoena by a court and the member may have to disclose personal records of communication during that time period.
- (a) The device shall not be utilized to record or disclose any business-related information, including photographs, video or the recording or transmittal of any information or material obtained or made accessible as a result of employment with the Department, without the express authorization of the Chief of Police or his authorized designee.
- (a) Extended or frequent use of any PCD while on duty for personal use that interferes with the member's work may result in discipline.

The department will not be responsible for any repair or replacement of a member's personal cellular telephone or PCD should they be lost, stolen or damaged while on duty, except under limited circumstances approved by the Chief of Police.

344.1.6 CELLULAR TELEPHONE OR PERSONAL COMMUNICATION DEVICE USE WHILE DRIVING

The department recognizes that cellular telephone related collisions occur. Although the department understands that on occasion a member may need to talk on a cellular telephone on duty while driving, the use of a cellular telephone while driving is discouraged due to the distraction associated with their use and the potential for the member to be involved in a traffic collision. Members are encouraged to use a speaker or hands-free device.

Members shall not text message via a cellular telephone or a hand held PCD/DCD while driving on duty.

344.1.7 OFFICER SAFETY AND PUBLIC PERCEPTION

Members should be aware that as representatives of this department, it is important to always present a positive image to the public we serve. Continual use of a cellular telephone or PCD/

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Landlines, Cellular Telephones and other Personal Communication Devices

DCD may give the perception that members are handling personal issues when they should be attentive to what is going on around them. Additionally, sworn members often face elevated levels of danger due to the nature of their activities and the continued use of a cellular telephone or PCD/DCD creates distractions or could lessen their officer safety awareness.

344.2 DEPARTMENT COMMUNICATION DEVICES

The Coeur d'Alene Police Department will issue department issued DCD to authorized personnel which shall be used primarily for work related purposes. It is the policy of the Coeur d'Alene Police Department to restrict personally-owned communications devices (PCD) use for personal matters and DCD to work-related matters and limited personal calls.

The inappropriate use of a DCD while on duty may impair officer safety. Additionally members are advised and cautioned that the use of a PCD or their issued DCD either on-duty or after duty hours for business-related purposes may subject the member and the member's PCD and/or DCD records to civil or criminal discovery or disclosure under applicable public records laws. It is for this reason it is the policy of the Coeur d'Alene Police Department to restrict PCD use for personal matters only and not to be used for work related purposes.

344.2.1 DCD PRIVACY EXCEPTION

Members forfeit any expectation of privacy with regard to any communication accessed, transmitted, received or reviewed on any DCD and shall have no expectation of privacy in their location should the device be equipped with location detection capabilities. Additionally the Department will be using mobile device management to restrict certain applications / capabilities of the device to prevent network intrusions and unauthorized use of DCD.

No member is authorized to be the sole possessor of a DCD. DCD can be retrieved, reassigned, or accessed by any member as directed by a supervisor without notice. Member use of a DCD at work or for work-related business constitutes consent to access.

344.2.2 ISSUANCE OF A DCD

DCD are provided as a means of conducting work related duties without subjecting PCD to disclosure. Such DCD and the associated phone number shall remain the sole property of the Department and shall be subject to inspection or monitoring (including all related records and content) at any time without notice and without cause.

Except with prior express authorization from their supervisor, members are not obligated or required to carry, access, monitor or respond to electronic communications using a DCD while off-duty. If a member is in an authorized status that allows for appropriate compensation consistent with policy or existing memorandum of understanding or collective bargaining agreements, or if the member has prior express authorization from his/her supervisor, the member may engage in business-related communications. Should members engage in such approved off-duty communications or work, members entitled to compensation shall promptly document the time worked and communicate the information to their supervisors to ensure appropriate compensation. Members who independently document off-duty department-related business

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Landlines, Cellular Telephones and other Personal Communication Devices

activities in any manner shall promptly provide the Department with a copy of such records to ensure accurate record keeping.

Based on the member's specific unit or assignment such as SWAT, Investigations, etc. the member may be required to carry the DCD and respond to communications while off duty or when required by a supervisor. Overtime applies when a member is placed on-call for Investigations Division, when placed on standby and need to be available for immediate call back by a department head or subpoena, or when otherwise directed by a supervisor. Merely answering the DCD does not, in itself, constitute overtime compensation.

Members issued a DCD will maintain the device in a department issued case or in a personally owned case approved by the Department's IT or Logistics staff members. Personally owned cases shall not be of a color or design that is extravagant, gaudy, or offensive. Logos, slogans, and designs are not permitted without the Chief of Police or his designee's approval. The American flag, officer name and badge number or Department logo are authorized designs on the case.

The case must be impact resistant or designed to protect the DCD from dropping or impact.

Additionally members are responsible for reimbursing the department for any charges incurred as a result of personal use of a DCD.

344.2.3 USE OF A DCD

The following protocols shall apply to all DCDs that are carried while on-duty or used to conduct department business:

- (a) A DCD may not be used to conduct personal business while on duty, except for brief personal communications (e.g., informing family of extended hours). While members may use PCD's for personal business during authorized breaks, such usage should be limited as much as practical to areas where the call will not be seen or heard by the public. Members shall endeavor to limit their use of PCDs to authorized break times, unless an emergency exists.
- (b) Members are prohibited from taking pictures, audio or video recordings or making copies of any such picture or recording media unless it is directly related to official department business. Disclosure of any such information to any third party through any means, without the express authorization of the Chief of Police or the authorized designee, may result in discipline.
- (c) A DCD shall not be used for pictures, audio or video recordings except in emergency situations. If used in an emergency, the file(s) shall be uploaded into the Department's digital evidence retention system (currently VIPER) under the case number which it was generated.
- (d) Members will not access social networking sites on DCDs for any purpose that is not official department business.
- (e) Using DCDs to harass, threaten, coerce or otherwise engage in inappropriate conduct is prohibited. Any member having knowledge of such conduct shall promptly notify a supervisor.

- (f) Members may not install any application not approved by the Department on their DCD. This is to prevent cyber incidents including malware, ransomware, and other volatile programs. Members may only use the Blu-Tooth function to connect to Department authorized peripherals. These devices include but not limited to: body worn cameras, patrol vehicles for hands-free operation, and external speakers.
- (g) Passcodes, passwords and other authentication configurations granting access to the DCD or the "hotspot" shall not be shared with family or co-workers.
- (h) No personal accounts, like an Apple profile, shall be connected to the DCD. This includes personal e-mails.
- (i) If the DCD is hotspot enabled, data connectivity is allowed only for work related purposes. Data plans are currently capped at 10 GB a month. Users shall monitor their usage to prevent overage.

344.2.4 OFFICIAL USE

Members are reminded that DCDs are not secure devices and conversations may be intercepted or overheard. Caution should be exercised while utilizing DCDs to ensure that sensitive information is not inadvertently transmitted.

Off-Duty Law Enforcement Actions

345.1 PURPOSE AND SCOPE

The decision to become involved in a law enforcement action when off-duty can place a member, as well as others, at great risk and must be done with careful consideration. This policy is intended to provide guidelines for sworn members with respect to taking law enforcement action while off-duty.

345.2 POLICY

Initiating law enforcement action while off-duty is generally discouraged. Members should not attempt to initiate enforcement action when witnessing minor crimes, such as suspected intoxicated drivers, reckless driving or minor property crimes. Such incidents should be promptly reported to the appropriate law enforcement agency.

Members are not expected to place themselves in unreasonable peril. However, any sworn member of this department who becomes aware of an incident or circumstance that he reasonably believes poses an imminent threat of serious bodily injury or death, or significant property damage may take reasonable action to minimize the threat.

When public safety or the prevention of major property damage requires immediate action, members should first consider reporting and monitoring the activity and only take direct action as a last resort.

Members should remember that their authority as a peace officer may not extend to actions taken outside their jurisdiction unless there is probable cause to believe the crime to be addressed is a felony or presents an immediate threat of serious bodily injury or death (Idaho Code § 67-2337).

345.3 FIREARMS

Members of this department may carry firearms while off-duty in accordance with federal regulations and department policy. All firearms and ammunition must meet guidelines as described in Policy §312 *Firearms*. When carrying firearms while off-duty, sworn members shall also carry their department-issued badge or identification.

Members should refrain from carrying firearms when the consumption of alcohol is likely or when the need to carry a firearm is outweighed by safety considerations. Firearms shall not be carried by any member who has consumed an amount of an alcoholic beverage or taken any drugs that would tend to adversely affect the member's senses or judgment.

345.4 DECISION TO INTERVENE

There is no legal requirement for off-duty members to take law enforcement action. However, should members decide to intervene, they must evaluate whether the action is necessary or desirable, and should take into consideration the following:

- The tactical disadvantage of being alone and the fact there may be multiple or hidden suspects.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Off-Duty Law Enforcement Actions

- The inability to communicate with responding units.
- The lack of equipment, such as handcuffs, OC or baton.
- The lack of cover.
- The potential for increased risk to bystanders if the off-duty member were to intervene.
- Unfamiliarity with the surroundings.
- The potential for the off-duty member to be misidentified by other peace officers or members of the public.

Members should consider waiting for on-duty uniformed officers to arrive, and gather as much accurate intelligence as possible instead of immediately intervening.

345.4.1 INTERVENTION PROCEDURE

If involvement is reasonably necessary, the member should attempt to call or have someone else call 9-1-1 to request immediate assistance. The call-taker should be informed that an off-duty member is on-scene and should be provided a description of the member if possible.

Whenever practicable, the member should verbally identify himself as a Coeur d'Alene Police Officer until acknowledged. Official identification should also be displayed.

345.4.2 INCIDENTS OF PERSONAL INTEREST

Members should refrain from handling incidents of personal interest, (*i.e. family or neighbor disputes*) and should remain neutral. In such circumstances members should call the responsible agency to handle the matter.

345.4.3 OTHER CONSIDERATIONS

When encountering a non-uniformed officer in public, uniformed members should wait for acknowledgement by the non-uniformed officer in case he needs to maintain an undercover capability.

345.5 REPORTING

Members should cooperate fully with the agency having jurisdiction in providing statements or reports as requested or as appropriate.

CUSTODIAL INTERFERENCE

346.1 PURPOSE

This policy provides the Coeur d Alene Police Department members with guidelines for investigating custodial interference incidents.

346.2 CUSTODIAL INTERFERENCE

Definition:

A person commits child custodial interference if the person, whether a parent or other, or agent of that person, intentionally and without lawful authority:

- Takes, entices way, keeps or withholds any minor child from a parent or another person or institution having custody, joint custody, visitation or other parental rights, whether such rights arise from temporary or permanent custody order, or from the equal custodial rights of each parent in the absence of a custody order: or
- Takes, entices away, keeps or withholds a minor child from a parent after commencement of an action relating to child visitation or custody but prior to the issuance of an order determining custody or visitation rights.

346.3 CONSIDERATIONS

Child custody cases are often complicated and volatile. Emotions are high, and allegations of abuse are frequently made.

- One or both parties may produce court documents granting permanent or temporary custody of the children.
- The officer will usually not be able to verify the validity of court documents, and it is often difficult to determine if there is a custodial interference violation.

Exigent circumstances may include but are not limited to:

- Stranger abductions.
- Non-custodial parents who are attempting to flee out of the state with the child/children.
- Any person who had not established custodial rights to the child/children

DO NOT make arrests at the scene for custodial interference unless exigent circumstances exist.

Defense to Prosecution,

It shall be an affirmative defense to a violation of the provisions of this section that:

- The action is taken to protect the child from imminent physical harm.
- The action is taken by a parent fleeing from imminent physical harm to himself.
- The action is consented to by the lawful custodian of the child.
- The child is returned within twenty-four (24) hours after expiration of an authorized visitation privilege.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

CUSTODIAL INTERFERENCE

Consult a supervisor prior to making an arrest.

346.4 PROCEDURES

Perform a civil standby while the complaining party makes a demand for the child/children.

Investigate allegations of physical or sexual abuse; check the welfare of the children, investigate appropriately, and document your findings.

If the alleged non-custodial parent refuses to surrender the child/children:

- Explain the custodial interference statute and advise the parent that they may be prosecuted if they do not comply with the law.

If the child/children cannot be located, enter the the child/children into NCIC as "involuntary missing."

If an arrest is necessary, the following will apply:

- Book the suspect into jail.
- Write and forward a report (include court documents if possible).
- Place the child/children with the custodial parent or Child Protection Services as appropriate.

Chapter 4 - Patrol Operations

Patrol will generally provide the following services within the limits of available resources:

- Crime prevention activities, to include extra patrol requests of residences, businesses or certain geographical areas of the community.
- Calls for service, both routine and emergency in nature.
- Investigation of criminal acts and traffic collisions.
- The apprehension of criminal offenders.
- Community Oriented Policing and Problem Solving activities such, as citizen assists and individual citizen contacts of a positive nature.

It is the goal of the department to make every reasonable effort to accurately and appropriately gather and report any information that may relate to either foreign or domestic terrorism. Members should advise a supervisor as soon as practicable of any activity believed to be terrorism related and should document such incidents with a written report or Field Interview (FI). The supervisor should ensure that all terrorism related reports and FIs are forwarded to the Investigations section as soon as practical.

Watch Commanders

401.1 PURPOSE AND SCOPE

Each Uniformed Patrol shift must be directed by supervisors who are capable of making decisions and communicating in a manner consistent with the policies, procedures, practices, functions and objectives of this department.

401.1.1 WATCH COMMANDERS

A Sergeant shall be designated as the Watch Commander. A Lieutenant or Captain may fill that role in the absence of a Sergeant or assume Incident Command over a scene as circumstances dictate.

Bias-Based Policing

402.1 PURPOSE AND SCOPE

This policy provides guidance to department members that affirms the Coeur d'Alene Police Department's commitment to policing that is fair and objective.

Nothing in this policy prohibits the use of specified characteristics in law enforcement activities designed to strengthen the department's relationship with its diverse communities (e.g., cultural and ethnicity awareness training, youth programs, community group outreach, partnerships).

402.1.1 DEFINITIONS

Definitions related to this policy include:

Bias-based policing or improper profiling - An inappropriate reliance on actual or perceived characteristics such as race, ethnicity, national origin (including limited English proficiency), religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability, or affiliation with any non-criminal group (protected characteristics) as the basis for providing differing law enforcement service or enforcement. This includes explicit and implicit biases (i.e., conscious and unconscious beliefs or attitudes towards certain groups).

402.2 POLICY

The Coeur d'Alene Police Department is committed to providing law enforcement services to the community with due regard for the racial, cultural or other differences of those served. It is the policy of this department to provide law enforcement services and to enforce the law equally, fairly, objectively and without discrimination toward any individual or group.

402.3 BIAS-BASED POLICING PROHIBITED

Bias-based policing is strictly prohibited.

However, nothing in this policy is intended to prohibit an officer from considering protected characteristics in combination with credible, timely and distinct information connecting a person or people of a specific characteristic to a specific unlawful incident, or to specific unlawful incidents, specific criminal patterns or specific schemes.

402.3.1 OTHER PROHIBITIONS

Members of the Coeur d'Alene Police Department shall not engage in motorcycle profiling. Motorcycle profiling includes arbitrary use of facts such as a person riding a motorcycle or wearing motorcycle-related paraphernalia as factors in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle under the United States Constitution or Idaho State Constitution (Idaho Code 49-1431).

402.4 MEMBER RESPONSIBILITIES

Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any suspected or known instances of bias-based policing to

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Bias-Based Policing

a supervisor. Members should, when reasonable to do so, intervene to prevent any biased-based actions by another member.

402.4.1 REASON FOR CONTACT

Officers contacting a person shall be prepared to articulate sufficient reason for the contact, independent of the protected characteristics of the individual.

To the extent that written documentation would otherwise be completed (e.g., arrest report, Field Interview (FI) card), the involved officer should include those facts giving rise to the contact, as applicable.

Except for required data-collection forms or methods, nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

402.5 SUPERVISOR RESPONSIBILITIES

Supervisors should monitor those individuals under their command for compliance with this policy and shall handle any alleged or observed violations in accordance with the Personnel Complaints Policy.

- (a) Supervisors should discuss any issues with the involved officer and his/her supervisor in a timely manner.
 - 1. Supervisors should document these discussions, in the prescribed manner.
- (b) Supervisors should periodically review MAV recordings, portable audio/video recordings, Mobile Data Computer (MDC) data and any other available resource used to document contact between officers and the public to ensure compliance with this policy.
 - 1. Supervisors should document these periodic reviews.
 - 2. Recordings that capture a potential instance of bias-based policing should be appropriately retained for administrative investigation purposes.
- (c) Supervisors shall initiate investigations of any actual or alleged violations of this policy.
- (d) Supervisors should take prompt and reasonable steps to address any retaliatory action taken against any member of this department who discloses information concerning bias-based policing.

Uniformed Patrol Briefing

403.1 PURPOSE AND SCOPE

Briefing provides an opportunity for an important exchange of information between members and supervisors. A supervisor generally will conduct the briefing; however other members may present training on assigned or applicable subjects that are pertinent to the shift or the department.

403.2 PREPARATION FOR DUTY AND MEMBER RESPONSIBILITIES

Briefing will generally begin at 10 minutes past the assigned hour the member's shift begins. Prior to briefing beginning, the member shall check out and inspect the patrol vehicle he will be using for the shift and have it outfitted with his duty bag, patrol rifle and less lethal shotgun. This is to allow for immediate response to calls for service when necessary.

Supervisors from shifts that are going off duty, shall ensure the on-coming supervisors are notified of any vital or important information that other department members need to be aware of throughout their shifts.

The supervisor conducting the briefing is responsible for preparation of the materials necessary for a constructive briefing. Supervisors may delegate this responsibility to a subordinate member in his absence, or for training purposes.

Briefing should accomplish, at a minimum, any or all of the following basic tasks:

- Briefing members with information regarding daily patrol activity, activity that occurred during previous shifts, with particular attention given to officer safety alerts, wanted persons, stolen vehicles, major investigations, extra patrol requests, high crime locations and issuance of Civil Protection Orders to be served, etc.
- Notifying members of changes in schedules and assignments.
- Notifying members of new Directives or changes in Directives.
- Reviewing recent incidents for training purposes.
- Providing training on a variety of subjects.
- Issuing any paperwork to members.

Supervisors shall:

- Set an example in appearance, conduct and promptness;
- Ensure briefings begin promptly and end in a reasonable amount of time;
- Account for all members assigned to the shift;
- Ensure all pertinent information is relayed to shift members;
- Informally inspect members to ensure adherence to uniform, equipment and grooming standards.

Coeur d'Alene Police Department

Uniformed Patrol Briefing

- Supervisors may conduct formal inspections at their discretion, including vehicle inspections.

Members shall:

- Be punctual in their attendance at briefing;

- Prior to leaving the briefing room, share the responsibility for securing sensitive or confidential information, and keep the room clean and organized.
 - Members going off duty shall ensure the report writing room and break room are clean and organized prior to going off duty.

Briefing times should generally last no longer than 20 minutes. Supervisors may allow a reasonable amount of time for shift conversation and information sharing after the briefing, but members shall be expected to begin their patrol duties as soon as possible unless they have prior reports or other paperwork to complete, e-mails to read, voice mail messages to check or return, or have been given an assignment by their supervisor. Members shall not congregate in the police department for extended periods of time if they are not on a call for service, writing reports, conducting police business, or on other assigned duties.

Crime & Disaster Scene Integrity

404.1 PURPOSE AND SCOPE

The protection and integrity of a crime scene is of the utmost importance for the successful apprehension of criminals and successful prosecution. The integrity of a disaster scene is equally critical for the protection of life and property and investigation by proper authorities.

404.2 CRIME SCENE RESPONSIBILITY

The first member at the scene of a crime or major incident is generally responsible for the preservation of the scene. Members shall however, also consider officer safety and public safety issues, including rendering medical aid for any injured parties. Once a member has assumed or been assigned to maintain the integrity of the crime/disaster scene, it shall be maintained until relieved by a supervisor.

404.2.1 FIRST RESPONDER CONSIDERATIONS

The following list generally describes the first responder's function at a crime or disaster scene. This list is not intended to be all-inclusive and is not necessarily in order and may be altered according to the demands of each situation:

- Ensure no suspects are still within the area;
- Broadcast emergency information including all requests for additional assistance;
- Provide first aid to injured persons if it can be done safely;
- Secure the inner perimeter with crime scene tape;
- Protect items of apparent evidentiary value;
- Start chronological log noting critical times and personnel allowed access.

404.2.2 MEDIA ACCESS

- (a) Media representatives may be prevented from interfering with emergency operations and criminal investigations.
 1. In situations where media access would reasonably appear to interfere with emergency operations and/or a criminal investigation, every reasonable effort should be made to provide media representatives with access to a Press Information Officer at the nearest location that will not interfere with such activities.
- (b) No member of this department shall be subjected to media visits or interviews without the consent of the involved member and authorization of the Chief of Police or his designee.

The scene of a tactical operation is the same as a crime scene, except that the news media may be permitted within the outer perimeter of the scene, subject to any restrictions as set forth by the

Coeur d'Alene Police Department

supervisor in charge. Members shall not jeopardize a tactical operation in order to accommodate the news media, and all comments to the media shall be coordinated through a supervisor or the Press Information Officer.

Tactical Response Teams

405.1 PURPOSE AND SCOPE

The purpose of tactical response teams is to provide a group of sworn members who are trained and skilled in the use of specialized equipment and tactics for the resolution of critical or tactical incidents. Each team should maintain standard operating procedures (SOPs) regarding membership, selection criteria, training, equipment, command and control, tactics and overall operations.

Tactical response teams consist of the Special Weapons and Tactics Team (SWAT), Hostage Negotiations Team (HNT), and Special Intervention Response Team (SIRT).

- SWAT is a joint agency tactical team with the Kootenai County Sheriff's Department and may be deployed for high-risk incidents such as barricaded suspects, hostage situations, or warrant service;

405.1.3 ACTIVATION OF THE SWAT TEAM

A request for the SWAT team to be activated and respond to an incident within our jurisdiction shall be made by the Shift Commander.

During emergency situations which may be rapidly evolving, the Shift Commander, via Central, shall contact the SWAT Team Commander or his designee and advise details of the incident and request SWAT deployment for the incident. The Shift Commander shall also contact the Operations Division Commander or his designee as soon as practical.

For all other situations in which the Uniformed Patrol Division is requesting SWAT deployment, the Shift Commander shall contact the Operations Division Commander or his designee and advise them of the details of the incident.

The Shift Commander shall become the Incident Commander unless otherwise delegated or relieved. The Incident Commander shall also:

- Establish inner and outer perimeters; and

405.1.4 SCENE MANAGEMENT DURING SWAT DEPLOYMENT

If the SWAT team is deployed for any incident within our jurisdiction at the request of this department, an Incident Command System (ICS) protocol will be established. The Incident Commander shall be a ranking member of this department. The SWAT Team Commander or his designee will assume tactical command over the incident but shall maintain communications at all times with the Incident Commander in order to safely and effectively resolve the incident.

The scope of the incident will determine what major functions of the ICS system should be activated at any given time during the incident.

The search warrant should, if at all possible, be a day or night warrant with a service time frame of longer than 24 hours to allow for operations that may not be resolved immediately.

For situations that involve the arrest of a person(s), an arrest warrant, if applicable, should also be obtained prior to SWAT effecting the search and/or arrest attempt. It is understood that the identity of suspects involved in a crime may not be known prior to the SWAT operation and an arrest warrant not issued prior to the operation taking effect.

405.2 HOSTAGE NEGOTIATIONS TEAM

The Hostage Negotiations Team (HNT) is a joint agency team comprised of members of this department and the Kootenai County Sheriff's Department. Members assigned to the HNT are trained communicators who may be utilized to attempt de-escalation and surrender during critical incidents where suspects may have taken hostages, barricaded themselves or have suicidal tendencies.

405.2.1 USE AND ACTIVATION OF THE HNT TEAM

The Hostage Negotiations Team will be deployed in conjunction with a SWAT deployment upon authorization of the SWAT Team Commander or his designee. The following are examples of incidents which HNT members may assist in SWAT operations:

Hazardous Material Response

407.1 PURPOSE AND SCOPE

Hazardous materials present a potential harm to members resulting from their exposure. The following is to be the policy of this department.

407.1.1 HAZARDOUS MATERIAL DEFINED

A hazardous material is a substance which by its nature, containment and reactivity, has the capability of inflicting harm during exposure; characterized as being toxic, corrosive, flammable, reactive, an irritant or strong sensitizer and thereby posing a threat to health when improperly managed.

407.2 HAZARDOUS MATERIAL RESPONSE

Members may encounter situations involving suspected hazardous materials, such as at the scene of a traffic collision, chemical spill, or fire.

If at all possible, members responding to a hazardous materials call should attempt to plan their approach upwind. Also, if the type of hazardous material is known prior to the members arrival, consideration to researching an "Emergency Response Guide" book should be taken so the member is aware of possible toxic effects, symptoms of exposure, reaction and health effects.

Members generally only have an awareness level of hazardous material training, and do not have the proper equipment or training to safely handle or contain hazardous materials. Therefore, members should make every effort to not expose themselves to hazardous materials.

The following steps should be considered at any scene involving suspected hazardous materials:

- (a) Attempt to identify type of hazardous substance from a safe distance;
 1. Identification may be determined by placard, driver's manifest or statements from the person transporting or having any knowledge of material.
- (b) Notify Fire Department with as much information as possible at the time (*i.e. type of hazardous substance, location of substance, number of injured or exposed persons, safest direction/approach for fire and medical personnel*);
- (c) Provide first-aid for injured parties if it can be done safely and without contamination;
- (d) Depending upon type and/or amount of substance, an evacuation of immediate and surrounding areas may be necessary. Voluntary evacuation should be considered; however depending on the substance, mandatory evacuation may be required.
 1. Regarding mandatory evacuations, only the Governor can order a mandatory evacuation under a declaration of a state of disaster emergency, per Idaho code 46-1008.

Hazardous Material Response

407.2.1 HAZARDOUS MATERIAL ROLE AND RESPONSIBILITY

The department defers incidents involving hazardous materials to the Fire Department, who will generally have primary control over a hazardous material incident. Depending on the incident, a Unified Command system involving our department may be required.

Members of our department will assist with evacuations, crowd and traffic control, and any related criminal investigation.

407.3 REPORTING EXPOSURE(S)

Members who have been exposed to, or believe they have been exposed to, a hazardous material shall report the exposure to a Supervisor as soon as practical. The member shall seek medical treatment or evaluation from medical personnel at the scene, or at the hospital, as soon as possible. The Supervisor shall ensure the member receives immediate medical treatment and that appropriate action is taken to lessen the exposure.

A Supervisor receiving notification from a member of an exposure or possible exposure shall investigate how the exposure may have occurred. If practical, photographs of any related injury to the exposure and/or location of where the exposure occurred should be taken if applicable. The following steps shall also be taken:

- (a) The Supervisor shall complete the First Report of Injury and Supervisors Accident Report forms as soon as practical.
- (b) The Supervisor shall print out both forms upon their completion and have the concerned member review the First Report of Injury form for accuracy as soon as practical.
- (c) If the form is not an accurate account of how the exposure occurred, the member shall advise the Supervisor what changes are needed.
- (d) An accurate form shall be dated and signed by the member if they are able to do so within a reasonable amount of time.
- (e) The Supervisor will forward both the original First Report of Injury and Supervisors Accident Report forms to the member's Division Commander.
- (f) The Supervisor shall also electronically send both forms to the Human Resources Department. *(The electronic version does not have to be the original signed forms, but must be the accurate form the member reviewed).*

The Supervisor should also forward a brief memorandum or e-mail to the member's Division Commander summarizing how the exposure occurred if additional details regarding the incident are warranted.

Hostages and Barricade Incidents

408.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for situations where sworn members have legal cause to contact, detain or arrest a person, and the person refuses to submit to the lawful requests of those members by remaining in a structure or vehicle and/or by taking a hostage.

The scope of this policy is not intended to address all variables that members encounter during their initial response or when a hostage or barricade situation has developed. This policy does not require or purport to recommend specific strategies or tactics for resolution as each incident is a dynamic and rapidly evolving event.

408.1.1 DEFINITIONS

Definitions related to this policy include:

Barricade situation - An incident where a person maintains a position of cover or concealment and ignores or resists sworn members, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon.

Hostage situation - An incident where it is reasonable to believe a person is unlawfully held by a hostage-taker as security so that specified terms or conditions will be met.

408.2 POLICY

It is the policy of this department to address hostage and barricade situations with due regard for the preservation of life and balancing the risk of injury, while obtaining the safe release of hostages, apprehending offenders and securing available evidence.

408.3 COMMUNICATION

When circumstances permit, initial responding members should try to establish and maintain lines of communication with a barricaded person or hostage-taker. Members should attempt to identify any additional subjects, inquire about victims and injuries, seek the release of hostages, gather intelligence information, identify time-sensitive demands or conditions and obtain the surrender of the suspect.

When available, department-authorized negotiators should respond to the scene as soon as practicable and assume communication responsibilities. Negotiators are permitted to exercise flexibility in each situation based upon their training, the circumstances presented, suspect actions or demands and the available resources.

408.3.1 CRITERIA FOR SPECIALWEAPONS AND TACTICS TEAM NOTIFICATION

The Special Weapons and Tactics Team (SWAT), along with its Hostage Negotiation Team (HNT) may be activated to significantly increase our ability to safely and effectively resolve high-risk situations.

See [Policy §405 Tactical Response Teams](#) for further information regarding SWAT and HNT response criteria.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Hostages and Barricade Incidents

408.4 FIRST RESPONDER CONSIDERATIONS

First responding members should promptly and carefully evaluate all available information to determine whether an incident involves, or may later develop into, a hostage or barricade situation.

The first responding member should immediately request a supervisor's response as soon as it is determined that a hostage or barricade situation exists. The first responding member shall assume the duties of the supervisor until relieved by a supervisor or a more qualified responder. The member shall continually evaluate the situation, including the level of risk to officers, to the persons involved and to bystanders, and the resources currently available.

The member should brief the arriving supervisor of the incident, including information about suspects and victims, the extent of any injuries, additional resources or equipment that may be needed, and current perimeters and evacuation areas.

408.4.1 BARRICADE SITUATION

Unless circumstances require otherwise, members handling a barricade situation should attempt to avoid a forceful confrontation in favor of stabilizing the incident by establishing and maintaining lines of communication while awaiting the arrival of specialized personnel and trained negotiators. During the interim the following options, while not all-inclusive or in any particular order, should be considered:

- (a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.
- (b) Assign members to a contact team to control the suspect should he attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.
- (c) Request additional personnel, resources and equipment as needed (*i.e. canine team, air support*).
- (d) Provide responding emergency personnel with a safe arrival route to the location.
- (e) Evacuate non-injured persons in the immediate threat area if it is reasonably safe to do so.
- (f) Attempt or obtain a line of communication and gather as much information on the subject as possible, including weapons, other involved parties, additional hazards or injuries.
- (g) Establish an inner and outer perimeter as circumstances require and resources permit to prevent unauthorized access.
- (h) Evacuate bystanders, residents and businesses within the inner and then outer perimeter as appropriate. Check for injuries, the presence of other involved subjects, witnesses, evidence or additional information.
- (i) Determine the need for and notify the appropriate persons within and outside the department, such as command officers and the Public Information Officer.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Hostages and Barricade Incidents

- (j) If necessary and available, establish a tactical or exclusive radio frequency for the incident.
- (k) Establish a command post.

408.4.2 HOSTAGE SITUATION

Members presented with a hostage situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained hostage negotiators. However, it is understood that hostage situations are dynamic and can require that members react quickly to developing or changing threats. The following options while not all-inclusive or in any particular order, should be considered:

- (a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.
- (b) Assign members to a contact team to control the suspect should attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.
- (c) Establish a rapid response team in the event it becomes necessary to rapidly enter a building, structure or vehicle, such as when the suspect is using deadly force against any hostages (see Policy §413Rapid Deployment Response).
- (d) Assist hostages or potential hostages to escape if it is reasonably safe to do so. Hostages should be kept separated if practicable pending further interview.
- (e) Request additional personnel, resources and equipment as needed (*i.e. canine team or air support*).
- (f) Provide responding emergency personnel with a safe arrival route to the location.
- (g) Evacuate non-injured persons in the immediate threat area if it is reasonably safe to do so.
- (h) Coordinate pursuit or surveillance vehicles and control of travel routes.
- (i) Attempt or obtain a line of communication and gather as much information about the suspect as possible, including any weapons, victims and their injuries, additional hazards, other involved parties and any other relevant intelligence information.
- (j) Establish an inner and outer perimeter as resources and circumstances permit to prevent unauthorized access.
- (k) Evacuate bystanders, residents and businesses within the inner and then outer perimeter as appropriate. Check for injuries, the presence of other involved subjects, witnesses, evidence or additional information.
- (l) Determine the need for and notify the appropriate persons within and outside the department, such as command officers and the Public Information Officer.
- (m) If necessary and available, establish a tactical or exclusive radio frequency for the incident.

408.5 SUPERVISOR RESPONSIBILITIES

Upon being notified that a hostage or barricade situation exists, the supervisor should immediately respond to the scene, assess the risk level of the situation, establish a proper chain of command and assume the role of Incident Commander until properly relieved. This includes requesting a Special Weapons and Tactics Team (SWAT) response if appropriate and apprising the SWAT Commander of the circumstances. In addition, the following options, listed here in no particular order, should be considered:

- (a) Ensure injured persons are evacuated and treated by medical personnel.
- (b) Ensure the completion of necessary first responder responsibilities or assignments.
- (c) Request crisis negotiators, specialized units, additional personnel, resources or equipment as appropriate.
- (d) Establish a command post location as resources and circumstances permit.
- (e) Designate assistants who can help with intelligence information and documentation of the incident.
- (f) If it is practicable to do so, arrange for video documentation of the operation.
- (g) Consider contacting utility and communication providers when restricting such services (*i.e. restricting electric power, gas, telephone service*).
- (h) Ensure adequate law enforcement coverage for the remainder of the City during the incident. The supervisor should direct non-essential personnel away from the scene unless they have been summoned by the supervisor.
- (i) Identify a media staging area outside the outer perimeter and have the department Public Information Officer or a designated temporary media representative provide media access in accordance with the News Media Relations Policy.
- (j) Identify the need for mutual aid and the transition of relief of personnel for incidents of extended duration.
- (k) Debrief personnel and review documentation as appropriate.

408.6 REPORTING

Unless otherwise relieved by a supervisor or Incident Commander, the first responding member at the scene is responsible for completion and/or coordination of incident reports.

Response to Explosives Incidents

409.1 PURPOSE AND SCOPE

These guidelines have been prepared to assist members in their initial response to incidents involving explosives, explosive devices, or explosion/bombing incidents. Under no circumstances should these guidelines be interpreted as compromising the safety of first responders or the public. When confronted with an incident involving explosives, safety shall always be the primary consideration.

409.2 FOUND EXPLOSIVES/SUSPECT DEVICES

When handling an incident involving a suspected explosive device, the following guidelines should be followed. When in doubt, the Spokane City/County Explosive Disposal Unit may be contacted for assistance.

- (a) No known or suspected explosive item should be considered safe regardless of its size or apparent packaging. The appropriate bomb squad or military explosive ordnance disposal team should be summoned for assistance.
- (b) A minimum perimeter of 300 hundred feet should be established around the location of the device. An access point should be provided for support personnel.
- (c) As much information as is available should be promptly relayed to the Shift Commander including:
- (d) The stated threat, if applicable.
 1. Exact comments, if applicable.
 2. Time of discovery.
 3. Exact location of the device.
 4. Full description (*i.e. size, shape, markings, construction*) of the device.
- (e) The device should not be touched or moved except by qualified bomb squad personnel.
- (f) All equipment within 300 feet of the suspected device capable of producing radio frequency energy should be turned off. This includes two-way radios, cell phones and other personal communication devices.
- (g) Consideration should be given to evacuating any buildings near the device.
- (h) A search of the area should be conducted for secondary devices or other objects that are either hazardous or foreign to the area and a perimeter should be established around any additional suspicious device found.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Response to Explosives Incidents

- (i) Other hazardous devices such as commercial fireworks, improvised fireworks, containers of gunpowder and large caliber ammunition (.50 caliber and over) should be referred to the bomb squad for assistance or disposal.

Explosive or military ordnance of any type should be handled only by a bomb squad or military ordnance disposal team.

409.3 EXPLOSION/BOMBING INCIDENTS

When an explosion has occurred, there are multitudes of considerations which may confront the responding members. As in other catastrophic incidents, a rapid response may help to minimize injury to victims, contamination of the scene by gathering crowds, or additional damage by resulting fires or unstable structures. Whether the explosion was the result of an accident or a criminal act, the responding members should consider the following actions:

- (a) Securing the perimeter.
- (b) Sweeping for possible secondary devices.
- (c) Assessing the scope of the incident, including the number of victims and extent of injuries.
- (d) Assisting with first aid (*Fire Department has primary responsibility*).
- (e) Assisting with evacuation of victims.
- (f) Requesting additional resources as needed.
- (g) Identifying witnesses.
- (h) Preserving evidence and securing possible crime scene(s).

409.3.1 NOTIFICATIONS

When an explosion has occurred, the following personnel should be notified as soon as practical if their assistance is needed:

- Fire/Medical Personnel
- Additional Uniformed Patrol Personnel
- Supervisor/Shift Commander
- Detectives
- Operations Division Commander
- Public Information Officer
- Spokane City/County Explosive Disposal Unit
- Other Emergency Service Personnel

Coeur d'Alene Police Department

Response to Explosives Incidents

409.3.2 CROWD CONTROL

Only authorized personnel with a legitimate need shall be permitted access to the scene. Spectators and other unauthorized individuals shall be excluded to a safe distance as is reasonably practicable given the available resources and personnel.

409.3.3 SCENE OF INCIDENT

As in any other crime scene, steps should immediately be taken to preserve the scene. The scene could extend over a long distance. Evidence may be imbedded in nearby structures or hanging in trees and bushes.

409.4 BOMB THREATS RECEIVED AT POLICE FACILITY

The following procedure should be followed should a bomb threat call be received at the department.

409.4.1 BOMB THREATS RECEIVED BY TELEPHONE

The following questions should be asked if a bomb threat is received by telephone:

- When is the bomb going to explode?
- Where is the bomb?
- What kind of bomb is it?
- What does it look like?
- Why did you place the bomb?
- Who are you? *(to avoid possible termination of the call this should be the last question asked)*

Attempt to keep the caller on the line as long as possible and obtain expanded answers to these five basic questions.

During this time, document the following:

- Time of the call.
- Exact words of the person as accurately as possible.
- Estimated age and gender of the caller.
- Speech patterns and/or accents.
- Background noises.

If the incoming call is received at the police facility on a recorded line, steps shall be taken to ensure that the recording is preserved in accordance with current department evidence procedures.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Response to Explosives Incidents

409.4.2 RESPONSIBILITIES

The member handling the call shall ensure a Supervisor is immediately advised and fully informed of the details. The Supervisor will then direct and assign members as required for coordinating a general building/property search or evacuation as he deems appropriate.

If any known or suspected device is located, the department should be evacuated and perimeter secured. The following units and personnel shall also be promptly notified:

- Fire/Medical Personnel
- Operations Division Commander
- Chief of Police
- Spokane City/County Explosive Disposal Unit
- Detectives

The Supervisor shall also ensure a crime report is completed.

Civil Commitments

410.1 PURPOSE AND SCOPE

This policy provides guidelines for when officers may place an individual under protective custody for civil commitment.

410.2 POLICY

It is the policy of the Coeur d'Alene Police Department to protect the public and individuals through legal and appropriate use of the civil commitment process.

410.3 AUTHORITY

An officer may take a person into protective custody and transport the person to an approved facility or hospital when (Idaho Code 66-326):

- (a) There is probable cause to believe that the person is gravely disabled due to mental illness or poses an imminent danger to themselves or others as evidenced by a threat of substantial physical harm.
- (b) A court order is issued under Idaho Code 66-329.

Upon taking a person into protective custody, a good faith effort shall be made to provide notice to the person's legal guardian, parent, spouse, or adult next-of-kin of the person's physical whereabouts and the reasons for taking the person into custody (Idaho Code 66-326).

410.3.1 VOLUNTARY EVALUATION

If an officer encounters an individual who may qualify for civil commitment, he/she may inquire as to whether the person desires to voluntarily be evaluated at an appropriate facility. If the individual so desires, the officers should:

- (a) Transport the individual to an appropriate facility that is able to conduct the evaluation and admit the person as a civil commitment.
- (b) If at any point the individual changes his/her mind regarding voluntary evaluation, officers should proceed with the civil commitment, if appropriate.
- (c) Document the circumstances surrounding the individual's desire to pursue voluntary evaluation and/or admission.

410.3.2 PROTECTIVE CUSTODY OF CHILDREN

An officer may take a child 17 years of age or younger into protective custody and immediately transport the child to an approved treatment facility or program for an emergency mental health evaluation when the officer determines (Idaho Code 16-2411):

- (a) An emergency situation exists.
- (b) There is probable cause to believe the child is suffering from a serious emotional disturbance.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Civil Commitments

- (c) The child is likely to cause harm to themselves or others or the child's health and safety are at risk.
- (d) Both immediate detention and treatment are necessary to prevent harm to the child or others.

Probable cause shall be based upon the officer's personal observation, information from the child's parents, or the recommendation of a mental health professional (Idaho Code 16-2411).

The officer shall inform the medical staff in writing of the facts that caused the detention and specifically state whether the child is otherwise subject to being held for juvenile or criminal offenses (Idaho Code 16-2411).

The law enforcement agency shall notify the child's parent, guardian, or custodian as soon as possible, but no later than 24 hours, of the child's status, location, and the reasons for the child's detention. If the parents cannot be located or contacted, both the efforts made and the reasons for failure to contact the responsible adult shall be documented in a written report (Idaho Code 16-2411).

410.4 CONSIDERATIONS AND RESPONSIBILITIES

Any officer handling a call involving an individual who may qualify for a civil commitment should consider, as time and circumstances reasonably permit:

- (a) Available information that might assist in determining the cause and nature of the individual's action or stated intentions.
- (b) Community or neighborhood mediation services.
- (c) Conflict resolution and de-escalation techniques.
- (d) Community or other resources available to assist in dealing with mental health issues.

While these steps are encouraged, nothing in this section is intended to dissuade officers from taking reasonable action to ensure the safety of the officers and others.

Civil commitments should be preferred over arrest for people who have mental health issues and are suspected of committing minor crimes or creating other public safety issues.

410.4.1 SECURING PROPERTY OF CHILDREN

Upon taking a child into protective custody for a mental health evaluation, the officer should make reasonable efforts to safeguard and preserve any property of the child unless a responsible adult is able to do so (Idaho Code 16-2411).

410.5 TRAINING

This department will endeavor to provide department-approved training on interaction with mentally disabled persons, civil commitments and crisis intervention.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Civil Commitments

410.6 CRIMINAL OFFENSES

Officers investigating an individual who is suspected of committing a minor criminal offense and who is being taken into custody for a civil commitment should resolve the criminal matter by issuing a warning or a uniform citation, as appropriate.

When an individual who may qualify for a civil commitment has committed a serious criminal offense that would normally result in an arrest and transfer to a jail facility, the officer should:

- (a) Arrest the individual when there is probable cause to do so.
- (b) Notify the appropriate supervisor of the facts supporting the arrest and the facts that would support the civil commitment.
- (c) Facilitate the individual's transfer to the jail facility.
- (d) Thoroughly document in the related reports the circumstances that indicate the individual may qualify for a civil commitment.

In the supervisor's judgment, the individual may instead be arrested or booked and transported to the appropriate mental health facility. The supervisor should consider the seriousness of the offense, the treatment options available, the ability of this department to regain custody of the individual, department resources (e.g., posting a guard) and other relevant factors in making this decision.

410.7 TRANSFER TO APPROPRIATE FACILITY

Upon arrival at the facility, the officer will escort the individual into a treatment area designated by a facility staff member. If the individual is not seeking treatment voluntarily, the officer should provide the staff member with the written application for civil commitment and remain present to provide clarification of the grounds for detention, upon request.

Absent exigent circumstances, the transporting officer should not assist facility staff with the admission process, including restraint of the individual. However, if the individual is transported and delivered while restrained, the officer may assist with transferring the individual to facility restraints and will be available to assist during the admission process, if requested. Under normal circumstances, officers will not apply facility-ordered restraints.

410.8 TRANSPORTATION

When transporting any individual for a civil commitment, the transporting officer should have Central Dispatch notify the receiving facility of the estimated time of arrival, the level of cooperation of the individual and whether any special medical care is needed.

Officers may transport individuals in a patrol unit and shall secure them in accordance with the Handcuffing and Restraints Policy. Should the detainee require transport in a medical transport vehicle and the safety of any person, including the detainee, requires the presence of an officer during the transport, Shift Commander approval is required before transport commences.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Civil Commitments

410.8.1 TRANSPORTING CHILDREN

If the examining physician determines that a child does not meet the criteria for emergency evaluation and treatment, and the child is subject to detention for a juvenile or criminal offense, the officer shall return to the treatment facility or mental health program to transport the child to a juvenile detention facility (Idaho Code 16-2413).

410.8.2 TRANSPORTING BETWEEN MEDICAL FACILITIES

Whenever an officer deems it necessary to apply restraints to an individual while transporting an individual from one medical facility to another and that restraint is against the medical advice of a licensed physician, the officer shall document the use of restraints in a report and the report shall be provided to the receiving facility (Idaho Code 66-345).

410.9 FIREARMS AND OTHER WEAPONS

Whenever an individual is taken into custody for a civil commitment, the handling officers should seek to determine if the individual owns or has access to any firearm or other deadly weapon. Officers should consider whether it is appropriate and consistent with current search and seizure law under the circumstances to seize any such firearms or other dangerous weapons (e.g., safekeeping, evidence, consent).

Officers are cautioned that a search warrant may be needed before entering a residence or other place to search, unless lawful, warrantless entry has already been made (e.g., exigent circumstances, consent). A warrant may also be needed before searching for or seizing weapons.

The handling officers should further advise the individual of the procedure for the return of any firearm or other weapon that has been taken into custody.

410.10 DOCUMENTATION

The officer should complete an application for emergency admission, provide it to the facility staff member assigned to the individual and retain a copy of the application for emergency admission for inclusion in the case report.

The officer should also provide a verbal summary to any evaluating staff member regarding the circumstances leading to the involuntary detention.

Citation Releases

411.1 PURPOSE AND SCOPE

The purpose of this policy is to provide members of the Coeur d'Alene Police Department with guidance on when to release adults who are suspected offenders on a uniform citation obtaining a written promise to appear in court for a criminal offense, rather than having the person held in custody for a court appearance or released on bail (Idaho Code 19-3901; I.M.C.R. Rule 5).

Additional release restrictions may apply to those detained for domestic violence, as outlined in the Domestic Violence Policy.

411.2 POLICY

The Coeur d'Alene Police Department will consider its resources and its mission of protecting the community when exercising any discretion to release suspected offenders on a uniform citation with a promise to appear in court, when authorized to do so.

411.3 RELEASE

When a misdemeanor or infraction is triable by a magistrate, an officer may, in lieu of making a written complaint, issue a uniform citation containing a complaint and summons to appear in a form and in the manner prescribed by rule of the supreme court (Idaho Code 19-3901).

A suspected offender for a misdemeanor traffic violation who is not taken before a magistrate as required or permitted by the motor vehicles statutes shall be released on issuance of a uniform citation with a promise to appear in court (Idaho Code 49-1409).

Release by uniform citation for misdemeanor offenses can be accomplished in two separate ways:

- (a) A field release is when the violator is released in the field without being transported to a jail facility.
- (b) A jail release is when a violator is released after being transported to the jail and booked.

411.4 CONSIDERATIONS

In determining whether to cite and release a person when discretion is permitted, officers should consider:

- (a) The type of offense committed.
- (b) The known criminal history of the suspected offender.
- (c) The ability to identify the suspected offender with reasonable certainty.
- (d) Whether there is any record of the individual failing to appear in previous cases or other articulable indications that the individual may not appear in court for this offense.
- (e) The individual's ties to the area, such as residence, employment or family.
- (f) Whether there is reasonable likelihood that criminal conduct by the individual will continue.

Foreign Diplomatic and Consular Representatives

412.1 PURPOSE AND SCOPE

This policy provides guidelines to ensure that members of the Coeur d'Alene Police Department extend appropriate privileges and immunities to foreign diplomatic and consular representatives in accordance with international law.

412.2 POLICY

The Coeur d'Alene Police Department respects international laws related to the special privileges and immunities afforded foreign diplomatic and consular representatives assigned to the United States.

All foreign diplomatic and consular representatives shall be treated with respect and courtesy, regardless of any privileges or immunities afforded them.

412.3 CLAIMS OF IMMUNITY

If a member comes into contact with a person where law enforcement action may be warranted and the person claims diplomatic or consular privileges and immunities, the member should, without delay:

- (a) Notify a supervisor.
- (b) Advise the person that his/her claim will be investigated and he/she may be released in accordance with the law upon confirmation of the person's status.
- (c) Request the person's identification card, either issued by the U.S. Department of State (DOS), Office of the Chief of Protocol, or in the case of persons accredited to the United Nations, by the U.S. Mission to the United Nations. These are the only reliable documents for purposes of determining privileges and immunities.
- (d) Contact the DOS Diplomatic Security Command Center at 571-345-3146 or toll free at 866-217-2089, or at another current telephone number and inform the center of the circumstances.
- (e) Verify the immunity status with DOS and follow any instructions regarding further detention, arrest, prosecution and/or release, as indicated by the DOS representative. This may require immediate release, even if a crime has been committed.

Identity or immunity status should not be presumed from the type of license plates displayed on a vehicle. If there is a question as to the status or the legitimate possession of a Diplomat or Consul license plate, a query should be run via the National Law Enforcement Telecommunications System (NLETS), designating "US" as the state.

412.4 ENFORCEMENT ACTION

If the DOS is not immediately available for consultation regarding law enforcement action, members shall be aware of the following:

Coeur d'Alene Police Department

- (c) An impaired foreign diplomatic or consular representative may be prevented from driving a vehicle, even if the person may not be arrested due to privileges and immunities.
 - 1. Investigations, including the request for field sobriety tests, chemical tests and any other tests regarding impaired driving may proceed but they shall not be compelled.

Rapid Response and Deployment

413.1 PURPOSE AND SCOPE

Violence that is committed in schools, workplaces and other locations by individuals or a group of individuals who are determined to target and kill persons and to create mass casualties presents a difficult situation for law enforcement. The purpose of this policy is to identify guidelines and factors that will assist responding officers in situations that call for rapid response and deployment.

413.2 POLICY

The Coeur d'Alene Police Department will endeavor to plan for rapid response to crisis situations, and to coordinate response planning with other emergency services as well as with those that are responsible for operating sites that may be the target of a critical incident.

Nothing in this policy shall preclude the use of reasonable force, deadly or otherwise, by members of the Department in protecting themselves or others from death or serious injury.

413.3 FIRST RESPONSE

If there is a reasonable belief that acts or threats by a suspect are placing lives in imminent danger, first responding officers should consider reasonable options to reduce, prevent or eliminate the threat. Officers must decide, often under a multitude of difficult and rapidly evolving circumstances, whether to advance on the suspect, take other actions to deal with the threat or wait for additional resources.

If a suspect is actively engaged in the infliction of serious bodily harm or other life-threatening activity toward others, officers should take immediate action, if reasonably practicable, while requesting additional assistance.

Officers should remain aware of the possibility that an incident may be part of a coordinated multi-location attack that may require some capacity to respond to other incidents at other locations.

When deciding on a course of action officers should consider:

- (a) Whether to advance on or engage a suspect who is still a possible or perceived threat to others. Any advance or engagement should be based on information known or received at the time.
- (b) Whether to wait for additional resources or personnel. This does not preclude an individual officer from taking immediate action.
- (c) Whether individuals who are under imminent threat can be moved or evacuated with reasonable safety.
- (d) Whether the suspect can be contained or denied access to victims.
- (e) Whether the officers have the ability to effectively communicate with other personnel or resources.
- (f) Whether planned tactics can be effectively deployed.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Rapid Response and Deployment

- (g) The availability of rifles, shotguns, shields, breaching tools, control devices and any other appropriate tools, and whether the deployment of these tools will provide a tactical advantage.

In a case of a barricaded suspect with no hostages and no immediate threat to others, officers should consider summoning and waiting for additional assistance (SWAT and/or crisis negotiation team response).

413.4 CONSIDERATIONS

When dealing with a crisis situation members should:

- (a) Assess the immediate situation and take reasonable steps to maintain operative control of the incident.
- (b) Obtain, explore and analyze sources of intelligence and known information regarding the circumstances, location and suspect involved in the incident.
- (c) Attempt to attain a tactical advantage over the suspect by reducing, preventing or eliminating any known or perceived threat.
- (d) Attempt, if feasible and based upon the suspect's actions and danger to others, a negotiated surrender of the suspect and release of the hostages.

413.5 PLANNING

The Patrol Division Commander should coordinate critical incident planning. Planning efforts should consider:

- (a) Identification of likely critical incident target sites, such as schools, shopping centers, entertainment and sporting event venues.
- (b) Availability of building plans and venue schematics of likely critical incident target sites.
- (c) Communications interoperability with other law enforcement and emergency service agencies.
- (d) Training opportunities in critical incident target sites, including joint training with site occupants.
- (e) Evacuation routes in critical incident target sites.
- (f) Patrol first-response training.
- (g) Response coordination and resources of emergency medical and fire services.
- (h) Equipment needs.
- (i) Mutual aid agreements with other agencies.
- (j) Coordination with private security providers in critical incident target sites.

413.6 TRAINING

The Training Lieutenant should include rapid response to critical incidents in the training plan. This training should address:

Coeur d'Alene Police Department

Rapid Response and Deployment

- (a) Orientation to likely critical incident target sites, such as schools, shopping centers, entertainment and sporting event venues.
- (b) Communications interoperability with other law enforcement and emergency service agencies.
- (c) Patrol first-response training, including patrol rifle, shotgun, breaching tool and control device training.
- (d) First aid, including gunshot trauma.
- (e) Reality-based scenario training (e.g., active shooter, disgruntled violent worker).

Immigration Violations

414.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines to members of the Coeur d'Alene Police Department relating to immigration and interacting with federal immigration officials.

414.2 POLICY

It is the policy of the Coeur d'Alene Police Department that all members make personal and professional commitments to equal enforcement of the law and equal service to the public. Confidence in this commitment will increase the effectiveness of this department in protecting and serving the entire community and recognizing the dignity of all persons, regardless of their national origin or immigration status.

414.3 VICTIMS AND WITNESSES

To encourage crime reporting and cooperation in the investigation of criminal activity, all individuals, regardless of their immigration status, must feel secure that contacting or being addressed by members of law enforcement will not automatically lead to immigration inquiry and/or deportation. While it may be necessary to determine the identity of a victim or witness, members shall treat all individuals equally and not in any way that would violate the United States or Idaho constitutions.

414.4 DETENTIONS

An officer should not detain any individual, for any length of time, for a civil violation of federal immigration laws or a related civil warrant.

An officer who has a reasonable suspicion that an individual already lawfully contacted or detained has committed a criminal violation of federal immigration law may detain the person for a reasonable period of time in order to contact federal immigration officials to verify whether an immigration violation is a federal civil violation or a criminal violation. If the violation is a criminal violation, the officer may continue to detain the person for a reasonable period of time if requested by federal immigration officials (8 USC § 1357(g)(10)). No individual who is otherwise ready to be released should continue to be detained only because questions about the individual's status are unresolved.

If the officer has facts that establish probable cause to believe that a person already lawfully detained has committed a criminal immigration offense, he/she may continue the detention and may request a federal immigration official to respond to the location to take custody of the detained person (8 USC § 1357(g)(10)).

An officer is encouraged to forgo detentions made solely on the basis of a misdemeanor offense when time limitations, availability of personnel, issues of officer safety, communication capabilities, or the potential to obstruct a separate investigation outweigh the need for the detention.

An officer should notify a supervisor as soon as practicable whenever an individual is being detained for a criminal immigration violation.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Immigration Violations

414.4.1 SUPERVISOR RESPONSIBILITIES

When notified that an officer has detained an individual and established reasonable suspicion or probable cause to believe the person has violated a criminal immigration offense, the supervisor should determine whether it is appropriate to:

- (a) Transfer the person to federal authorities.
- (b) Lawfully arrest the person for a criminal offense or pursuant to a judicial warrant (see the Law Enforcement Authority Policy).

414.5 ARREST NOTIFICATION TO IMMIGRATION AND CUSTOMS ENFORCEMENT

Generally, an officer should not notify federal immigration officials when booking arrestees at a jail facility. Any required notification will be handled according to jail operation procedures. No individual who is otherwise ready to be released should continue to be detained solely for the purpose of notification.

414.6 FEDERAL REQUESTS FOR ASSISTANCE

Requests by federal immigration officials for assistance from this Department should be directed to a supervisor. The Department may provide available support services, such as traffic control or peacekeeping efforts.

414.7 INFORMATION SHARING

No member of this department will prohibit, or in any way restrict, any other member from doing any of the following regarding the citizenship or immigration status, lawful or unlawful, of any individual (8 USC § 1373):

- (a) Sending information to, or requesting or receiving such information from federal immigration officials
- (b) Maintaining such information in department records
- (c) Exchanging such information with any other federal, state, or local government entity

414.7.1 IMMIGRATION DETAINERS

No individual should be held based solely on a federal immigration detainer under 8 CFR 287.7 unless the person has been charged with a federal crime or the detainer is accompanied by a warrant, affidavit of probable cause, or removal order. Notification to the federal authority issuing the detainer should be made prior to the release.

414.8 U VISA AND T VISA NONIMMIGRANT STATUS

Under certain circumstances, federal law allows temporary immigration benefits, known as a U visa, to victims and witnesses of certain qualifying crimes (8 USC § 1101(a)(15)(U)).

Similar immigration protection, known as a T visa, is available for certain qualifying victims of human trafficking (8 USC § 1101(a)(15)(T)).

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Immigration Violations

Any request for assistance in applying for U visa or T visa status should be forwarded in a timely manner to the Investigation Section supervisor assigned to oversee the handling of any related case. The Investigation Section supervisor should:

- (a) Consult with the assigned investigator to determine the current status of any related case and whether further documentation is warranted.
- (b) Contact the appropriate prosecutor assigned to the case, if applicable, to ensure the certification or declaration has not already been completed and whether a certification or declaration is warranted.
- (c) Address the request and complete the certification or declaration, if appropriate, in a timely manner.
 - (a) The instructions for completing certification and declaration forms can be found on the U.S. Department of Homeland Security (DHS) website.
- (d) Submit a draft of the certification or declaration to the Chief of Police for final review and decision.
- (e) Ensure that any decision to complete, or not complete, a certification or declaration form is documented in the case file and forwarded to the appropriate prosecutor. Include a copy of any completed form in the case file.

Emergency Utility Service/Hazards

415.1 PURPOSE AND SCOPE

Members of the Uniformed Patrol Division may either observe or respond to a call for service regarding a non-working City utility or hazard. The purpose of this policy is to provide guidelines for members to notify responsible parties about the problem.

415.1.1 TRAFFIC CONTROL DEVICES

Non-working, damaged or missing traffic control devices (*i.e. traffic signals or stop sign*) should be reported immediately to the entity responsible for the repair and maintenance of such devices.

The City of Coeur d'Alene Street Department is responsible for any such devices controlling city streets and the Idaho Transportation Department is responsible for any such devices controlling any highways within our jurisdiction.

415.1.2 EMERGENCY STREET OR SIDEWALK REPAIRS/HAZARDS/CLOSURES

The Street Department should be notified of any damaged public streets or public sidewalks. They shall also be notified of any large oil spills, glass or other debris constituting a hazard in the street or sidewalk.

When practical, the member observing or responding to a hazard may remove any debris from the street or sidewalk.

The Street Department may also be requested to assist members in providing temporary barricades to assist in the closure of a public street and/or sidewalk.

415.1.3 MISSING OR DAMAGED MANHOLE COVERS

The Street Department and/or Water Department shall be notified of any missing or damaged manhole cover on a public street or public sidewalk.

415.1.4 BROKEN POWER OR TRANSMISSION LINES

A power or transmission line which is broken and creates a hazardous condition shall be reported to the responsible entity for correcting the condition. Such entities are the local power, phone and cable companies.

If a power or transmission line is creating a hazard that impacts the safe flow of vehicular or pedestrian traffic on any public street or public sidewalk, members may be required to respond and assess the incident and provide traffic control until the responsible entity can be notified and arrive on scene. The Fire Department may also be notified and requested to respond. The Street Department may also be requested to provide barricades if necessary.

415.2 NATURAL GAS LEAKS

Natural gas leaks shall be considered a hazard that requires immediate response from the responsible entity, which will generally be the local power company. The Fire Department shall also be requested to respond.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Emergency Utility Service/Hazards

Members of this department will generally only be involved if traffic control and/or local evacuation of residences or businesses is necessary.

415.2.1 BROKEN WATER LINES

The Water Department shall be notified of any water leak on public property, including public streets and sidewalks. Traffic control may be required by members of this department if the amount of water is creating an immediate hazard on a public street that could result in traffic collisions occurring . The Street Department should be notified if temporary barricades are required.

Crowd Management and Control

416.1 PURPOSE AND SCOPE

The department strives to ensure the Constitutional rights of individuals to peacefully gather and freely express views in an environment where the rights of every individual are protected. The Department is primarily responsible for ensuring public safety, protecting persons and property, and maintaining order.

The ultimate goal in the management of any event is to mitigate and eventually restore the affected area to the conditions that prevailed before the incident occurred. The enforcement of law shall be carried out consistent with state and federal law, and department policy and procedures.

416.2 OBJECTIVES

Members may encounter gatherings of people, including but not limited to, civil demonstrations, civic, social and business events, public displays, parades and sporting events.

Members should monitor such events as time permits in an effort to keep the peace and protect the safety and rights of those present. A supervisor should be notified when it becomes reasonably foreseeable that such an event may require increased monitoring, contact or intervention.

Members responding to an event or gathering that warrants law enforcement involvement should carefully balance the speech and rights of those present with applicable public safety concerns before taking enforcement action. Members are encouraged to contact organizers or responsible persons to seek voluntary compliance that may address relevant public safety/order concerns. Members should consider enforcement of applicable state and local laws, when the activity blocks the entrance or egress of a facility or location and when voluntary compliance with the law is not achieved.

Members' objectives include but are not limited to the following:

- Protection of life and property.
- Protection of individual Constitutional rights.
- Protection of disruption to the community.
- Protection of vital facilities.
- Prosecution of violators.
- Fair and impartial enforcement of the law.
- Expedite vehicular and pedestrian movement.

416.3 DEFINITIONS

Crowd behavior exists on a continuum ranging from lawful assembly to civil disobedience to rioting.

Crowd Management - Refers to techniques used by members in response to a known event, activity or occurrence. These techniques primarily involve incident planning and crowd

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crowd Management and Control

containment. In crowd management situations, law enforcement often has the ability to assist in the planning, coordination and management of the event to ensure the event remains lawful. Law enforcement presence at the vent is usually a low profile preventive measure. Events that may require law enforcement crowd management include, but are not limited to:

- First Amendment Demonstrations and Activities
- Parades
- Concerts
- Sporting Events
- Dignitary Events
- Community or Holiday Celebrations

Crowd Control - Refers to techniques used by law enforcement in response to a planned or spontaneous event that has a potential for, or imminent threat of, violence. The constitutional rights of the individuals within the crowd must be weighed against the rights of the public to carry on business.

Events with a greater level of potential disorder may include demonstrations involving a political or social issue. Some events draw large crowds that are normally peaceful, but have a potential for problems. Examples include:

- Concerts
- Sporting Events
- Holiday Celebrations (i.e. New Year's Eve, Fourth of July, etc.)

Civil Disobedience - An act of civil disobedience is an illegal protest, normally non-violent in nature. When the law disobeyed is the same law which is being protested, the disobedience is direct. Indirect disobedience is the disobedience of a law unrelated to the object of protest.

Riot Control - Refers to the techniques used by law enforcement in response to an escalation of crowd violence where reasonable force may be necessary to prevent additional violence, injuries, death or destruction of property. Riot control is generally a contingency plan that is part of a well-prepared crowd management plan.

Law enforcement should concentrate on the basic mission of protecting life and property. This should be done in a rapid, firm, fair and impartial manner, using force which is objectively reasonable and necessary to accomplish the mission.

416.4 COMMAND AND CONTROL

Members should utilize the Incident Command System (ICS) when managing events and controlling crowds. The ICS system can accommodate incidents ranging from a single member monitoring a small demonstration to a large-scale operation involving multiple resources and a large crowd. Large events may also require a Command Post.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crowd Management and Control

Members should follow the principles of crowd management and control, including, but not limited to:

- If a demonstration, identifying the group, its leadership, apparent purpose for demonstrating, history of past demonstrations, and date and time of demonstration;
- Identifying and working with key individuals in the crowd and community;
- Pre-planning when possible, including determining action priorities;
- Law enforcement presence, including sufficient deployment, equipment and resources;
- Isolation and containment of the crowd;
- Determining the operational area and safe routes of access/egress;
- Selective arrests versus mass arrests;
- Taking action in teams/squads versus independently;
- Adherence to use of force policies;
- Dispersal of unlawful assemblies.

416.4.1 USE OF SPECIAL INTERVENTION RESPONSE TEAM AND/OR MUTUAL AID

In the event a demonstration or crowd management situation can not be effectively controlled by on duty uniformed patrol members, the Incident Commander shall determine a location for a command post and staging area and request mutual aid from surrounding law enforcement agencies. Additionally, the Incident Commander may request authorization from the Operations Division Commander or his designee for the deployment of the department's Special Intervention and Response Team.

If mass arrests are anticipated, the Incident Commander shall request assistance from the Kootenai County Sheriff's Department for mobile booking assistance.

Unless otherwise directed, department members and personnel from assisting agencies should respond to the command post or staging area for assignments.

416.4.2 SCOPE OF INCIDENT COMMAND SYSTEM

Depending upon the scope of a crowd management incident, planned or un-planned, will determine what major management functions of the ICS system should be activated at any given time during the incident.

- Incident Command
- Operations
- Planning
- Logistics

Coeur d'Alene Police Department

Crowd Management and Control

- Finance/Administration

416.5 UNLAWFUL ASSEMBLY AND DISPERSAL ORDERS

Unlawful Assembly - Per Idaho code 18-6404, whenever two or more persons assemble together to do an unlawful act, and separate without doing or advancing toward it, or do a lawful act in a violent, boisterous or tumultuous manner, such assembly is an unlawful assembly.

Dispersal Orders - Dispersal orders are intended to permanently disperse a crowd, not to merely relocate the problem. When the dispersal order is given, it should be made clear that the crowd is expected to immediately leave the area. Dispersal orders should not be given until sufficient control forces are in position to support the crowd movement. Members should specify a route for the crowd to leave and allow a reasonable amount of time for dispersal.

The dispersal order must be given in such a manner that it can be heard and understood by the intended persons. Based on circumstances, members issuing the order, typically a supervisor, should consider the need to:

- Issue multiple announcements from various locations;
- Used amplified sound;
- Position members to the rear of the crowd to confirm and document that the order could be heard; and/or
- Use video and/or audio recordings for documentation purposes.

The following language should be used when an unlawfully assembly has been declared and a dispersal order needs to be given:

- ***"I am rank/name of the Coeur d'Alene Police Department. I hereby declare this to be an unlawful assembly. In the name of the people of the State of Idaho, I command all those assembled at give location to immediately disperse. If you remain you will be arrested per Idaho code 18-6404, which prohibits remaining at an unlawful assembly."*** (Established egress routes and a reasonable time limit shall also be given).

In the event that an unlawful assembly is occurring as a result of a planned or un-planned demonstration, and if no exigent circumstances exist (*i.e. a riot situation presently occurring*), an Incident Commander or his designee should consider meeting with the demonstration group's leadership to discuss various options available to them prior to any law enforcement action taking place, including the declaration of an unlawful assembly being given.

416.6 USE OF FORCE

Policies related to the use of force are contained in Policy Manual §300 *Use of Force*, §306 *Control Devices and Techniques* and §307 *Conducted Energy Devices* respectively.

Due to the dynamics of crowd or riot situations, the tactical use of force may be required even though no arrests are being attempted (*i.e. dispersing a crowd*).

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crowd Management and Control

416.7 TACTICAL USE OF FORCE

The decision to commence a tactical use of force rests with the ranking member on scene unless otherwise delegated.

Whether in an arrest or a tactical situation, members must consider the nature of the resistance they face as they select force options.

- **Active Aggression** - A threat or overt act of an assault (*through verbal or physical means*), coupled with the present ability to carry out the threat or assault, which reasonably indicates that an assault or injury to a person appears imminent.
- **Actively Resisting** - Evasive physical movements to defeat a member's attempt to control, including bracing, tensing, linking arms, flailing, kicking, elbowing, punching, head butting, shoving, jerking, pulling away, twisting or verbally signaling an intention to avoid or prevent being taken into custody.
- **Passively Resisting** - Actions that do not prevent a member's attempt to control a subject and is not engaged in any motion reasonably likely to injure, resist or attempt to remove restraints applied by a member.

416.8 DEPLOYMENT OF CONTROL DEVICES AND RIOT CONTROL AGENTS

No member shall deploy a control device or chemical agent for which he has not been trained.

The use of chemical agents for crowd control or dispersal shall be based on the circumstances. The Shift Commander or Incident Commander may authorize the delivery and use of tear gas after first evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary to result in the safe control of any suspect(s) or regaining control of the impacted area. When practical, fire personnel should be alerted or summoned to the scene to control any fires and to assist in providing medical aid when the scene is safe.

The tactical use of ECD's, batons, OC spray or specialty impact munitions in a riot situation shall be pursuant to the order of the Incident Commander, although this does not preclude members in a rapidly evolving incident from defending themselves or others with an ECD, baton, OC spray or specialty impact munitions.

Considerations for the tactical use of these items include, but are not limited to:

- Crowd size and actions;
- Weather conditions;
- Proper equipment and supplies for members on scene;
- Escape routes;
- First aid and decontamination;
- Consequences for the community;
- Command structure in place;

Coeur d'Alene Police Department

Crowd Management and Control

- Lethal concentrations.

In crowd control or management situations that require a tactical deployment and use of control devices or agents, the Incident Commander or his designee will provide instructions to the members on the deployment of the techniques or devices. The Incident Commander will determine whether the tactical situation allows for members to safely contact subjects and determine the effect of the use of control devices or agents and whether or not those subjects require immediate assessment on scene by medical personnel or if they need to be transported to another location or medical facility for evaluation or treatment.

416.9 MASS ARRESTS

In the event a situation requires mass arrest, the Incident Commander should direct arrest teams to affect the arrests. The number of arrest teams needed to safely control arrestees and the types of restraining techniques or devices applied will be determined by, but not limited to the following factors:

- The size of the area impacted;
- The size of the crowd/number of potential arrestees;
- The type or amount of resistance given by the crowd or arrestees;
- The amount of law enforcement resources and personnel available, including tactical teams to contain or isolate crowds from arrest teams and arrestees; detention methods (*flex cuffs, handcuffs*); arrestee transport methods; staging areas; and booking teams.

The Incident Commander or his designee shall ensure that all arrestees are properly booked, arresting/responsible members identified, and all associated citations and reports are properly completed.

416.10 DEMOBILIZATION AND DEBRIEFING

- (a) The Incident Commander shall determine when the incident is concluded and no longer requires law enforcement resources to be deployed. The demobilization shall be conducted in an orderly manner and all personnel and equipment accounted for.
- (b) Department members assigned to the incident shall not clear from the incident without first being authorized to do so by the Incident Commander or his designee.
- (c) A debriefing of the incident should be held as soon as practicable.

416.11 AFTER-ACTION REPORT

The Incident Commander will ensure that an after-action report is completed as soon as practical after the incident. The report shall be submitted to the Chief of Police through the Incident Commander's chain of command. The report should include the following information:

- Type of Occurrence (*including the date, time, location, duration of event, and related case numbers*).

- Command Post location and staffing assignments.
- Chronological Narrative detailing all significant events and times.

Aircraft Accidents

417.1 PURPOSE AND SCOPE

The purpose of this policy is to provide department members with guidelines for handling aircraft accidents.

This policy does not supersede, and is supplementary to, applicable portions of the Crime and Disaster Scene Integrity, Emergency Management Plan and Hazardous Material Response policies.

417.1.1 DEFINITIONS

Definitions related to this policy include:

Aircraft - Any fixed wing aircraft, rotorcraft, balloon, blimp/dirigible or glider that is capable of carrying a person or any unmanned aerial vehicle other than those intended for non-commercial recreational use.

417.2 POLICY

It is the policy of the Coeur d'Alene Police Department to provide an appropriate emergency response to aircraft accidents. This includes emergency medical care and scene management.

417.3 ARRIVAL AT SCENE

Officers or other authorized members tasked with initial scene management should establish an inner and outer perimeter to:

- (a) Protect persons and property.
- (b) Prevent any disturbance or further damage to the wreckage or debris, except to preserve life or rescue the injured.
- (c) Preserve ground scars and marks made by the aircraft.
- (d) Manage the admission and access of public safety and medical personnel to the extent necessary to preserve life or to stabilize hazardous materials.
- (e) Maintain a record of persons who enter the accident site.
- (f) Consider implementation of an Incident Command System (ICS).

417.4 INJURIES AND CASUALTIES

Members should address emergency medical issues and provide care as a first priority.

Those tasked with the supervision of the scene should coordinate with the National Transportation Safety Board (NTSB) before the removal of bodies. If that is not possible, the scene supervisor should ensure documentation of what was disturbed, including switch/control positions and instrument/gauge readings.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Aircraft Accidents

417.5 NOTIFICATIONS

When an aircraft accident is reported to this department, the responding supervisor shall ensure notification is or has been made to NTSB, the Federal Aviation Administration (FAA), and when applicable, the appropriate branch of the military.

Supervisors shall ensure other notifications are made once an aircraft accident has been reported. The notifications will vary depending on the type of accident, extent of injuries or damage, and the type of aircraft involved. When an aircraft accident has occurred, it is generally necessary to notify the following:

- (a) Fire department
- (b) Appropriate airport tower
- (c) Emergency medical services (EMS)

417.6 CONTROLLING ACCESS AND SCENE AUTHORITY

Prior to NTSB arrival, scene access should be limited to authorized personnel from the:

- (a) FAA.
- (b) Fire department, EMS or other assisting law enforcement agencies.
- (c) [Medical Examiner/JOP].
- (d) Air Carrier/Operators investigative teams with NTSB approval.
- (e) Appropriate branch of the military, when applicable.
- (f) Other emergency services agencies (e.g., hazardous materials teams, biohazard decontamination teams, fuel recovery specialists, explosive ordnance disposal specialists).

The NTSB has primary responsibility for investigating accidents involving civil aircraft. In the case of a military aircraft accident, the appropriate branch of the military will have primary investigation responsibility.

After the NTSB or military representative arrives on-scene, the efforts of this department will shift to a support role for those agencies.

If NTSB or a military representative determines that an aircraft or accident does not qualify under its jurisdiction, the on-scene department supervisor should ensure the accident is still appropriately investigated and documented.

417.7 DANGEROUS MATERIALS

Members should be aware of potentially dangerous materials that might be present. These may include, but are not limited to:

- (a) Fuel, chemicals, explosives, biological or radioactive materials and bombs or other ordnance.
- (b) Pressure vessels, compressed gas bottles, accumulators and tires.
- (c) Fluids, batteries, flares and igniters.

At a minimum the documentation should include the date, time and location of the incident; any witness statements, if taken; the names of CDAPD members deployed to assist; other City resources that were utilized; and cross reference information to other investigating agencies. Suspected criminal activity should be documented on the appropriate crime report.

417.8.1 WRECKAGE

When reasonably safe, members should:

- (a) Obtain the aircraft registration number (N number) and note the type of aircraft.
- (b) Attempt to ascertain the number of casualties.
- (c) Obtain photographs or video of the overall wreckage, including the cockpit and damage, starting at the initial point of impact, if possible, and any ground scars or marks made by the aircraft.
 - 1. Military aircraft may contain classified equipment and therefore shall not be photographed unless authorized by a military commanding officer (18 USC § 795).
- (d) Secure, if requested by the lead authority, any electronic data or video recorders from the aircraft that became dislodged or cell phones or other recording devices that are part of the wreckage.
- (e) Acquire copies of any recordings from security cameras that may have captured the incident.

417.8.2 WITNESSES

Members tasked with contacting witnesses should obtain:

- (a) The location of the witness at the time of his/her observation relative to the accident site.
- (b) A detailed description of what was observed or heard.
- (c) Any photographs or recordings of the accident witnesses may be willing to voluntarily surrender.
- (d) The names of all persons reporting the accident, even if not yet interviewed.
- (e) Any audio recordings of reports to 9-1-1 regarding the accident and dispatch records.

417.9 MEDIA RELATIONS

The Public Information Officer ([PIO]) should coordinate a response to the media, including access issues, road closures, detours and any safety information that is pertinent to the surrounding community. Any release of information regarding details of the accident itself should be coordinated with the NTSB or other authority who may have assumed responsibility for the investigation.

Coeur d'Alene Police Department

Aircraft Accidents

Depending on the type of aircraft, the airline or the military may be responsible for family notifications and the release of victims' names. The [PIO] should coordinate with other involved entities before the release of information.

Contacts and Temporary Detentions

419.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for temporarily detaining but not arresting persons in the field, conducting field interviews (FI) and pat-down searches, and the taking and disposition of photographs.

419.1.1 DEFINITIONS

Definitions related to this policy include:

Consensual encounter - When an officer contacts an individual but does not create a detention through words, actions, or other means. In other words, a reasonable individual would believe that his/her contact with the officer is voluntary.

Field interview (FI) - The brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion for the purpose of determining the individual's identity and resolving the officer's suspicions.

Field photographs - Posed photographs taken of a person during a contact, temporary detention, or arrest in the field. Undercover surveillance photographs of an individual and recordings captured by the normal operation of a Mobile/Audio Video (MAV) system, body-worn camera, or public safety camera when persons are not posed for the purpose of photographing are not considered field photographs.

Pat-down search - A type of search used by officers in the field to check an individual for dangerous weapons. It involves a thorough patting-down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the detainee, or others.

Reasonable suspicion - When, under the totality of the circumstances, an officer has articulable facts that criminal activity may be afoot and a particular person is connected with that possible criminal activity.

Temporary detention - When an officer intentionally, through words, actions, or physical force, causes an individual to reasonably believe he/she is required to restrict his/her movement without an actual arrest. Temporary detentions also occur when an officer actually restrains a person's freedom of movement.

419.2 FIELD INTERVIEWS

Based on observance of suspicious circumstances or upon information from investigation, an officer may initiate the stop of a person, and conduct an FI, when there is articulable, reasonable suspicion to do so. A person, however, shall not be detained longer than is reasonably necessary to resolve the officer's suspicion.

Nothing in this policy is intended to discourage consensual contacts. Frequent casual contact with consenting individuals is encouraged by the Coeur d'Alene Police Department to strengthen community involvement, community awareness, and problem identification.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Contacts and Temporary Detentions

419.2.1 INITIATING A FIELD INTERVIEW

When initiating the stop, the [officer_deputy] should be able to point to specific facts which, when considered with the totality of the circumstances, reasonably warrant the stop. Such facts include but are not limited to an individual's:

- (a) Appearance or demeanor suggesting that he/she is part of a criminal enterprise or is engaged in a criminal act.
- (b) Actions suggesting that he/she is engaged in a criminal activity.
- (c) Presence in an area at an inappropriate hour of the day or night.
- (d) Presence in a particular area is suspicious.
- (e) Carrying of suspicious objects or items.
- (f) Excessive clothes for the climate or clothes bulging in a manner that suggest he/she is carrying a dangerous weapon.
- (g) Location in proximate time and place to an alleged crime.
- (h) Physical description or clothing worn that matches a suspect in a recent crime.
- (i) Prior criminal record or involvement in criminal activity as known by the officer.

419.3 PAT-DOWN SEARCHES

Once a valid stop has been made, and consistent with the officer's training and experience, an officer may pat a suspect's outer clothing for weapons if the officer has a reasonable, articulable suspicion the suspect may pose a safety risk. The purpose of this limited search is not to discover evidence of a crime, but to allow the officer to pursue the investigation without fear of violence. Circumstances that may establish justification for performing a pat-down search include but are not limited to:

- (a) The type of crime suspected, particularly in crimes of violence where the use or threat of weapons is involved.
- (b) Where more than one suspect must be handled by a single officer.
- (c) The hour of the day and the location or area where the stop takes place.
- (d) Prior knowledge of the suspect's use of force and/or propensity to carry weapons.
- (e) The actions and demeanor of the suspect.
- (f) Visual indications which suggest that the suspect is carrying a firearm or other dangerous weapon.

Whenever practicable, a pat-down search should not be conducted by a lone officer. A cover officer should be positioned to ensure safety and should not be involved in the search.

Procedures

- Do not search subjects cited and released.

419.6 POLICY

The Coeur d'Alene Police Department respects the right of the public to be free from unreasonable searches or seizures. Due to an unlimited variety of situations confronting the officer, the decision to temporarily detain a person and complete an FI, pat-down search, or field photograph shall be left to the officer based on the totality of the circumstances, officer safety considerations, and constitutional safeguards.

419.7 WITNESS IDENTIFICATION AND INTERVIEWS

Because potential witnesses to an incident may become unavailable or the integrity of their statements compromised with the passage of time, officers should, when warranted by the seriousness of the case, take reasonable steps to promptly coordinate with an on-scene supervisor and/or criminal investigator to utilize available members for the following:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Contacts and Temporary Detentions

Without detaining the individual for the sole purpose of identification, officers should attempt to identify the witness prior to his/her departure.

420.3 OFFICER RESPONSIBILITIES

Prior to going into service, each officer will properly equip him/herself to record audio and video in the field. At the end of the shift, each officer will follow the established procedures for providing to the Department any recordings or used media and any other related equipment. Each officer should have adequate recording media for the entire duty assignment. In the event an officer works at a remote location and reports in only periodically, additional recording media may be issued. Only Coeur d'Alene Police Department identified and labeled media with tracking numbers is to be used.

At the start of each shift, officers should test the MAV system's operation in accordance with manufacturer specifications and department operating procedures and training.

System documentation is accomplished by the officer recording his/her name, serial number, badge or PIN number and the current date and time at the start and again at the end of each shift. If the system is malfunctioning, the officer shall take the vehicle out of service unless a supervisor requests the vehicle remain in service.

420.4 ACTIVATION OF THE MAV

It is understood that in some circumstances it is not possible to capture images of the incident due to certain conditions or location of the camera; however, the audio portion of the video system should still be activated in these instances, and the member should note in the incident report why the actual incident may not have been captured on video.

- An exception to not activating the audio portion of the mobile video system in circumstances where the video would not capture images of an incident, is when the member is issued a body worn camera and is able to activate it to record the contact.

Additionally, it is recognized members are expected to make split second decisions during rapidly changing circumstances. In the event a member is not able to activate the video system, the member shall document in the incident report the reasons why the system was not activated.

At no time should a member jeopardize his safety in order to activate a mobile video system if timing and circumstances dictate otherwise.

Any incident that was recorded with a body worn video camera shall be documented in the member's related report. If the camera malfunctioned during the time of the incident, the member shall document that fact as well in the report.

420.5.7 BODY WORN VIDEO CAMERA STORAGE AND INTEGRITY

Video and/or audio data recorded via a body worn video camera will be uploaded and properly tagged into VIPER.

If the recording is related to an arrest, or an active investigation that may require follow-up investigation as soon as possible, the recording shall be uploaded prior to the member going off duty.

Coeur d Alene PD Policy Manual

Mobile Audio Video

Any video recorded that is associated with a citation, arrest or written report whether the member was assigned as primary or back up will be properly labeled in Viper within 48 hours or prior to going on scheduled days off, whichever is sooner. Uploading daily will reduce the time needed to upload at the end of the week.

Videos recorded that do not meet these criteria need to be uploaded to Viper within 48 hours or prior to going on scheduled days off, but do not need to be labeled.

420.6 DIGITAL AUDIO RECORDERS

420.6.1 DIGITAL AUDIO RECORDERS

Digital audio recorders are issued to all full-time sworn members.

Uniformed Members: Members assigned to the Uniformed Patrol Division shall carry their issued digital audio recorders on their person during their shift and it shall be used in accordance with this policy. At the beginning of each shift, uniformed members will check their recorder to make sure it is properly working. If the recorder is malfunctioning at the beginning of the shift and the problem can not be immediately remedied, the member shall immediately notify his supervisor. The member shall also notify the Equipment Specialist as soon as practical. If the recorder malfunctions at any time during the member's shift, the member shall notify his supervisor and Equipment Specialist as soon as practical.

Non-Uniformed Members: Sworn members assigned to any non-uniformed assignment may carry their issued recorder and use the recorder whenever the member believes a recording would be beneficial, unless their Supervisor requires its use otherwise.

420.6.2 ACTIVATION OF DIGITAL AUDIO RECORDERS

Members are encouraged to activate their digital audio recorders at any time the member believes a recording of a telephone or field contact with a citizen would be of value to the reason for the contact, arrest, investigation or prosecution. Additionally, in the event that a uniformed member assigned to patrol duties does not have access to a body worn video recorder or mobile video system, or if the same are inoperable, their digital audio recorder shall be activated under the same requirements as outlined in Policy. It is recognized that members are expected to make split second decisions during rapidly changing circumstances. In the event a member is not able to activate the digital audio recorder, the member shall document in the related incident report the reasons why the recorder was not activated.

Citizen complaints against members frequently involve instances where there is no audio or video recording of the contact between the member and the complainant. A supervisor taking and/or investigating the complaint will many times have to rely solely on after the fact statements from the member, complainant and witness(es) to assist the supervisor in coming to a final conclusion. The complainant and/or witness(es) may not always tell the complete truth or will exaggerate about what the member may or may not have done. Having an audio recording of the contact can often times help exonerate the member and clear them of any wrong doing.

Mobile Audio Video

At no time should a member jeopardize his safety in order to activate a digital audio recorder if timing and circumstances dictate otherwise.

420.6.3 REVIEW OF DIGITAL AUDIO RECORDINGS

 - 1. Investigating a citizen complaint against a member.
 - 2. Conducting an administrative investigation.

420.6.4 DOCUMENTING DIGITAL AUDIO RECORDER USE

Any incident that was recorded with a digital audio recorder shall be documented in the member's report. If the recorder malfunctioned during the time of the incident or at any time was intentionally turned off, the member shall document that fact as well in the report.

420.6.5 DIGITAL AUDIO RECORDING STORAGE AND INTERGRITY

Audio recordings will be uploaded into VIPER.

If the recording is related to an arrest, or an active investigation that may require follow-up investigation as soon as possible, the recording shall be uploaded prior to the member going off duty.

Any other recording will be uploaded no later than the day before the member is going on scheduled days off, vacation, training or any other time off from his normal work week schedule.

Any video recorded that is associated with a citation, arrest or written report whether the member was assigned as primary or back up will be properly labeled in Viper prior to going on scheduled

days off. Uploading daily will reduce the time needed to upload at the end of the week. Videos recorded that do not meet these criteria need to be uploaded to Viper prior to going on scheduled days off, but do not need to be labeled.

420.6.6 DIGITAL STILL IMAGE CAMERA & DIGITAL HANDHELD VIDEO CAMERA

Digital cameras for taking still images, or digital handheld video cameras, may also be issued to or made available to members for their use in providing a visual documentation of an incident.

Procedures for reviewing, documenting and uploading data shall be the same as outlined in this Policy for the mobile video and body worn video systems.

Mobile Data Computer Use

421.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the proper access, use and application of the Mobile Data Computer (MDC) system in order to ensure appropriate access to confidential records from local, state and national law enforcement databases, and to ensure effective electronic communications between department members and Central Dispatch.

421.2 POLICY

Coeur d'Alene Police Department members using the MDC shall comply with all appropriate federal and state rules and regulations and shall use the MDC in a professional manner, in accordance with this policy.

421.3 PRIVACY EXPECTATION

Members forfeit any expectation of privacy with regard to messages accessed, transmitted, received or reviewed on any department technology system (see the Information Technology Use Policy for additional guidance).

421.4 RESTRICTED ACCESS AND USE

MDC use is subject to the Information Technology Use and Protected Information policies.

Members shall not access the MDC system if they have not received prior authorization and the required training. Members shall immediately report unauthorized access or use of the MDC by another member to their supervisors or Shift Commanders.

Use of the MDC system to access law enforcement databases or transmit messages is restricted to official activities, business-related tasks and communications that are directly related to the business, administration or practices of the Department. In the event that a member has questions about sending a particular message or accessing a particular database, the member should seek prior approval from his/her supervisor.

Sending derogatory, defamatory, obscene, disrespectful, sexually suggestive, harassing or any other inappropriate messages on the MDC system is prohibited and may result in discipline.

It is a violation of this policy to transmit a message or access a law enforcement database under another member's name or to use the password of another member to log in to the MDC system unless directed to do so by a supervisor. Members are required to log off the MDC or secure the MDC when it is unattended. This added security measure will minimize the potential for unauthorized access or misuse.

421.4.1 USE WHILE DRIVING

Use of the MDC by the vehicle operator should be limited to times when the vehicle is stopped. Information that is required for immediate enforcement, investigative, tactical or safety needs should be transmitted over the radio.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Mobile Data Computer Use

In no case shall an operator attempt to send or review lengthy messages while the vehicle is in motion.

421.6 EQUIPMENT CONSIDERATIONS

421.6.1 MALFUNCTIONING MDC

Whenever possible, members will not use vehicles with malfunctioning MDCs. Whenever members must drive a vehicle in which the MDC is not working, they shall notify Central Dispatch. It shall be the responsibility of the dispatcher to document all information that will then be transmitted verbally over the police radio.

421.6.2 BOMB CALLS

When investigating reports of possible bombs, members should not communicate on their MDCs when in the evacuation area of a suspected explosive device. Radio frequency emitted by the MDC could cause some devices to detonate.

421.7 DOCUMENTATION OF ACTIVITY

Except as otherwise directed by the Shift Commander or other department-established protocol, all calls for service assigned by a dispatcher should be communicated by voice over the police radio and electronically via the MDC unless security or confidentiality prevents such broadcasting.

MDC and voice transmissions are used to document the member's daily activity. To ensure accuracy:

- (a) All contacts or activity shall be documented at the time of the contact.
- (b) Whenever the activity or contact is initiated by voice, it should be documented by a dispatcher.
- (c) Whenever the activity or contact is not initiated by voice, the member shall document it via the MDC.

421.7.1 STATUS CHANGES

All changes in status (e.g., arrival at scene, meal periods, in service) will be transmitted over the police radio or through the MDC system.

Members responding to in-progress calls should advise changes in status over the radio to assist other members responding to the same incident. Other changes in status can be made on the MDC when the vehicle is not in motion.

421.7.2 EMERGENCY ACTIVATION

If there is an emergency activation and the member does not respond to a request for confirmation of the need for emergency assistance or confirms the need, available resources will be sent to assist in locating the member. If the location is known, the nearest available officer should respond in accordance with the Officer Response to Calls Policy.

Members should ensure a field supervisor and the Shift Commander are notified of the incident without delay.

Officers not responding to the emergency shall refrain from transmitting on the police radio until a no-further-assistance broadcast is made or if they are also handling an emergency.

422.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the safe and effective operation of the patrol bicycle.

Bicycles may be deployed to any area at all hours of the day or night, according to Department needs and as staffing levels allow.

- Bicycles shall be equipped with a rear rack and/or saddle bag(s) sufficient to carry all necessary equipment and forms.
- Members shall conduct an inspection of the bicycle and equipment prior to use to ensure proper working order of the equipment. Members are responsible for the routine care and maintenance of their assigned equipment (*i.e. tire pressure, chain lubrication, overall cleaning*).
- If a needed repair is beyond the ability of the member, the supervisor will be notified in writing as soon as possible for repair by an approved technician.
- Each bicycle will be inspected by a department-approved repair shop/technician at the beginning of each season. At the end of a bicycle assignment, the bicycle shall be returned clean and ready for the next tour of duty.
- Members shall not modify the patrol bicycle, remove, modify or add components except with the expressed approval of the bicycle supervisor, or in the event of an emergency.
- Vehicle bicycle racks are available should the member need to transport the patrol bicycle. Due to possible component damage, transportation of the patrol bicycle in a trunk is discouraged.
- Bicycles shall be properly secured when not in the member's immediate presence.

Drug Recognition Experts

423.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for when a Drug Recognition Expert (DRE) may be utilized by members in the investigation of a person believed to be under the influence of drugs.

423.2 DRUG RECOGNITION EXPERT

A Drug Recognition Expert (DRE) is capable of gathering evidence to substantiate impairment by drugs. A trained DRE can reach reasonably accurate conclusions concerning the general kind of drugs and medical conditions causing impairment observed in a subject through use of a standardized and systematic 12-step evaluation. Based on these conclusions and any other articulable evidence that may emerge during contact with the subject, the DRE may request the collection and analysis of an appropriate biological sample to obtain corroborative, scientific evidence of the subject's drug use. Only members who have been certified/currently certified as a DRE may perform such evaluations.

423.2.1 UTILIZATION OF A DRE

A DRE may be considered to perform an evaluation under the following circumstances:

- A subject placed under arrest for DUI and submits to a Blood Alcohol Content (BAC) test which indicates a BAC under .08, but their level of impairment is not consistent with that BAC level;
- The subject is under arrest for being intoxicated in a public place and the member suspects the impairment is a result of a drug other than alcohol;
- A school administrator or department School Resource Officer has requested the evaluation of a possibly impaired minor, per I.C. 33-210;
- A Detective may request a DRE evaluation on a victim or suspect involved in a serious crime against persons (*i.e. rape victim drugged prior to and/or during assault*).

423.2.2 DUI DRUG IMPAIRMENT ARRESTS

When a member has probable cause to believe a subject is DUI and the impairment is the result of ingesting drugs other than alcohol, the member should administer Standardized Field Sobriety Evaluations (SFST's). If the subject fails the SFST's and is arrested and transported to jail, the member should observe the subject for the required 15-minute observation period and read the 18-8002 Advisory form to the subject and request they submit to a Blood Alcohol Content (BAC) breath test.

- If the subject refuses the test and the member believes the subject is impaired by something other than alcohol, an evidentiary blood draw should be obtained and a DRE contacted;
- If the subject takes a breath test but the BAC is below .08 and the subject's level of impairment is inconsistent with that BAC, a DRE should be contacted.

Automated License Plate Recognition (ALPR)

424.1 PURPOSE AND SCOPE

Automated License Plate Recognition (ALPR) technology provides automated detection of license plates. ALPRs are used by the department to convert data associated with vehicle license plates for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. ALPRs may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

424.2 ADMINISTRATION OF ALPR DATA

All installation and maintenance of any ALPR equipment owned and used by this department shall be managed by the Information Technology Sergeant. The ALPR server (BOSS) is owned, maintained and housed by the Post Falls Police Department.

424.3 ALPR OPERATION

Use of an ALPR is restricted to the purposes outlined below. Department personnel shall not use, or allow others to use, the equipment or database records for any unauthorized purpose.

- No member of this department shall operate ALPR equipment, or access ALPR data, without first receiving training in its use.
- An ALPR shall only be used for official and legitimate law enforcement business.
- An ALPR may be used in conjunction with any routine patrol operation or official department investigation. Reasonable suspicion or probable cause is not required before using an ALPR.
- While an ALPR may be used to canvass license plates around any crime scene. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.
- Members should verify an ALPR alert (*i.e. stolen vehicle*) through NCIC before taking enforcement action that is based solely upon an ALPR alert.

424.4 ALPR DATA COLLECTION AND RETENTION

All data and images gathered by an ALPR are for the official use only and because such data may contain confidential ILETS information, is not open to public review. ALPR information may be used and shared with prosecutors or others only as permitted by law.

Persons approved to access ALPR data are permitted to access the data for legitimate law enforcement purposes only, such as when the data relates to a specific investigation or department-related civil or administrative action.

Crisis Intervention Incidents

425.1 PURPOSE AND SCOPE

This policy provides guidelines for interacting with those who may be experiencing a mental health or emotional crisis. Interaction with such individuals has the potential for miscommunication and violence. It often requires an officer to make difficult judgments about a person's mental state and intent in order to effectively and legally interact with the individual.

425.1.1 DEFINITIONS

Definitions related to this policy include:

Person in crisis - A person whose level of distress or mental health symptoms have exceeded the person's internal ability to manage his/her behavior or emotions. A crisis can be precipitated by any number of things, including an increase in the symptoms of mental illness despite treatment compliance; non-compliance with treatment, including a failure to take prescribed medications appropriately; or any other circumstance or event that causes the person to engage in erratic, disruptive or dangerous behavior that may be accompanied by impaired judgment.

425.2 POLICY

The Coeur d'Alene Police Department is committed to providing a consistently high level of service to all members of the community and recognizes that persons in crisis may benefit from intervention. The Department will collaborate, where feasible, with mental health professionals to develop an overall intervention strategy to guide its members' interactions with those experiencing a mental health crisis. This is to ensure equitable and safe treatment of all involved.

425.3 SIGNS

Members should be alert to any of the following possible signs of mental health issues or crises:

- (a) A known history of mental illness
- (b) Threats of or attempted suicide
- (c) Loss of memory
- (d) Incoherence, disorientation or slow response
- (e) Delusions, hallucinations, perceptions unrelated to reality or grandiose ideas
- (f) Depression, pronounced feelings of hopelessness or uselessness, extreme sadness or guilt
- (g) Social withdrawal
- (h) Manic or impulsive behavior, extreme agitation, lack of control
- (i) Lack of fear
- (j) Anxiety, aggression, rigidity, inflexibility or paranoia

Members should be aware that this list is not exhaustive. The presence or absence of any of these should not be treated as proof of the presence or absence of a mental health issue or crisis.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crisis Intervention Incidents

425.4 COORDINATION WITH MENTAL HEALTH PROFESSIONALS

The Chief of Police should designate an appropriate Division Commander to collaborate with mental health professionals to develop an education and response protocol. It should include a list of community resources, to guide department interaction with those who may be suffering from mental illness or who appear to be in a mental health crisis.

425.5 FIRST RESPONDERS

Safety is a priority for first responders. It is important to recognize that individuals under the influence of alcohol, drugs or both may exhibit symptoms that are similar to those of a person in a mental health crisis. These individuals may still present a serious threat to officers; such a threat should be addressed with reasonable tactics. Nothing in this policy shall be construed to limit an officer's authority to use reasonable force when interacting with a person in crisis.

Officers are reminded that mental health issues, mental health crises and unusual behavior alone are not criminal offenses. Individuals may benefit from treatment as opposed to incarceration.

An officer responding to a call involving a person in crisis should:

- (a) Promptly assess the situation independent of reported information and make a preliminary determination regarding whether a mental health crisis may be a factor.
- (b) Request available backup officers and specialized resources as deemed necessary and, if it is reasonably believed that the person is in a crisis situation, use conflict resolution and de-escalation techniques to stabilize the incident as appropriate.
- (c) If feasible, and without compromising safety, turn off flashing lights, bright lights or sirens.
- (d) Attempt to determine if weapons are present or available.
- (e) Take into account the person's mental and emotional state and potential inability to understand commands or to appreciate the consequences of his/her action or inaction, as perceived by the officer.
- (f) Secure the scene and clear the immediate area as necessary.
- (g) Employ tactics to preserve the safety of all participants.
- (h) Determine the nature of any crime.
- (i) Request a supervisor, as warranted.
- (j) Evaluate any available information that might assist in determining cause or motivation for the person's actions or stated intentions.
- (k) If circumstances reasonably permit, consider and employ alternatives to force.

425.6 DE-ESCALATION

Officers should consider that taking no action or passively monitoring the situation may be the most reasonable response to a mental health crisis.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crisis Intervention Incidents

Once it is determined that a situation is a mental health crisis and immediate safety concerns have been addressed, responding members should be aware of the following considerations and should generally:

- Evaluate safety conditions.
- Introduce themselves and attempt to obtain the person's name.
- Be patient, polite, calm, courteous and avoid overreacting.
- Speak and move slowly and in a non-threatening manner.
- Moderate the level of direct eye contact.
- Remove distractions or disruptive people from the area.
- Demonstrate active listening skills (e.g., summarize the person's verbal communication).
- Provide for sufficient avenues of retreat or escape should the situation become volatile.

Responding officers generally should not:

- Use stances or tactics that can be interpreted as aggressive.
- Allow others to interrupt or engage the person.
- Corner a person who is not believed to be armed, violent or suicidal.
- Argue, speak with a raised voice or use threats to obtain compliance.

425.7 INCIDENT ORIENTATION

When responding to an incident that may involve mental illness or a mental health crisis, the officer should request that the dispatcher provide critical information as it becomes available. This includes:

- (a) Whether the person relies on drugs or medication, or may have failed to take his/her medication.
- (b) Whether there have been prior incidents, suicide threats/attempts, and whether there has been previous police response.
- (c) Contact information for a treating physician or mental health professional.

Additional resources and a supervisor should be requested as warranted.

425.8 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to the scene of any interaction with a person in crisis. Responding supervisors should:

- (a) Attempt to secure appropriate and sufficient resources.
- (b) Closely monitor any use of force, including the use of restraints, and ensure that those subjected to the use of force are provided with timely access to medical care (see the Handcuffing and Restraints Policy).

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crisis Intervention Incidents

- (c) Consider strategic disengagement. Absent an imminent threat to the public and, as circumstances dictate, this may include removing or reducing law enforcement resources or engaging in passive monitoring.
- (d) Ensure that all reports are completed and that incident documentation uses appropriate terminology and language.
- (e) Conduct an after-action tactical and operational debriefing, and prepare an after-action evaluation of the incident to be forwarded to the Division Commander.
- (f) Evaluate whether a critical incident stress management debriefing for involved members is warranted.

425.9 INCIDENT REPORTING

Members engaging in any oral or written communication associated with a mental health crisis should be mindful of the sensitive nature of such communications and should exercise appropriate discretion when referring to or describing persons and circumstances.

Members having contact with a person in crisis should keep related information confidential, except to the extent that revealing information is necessary to conform to department reporting procedures or other official mental health or medical proceedings.

425.9.1 DIVERSION

Individuals who are not being arrested should be processed in accordance with the Civil Commitments Policy.

425.10 CIVILIAN INTERACTION WITH PEOPLE IN CRISIS

Civilian members may be required to interact with persons in crisis in an administrative capacity, such as dispatching, records request, and animal control issues.

- (a) Members should treat all individuals equally and with dignity and respect.
- (b) If a member believes that he/she is interacting with a person in crisis, he/she should proceed patiently and in a calm manner.
- (c) Members should be aware and understand that the person may make unusual or bizarre claims or requests.

If a person's behavior makes the member feel unsafe, if the person is or becomes disruptive or violent, or if the person acts in such a manner as to cause the member to believe that the person may be harmful to him/herself or others, an officer should be promptly summoned to provide assistance.

425.11 EVALUATION

The Division Commander designated to coordinate the crisis intervention strategy for this department should ensure that a thorough review and analysis of the department response to these incidents is conducted annually. The report will not include identifying information pertaining to any involved individuals, officers or incidents and will be submitted to the Chief of Police through the chain of command.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Crisis Intervention Incidents

425.12 TRAINING

In coordination with the mental health community and appropriate stakeholders, the Department will develop and provide comprehensive education and training to all department members to enable them to effectively interact with persons in crisis.

Medical Aid and Response

426.1 PURPOSE AND SCOPE

This policy recognizes that members often encounter persons in need of medical aid and establishes a law enforcement response to such situations.

426.2 POLICY

It is the policy of the Coeur d'Alene Police Department that all officers and other designated members be trained to provide emergency medical aid and to facilitate an emergency medical response.

426.3 FIRST RESPONDING MEMBER RESPONSIBILITIES

Whenever practicable, members should take appropriate steps to provide initial medical aid (e.g., first aid, CPR and use of an automated external defibrillator (AED)) in accordance with their training and current certification levels. This should be done for those in need of immediate care and only when the member can safely do so.

Prior to initiating medical aid, the member should contact Central Dispatch and request response by Emergency Medical Services (EMS) as the member deems appropriate.

Members should follow universal precautions when providing medical aid, such as wearing gloves and avoiding contact with bodily fluids, consistent with the Communicable Diseases Policy. Members should use a barrier or bag device to perform rescue breathing.

When requesting EMS, the member should provide Central Dispatch with information for relay to EMS personnel in order to enable an appropriate response, including:

- (a) The location where EMS is needed.
- (b) The nature of the incident.
- (c) Any known scene hazards.
- (d) Information on the person in need of EMS, such as:
 1. Signs and symptoms as observed by the member.
 2. Changes in apparent condition.
 3. Number of patients, sex, and age, if known.
 4. Whether the person is conscious, breathing, and alert, or is believed to have consumed drugs or alcohol.
 5. Whether the person is showing signs of extreme agitation or is engaging in violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics, and imperviousness to pain.

Members should stabilize the scene whenever practicable while awaiting the arrival of EMS.

Members should not direct EMS personnel whether to transport the person for treatment.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Medical Aid and Response

426.4 TRANSPORTING ILL AND INJURED PERSONS

Except in extraordinary cases where alternatives are not reasonably available, members should not transport persons who are unconscious, who have serious injuries or who may be seriously ill. EMS personnel should be called to handle patient transportation.

Officers should search any person who is in custody before releasing that person to EMS for transport.

An officer should accompany any person in custody during transport in an ambulance when requested by EMS personnel, when it reasonably appears necessary to provide security, when it is necessary for investigative purposes or when so directed by a supervisor.

Members should not provide emergency escort for medical transport or civilian vehicles, unless approved by a supervisor.

426.5 PERSONS REFUSING EMS CARE

If a person who is not in custody refuses EMS care or refuses to be transported to a medical facility, an officer shall not force that person to receive care or be transported. However, members may assist EMS personnel when EMS personnel determine the person lacks mental capacity to understand the consequences of refusing medical care or to make an informed decision and the lack of immediate medical attention may result in serious bodily injury or the death of the person.

In cases where mental illness may be a factor, the officer should consider proceeding with a civil commitment in accordance with the Civil Commitments Policy.

If an officer believes that a person who is in custody requires EMS care and the person refuses, he/she should encourage the person to receive medical treatment. The officer may also consider contacting a family member to help persuade the person to agree to treatment or who may be able to authorize treatment for the person.

If the person who is in custody still refuses, the officer will require the person to be transported to the nearest medical facility. In such cases, the officer should consult with a supervisor prior to the transport.

Members shall not sign refusal-for-treatment forms or forms accepting financial responsibility for treatment.

426.6 MEDICAL ATTENTION RELATED TO USE OF FORCE

Specific guidelines for medical attention for injuries sustained from a use of force may be found in the Use of Force, Handcuffing and Restraints, Control Devices and Techniques, and Conducted Energy Device policies.

426.7 AIR AMBULANCE

Generally, when on-scene, EMS personnel will be responsible for determining whether an air ambulance response should be requested. An air ambulance may be appropriate when there are victims with life-threatening injuries or who require specialized treatment (e.g., gunshot wounds, burns, obstetrical cases), and distance or other known delays will affect the EMS response.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Medical Aid and Response

The Patrol Division Commander should develop guidelines for air ambulance landings or enter into local operating agreements for the use of air ambulances, as applicable. In creating those guidelines, the Department should identify:

- Responsibility and authority for designating a landing zone and determining the size of the landing zone.
- Responsibility for securing the area and maintaining that security once the landing zone is identified.
- Consideration of the air ambulance provider's minimum standards for proximity to vertical obstructions and surface composition (e.g., dirt, gravel, pavement, concrete, grass).
- Consideration of the air ambulance provider's minimum standards for horizontal clearance from structures, fences, power poles, antennas or roadways.
- Responsibility for notifying the appropriate highway or transportation agencies if a roadway is selected as a landing zone.
- Procedures for ground personnel to communicate with flight personnel during the operation.

One department member at the scene should be designated as the air ambulance communications contact. Headlights, spotlights and flashlights should not be aimed upward at the air ambulance. Members should direct vehicle and pedestrian traffic away from the landing zone.

Members should follow these cautions when near an air ambulance:

- Never approach the aircraft until signaled by the flight crew.
- Always approach the aircraft from the front.
- Avoid the aircraft's tail rotor area.
- Wear eye protection during landing and take-off.
- Do not carry or hold items, such as IV bags, above the head.
- Ensure that no one smokes near the aircraft.

426.8 AUTOMATED EXTERNAL DEFIBRILLATOR (AED) USE

426.8.1 AED USER RESPONSIBILITY

Trained members may provide an opioid antagonist to a person experiencing an opiate-related overdose.

426.9.1 OPIOID OVERDOSE MEDICATION USER RESPONSIBILITIES

Members who are qualified to administer opioid overdose medication, such as naloxone, should handle, store, and administer the medication consistent with their training. Members should check the medication and associated administration equipment at the beginning of their shift to ensure they are serviceable and not expired. Any expired medication or unserviceable administration equipment should be removed from service and given to the Training Lieutenant.

Any member that provides an opioid antagonist shall contact Central Dispatch as soon as possible and request response by EMS (Idaho Code 54-1735).

426.10 SICK OR INJURED ARRESTEE

If an arrestee appears ill or injured, or claims illness or injury, he/she should be medically cleared prior to booking. If the officer has reason to believe the arrestee is feigning injury or illness, the officer should contact a supervisor, who will determine whether medical clearance will be obtained prior to booking.

If the jail or detention facility refuses to accept custody of an arrestee based on medical screening, the officer should note the name of the facility person refusing to accept custody and the reason for refusal, and should notify a supervisor to determine the appropriate action.

Arrestees who appear to have a serious medical issue should be transported by ambulance. Officers shall not transport an arrestee to a hospital without a supervisor's approval.

Coeur d'Alene Police Department

Medical Aid and Response

Nothing in this section should delay an officer from requesting EMS when an arrestee reasonably appears to be exhibiting symptoms that appear to be life threatening, including breathing problems or an altered level of consciousness, or is claiming an illness or injury that reasonably warrants an EMS response in accordance with the officer's training.

426.11 FIRST AID TRAINING

Subject to available resources, the Training Lieutenant should ensure officers receive periodic first aid training appropriate for their position.

Public Recording of Law Enforcement Activity

427.1 PURPOSE AND SCOPE

This policy provides guidelines for handling situations in which members of the public photograph or audio/video record law enforcement actions and other public activities that involve members of this department. In addition, this policy provides guidelines for situations where the recordings may be evidence.

427.2 POLICY

The Coeur d'Alene Police Department recognizes the right of persons to lawfully record members of this department who are performing their official duties. Members of this department will not prohibit or intentionally interfere with such lawful recordings. Any recordings that are deemed to be evidence of a crime or relevant to an investigation will only be collected or seized lawfully.

Officers should exercise restraint and should not resort to highly discretionary arrests for offenses such as interference, failure to comply or disorderly conduct as a means of preventing someone from exercising the right to record members performing their official duties.

427.3 RECORDING LAW ENFORCEMENT ACTIVITY

Members of the public who wish to record law enforcement activities are limited only in certain aspects.

- (a) Recordings may be made from any public place or any private property where the individual has the legal right to be present.
- (b) Beyond the act of photographing or recording, individuals may not interfere with the law enforcement activity. Examples of interference include, but are not limited to:
 - 1. Tampering with a witness or suspect.
 - 2. Inciting others to violate the law.
 - 3. Being so close to the activity as to present a clear safety hazard to the officers.
 - 4. Being so close to the activity as to interfere with an officer's effective communication with a suspect or witness.
- (c) The individual may not present an undue safety risk to the officers, him/herself or others.

427.4 OFFICER RESPONSE

Officers should promptly request a supervisor respond to the scene whenever it appears that anyone recording activities may be interfering with an investigation or it is believed that the recording may be evidence. If practicable, officers should wait for the supervisor to arrive before taking enforcement action or seizing any cameras or recording media.

Whenever practicable, officers or supervisors should give clear and concise warnings to individuals who are conducting themselves in a manner that would cause their recording or behavior to be unlawful. Accompanying the warnings should be clear directions on what an

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Public Recording of Law Enforcement Activity

individual can do to be compliant; directions should be specific enough to allow compliance. For example, rather than directing an individual to clear the area, an officer could advise the person that he/she may continue observing and recording from the sidewalk across the street.

If an arrest or other significant enforcement activity is taken as the result of a recording that interferes with law enforcement activity, officers shall document in a report the nature and extent of the interference or other unlawful behavior and the warnings that were issued.

427.5 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to the scene when requested or any time the circumstances indicate a likelihood of interference or other unlawful behavior.

The supervisor should review the situation with the officer and:

- (a) Request any additional assistance as needed to ensure a safe environment.
- (b) Take a lead role in communicating with individuals who are observing or recording regarding any appropriate limitations on their location or behavior. When practical, the encounter should be recorded.
- (c) When practicable, allow adequate time for individuals to respond to requests for a change of location or behavior.
- (d) Ensure that any enforcement, seizure or other actions are consistent with this policy and constitutional and state law.
- (e) Explain alternatives for individuals who wish to express concern about the conduct of Department members, such as how and where to file a complaint.

427.6 SEIZING RECORDINGS AS EVIDENCE

Officers should not seize recording devices or media unless (42 USC § 2000aa):

- (a) There is probable cause to believe the person recording has committed or is committing a crime to which the recording relates, and the recording is reasonably necessary for prosecution of the person.
 1. Absent exigency or consent, a warrant should be sought before seizing or viewing such recordings. Reasonable steps may be taken to prevent erasure of the recording.
- (b) There is reason to believe that the immediate seizure of such recordings is necessary to prevent serious bodily injury or death of any person.
- (c) The person consents.
 1. To ensure that the consent is voluntary, the request should not be made in a threatening or coercive manner.
 2. If the original recording is provided, a copy of the recording should be provided to the recording party, if practicable. The recording party should be permitted to be present while the copy is being made, if feasible.

Air Support Assistance

428.1 PURPOSE AND SCOPE

The use of law enforcement air support assistance can be invaluable in certain situations. This policy specifies potential situations where the use of air support may be requested and the responsibilities for making a request.

428.2 REQUEST FOR LAW ENFORCEMENT AIRCRAFT ASSISTANCE

The department has a Memorandum of Understanding with the Spokane County Sheriff's Office to provide air support assistance (SRASU) within our jurisdiction.

428.2.1 REQUEST FOR ASSISTANCE FROM ANOTHER AGENCY

The SRASU is used regionally and must prioritize calls for service, therefore their availability to patrol or respond to calls for service within our jurisdiction may be limited, not always immediate, or not possible due to higher priority calls for service, poor weather conditions or mechanical problems.

- The SRASU schedules routine regional patrol flights on Friday and Saturday nights, typically from 2300 to 0300 hours, although the schedule is subject to change.
- SRASU Tactical Flight Officers will notify Central when they are on and off duty, and Central will advise CDAPD patrol units.
- The SRASU may be utilized for call-outs or for pre-planned special events that are not part of their routine patrol flight schedule.
- The radio call sign for the SRASU will be "Air-1".

SRASU SCHEDULED PATROL FLIGHTS

- When the SRASU is on a scheduled routine patrol flight and a member of this department believes the use of the SRASU would be of assistance for a CDAPD call for service, the member shall request Central contact the SRASU to provide details and check for their availability;
- The Patrol Supervisor has the authority to cancel the request;
- The SRASU will monitor CDAPD radio frequencies when patrolling and/or responding to calls for service within our jurisdiction. Patrol officers and Tactical Flight Officers will have the ability to communicate with each other via radio.

SRASU EMERGENCY CALL-OUTS

- When the SRASU is not on a scheduled routine patrol flight and needs to be called out to assist our department with a call for service, a Patrol Supervisor will evaluate the situation and determine whether or not the SRASU will be requested;

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Air Support Assistance

- Prior to making the call-out request, the Patrol Supervisor shall take into consideration the type of incident the call-out is being made for and the fact that there will be an extended ETA for the SRASU to arrive in our jurisdiction.
- If the Patrol Supervisor determines the SRASU will be requested, the Supervisor will provide Central the reason for the call-out and request Central contact the Spokane County Sheriff's Office. The SRASU Supervisor or designated Tactical Flight Officer will be contacted to approve or deny the call-out;
- If the SRASU is called out, the Patrol Supervisor shall notify the Operations Division Commander as soon as practical.

SRASU SPECIAL EVENT REQUESTS

- The SRASU may be requested by our department for special events, such as a directed patrol flight for pre-planned law enforcement operations (*i.e. SWAT or Narcotics*), or for static display at community events;
- The requesting member shall first obtain approval from their Division Commander;
- The requesting member shall forward a written request on department letterhead to the SRASU via the Spokane County Sheriff's Office. The request shall contain the following information:
 - Reason for the need of the SRASU;
 - Contact numbers for the requesting member and any coordinators of the special event;
 - Dates and times of the special event;
 - Location of event (*A diagram or aerial photograph should be attached if possible*).
- The SRASU Supervisor will review the request and approve or deny it in a timely manner.

428.2.2 CIRCUMSTANCES UNDER WHICH AID MAY BE REQUESTED

The SRASU may be utilized for the following situations:

- When the SRASU is activated under existing mutual aid or MOU agreements;
- Whenever the safety of law enforcement personnel is in jeopardy and the presence of the SRASU may reduce such hazard;
- When the use of the SRASU will aid in the capture of a suspected fleeing felon whose continued freedom represents an ongoing threat to the community;
- When the use of the SRASU will aid in the surveillance and/or detention of persons involved in suspicious activity;

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Air Support Assistance

- When the SRASU is needed to locate a person who is missing or is lost and whose continued absence constitutes a serious health or safety hazard;
- Vehicle pursuits;
- Routine patrol.

The SRASU can provide valuable emergency services within our jurisdiction to include:

- Search and Rescue;
- Fugitive Searching;
- Surveillance;
- Fire Suppression;
- Homeland Security Critical Infrastructure Checks;
- Natural Disaster Damage Assessment;
- Patrol Services.

428.2.3 SRASU COMMUNICATIONS AND IDENTIFIERS

The SRASU has the capability to monitor and communicate with officers and Central via radio.

- The designated call sign for the SRASU will be "Air-1".

All marked CDAPD police vehicles will have rooftop numbers to assist SRASU Tactical Flight Officers (TFO) identify officers when the SRASU is providing assistance. The rooftop numbers will be the same number as the police vehicle's assigned license plate.

- Members must be aware that the TFO's may not know the member's K# when providing assistance and may need to communicate by using the rooftop number on the member's police vehicle.

428.2.4 SRASU ACTIVITY REPORTS WITHIN OUR JURISDICTION

Whenever the SRASU is utilized within our jurisdiction for routine patrol flights or for emergency call-outs, the Shift Commander shall forward a written report via e-mail to the Operations Division Commander. This e-mail shall be titled "*SRASU Activity Report*".

The report shall include pertinent information, such as date, time, activity, disposition and related case numbers if applicable. The report shall also include information indicating if the activity was a result of SRASU observations or assistance during routine patrol, or as a result of a request for their services.

This same procedure shall be followed by any member or supervisor utilizing the services of the SRASU for a special event.

Coeur d'Alene Police Department

428.2.5 SRASU VIDEO RECORDING

The SRASU has the ability to record video during patrol flights. Whenever a member of this department is assisted by the SRASU which results in an arrest or other written police report, or at any other time when a video of a scene or incident would be beneficial to the department (*i.e. training*), the member shall ask the TFO via radio if the incident was recorded.

If there is video evidence of an incident which involves an arrest or investigation, the member shall:

- (a) Document in their report that the SRASU has video; and
 - (b) Notify the CDAPD TFO via e-mail of the existence of the video, including the date, time and report number.
1. The CDAPD TFO will download the video from the SRASU office, upload it into our department VIPER system and complete a supplemental report.
 - (a) The CDAPD TFO will generally attempt to obtain the video evidence at his next regularly scheduled SRASU training and/or patrol flight, which may result in a delay in having the evidence uploaded into VIPER immediately.
 - (b) In the event that a Detective, Supervisor and/or Prosecutor needs to view the video evidence immediately, and prior to the CDAPD TFO being able to obtain it, the requesting member shall contact the SRASU Supervisor for the Spokane County Sheriff's Office and make arrangements for viewing and/or obtaining a copy of the video as soon as practical.

For all other videos that are not related to an arrest or investigation that a member feels would be beneficial for department use, the member shall notify the CDAPD TFO and the Operations Division Commander via e-mail of the details of the incident, to include date/time and report number, if applicable. The Operations Division Commander shall make the determination as to whether or not a copy of the video will be obtained and how it will be used for department purposes.

First Amendment Assemblies

429.1 PURPOSE AND SCOPE

This policy provides guidance for responding to public assemblies or demonstrations.

429.2 POLICY

The Coeur d'Alene Police Department respects the rights of people to peaceably assemble. It is the policy of this department not to unreasonably interfere with, harass, intimidate or discriminate against persons engaged in the lawful exercise of their rights, while also preserving the peace, protecting life and preventing the destruction of property.

429.3 GENERAL CONSIDERATIONS

Individuals or groups present on the public way, such as public facilities, streets or walkways, generally have the right to assemble, rally, demonstrate, protest or otherwise express their views and opinions through varying forms of communication, including the distribution of printed matter. These rights may be limited by laws or ordinances regulating such matters as the obstruction of individual or vehicle access or egress, trespass, noise, picketing, distribution of handbills and leafleting, and loitering. However, officers shall not take action or fail to take action based on the opinions being expressed.

Participant behavior during a demonstration or other public assembly can vary. This may include, but is not limited to:

- Lawful, constitutionally protected actions and speech.
- Civil disobedience (typically involving minor criminal acts).
- Rioting.

All of these behaviors may be present during the same event. Therefore, it is imperative that law enforcement actions are measured and appropriate for the behaviors officers may encounter. This is particularly critical if force is being used. Adaptable strategies and tactics are essential. The purpose of a law enforcement presence at the scene of public assemblies and demonstrations should be to preserve the peace, to protect life and prevent the destruction of property.

Officers should not:

- (a) Engage in assembly or demonstration-related discussion with participants.
- (b) Harass, confront or intimidate participants.
- (c) Seize the cameras, cell phones or materials of participants or observers unless an officer is placing a person under lawful arrest (see the Public Recording of Law Enforcement Activity Policy).

Supervisors should continually observe department members under their commands to ensure that members' interaction with participants and their response to crowd dynamics is appropriate.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

First Amendment Assemblies

429.3.1 PHOTOGRAPHS, VIDEO RECORDINGS AND OTHER INFORMATION

Photographs, video recordings and other information may be collected at assemblies and demonstrations as they can serve a number of purposes, such as support of criminal prosecutions; assistance in evaluating department performance; serving as training material; recording the use of dispersal orders; and facilitating a response to allegations of improper law enforcement conduct.

Photographs, video recordings and other information shall not be maintained on the political, religious or social activities, views or associations of any individual, group or organization, unless those activities, views or associations directly relate to an investigation of criminal activity and there is reasonable suspicion that the subject of the information is involved in criminal conduct.

429.4 UNPLANNED EVENTS

When responding to an unplanned or spontaneous public gathering, the first responding officer should conduct an assessment of conditions, including, but not limited to, the following:

- Location
- Number of participants
- Apparent purpose of the event
- Leadership (whether it is apparent and/or whether it is effective)
- Any initial indicators of unlawful or disruptive activity
- Indicators that lawful use of public facilities, streets or walkways will be impacted
- Ability and/or need to continue monitoring the incident

Initial assessment information should be promptly communicated to Central Dispatch, and the assignment of a supervisor should be requested. Additional resources should be requested as appropriate. The responding supervisor shall assume command of the incident until command is expressly assumed by another, and the assumption of command is communicated to the involved members. A clearly defined command structure that is consistent with the Incident Command System (ICS) should be established as resources are deployed.

429.5 PLANNED EVENT PREPARATION

For planned events, comprehensive, incident-specific operational plans should be developed. The ICS should be considered for such events.

429.5.1 INFORMATION GATHERING AND ASSESSMENT

In order to properly assess the potential impact of a public assembly or demonstration on public safety and order, relevant information should be collected and vetted. This may include:

- Information obtained from outreach to group organizers or leaders.
- Information about past and potential unlawful conduct associated with the event or similar events.
- The potential time, duration, scope, and type of planned activities.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

First Amendment Assemblies

- Any other information related to the goal of providing a balanced response to criminal activity and the protection of public safety interests.

Information should be obtained in a transparent manner, and the sources documented. Relevant information should be communicated to the appropriate parties in a timely manner.

Information will be obtained in a lawful manner and will not be based solely on the purpose or content of the assembly or demonstration, or actual or perceived characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, or disability of the participants (or any other characteristic that is unrelated to criminal conduct or the identification of a criminal subject).

429.5.2 OPERATIONAL PLANS

An operational planning team with responsibility for event planning and management should be established. The planning team should develop an operational plan for the event.

The operational plan will minimally provide for the following:

- (a) Command assignments, chain of command structure, roles and responsibilities
- (b) Staffing and resource allocation
- (c) Management of criminal investigations
- (d) Designation of uniform of the day and related safety equipment (e.g., helmets, shields)
- (e) Deployment of specialized resources
- (f) Event communications and interoperability in a multijurisdictional event
- (g) Liaison with demonstration leaders and external agencies
- (h) Liaison with City government and legal staff
- (i) Media relations
- (j) Logistics: food, fuel, replacement equipment, duty hours, relief and transportation
- (k) Traffic management plans
- (l) First aid and emergency medical service provider availability
- (m) Prisoner transport and detention
- (n) Review of policies regarding public assemblies and use of force in crowd control
- (o) Parameters for declaring an unlawful assembly
- (p) Arrest protocol, including management of mass arrests
- (q) Protocol for recording information flow and decisions
- (r) Rules of engagement, including rules of conduct, protocols for field force extraction and arrests, and any authorization required for the use of force
- (s) Protocol for handling complaints during the event

Coeur d'Alene Police Department

First Amendment Assemblies

429.5.3 MUTUAL AID AND EXTERNAL RESOURCES

The magnitude and anticipated duration of an event may necessitate interagency cooperation and coordination. The assigned Incident Commander should ensure that any required memorandums of understanding or other agreements are properly executed, and that any anticipated mutual aid is requested and facilitated (see the Outside Agency Assistance Policy).

429.6 UNLAWFUL ASSEMBLY DISPERSAL ORDERS

If a public gathering or demonstration remains peaceful and nonviolent, and there is no reasonably imminent threat to persons or property, the Incident Commander should generally authorize continued monitoring of the event.

Should the Incident Commander make a determination that public safety is presently or is about to be jeopardized, he/she or the authorized designee should attempt to verbally persuade event organizers or participants to disperse of their own accord. Warnings and advisements may be communicated through established communications links with leaders and/or participants or to the group.

When initial attempts at verbal persuasion are unsuccessful, the Incident Commander or the authorized designee should make a clear standardized announcement to the gathering that the event is an unlawful assembly, and should order the dispersal of the participants. The announcement should be communicated by whatever methods are reasonably available to ensure that the content of the message is clear and that it has been heard by the participants. The announcement should be amplified, made in different languages as appropriate, made from multiple locations in the affected area and documented by audio and video. The announcement should provide information about what law enforcement actions will take place if illegal behavior continues and should identify routes for egress. A reasonable time to disperse should be allowed following a dispersal order.

429.7 USE OF FORCE

Use of force is governed by current department policy and applicable law (see the Use of Force, Handcuffing and Restraints, Control Devices and Techniques, and Conducted Energy Device policies).

Individuals refusing to comply with lawful orders (e.g., nonviolent refusal to disperse) should be given a clear verbal warning and a reasonable opportunity to comply. If an individual refuses to comply with lawful orders, the Incident Commander shall evaluate the type of resistance and adopt a reasonable response in order to accomplish the law enforcement mission (such as dispersal or arrest of those acting in violation of the law). Control devices and conducted energy devices should be considered only when the participants' conduct reasonably appears to present the potential to harm officers, themselves or others, or will result in substantial property loss or damage (see the Control Devices and Techniques and the Conducted Energy Device policies).

Force or control devices, including oleoresin capsaicin (OC), should be directed toward individuals and not toward groups or crowds, unless specific individuals cannot reasonably be targeted due to extreme circumstances, such as a riotous crowd.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

First Amendment Assemblies

Any use of force by a member of this department shall be documented promptly, completely, and accurately in an appropriate report. The type of report required may depend on the nature of the incident.

429.8 ARRESTS

The Coeur d'Alene Police Department should respond to unlawful behavior in a manner that is consistent with the operational plan. If practicable, warnings or advisements should be communicated prior to arrest.

Mass arrests should be employed only when alternate tactics and strategies have been, or reasonably appear likely to be, unsuccessful. Mass arrests shall only be undertaken upon the order of the Incident Commander or the authorized designee. There must be probable cause for each arrest.

If employed, mass arrest protocols should fully integrate:

- (a) Reasonable measures to address the safety of officers and arrestees.
- (b) Dedicated arrest, booking and report writing teams.
- (c) Timely access to medical care.
- (d) Timely access to legal resources.
- (e) Timely processing of arrestees.
- (f) Full accountability for arrestees and evidence.
- (g) Coordination and cooperation with the prosecuting authority, jail and courts (see the Citation Releases Policy).

429.9 MEDIA RELATIONS

The Public Information Officer should use all available avenues of communication, including press releases, briefings, press conferences and social media to maintain open channels of communication with media representatives and the public about the status and progress of the event, taking all opportunities to reassure the public about the professional management of the event (see the News Media Relations Policy).

429.10 DEMOBILIZATION

When appropriate, the Incident Commander or the authorized designee should implement a phased and orderly withdrawal of law enforcement resources. All relieved personnel should promptly complete any required reports, including use of force reports, and account for all issued equipment and vehicles to their supervisors prior to returning to normal operational duties.

429.11 POST EVENT

The Incident Commander should designate a member to assemble full documentation of the event, to include the following:

- (a) Operational plan
- (b) Any incident logs

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

First Amendment Assemblies

- (c) Any assignment logs
- (d) Vehicle, fuel, equipment and supply records
- (e) Incident, arrest, use of force, injury and property damage reports
- (f) Photographs, audio/video recordings, Central Dispatch records/tapes
- (g) Media accounts (print and broadcast media)

429.11.1 AFTER-ACTION REPORTING

The Incident Commander should work with City legal counsel, as appropriate, to prepare a comprehensive after-action report of the event, explaining all incidents where force was used including the following:

- (a) Date, time and description of the event
- (b) Actions taken and outcomes (e.g., injuries, property damage, arrests)
- (c) Problems identified
- (d) Significant events
- (e) Recommendations for improvement; opportunities for training should be documented in a generic manner, without identifying individuals or specific incidents, facts or circumstances

429.12 TRAINING

Department members should receive periodic training regarding this policy, as well as the dynamics of crowd control and incident management. The Department should, when practicable, train with its external and mutual aid partners.

Suspicious Activity Reporting

430.1 PURPOSE AND SCOPE

This policy provides guidelines for reporting and investigating suspicious and criminal activity.

430.1.1 DEFINITIONS

Definitions related to this policy include:

Involved party - An individual who has been observed engaging in suspicious activity, as defined in this policy, when no definitive criminal activity can be identified, thus precluding the person's identification as a suspect.

Suspicious activity - Any reported or observed activity that a member reasonably believes may have a nexus to any criminal act or attempted criminal act, or to foreign or domestic terrorism. Actual or perceived characteristics such as race, ethnicity, national origin or religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, or disability should not be considered as factors that create suspicion (although these factors may be used as specific suspect descriptions). Examples of suspicious activity may include but are not limited to:

- Suspected pre-operational surveillance or intelligence gathering (e.g., photographing security features, asking questions about sensitive security-related subjects).
- Tests of security measures and response to incidents (e.g., "dry run," creating false alarms, attempts to enter secure areas without authorization).
- Suspicious purchases (e.g., purchasing large quantities of otherwise legal items, such as fertilizer, that could be used to create an explosive or other dangerous device).
- An individual in possession of such things as a hoax explosive or dispersal device, sensitive materials (e.g., passwords, access codes, classified government information), or coded or ciphered literature or correspondence.

Suspicious Activity Report (SAR) - An incident report used to document suspicious activity.

430.2 POLICY

The Coeur d'Alene Police Department recognizes the need to protect the public from criminal conduct and acts of terrorism, and shall lawfully collect, maintain and disseminate information regarding suspicious activities, while safeguarding civil liberties and privacy protections.

430.3 RESPONSIBILITIES

The Investigation Division Commander and authorized designees will manage SAR activities. Authorized designees should include supervisors who are responsible for department participation in criminal intelligence systems as outlined in the Criminal Organizations Policy.

The responsibilities of the Investigation Division Commander include, but are not limited to:

- (a) Remaining familiar with those databases available to the Department that would facilitate the purpose of this policy.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Suspicious Activity Reporting

- (b) Maintaining adequate training in the area of intelligence gathering to ensure no information is being maintained that would violate the law or civil rights of any individual.
- (c) Ensuring a process is available that would allow members to report relevant information. The process should be designed to promote efficient and quick reporting, and should not be cumbersome, duplicative or complicated.
- (d) Ensuring that members are made aware of the purpose and value of documenting information regarding suspicious activity, as well as the databases and other information resources that are available to the Department.
- (e) Ensuring that SAR information is appropriately disseminated to members in accordance with their job responsibilities.
- (f) Coordinating investigative follow-up, if appropriate.
- (g) Coordinating with any appropriate agency or fusion center.
- (h) Ensuring that, as resources are available, the Department conducts outreach that is designed to encourage members of the community to report suspicious activity and that outlines what they should look for and how they should report it (e.g., website, public service announcements).

430.4 REPORTING AND INVESTIGATION

Any department member receiving information regarding suspicious activity should take any necessary immediate and appropriate action, including a request for tactical response or immediate notification of specialized entities, when applicable. Any civilian member who receives such information should ensure that it is passed on to an officer in a timely manner.

If the suspicious activity is not directly related to a reportable crime, the member should prepare a SAR and include information about involved parties and the circumstances of the incident. If, during any investigation, an officer becomes aware of suspicious activity that is unrelated to the current investigation, the information should be documented separately in a SAR and not included in the original incident report. The report number of the original incident should be included in the SAR as a cross reference. A SAR should be processed as any other incident report.

430.5 HANDLING INFORMATION

The Records Section will forward copies of SARs, in a timely manner, to the following:

- Investigation Section supervisor
- Crime Analysis Unit
- Other authorized designees

Patrol Response with Armored Vehicles

431.1 PURPOSE AND SCOPE

This policy governs the use of the armored vehicle by officers during extreme situations, prior to the arrival or deployment of SWAT personnel. The armored vehicle may be utilized by officers not assigned to SWAT under extreme circumstances to rescue wounded officers or citizens, or to facilitate evacuations when gunfire or the imminent threat of gunfire or other ranged attack makes the use of the armored vehicle reasonably necessary. Unless absolutely necessary based on the extreme circumstances of the situation, only those personnel trained in the use of the armored vehicle are authorized to drive it.

431.2 PROCEDURE

- a. An officer who determines that the use of the armored vehicle is necessary should request the Armored Rescue Vehicle with approval from the on duty supervisor.
- b. The on-scene Patrol Supervisor shall supervise and coordinate rescue efforts to the extent practicable.
- c. If immediately available, SWAT personnel should participate in the rescue; however, at a minimum, a rescue involving the use of the armored vehicle shall include:
 - Driver
 - Lethal cover
 - An officer to physically carry or assist others into the armored vehicle
- d. If more than three officers are immediately available, other officers can assist with providing lethal coverage or physically rescuing others as needed.
- e. The supervisor should plan to facilitate the rescue through the use of smoke or other visual impairment methods, suppressive fire, and/or distraction devices/ techniques.
- f. Once the rescue plan is ready to initiate, all personal including permitter units shall be notified.
- g. Evacuated, wounded individuals should be handed off to EMS personnel at the earliest opportunity, and the armored vehicle should be prepared to conduct additional rescue operations as necessary.

431.3 SWAT POLICY

Nothing in this policy is meant to supersede or alter SWAT policy or training governing the use of the armored vehicle.

Criminal Organizations

432.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that the Coeur d'Alene Police Department appropriately utilizes criminal intelligence systems and temporary information files to support investigations of criminal organizations and enterprises.

432.1.1 DEFINITIONS

Definitions related to this policy include:

Criminal intelligence system - Any record system that receives, stores, exchanges or disseminates information that has been evaluated and determined to be relevant to the identification of a criminal organization or enterprise, its members or affiliates. This does not include temporary information files.

432.2 POLICY

The Coeur d'Alene Police Department recognizes that certain criminal activities, including but not limited to gang crimes and drug trafficking, often involve some degree of regular coordination and may involve a large number of participants over a broad geographical area.

It is the policy of this department to collect and share relevant information while respecting the privacy and legal rights of the public.

432.3 CRIMINAL INTELLIGENCE SYSTEMS

No department member may create, submit to or obtain information from a criminal intelligence system unless the Chief of Police has approved the system for department use.

Any criminal intelligence system approved for department use should meet or exceed the standards of 28 CFR 23.20.

A designated supervisor will be responsible for maintaining each criminal intelligence system that has been approved for department use. The supervisor or the authorized designee should ensure the following:

- (a) Members using any such system are appropriately selected and trained.
- (b) Use of every criminal intelligence system is appropriately reviewed and audited.
- (c) Any system security issues are reasonably addressed.

432.3.1 SYSTEM ENTRIES

It is the designated supervisor's responsibility to approve the entry of any information from a report, FI, photo or other relevant document into an authorized criminal intelligence system. If entries are made based upon information that is not on file with this department, such as open or public source documents or documents that are on file at another agency, the designated supervisor should ensure copies of those documents are retained by the Records Section. Any supporting documentation for an entry shall be retained by the Records Section in accordance

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Criminal Organizations

with the established records retention schedule and for at least as long as the entry is maintained in the system.

The designated supervisor should ensure that any documents retained by the Records Section are appropriately marked as intelligence information. The Records Supervisor may not purge such documents without the approval of the designated supervisor.

432.4 TEMPORARY INFORMATION FILE

Department supervisors, with the permission of the Chief of Police, may maintain temporary information files for the purpose of identifying criminal organizations or enterprises, their members or affiliates.

432.4.1 FILE CONTENTS

A temporary information file may only contain information and documents that, within one year, will have a reasonable likelihood to meet the criteria for entry into an authorized criminal intelligence system.

Information and documents contained in a temporary information file:

- (a) Must only be included upon documented authorization of the responsible department supervisor.
- (b) Should not be originals that would ordinarily be retained by the Records Section or Property and Evidence Office, but should be copies of, or references to, retained documents, such as copies of reports, field interview (FI) forms, Central Dispatch records or booking forms.
- (c) Shall not include opinions. No person, organization or enterprise shall be labeled as being involved in crime beyond what is already in the document or information.
- (d) May include information collected from publicly available sources or references to documents on file with another government agency. Attribution identifying the source should be retained with the information.

432.4.2 FILE REVIEW AND PURGING

The contents of a temporary information file shall not be retained longer than one year. At the end of one year, the contents must be purged in compliance with Idaho Public Records Law or entered in an authorized criminal intelligence system, as applicable.

The assigned gang investigations Sergeant shall periodically review the temporary information files to verify that the contents meet the criteria for retention. Validation and purging of files is the responsibility of the supervisor.

432.5 INFORMATION RECOGNITION

Department members should document facts that suggest an individual, organization or enterprise is involved in criminal activity and should forward that information appropriately. Examples include, but are not limited to:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Criminal Organizations

- (a) Gang indicia associated with a person or residence.
- (b) Information related to a drug-trafficking operation.
- (c) Vandalism indicating an animus for a particular group.
- (d) Information related to an illegal gambling operation.

Department supervisors who utilize an authorized criminal intelligence system should work with the Training Lieutenant to train members to identify information that may be particularly relevant for inclusion.

432.6 RELEASE OF INFORMATION

Department members shall comply with the rules of an authorized criminal intelligence system regarding inquiries and release of information.

Information from a temporary information file may only be furnished to department members and other law enforcement agencies on a need-to-know basis and consistent with the Records Maintenance and Release Policy.

When an inquiry is made by the parent or guardian of a juvenile as to whether that juvenile's name is in a temporary information file, such information should be provided by the supervisor responsible for the temporary information file, unless there is good cause to believe that the release of such information might jeopardize an ongoing criminal investigation.

432.7 CRIMINAL STREET GANGS

The assigned gang investigations Sergeant should ensure that there are an appropriate number of department members who can:

- (a) Testify as experts on matters related to criminal street gangs, and maintain an above average familiarity with the identification of criminal gang members as described in Idaho Code 18-8502(2) and patterns of criminal gang activity as described in Idaho Code 18-8502(3).
- (b) Coordinate with other agencies in the region regarding criminal street gang crimes and information.

Chapter 5 - Traffic Operations

Traffic Function and Responsibility

500.1 PURPOSE AND SCOPE

The ultimate goal of traffic law enforcement is to reduce traffic collisions. This may be achieved through the application of such techniques as geographic/temporal assignment of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unlawful driving behavior. Traffic enforcement techniques are based on accident data, enforcement activity records, traffic volume, and traffic conditions. This department provides enforcement efforts toward violations, not only in proportion to the frequency of their occurrence in accident situations, but also in terms of traffic-related needs.

500.2 TRAFFIC OFFICER DEPLOYMENT

Several factors are considered in the development of deployment schedules for officers of the Coeur d'Alene Police Department. Information provided by this department and the Idaho Department of Transportation is a valuable resource for traffic accident occurrences and therefore officer deployment. Some of the factors for analysis include:

- Location
- Time
- Day
- Violation factors

All officers assigned to patrol or traffic enforcement functions will emphasize enforcement of accident causing violations during high accident hours and at locations of occurrence. All officers will take directed enforcement action on request, and random enforcement action when appropriate against violators as a matter of routine. All officers shall maintain high visibility while working general enforcement, especially at high accident locations.

Other factors to be considered for deployment are citizen requests, construction zones or special events.

500.3 ENFORCEMENT

Enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation committed. This department does not establish ticket quotas and the number of arrests or citations issued by any officer shall not be used as the sole criterion for evaluating officer overall performance. The visibility and quality of an officer's work effort will be commensurate with the philosophy of this policy. Several methods are effective in the reduction of collisions:

500.3.1 WARNINGS

Warnings or other non-punitive enforcement actions should be considered in each situation and substituted for arrests or citations when circumstances warrant, especially in the case of inadvertent violations.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Traffic Function and Responsibility

500.3.2 CITATIONS

Citations may be issued when an officer believes it is appropriate. It is essential that officers fully explain the rights and requirements imposed on motorists upon issuance of a citation for a traffic violation. Officers should provide the following information at a minimum:

- (a) Explanation of the violation or charge.
- (b) Court appearance procedure including the optional or mandatory appearance by the motorist.
- (c) Notice of whether the motorist can enter a plea and pay the fine by mail or at the court.

500.3.3 PHYSICAL ARREST

Physical arrest may be made on a number of criminal traffic offenses when a citation is not issued pursuant to the Citation Releases Policy.

500.4 SUSPENDED OR REVOKED DRIVERS LICENSES

Physical arrests for misdemeanor license violations may be done at the member's discretion after first considering the following:

- The member observed the violator operating a motor vehicle on a public roadway without a valid driver's license, or there is a witness to this offense and the witness wishes to do a citizen's arrest; and
- The violator cannot be satisfactorily identified; and/or
- The violator refuses to sign a handwritten citation or refuses to accept service of an electronic citation; and/or
- The violator has previous failure to appear charges; and/or
- The member has probable grounds to believe the violator will disregard a promise to appear in court.

Traffic Collision Reporting

501.1 PURPOSE AND SCOPE

The department prepares traffic collision reports to assist in gathering statistical information. Completed reports are available to the public under the Idaho Public Records law through the Records Division.

This policy also provides guidelines for department and other City fleet vehicle collisions.

501.2 REPORTING SITUATIONS

501.3 TRAFFIC COLLISION REPORTING

Traffic collision reports shall be taken when they occur on a roadway or highway within the jurisdiction of this department under any of the following circumstances, unless otherwise provided in this policy:

- When there is a death or injury to any persons involved in the collision.
- When the damaged value is consistent with the State mandated reportable amount.
 - If the damaged value is below the State mandated reportable amount and there is no death, injury or complaint of injury, but the investigating member issues a citation or makes an arrest for an offense connected with the cause of the collision, the member shall take photos of the scene/damaged vehicles and complete the appropriate incident report or citation supplement.
- At the request of another law enforcement agency.
- When there is a death or serious injury and the collision occurred on private property.

Members shall ensure a complete investigation for any impairment from all drivers involved in the collision involving death or serious injury. This may include having a DRE respond to help determine if there is any impairment.

Members shall provide the responsible parties the department incident report number so they can obtain a copy of the collision report and/or give the incident report number to their insurance company.

All traffic collision reports shall be approved by a Supervisor and forwarded to the Records Division.

501.4 REPORTING SITUATIONS

Collisions with No Serious Injury or Death: Whenever a member of this department responds to a reported collision on a public roadway or on private property involving a vehicle owned by the City of Coeur d'Alene, and/or operated by a City employee other than from this Department, a report shall be taken, regardless of damage amount or lack of injury.

The investigating member and on-duty Supervisor shall also ensure the following:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Traffic Collision Reporting

- (a) Photographs of the scene and damage, or lack thereof, shall be taken.
- (b) With the exception of an arrest for a serious offense as outlined in I.C. 49-1405, no citations in connection to the cause(s) of the collision (*i.e. speeding, disregarding a traffic control device, etc.*) shall be issued to any involved citizen or City employee at the time of the investigation so as to avoid any possible conflict of interest, but an incident report shall be completed.
 1.  - (a) When practical, prior to making a physical arrest for a serious offense in connection to the cause of the collision, the investigating member should seek advice from a Supervisor as to whether or not this department should request the Idaho State Police or Kootenai County Sheriff's Department investigate the collision to avoid a possible conflict of interest. It shall be understood that an outside agency may not always be available to respond in a reasonable amount of time to conduct such investigation.
- (c) The Shift Commander shall ensure the involved City employee's Department Head is notified of the collision.
- (d) As soon as practical, the Supervisor approving the report shall ensure a copy is forwarded to the Operations Division Commander or his designee.
- (e) The Operations Division Commander or his designee shall ensure a copy of the report is forwarded to the City Attorney's Office for review as soon as practical.

Collisions involving Serious Injury or Death: Whenever a vehicle owned by the City of Coeur d'Alene, and/or operated by a City employee other than from this department, is involved in a traffic collision upon a roadway or private property within this Department's jurisdiction and results in any serious injury or fatality, the Idaho State Police or Kootenai County Sheriff's Department will be notified and requested to investigate the collision. The on-duty Supervisor shall also ensure the following:

- The Operations Division Commander and the involved City employee's Department Head are notified of the collision as soon as practical.

1. Additionally, regardless if the member was injured or not, the Supervisor receiving notification of injury or complaint of injury from a member shall investigate how the injury may have occurred. If practical, photographs of the injury and/or location of where the injury occurred should be taken. The following steps shall also be taken:
 - (a) The Supervisor shall complete the First Report of Injury and Supervisors Accident Report forms as soon as practical.
 - (b) The Supervisor shall print out both forms upon their completion and have the concerned member review the First Report of Injury form for accuracy as soon as practical.

 - (d) An accurate form shall be dated and signed by the member if they are able to do so within a reasonable amount of time.
 - (e) The Supervisor will forward the original First Report of Injury and Supervisors Accident Report forms to the member's Division Commander.

2. The Supervisor should also forward a brief memorandum or e-mail to the member's Division Commander summarizing how the injury occurred if additional details regarding the injury/incident are warranted.
3. If a member needs to be relieved from duty immediately due to an injury, the member's Division Commander and Chief of Police shall be notified as soon as practical.

Exception to an Outside Agency Investigating a Fleet Collision: An exception to not having the Idaho State Police or Kootenai County Sheriff's Department not investigate all on-duty fleet collisions will be for collisions not meeting the State mandated requirements for a collision report, or if there is not any potential conflict of interest (*i.e. a member backs a patrol vehicle into a stop sign or fire hydrant, hits a street curb, etc.*). In these cases, the on-duty Supervisor shall take photographs and complete a Fleet Damage Report form and forward to the involved members Division Commander as soon as practical.

On Duty Member Responsibilities when involved in a Fleet Collision: A member operating a department vehicle that is involved in a collision is expected to cooperate with the investigating law enforcement agency, but the member retains his constitutional and statutory rights to retain legal counsel should they deem it necessary. If the member so chooses to exercise their constitutional rights and not give a statement to the investigating law enforcement agency, an Administrative Investigation into the cause of the collision may still be initiated at the direction of the Chief of Police or his designee.

- If an on duty member involved in a fleet collision initially informs the Supervisor and the investigating law enforcement agency that they were not injured or did not have any complaints of injury, but later suffer any pain or injury that the member believes to be as a result of the collision, that member shall notify a Supervisor as soon as practical. The Supervisor who receives such notification shall then notify that member's Division Commander and the Human Resources Department of the updated information.

Off Duty Member Involved in a Collision within our Jurisdiction: If a member of this department is off-duty and is involved in a traffic collision within the City limits that results in serious injury or fatality, the Idaho State Police or Kootenai County Sheriff's Department shall be requested to investigate the collision to avoid any potential conflict of interest. The investigating agency will complete the collision investigation and any enforcement of criminal or infraction charges based on their policy and procedure.

501.4.2 TRAFFIC COLLISIONS WITH POLICE AGENCYTYPE EMPLOYEES

Whenever a member operating a vehicle owned/used by this department is involved in a traffic collision upon a roadway or private property and results in any damage, injury, complaint of injury or fatality, the member shall be required to complete a post-collision drug and alcohol test utilizing a facility authorized by the City.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Traffic Collision Reporting

- An exception to this will be for fleet collisions not meeting the State mandated requirements for a collision report involving property damage only, or if there is not any potential conflict of interest (*i.e. a member backs a patrol vehicle into a stop sign or fire hydrant, hits a street curb, etc.*), and if the Supervisor does not have reason to believe the member maybe under the influence of drugs or alcohol.

501.4.3 TRAFFIC COLLISIONS WITH OTHER CITY EMPLOYEES OR OFFICIALS

Traffic collision reports shall not be taken for collisions occurring on private property open to the public unless:

- There is injury or death to any person;

501.4.4 TRAFFIC COLLISIONS ON PRIVATE PROPERTY

Reports that require additional follow up investigation will be forwarded to the Traffic Unit.

502.1 PURPOSE AND SCOPE

The Motor Unit is a specialized motorcycle unit within the Traffic Unit. The primary purpose of the Motor Unit is for uniformed traffic enforcement.

502.1.1 TRAINING

Members assigned to the Motor Unit must have a valid motorcycle endorsement and successfully complete a basic police motorcycle certification course. If any motorcycle, other than the same make and model as the assigned department approved duty motorcycle is used to complete the course, the member must complete a transition class to the appropriate motorcycle before deploying on duty.

Members must successfully complete an annual recertification course in order to operate a motor on duty. Failure to re-certify may result in a temporary or permanent suspension from operating a Motor in an official capacity.

During motorcycle training, members must utilize appropriate protective measures and equipment in order to minimize damage to the motorcycles and themselves.

502.1.2 MAINTENANCE

Members will make no alteration or addition to a motorcycle unless authorized by the Traffic Unit supervisor. Members will keep their motorcycle clean, waxed and full of all necessary fluids. All maintenance will be completed only by a certified motorcycle technician.

Motors will not be taken outside of the City limits except during the course of the members normal duty, or with prior approval of the Traffic Unit supervisor.

Members will either store their assigned motor at the department or in a secure garage at their residence.

Motors will not be operated by any member who has not successfully completed a basic police motorcycle certification course. The only exception will be for those members who have a motorcycle endorsement and are authorized by the Chief or Police or his designee to transport the motor for maintenance, repair or special events.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Motor Unit

502.1.5 PURSUITS

It is generally recommended that motors not be directly involved in a vehicular pursuit due to the increased probability of injury or death. However, due to the dynamic nature of law enforcement and emergency situations, a member may be faced with exigent circumstances and it is determined that it is necessary to take appropriate enforcement action, up to and including being involved in a pursuit. Therefore, a member operating a motor may initiate a pursuit if it falls within the pursuit guidelines governed by Policy Manual §310Pursuits. Whenever possible the motor should follow at a safe distance keeping the suspect vehicle in sight. The motor will yield the pursuit over to a patrol vehicle at the earliest opportunity.

Traffic Safety Vests

503.1 PURPOSE AND SCOPE

In order to reduce the danger to members exposed to the hazards of approaching traffic, high visibility or reflective traffic safety vests shall be provided.

Although intended primarily for traffic-related use, safety vests may be worn at any time increased visibility would improve the safety and/or efficiency of the member.

503.1.1 USE OF TRAFFIC SAFETY VESTS

It is intended that traffic safety vests be worn at any time a member anticipates prolonged exposure to the hazards of approaching traffic created by assignment to duties such as traffic control and traffic collision investigation. Use is required while directing traffic during hours of darkness or when visibility is limited due to inclement weather conditions or when traffic conditions exist that a traffic vest would enhance safety.

Federal Highway requirements mandate the wearing of such traffic safety vests by law enforcement personnel when directing traffic, investigating traffic collisions, handling lane closures, obstructed roadways and disasters within the right of way of a Federal-aid highway, which includes U.S. Highway 95 and Interstate 90 within the jurisdiction of this department.

Use of the traffic safety vests shall also be mandatory whenever a Supervisor directs their use to be appropriate.

A copy of the notice shall also be mailed to any lienholder within 72 hours, excluding weekends and holidays (Idaho Code 49-1803A(3)).

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Towing Policy

violation of state or local laws, or involving the recovery of a stolen vehicle in which the owner is unable to immediately take possession of the vehicle.

504.2.3 REMOVAL OF VEHICLE DISABLED IN A TRAFFIC COLLISION

Vehicles disabled in a traffic collision should be towed from the scene when:

- (a) The vehicle is on a public right of way, cannot be readily moved and is obstructing other vehicle or pedestrian traffic; or
- (b) The operator of the vehicle is injured to the extent that he is unable to provide care or security for the vehicle; or
- (c) The vehicle came to rest on private property, or outside of the public right of way, due to a traffic collision which was initiated on a public right of way AND the owner or operator is unable to immediately provide care or security for the vehicle; or
- (d) The operator abandons the vehicle and flees the scene.

If an owner/operator is on scene, the member should first ask if they have a preference for a towing company. A preferred towing company must be able to respond to the scene within 30 minutes. If there is no preference, or if the preferred towing company cannot respond within the 30 minute time frame, then the City's contracted towing company shall be dispatched.

It shall be the responsibility of the tow truck operator to remove all broken glass and other debris from public right of way at the scene of a collision.

504.2.5 RELEASING RECOVERED STOLEN VEHICLES

When feasible, a recovered stolen vehicle which does not require a hold, shall be released to the owner (*or owner's agent*) without impounding.

Factors to consider in determining the feasibility of releasing a vehicle without impounding include, but are not limited to:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Towing Policy

- The practicability of immediately contacting the owner; AND
- The time required for the owner to arrive at the recovery location; AND
- The owner's willingness to respond the recovery location; AND
- The vehicle does not need to be processed for additional evidence by this department or another law enforcement agency for evidence related to this crime or other criminal activity.

The person receiving the vehicle shall be advised of the necessity for caution if stopped by a law enforcement agency due to the fact that other agencies may not yet be aware this vehicle has been recovered.

504.3 STORAGE FOR INVESTIGATION REASONS

When circumstances require that a vehicle be held for investigation, the member impounding the vehicle shall:

- (a) Caution the tow truck operator if there is danger of destroying evidence;
- (b) If the vehicle is going to be stored at the police department to be searched at a later time after the issuance of a search warrant, the member should secure the vehicle doors, trunk, etc., with evidence tape.
- (c) Whether the vehicle is stored at the police department or another location, a notation on the impound form and in the police report shall be noted so that the Records Division is aware of the hold.

It shall be the responsibility of the assigned investigating member to notify the Records Division and the owner of the vehicle when a hold on a vehicle has been removed.

504.4 STORAGE AT ARREST SCENES

Whenever a person in charge or in control of a vehicle is arrested, it is the policy of this department to provide reasonable safekeeping by storing the arrestee's vehicle subject to the exceptions described below. However, the vehicle shall be stored whenever it is needed for the furtherance of an investigation or prosecution of the case or when the community caretaker doctrine would reasonably suggest that the vehicle should be stored, for example, the vehicle would present a traffic hazard if not removed or due to a high crime area the vehicle would be in jeopardy of theft or damage if left at the scene.

The following are examples of situations where consideration should be given to leaving a vehicle at the scene in lieu of storing, provided the vehicle can be lawfully parked and left in a reasonably secured and safe condition:

- Traffic-related warrant arrest.
- Situations where the vehicle was not used to further the offense for which the driver was arrested.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Towing Policy

- Whenever the vehicle otherwise does not need to be stored and the owner requests that it be left at the scene

In such cases, the handling employee shall note in the report that the owner was informed that the Police Department will not be responsible for theft or damages.

504.5 VEHICLE INVENTORY SEARCHES

All property in a stored or impounded vehicle shall be inventoried and listed on the vehicle storage form. This includes the trunk and any compartments or containers, even if closed and/or locked. Members conducting inventory searches should be as thorough and accurate as practical in preparing an itemized inventory.

These inventory procedures are for the purpose of protecting an owner's property while in police custody, to provide for the safety of members, and to protect this department against fraudulent claims of lost, stolen, or damaged property.

504.6 VEHICLE SEARCHES

Vehicles may be searched when one or more of the following conditions are met:

- (g) Under emergency circumstances not otherwise enumerated above.
- (h) Pursuant to a valid search warrant.

504.6.1 SECURITY OF VEHICLES AND PROPERTY

Unless it would cause an unreasonable delay in the completion of a vehicle impound/storage or create an issue of officer safety, members should make reasonable accommodations to allow retrieval of small items of value or personal need (*i.e. cash, jewelry, cell phone, prescriptions*) which are not considered evidence or contraband.

504.6.2 MOVING NON-CITY VEHICLES

Department vehicles shall not be used to push a stalled vehicle.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Vehicle Towing Policy

Members should also use caution to avoid injury should they choose to assist in moving a stalled vehicle by pushing it with their hands.

Privately owned vehicles should not be driven by a member of this department unless it is necessary to move the vehicle a short distance to eliminate a hazard, prevent the obstruction of a fire hydrant or to comply with posted traffic control signs.

Parked and Abandoned Vehicles

505.1 PURPOSE AND SCOPE

This policy provides procedures for the marking, recording and storage of vehicles (*cars, trucks, motorcycles, trailers and boats*) parked in violation of laws regulating parking of vehicles under Idaho Code 49-659 through 49-662, and abandoned vehicles under the authority of Idaho Code 49-1801, 49-1802 and 49-1804, as well as any applicable City ordinances.

505.1.1 MARKING ABANDONED VEHICLES ON PUBLIC RIGHT OF WAY

Vehicles that authorized personnel have reasonable grounds to believe have been abandoned which do not fall within the class of "emergency circumstances" shall have attached thereto, in plain view, a notice that this vehicle will be towed away at the expiration of forty-eight (48) hours as an abandoned vehicle. The notice shall contain:

- The name of the authorized member who prepared the notice.
- The name of the agency.
- The date and time the notice was attached.
- The date and time when the vehicle will be removed.

A reasonable attempt shall be made to notify by telephone the owner of any vehicle which has current license plates and registration as shown on the vehicle registration record, prior to the expiration of the forty-eight (48) hour notice period, of the location of the vehicle and the time and date of intent to remove the vehicle (Idaho Code 49-1804).

If the vehicle is parked on the street in front of a residence, the member marking the vehicle should also consider contacting the residence to try and notify the owner of the time and date of intent to remove the vehicle.

Members shall update their data base as to the locations, appropriate dates & times of notifications, and dispositions.

505.1.2 ABANDONED VEHICLES ON PRIVATE PROPERTY

Members shall not mark or tow any abandoned vehicles on private property. The only involvement the police department should have in these matters is to check the license plate and vehicle identification number through NCIC to see if the vehicle is stolen or of other interest to law enforcement. Members may advise the person responsible for the private property that they can attempt to identify the owner of the vehicle by contacting the Department of Motor Vehicles and requesting information on how to obtain a title record.

Should the property owner choose to have the vehicle removed, this shall be considered a civil matter between the vehicle owner, property owner and towing company.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Parked and Abandoned Vehicles

The only exception to the police department being required to tow abandoned vehicles from private property is if ordered by the Court or by direction of the City Council.

At the time of removal, the member shall record the mileage of the vehicle. Members shall not remove the ignition keys, vehicle registration or other property from the vehicle unless they are to be booked as evidence.

An impound form shall be submitted to the Records Division immediately following the storage of the vehicle.

Within 48 hours of the storage of any such vehicle, excluding weekends and holidays, it shall be the responsibility of the Records Division to determine the names and addresses of any individuals having an interest in the vehicle through ITD or ILETTS computers. Notice to all such individuals shall be sent by certified mail within the 48-hour time period listed above (Idaho Code 49-1805(2)).

505.1.4 AUTHORIZED MEMBERS

Vehicle Impound Hearings

506.1 PURPOSE AND SCOPE

This policy establishes a procedure for the requirement to provide vehicle storage or impound hearings pursuant to Idaho Code 49-1805.

506.2 STORED OR IMPOUND HEARING

When a vehicle is stored or impounded by any member of the Coeur d'Alene Police Department, a hearing will be conducted upon the request of the registered or legal owner of the vehicle or their agent (Idaho Code 49-1805).

506.2.1 HEARING PROCEDURES

The vehicle storage hearing is an informal process to evaluate the validity of a stored or impounded vehicle. Any relevant evidence may be submitted and reviewed by the hearing officer to determine if the vehicle in question was lawfully stored or impounded, in accordance with Coeur d'Alene Police Department policies and procedures. The employee who caused the storage or removal of the vehicle does not need to be present for this hearing.

A notice of the storage shall be sent by certified mail to the registered and legal owners within forty-eight (48) hours, excluding the weekends and holidays, and shall include the following information:

- (a) The name, address, and telephone number of the agency providing the notice.
- (b) The location of the place of storage and description of the vehicle which shall include, if available, the name or make, identification number, the license plate number, and the mileage.
- (c) The authority and purpose for the removal of the vehicle.
- (d) In order to receive a post-storage hearing, the owners, or their agents, must request the hearing in writing within ten (10) days of the date of the notice. Any such hearing shall be conducted within forty-eight (48) hours of the request, excluding weekends and holidays. The public agency may authorize its own officer or employee to conduct the hearing, so long as the hearing officer is not the same person.

The person requesting the hearing may record the hearing at his/her own expense. The vehicle storage/impound hearing officer shall consider all information provided and determine the validity of the storage or impound of the vehicle in question and then render a decision.

A decision that the vehicle was not stored or impounded in a lawful manner or within the policy of this department will require that the vehicle in storage be released immediately. Towing and storage fees will be paid at this department's expense (Idaho Code 49-1805(d)(5)).

If a decision is made that the vehicle was not stored or impounded in a lawful manner or in compliance with the policy of this department, and the vehicle has been released with fees having been paid, the receipt for such fees will be forwarded with a letter to the appropriate Division Commander. The hearing officer will recommend to the appropriate Division Commander that the

fees paid by the registered or legal owner of the vehicle in question or their agent be reimbursed by this department.

Disabled Vehicles

507.1 PURPOSE AND SCOPE

The department has a responsibility to provide assistance to disabled motorists within their primary jurisdiction.

507.1.1 MEMBER RESPONSIBILITY

When an on-duty member observes a disabled vehicle on the roadway, the member should make a reasonable effort to provide assistance. If that member is assigned to a call of higher priority, Central should be advised of the location of the disabled vehicle and the need for assistance. Central should then assign another available member to respond for assistance as soon as practical.

507.1.2 EXTENT OF ASSISTANCE

In most cases, a disabled motorist will require assistance. After arrangements for assistance are made, continued involvement by members from this department will be contingent on the time of day, the location, the resources availability to this department, and the vulnerability of the disabled motorist.

Pursuant to Policy Manual §510.6.2 Vehicle Towing, department vehicles shall not be used to push a stalled vehicle.

507.1.3 MECHANICAL REPAIRS

Members shall not make mechanical repairs to a disabled vehicle.

Impaired Driving

508.1 PURPOSE AND SCOPE

This policy provides guidance to those department members who play a role in the detection and investigation of driving under the influence (DUI).

508.2 POLICY

The Coeur d'Alene Police Department is committed to the safety of the roadways and the community and will pursue fair but aggressive enforcement of Idaho's impaired driving laws.

508.3 INVESTIGATIONS

Officers should not enforce DUI laws to the exclusion of their other duties unless specifically assigned to DUI enforcement. All officers are expected to enforce these laws with due diligence.

The Standardized Field Sobriety Test (SFST) Instructor or Drug Recognition Expert (DRE) will develop and maintain, in consultation with the prosecuting attorney, report forms with appropriate checklists to assist investigating officers in documenting relevant information and maximizing efficiency. Any DUI investigation will be documented using these forms. Information documented elsewhere on the form does not need to be duplicated in the report narrative. Information that should be documented includes, at a minimum:

- (a) The field sobriety tests (FSTs) administered and the results.
- (b) The officer's observations that indicate impairment on the part of the individual, and the officer's health-related inquiries that may help to identify any serious health concerns (e.g., diabetic shock).
- (c) Sources of additional information (e.g., reporting party, witnesses) and their observations.
- (d) Information about any audio and/or video recording of the individual's driving or subsequent actions.
- (e) The location and time frame of the individual's vehicle operation and how this was determined.
- (f) Any prior related convictions in Idaho or another jurisdiction.

508.4 FIELD TESTS

The SFST Instructor or DRE should identify standardized FSTs and any approved alternate tests for officers to use when investigating violations of DUI laws.

508.5 CHEMICAL TESTS

A person implies consent under Idaho law to a chemical test or tests, and to providing the associated chemical sample, under any of the following (Idaho Code 18-8002):

- (a) The arresting officer has reasonable grounds to believe that the person was driving or in actual physical control of a motor vehicle, including a commercial motor vehicle, when any of the following exist:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Impaired Driving

1. While under the influence of alcohol, drugs and/or any other intoxicating substances.
 2. While under the influence of any combination of alcohol, drugs and/or any other intoxicating substances.
 3. With a prohibited alcohol concentration (Idaho Code 18-8004).
- (b) The arresting officer has reasonable grounds to believe the person was driving or in actual physical control of a vehicle which resulted in great bodily harm, permanent disability or disfigurement to any other person (Idaho Code 18-8006).

If a person withdraws this implied consent, or is unable to withdraw consent (e.g., the person is unconscious), the officer should consider implied consent revoked and proceed as though the person has refused to provide a chemical sample (e.g., obtain a warrant).

508.5.1 BREATH SAMPLES

The Breath Testing Specialist should ensure that all devices used for the collection and analysis of breath samples are properly serviced and tested, and that a record of such service and testing is properly maintained.

If the person submits to a breath test and the officer has reasonable cause to believe that the person was driving under the influence of drugs or the combined influence of alcohol and drugs, the officer should request a second test of the person's blood or urine. If a second test is requested, the officer shall include the facts supporting the belief in the arrest report (Idaho Code 18-8002(10)).

Officers obtaining a breath sample should monitor the device for any sign of malfunction. Any anomalies or equipment failures should be noted in the appropriate report and promptly reported to the Breath Testing Specialist.

508.5.2 BLOOD SAMPLES

Only persons authorized by law to draw blood shall collect blood samples (Idaho Code 18-8003). The blood draw should be witnessed by the assigned officer.

Officers should inform an arrestee that if he/she chooses to provide a blood sample, a separate sample can be collected for alternate testing. Unless medical personnel object, two samples should be collected and retained as evidence.

The blood sample shall be packaged, marked, handled, stored and transported as required by the testing facility.

If an arrestee cannot submit to a blood draw because he/she has a bleeding disorder or has taken medication that inhibits coagulation, he/she shall not be required to take a blood test. Such inability to take a blood test should not be considered a refusal. However, that arrestee may be required to complete another available and viable test.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Impaired Driving

508.5.3 STATUTORY NOTIFICATIONS

At the time testing is requested, the person shall be informed that if he/she refuses to submit to or fails to complete a test as required, he/she will be subject to civil penalties, and driver's license suspension, mandatory installation of a state-approved ignition interlock system at his/her expense for one year following the end of the suspension period, the right to request a hearing to show cause why he/she refused to submit or complete testing, and after submitting to evidentiary testing, he/she may, when practicable and at their own expense, have additional tests made by a person of his/her choosing as described in Idaho Code 18-8002(3) and Idaho Code 18-8002A(2).

Phlebotomy

509.1 PURPOSE AND SCOPE

This policy establishes the protocols for the performance of those trained in law enforcement phlebotomy (hereafter referred to as phlebotomists) to insure that a uniform approach is utilized in the execution of all blood draws.

509.2 QUALIFICATIONS

Only those employees trained through a department-approved phlebotomy program may draw blood for law enforcement purposes: qualified medical personnel can be used to draw blood when a qualified department employee is not available for the blood draw.

509.3 CERTIFICATIONS

Members must complete a qualified phlebotomy training program. Phlebotomists must adhere to an annual process as designated by the phlebotomy coordinator.

The process will include:

- Drawing 24 blood samples per calendar year.
- Attending biennial refresher training. This training will include but not be limited to eight (8) hours of instruction in a classroom or clinical setting. The training should include a venipuncture proficiency and written examination.

509.4 STANDARD PROCEDURES

Law Enforcement Phlebotomists shall document all blood draws conducted for enforcement related blood draws. A written record of training blood draws and other types of blood draws shall be maintained.

(a) A Phlebotomy Draw Report will be completed for each blood draw from a subject. Each report shall include:

- Physical location of the blood draw (i.e., specific location in the police facility, hospital, etc.).
- Whether the blood draw was by consent, warrant or non-consent (refusal).
- Whether the subject resisted and methods used to overcome such resistance (i.e. restraint chair, held down, etc.).
- Whether the subject has any communicable, contagious or infectious diseases. Whether the subject has allergies. Communicable, contagious or infectious diseases will be noted on the state laboratory submittal form as well as the phlebotomy report.

(b) Distribution of Phlebotomy Draw Reports:

- The phlebotomist should ensure that a copy of the Phlebotomy Draw Report is included with the report related to the investigation.
- A copy of the Phlebotomy Draw Report should be retained by the phlebotomist.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Phlebotomy

- An additional copy of the report shall be forwarded to the agency phlebotomy coordinator for review.

(c) A phlebotomist can draw blood on a suspect they have personally arrested for DUI and related offenses. If the officer/phlebotomist feels it would be in the best interest of the case to have a different phlebotomist draw the blood, one should be called.

(d) Essential Tasks:

- The phlebotomist shall notify a supervisor whenever a draw is involuntary and/or force may be used. The supervisor, when it is anticipated that force will be used, shall be present for the draw.
- All members of this department shall use/activate their body worn cameras during phlebotomy draws on a suspect.
- The phlebotomist shall advise the subject of their qualifications and the number of tubes of blood that will be extracted. The phlebotomist should also explain that the second tube of blood is collected for the subject to test should they choose to.
- The phlebotomist shall inquire if blood thinners (i.e. Coumadin) or any other medications have been taken by the subject.
- Protective gloves and face shield or protective glasses shall be worn by the phlebotomist during the blood draw. Other equipment is optional, such as a lab coat, etc.
- Phlebotomists should use the standard blood collection kit, obtained from the Idaho State Police Forensics Services Laboratories (ISPFS). Phlebotomists may use additional equipment as necessary to obtain evidentiary samples. Phlebotomists shall only use equipment they have been trained with.
- An antiseptic conforming to the Clinical Laboratory Standards Institute (CLSI) shall be used to clean the blood draw site prior to obtaining a sample.
- If the first attempt at a blood draw is unsuccessful, an alternative site will be chosen if a second draw is necessary.
 - A phlebotomists will not exceed two attempts at a successful draw on any subject.
 - If the second attempt is not successful, another phlebotomist will be used, who is subject to the same number of attempts.
- The phlebotomist will ensure that a puncture site has clotted before placing a dressing over it. The fire department or paramedics will be contacted for assistance if complications occur.
- Used needles and hubs will be disposed in a biohazard sharps disposal container and shall not be separated prior to disposal.
- The phlebotomist shall label and package the blood by filling out all labels provided with the kit. The evidence kit will be retained in the phlebotomist's possession until it can be booked into evidence or turned over to the arresting or case officer.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Phlebotomy

- Blood evidence shall be refrigerated as soon as possible.

509.4.1 INVOLUNTARY DRAW PROCEDURES

If a driver suspected of DUI refuses the offered chemical test, after being given the opportunity to take the required chemical test, a search warrant is required unless exigent circumstances exist and a blood draw will occur using reasonable force. In the event that an evidentiary blood sample is needed from a physically combative, non-compliant, or physically incapable driver, officers may use reasonable force to obtain the sample.

Reasonable force shall be evaluated on the following criteria:

- (a) The driver has stated or displayed active resistance or non-compliance after being advised that a sample is needed.
- (b) The amount of force used to protect all parties is necessary to restrain the driver in order to obtain the blood sample.
- (c) Physical contact shall be limited. An officer should not place him/herself, the person doing the blood draw, or the driver in a position where they may be injured while the blood sample is being drawn.

Physical contact:

- (a) The decision to engage in physical contact with a suspect should be based upon officer to suspect size disparity, reaction times, environmental conditions and the totality of the circumstances of the incident.
- (b) When an officer feels that physical contact with a suspect will increase the likelihood of injury to those involved, the blood draw should not be attempted. Suppression of the sample by the court may result if it is determined that the force used to obtain the sample was excessive or physically abusive.

509.5 EQUIPMENT

All phlebotomy equipment must be approved by the phlebotomy coordinator. Appropriate medical supplies may be obtained from a hospital or paramedics in emergencies.

The phlebotomy room will be equipped with a phlebotomy chair, protective gloves, cotton balls, gauze, tape, self adherent wrap, disinfectant, medical protective glasses, and blood kits.

Blood spills will be cleaned according to OSHA training and procedures.

509.6 PHLEBOTOMY COORDINATOR

The Phlebotomy Program Coordinator will be designated by the Chief of Police. The program coordinator should be a qualified phlebotomist or be familiar with the protocols and training as defined in these standards.

The Coeur d'Alene Police Phlebotomy Coordinator is responsible for:

- (a) Securing equipment, maintaining call-outs, and maintaining the phlebotomy room.

Chapter 6 - Investigation Operations

Investigation and Prosecution

600.1 PURPOSE AND SCOPE

When assigned to a case for initial or follow-up investigation, members shall proceed with due diligence in evaluating and preparing the case for appropriate clearance or presentation to a prosecutor for filing of criminal charges.

600.2 POTENTIALLY EXCULPATORY EVIDENCE OR FACTS

Members must include in their reports adequate reference to all material evidence and facts which are reasonably believed to be exculpatory to any individual in the case. If a member learns of potentially exculpatory information anytime after submission of the case, the member must notify the prosecutor as soon as practical.

Evidence or facts are considered material if there is a reasonable probability that they may impact the result of a criminal proceeding or trial. Determining whether evidence or facts are material often requires legal or even judicial review. A member who is uncertain whether evidence or facts are material should address the issue with a supervisor.

Supervisors uncertain about the materiality of evidence or facts should address the issue in a written memo to an appropriate prosecutor. A copy of the memo should be retained in the department case file.

600.3 CUSTODIAL INTERROGATION REQUIREMENTS

Any custodial interrogation of a person who is suspected of having committed any violent felony offense should be electronically recorded whenever practical and/or available (*audio and/or video*) in its entirety. Regardless of where the interrogation occurs, every reasonable effort should be made to secure functional recording equipment to accomplish such recordings.

Members should also consider electronically recording a custodial interrogation, or any investigative interview, for any other offense when the member reasonably believes it would be appropriate and beneficial to the investigation and is otherwise allowed by law.

No recording of an interrogation should be destroyed or altered without written authorization from the Prosecuting Attorney. Copies of recorded interrogations or interviews may be made in the same or different format provided they are true, accurate and complete copies and are made only for authorized and legitimate law enforcement purposes.

Members should continue to prepare written summaries of custodial questioning and investigative interviews and continue to obtain written statements from suspects when applicable.

Per Idaho Code 16-1618, all investigative interviews of alleged victims of child abuse should be documented by audio or video recording.

600.4 INITIAL INVESTIGATION

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Investigation and Prosecution

600.4.1 OFFICER RESPONSIBILITIES

An officer responsible for an initial investigation shall complete no less than the following:

- (a) Make a preliminary determination of whether a crime has been committed by completing, at a minimum:

 - 2. Determine if additional investigative resources (e.g., investigators or scene processing) are necessary and request assistance as required.
 - 3. If assistance is warranted, or if the incident is not routine, notify a supervisor or the Shift Commander.
 - 4. Make reasonable attempts to locate, identify and interview all available victims, complainants, witnesses and suspects.
 - 5. Collect any evidence.
 - 6. Take any appropriate law enforcement action.
 - 7. Complete and submit the appropriate reports and documentation.
- (c) If the preliminary determination is that no crime occurred, determine what other action may be necessary, what other resources may be available, and advise the informant or complainant of this information.

600.5 CUSTODIAL INTERROGATION REQUIREMENTS

Suspects who are in custody and subjected to an interrogation shall be given the *Miranda* warning, unless an exception applies. Interview or interrogation of a juvenile shall be in accordance with the Temporary Custody of Juveniles Policy.

600.5.1 AUDIO/VIDEO RECORDINGS

Any custodial interrogation of an individual who is suspected of having committed any violent felony offense should be recorded (audio or video with audio as available) in its entirety. Regardless of where the interrogation occurs, every reasonable effort should be made to secure functional recording equipment to accomplish such recordings. Consideration should also be given to recording a custodial interrogation, or any investigative interview, for any other offense when it is reasonable to believe it would be appropriate and beneficial to the investigation and is otherwise allowed by law.

No recording of a custodial interrogation should be destroyed or altered without written authorization from the prosecuting attorney and the Investigation Section supervisor. Copies of recorded interrogations or interviews may be made in the same or a different format as the original

Investigation and Prosecution

recording, provided the copies are true, accurate and complete and are made only for authorized and legitimate law enforcement purposes.

Recordings should not take the place of a thorough report and investigative interviews. Written statements from suspects should continue to be obtained when applicable.

600.6 DISCONTINUATION OF INVESTIGATIONS

The investigation of a criminal case or efforts to seek prosecution should only be discontinued if one of the following applies:

- (a) All reasonable investigative efforts have been exhausted, no reasonable belief that the person who committed the crime can be identified, and the incident has been documented appropriately.
- (b) The perpetrator of a misdemeanor has been identified and a warning is the most appropriate disposition.
 - 1. In these cases, the investigator shall document that the person was warned and why prosecution was not sought.
 - 2. Warnings shall not be given for felony offenses or other offenses identified in this policy or by law that require an arrest or submission of a case to a prosecutor.
- (c) The case has been submitted to the appropriate prosecutor but no charges have been filed. Further investigation is not reasonable nor has the prosecutor requested further investigation.
- (d) The case has been submitted to the appropriate prosecutor, charges have been filed, and further investigation is not reasonable, warranted or requested, and there is no need to take the suspect into custody.
- (e) Suspects have been arrested, there are no other suspects, and further investigation is either not warranted or requested.
- (f) Investigation has proven that a crime was not committed.

The Domestic Violence, Child Abuse, Sexual Assault Investigations and Adult Abuse policies may also require an arrest or submittal of a case to a prosecutor.

600.7 COMPUTERS AND DIGITAL EVIDENCE

The collection, preservation, transportation and storage of computers, cell phones and other digital devices may require specialized handling to preserve the value of the related evidence. If it is anticipated that computers or similar equipment will be seized, officers should request that computer forensic examiners assist with seizing computers and related evidence. If a forensic examiner is unavailable, officers should take reasonable steps to prepare for such seizure and use the resources that are available.

600.8 INVESTIGATIVE USE OF SOCIAL MEDIA AND INTERNET SOURCES

Use of social media and any other Internet source to access information for the purpose of criminal investigation shall comply with applicable laws and policies regarding privacy, civil rights and civil liberties. Information gathered via the Internet should only be accessed by members while

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Investigation and Prosecution

on-duty and for purposes related to the mission of this department. If a member encounters information relevant to a criminal investigation while off-duty or while using his/her own equipment, the member should note the dates, times and locations of the information and report the discovery to his/her supervisor as soon as practicable. The member, or others who have been assigned to do so, should attempt to replicate the finding when on-duty and using department equipment.

Information obtained via the Internet should not be archived or stored in any manner other than department-established record keeping systems.

600.8.1 ACCESS RESTRICTIONS

Information that can be accessed from any department computer, without the need of an account, password, email address, alias or other identifier (unrestricted websites), may be accessed and used for legitimate investigative purposes without supervisory approval.

Accessing information from any Internet source that requires the use or creation of an account, password, email address, alias or other identifier, or the use of nongovernment IP addresses, requires supervisor approval prior to access. The supervisor will review the justification for accessing the information and consult with legal counsel as necessary to identify any policy or legal restrictions. Any such access and the supervisor approval shall be documented in the related investigative report.

Accessing information that requires the use of a third party's account or online identifier requires supervisor approval and the consent of the third party. The consent must be voluntary and shall be documented in the related investigative report.

Information gathered from any Internet source should be evaluated for its validity, authenticity, accuracy and reliability. Corroborative evidence should be sought and documented in the related investigative report.

Any information collected in furtherance of an investigation through an Internet source should be documented in the related report. Documentation should include the source of information and the dates and times that the information was gathered.

600.8.2 INTERCEPTING ELECTRONIC COMMUNICATION

Intercepting social media communications in real time may be subject to federal and state wiretap laws. Officers should seek legal counsel before any such interception.

600.9 MODIFICATION OF CHARGES FILED

Members are not authorized to recommend to the prosecutor or to any other official of the court that charges on a pending case be amended or dismissed without the authorization of a Division Commander or the Chief of Police. Any authorized request to modify the charges or to recommend dismissal of charges shall be made to the prosecutor.

Eyewitness Identification

606.1 PURPOSE AND SCOPE

This policy sets forth guidelines to be used when members of this department employ eyewitness identification techniques.

606.1.1 DEFINITIONS

Definitions related to the policy include:

Eyewitness identification process - Any field identification or photographic identification.

Field identification - A live presentation of a single individual to a witness following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect.

Photographic lineup - Presentation of photographs to a witness for the purpose of identifying or eliminating an individual as the suspect.

606.2 POLICY

The Department will strive to use eyewitness identification techniques, when appropriate, to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent.

606.3 INTERPRETIVE SERVICES

Members should make a reasonable effort to arrange for an interpreter before proceeding with eyewitness identification if communication with a witness is impeded due to language or hearing barriers.

Before the interpreter is permitted to discuss any matter with the witness, the investigating member should explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this policy.

606.4 EYEWITNESS IDENTIFICATION PROCESS AND FORM

The Investigations Division supervisor shall be responsible for the development and maintenance of an eyewitness identification process for use by members when they are conducting eyewitness identifications.

The process should include appropriate forms or reports that provide:

- (a) The date, time and location of the eyewitness identification procedure.
- (b) The name and identifying information of the witness.
- (c) The name of the person administering the identification procedure.
- (d) If applicable, the names of all of the individuals present during the identification procedure.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Eyewitness Identification

- (e) An instruction to the witness that it is as important to exclude innocent persons as it is to identify a perpetrator.
- (f) An instruction to the witness that the perpetrator may or may not be among those presented and that the witness is not obligated to make an identification.
- (g) If the identification process is a photographic lineup, an instruction to the witness that the perpetrator may not appear exactly as he/she did on the date of the incident.
- (h) An instruction to the witness that the investigation will continue regardless of whether an identification is made by the witness.
- (i) A signature line where the witness acknowledges that he/she understands the identification procedures and instructions.

The process and related forms should be reviewed at least annually and modified when necessary.

606.5 EYEWITNESS IDENTIFICATION

Members are cautioned not to, in any way, influence a witness as to whether any subject or photo presented in a lineup is in any way connected to the case. Members should avoid mentioning that:

- The individual was apprehended near the crime scene.
- The evidence points to the individual as the suspect.
- Other witnesses have identified or failed to identify the individual as the suspect.

In order to avoid undue influence, witnesses should view suspects or a lineup individually and outside the presence of other witnesses. Witnesses should be instructed to avoid discussing details of the incident or of the identification process with other witnesses.

Whenever feasible, the eyewitness identification procedure should be audio and/or video recorded and the recording should be retained according to current evidence procedures.

606.6 DOCUMENTATION

A thorough description of the eyewitness process and the results of any eyewitness identification should be documented in the case report.

If a photographic lineup is utilized, a copy of the photographic lineup presented to the witness should be included in the case report. In addition, the order in which the photographs were presented to the witness should be documented in the case report.

606.7 PHOTOGRAPHIC LINEUP CONSIDERATIONS

When practicable, the member presenting the lineup should not be involved in the investigation of the case or know the identity of the suspect. In no case should the member presenting a lineup to a witness know which photograph or person in the lineup is being viewed by the witness. Techniques to achieve this include randomly numbering photographs, shuffling folders or using a computer program to order the persons in the lineup.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Eyewitness Identification

Individuals in the lineup should reasonably match the description of the perpetrator provided by the witness and should bear similar characteristics to avoid causing any person to unreasonably stand out. In cases involving multiple suspects, a separate lineup should be conducted for each suspect. The suspects should be placed in a different order within each lineup.

The member presenting the lineup to a witness should do so sequentially (i.e., show the witness one person at a time) and not simultaneously. The witness should view all persons in the lineup.

606.8 FIELD IDENTIFICATION CONSIDERATIONS

Field identifications, also known as field elimination show-ups or one-on-one identifications, may be helpful in certain cases, where exigent circumstances make it impracticable to conduct a photo lineup identification. A field elimination show-up or one-on-one identification should not be used when independent probable cause exists to arrest a suspect. In such cases a photo lineup is the preferred course of action if eyewitness identification is contemplated.

When initiating a field identification, the member should observe the following guidelines:

- (a) Obtain a complete description of the suspect from the witness.
- (b) Assess whether a witness should be included in a field identification process by considering:
 - 1. The length of time the witness observed the suspect.
 - 2. The distance between the witness and the suspect.
 - 3. Whether the witness could view the suspect's face.
 - 4. The quality of the lighting when the suspect was observed by the witness.
 - 5. Whether there were distracting noises or activity during the observation.
 - 6. Any other circumstances affecting the witness's opportunity to observe the suspect.
 - 7. The length of time that has elapsed since the witness observed the suspect.
- (c) If safe and practicable, the person who is the subject of the show-up should not be handcuffed or in a patrol vehicle.
- (d) When feasible, members should bring the witness to the location of the subject of the show-up, rather than bring the subject of the show-up to the witness.
- (e) The person who is the subject of the show-up should not be shown to the same witness more than once.
- (f) In cases involving multiple suspects, witnesses should only be permitted to view the subjects of the show-up one at a time.
- (g) The person who is the subject of the show-up should not be required to put on clothing worn by the suspect, to speak words uttered by the suspect or to perform other actions mimicking those of the suspect.

Members should not allow a witness to view a booking photograph or drivers license photograph obtained via an MDC or other department computer to identify or eliminate a suspect unless

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Eyewitness Identification

exigent circumstances otherwise dictate. If it is deemed necessary to try and obtain an eyewitness identification by showing a photograph via an MDC, the member shall document why a photographic lineup or field identification was not used.

Juvenile Investigations

607.1 PURPOSE AND SCOPE

A goal of the department is to reduce crime and delinquency among youths and to provide a safe and secure atmosphere at schools. A School Resource Officer (SRO) program has been established to assist with this goal.

607.1.1 FUNCTION

In collaboration with the local school district, community and other agencies, the department will identify concerns and implement solutions through pro-active community based programs and juvenile crime prevention techniques.

607.1.2 SCHOOL RESOURCE OFFICER MEMBERS

School Resource Officers are comprised of experienced sworn members who are training in crime prevention, public speaking, community policing, and community juvenile programs. These members work out of offices located in select schools within our jurisdiction to provide a proactive strategy to crime prevention, prevention of juvenile victimization, and to provide a secure and orderly learning environment for students, teachers and staff.

The SRO functions are, but not limited to:

- Investigating juvenile crimes.
- Counseling students.
- Counseling parents.
- Liaison between the school district and law enforcement.
- Guest speaker/teacher.
- Developing a positive rapport with students.

Unmanned Aerial System (UAS) Operations

608.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the use of an unmanned aerial system (UAS) and for the storage, retrieval and dissemination of images and data captured by the UAS.

608.1.1 DEFINITIONS

Definitions related to this policy include:

Unmanned aerial system (UAS) - An unmanned aircraft of any type that is capable of sustaining directed flight, whether preprogrammed or remotely controlled (commonly referred to as an unmanned aerial vehicle (UAV)), and all of the supporting or attached systems designed for gathering information through imaging, recording or any other means. For purposes of this policy, a UAS includes a drone and remotely piloted vehicle or aircraft as provided in Idaho Code 21-213.

608.2 POLICY

A UAS may be utilized to enhance the department's mission of protecting lives and property when other means and resources are not available or are less effective. Any use of a UAS will be in strict accordance with constitutional and privacy rights and Federal Aviation Administration (FAA) regulations.

608.3 PRIVACY

The use of the UAS potentially involves privacy considerations. Absent a warrant or exigent circumstances, operators and observers shall not intentionally record or transmit images of any location where a person would have a reasonable expectation of privacy (e.g., residence, yard, enclosure). Operators and observers shall take reasonable precautions to avoid inadvertently recording or transmitting images of areas where there is a reasonable expectation of privacy. Reasonable precautions can include, for example, deactivating or turning imaging devices away from such areas or persons during UAS operations.

608.4 PROGRAM COORDINATOR

The Chief of Police will appoint a program coordinator who will be responsible for the management of the UAS program. The program coordinator will ensure that policies and procedures conform to current laws, regulations, and best practices and will have the following additional responsibilities:

- Ensuring that all authorized operators and required observers have completed all required FAA and department-approved training in the operation, applicable laws, policies, and procedures regarding use of the UAS.
- Developing uniform protocol for submission and evaluation of requests to deploy a UAS, including urgent requests made during ongoing or emerging incidents. Deployment of a UAS shall require written authorization of the Chief of Police or the authorized designee, depending on the type of mission.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Unmanned Aerial System (UAS) Operations

- Coordinating the completion of the FAA Emergency Operation Request Form in emergency situations, as applicable (e.g., natural disasters, search and rescue, emergency situations to safeguard human life).
- Developing protocols for conducting criminal investigations involving a UAS, including documentation of time spent monitoring a subject.
- Implementing a system for public notification of UAS deployment.
- Developing operational protocols governing the deployment and operation of a UAS including but not limited to safety oversight, use of visual observers, establishment of lost link procedures, and secure communication with air traffic control facilities.
- Developing a protocol for fully documenting all missions.
- Developing a UAS inspection, maintenance, and record-keeping protocol to ensure continuing airworthiness of a UAS, up to and including its overhaul or life limits.
- Developing protocols to ensure that all data intended to be used as evidence are accessed, maintained, stored, and retrieved in a manner that ensures its integrity as evidence, including strict adherence to chain of custody requirements. Electronic trails, including encryption, authenticity certificates, and date and time stamping, shall be used as appropriate to preserve individual rights and to ensure the authenticity and maintenance of a secure evidentiary chain of custody.
- Developing protocols that ensure retention and purge periods are maintained in accordance with established records retention schedules.
- Facilitating law enforcement access to images and data captured by the UAS.
- Recommending program enhancements, particularly regarding safety and information security.
- Ensuring that established protocols are followed by monitoring and providing periodic reports on the program to the Chief of Police.
- Coordinating training for all authorized operators and required observers on the limitations of UAS use contained in Idaho Code 21-213.
- Maintaining familiarity with FAA regulatory standards, state laws and regulations, and local ordinances regarding the operations of a UAS.

608.5 USE OF UAS

Only authorized operators who have completed the required training shall be permitted to operate the UAS.

Use of vision enhancement technology (e.g., thermal and other imaging equipment not generally available to the public) is permissible in viewing areas only where there is no protectable privacy interest or when in compliance with a search warrant or court order. In all other instances, legal counsel should be consulted.

UAS operations should only be conducted consistent with FAA regulations.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Unmanned Aerial System (UAS) Operations

Operators shall not surveil, photograph, or record targeted people or specific privately owned land, commercial or industrial properties, residences, or any other privately-owned buildings without the written consent of the owner or a warrant. Operators may use a UAS for the following purposes so long as a person's reasonable expectation of privacy is not violated (Idaho Code 21-213):

- (a) Traffic accident documentation or reconstruction
- (b) Crowd or traffic management of an event by monitoring public streets and intersections leading to and from a sports or entertainment arena, fairgrounds, stadium, convention hall, special event center, amusement facility, outdoor concert venue, plaza, or special event area
- (c) Assessing damage due from a natural disaster or fire
- (d) For training, so long as the operation does not otherwise violate this policy or privacy rights
- (e) To assist in search and rescue operations
- (f) Investigating crime scenes
- (g) Temporary use to respond to emergencies involving an imminent threat to lives or property
- (h) Responding to an emergency affecting public safety

608.6 PROHIBITED USE

The UAS shall not be weaponized.

608.7 RETENTION OF UAS DATA

Data collected by the UAS shall be retained as provided in the established records retention schedule.

Sexual Assault Investigations

609.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the investigation of sexual assaults. These guidelines will address some of the unique aspects of such cases and the effects that these crimes have on the victims.

Mandatory notifications requirements are addressed in the Child Abuse and Adult Abuse policies.

609.1.1 DEFINITIONS

Definitions related to this policy include:

Sexual assault - Any crime or attempted crime of a sexual nature, to include but not limited to offenses defined in Idaho Code 18-6101 et seq.; Idaho Code 18-6604; and sexual offenses in Title 18, Chapter 15 of the Idaho Code.

Sexual Assault Response Team (SART) - A multidisciplinary team generally comprised of advocates; law enforcement officers; forensic medical examiners, including sexual assault forensic examiners (SAFEs) or sexual assault nurse examiners (SANEs) if possible; forensic laboratory personnel; and prosecutors. The team is designed to coordinate a broad response to sexual assault victims.

609.2 POLICY

It is the policy of the Coeur d'Alene Police Department that its members, when responding to reports of sexual assaults, will strive to minimize the trauma experienced by the victims, and will aggressively investigate sexual assaults, pursue expeditious apprehension and conviction of perpetrators, and protect the safety of the victims and the community.

609.3 QUALIFIED INVESTIGATORS

Qualified investigators should be available for assignment of sexual assault investigations. These investigators should:

- (a) Have specialized training in, and be familiar with, interview techniques and the medical and legal issues that are specific to sexual assault investigations.
- (b) Conduct follow-up interviews and investigation.
- (c) Present appropriate cases of alleged sexual assault to the prosecutor for review.
- (d) Coordinate with other enforcement agencies, social service agencies, and medical personnel as needed.
- (e) Provide referrals to therapy services, victim advocates, and support for the victim.
- (f) Participate in or coordinate with the SART.
- (g) Ensure reports of sexual assault are provided to the Records Supervisor for timely filing to the appropriate prosecuting attorney (Idaho Code 39-6316). See the Records Section Policy for additional guidance.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Sexual Assault Investigations

609.3.1 VICTIM TRANSPORTATION

Officers shall make every effort to facilitate transportation of a victim to a hospital for treatment of injuries or to a place of safety or shelter (Idaho Code 39-6316).

609.4 REPORTING

In all reported or suspected cases of sexual assault, a report should be written and assigned for follow-up investigation. This includes incidents in which the allegations appear unfounded or unsubstantiated.

609.5 RELEASING INFORMATION TO THE PUBLIC

In cases where the perpetrator is not known to the victim, and especially if there are multiple crimes where more than one appear to be related, consideration should be given to releasing information to the public whenever there is a reasonable likelihood that doing so may result in developing helpful investigative leads. A detectives supervisor should weigh the risk of alerting the suspect to the investigation with the need to protect the victim and the public, and to prevent more crimes.

609.6 TRAINING

Subject to available resources, periodic training should be provided to:

- (a) Members who are first responders. Training should include:
 1. Initial response to sexual assaults.
 2. Legal issues.
 3. Victim advocacy.
 4. Victim's response to trauma.
- (b) Qualified investigators, who should receive advanced training on additional topics. Advanced training should include:
 1. Interviewing sexual assault victims.
 2. SART.
 3. Medical and legal aspects of sexual assault investigations.
 4. Serial crimes investigations.
 5. Use of community and other federal and state investigative resources, such as the Violent Criminal Apprehension Program (ViCAP).
 6. Techniques for communicating with victims to minimize trauma.

609.7 VICTIM INTERVIEWS

The primary considerations in sexual assault investigations, which begin with the initial call to Central Dispatch, should be the health and safety of the victim, the preservation of evidence, and preliminary interviews to determine if a crime has been committed and to attempt to identify the suspect.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Sexual Assault Investigations

Whenever possible, an appropriate member of the SART should be included in the initial victim interviews.

An in-depth follow-up interview should not be conducted until after the medical and forensic examinations are completed and the personal needs of the victim have been met (e.g., change of clothes, bathing). The follow-up interview may be delayed to the following day based upon the circumstances. Whenever practicable, the follow-up interview should be conducted by a qualified investigator.

No opinion of whether the case is unfounded shall be included in a report.

Victims should not be asked or required to take a polygraph examination (34 USC § 10449).

Victims should be apprised of applicable victim's rights provisions, as outlined in the Victim and Witness Assistance Policy.

609.8 COLLECTION AND TESTING OF BIOLOGICAL EVIDENCE

Whenever possible, a SART member should be involved in the collection of forensic evidence from the victim.

When the facts of the case indicate that collection of biological evidence is warranted, it should be collected regardless of how much time has elapsed since the reported assault.

If a drug-facilitated sexual assault is suspected, urine and blood samples should be collected from the victim as soon as practicable.

Victims who choose not to assist with an investigation, do not desire that the matter be investigated or wish to remain anonymous may still consent to the collection of evidence under their control. In these circumstances, the evidence should be collected and stored appropriately.

609.8.1 COLLECTION AND TESTING REQUIREMENTS

Investigating members shall facilitate the collection of a sexual assault evidence kit or sexual assault evidence, including evidence from an entity that has performed a medical examination of a sexual assault victim (Idaho Code 67-2919).

If the Coeur d'Alene Police Department obtains evidence related to a sexual assault that occurred in another jurisdiction, that agency should be notified as soon as reasonably practical, but no later than seven days for purposes of retrieving the evidence. When this department is notified by another agency that they are holding evidence related to the Coeur d'Alene Police Department case, an investigating member should obtain the evidence no later than seven days after notification (Idaho Code 67-2919).

When the crime of sexual assault is alleged and the allegation has not been determined to be unfounded, sexual assault evidence kits, along with required reference samples, shall be submitted to the Idaho State Police Forensic Services Laboratory for testing as soon as reasonably practical, but no later than 30 days after obtaining the evidence unless (Idaho Code 67-2919):

- (a) The victim requests the kit be collected as an anonymous kit.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Sexual Assault Investigations

A decision not to forward a sexual assault kit to a lab, with the exception of an anonymous kit, must be independently reviewed by the county prosecutor's office (Idaho Code 67-2919).

Additional guidance regarding evidence retention and destruction is found in the Property and Evidence Office Policy.

609.8.2 DNA TEST RESULTS

Members investigating sexual assault cases should notify victims of any DNA test results as soon as reasonably practicable. Investigating members should work with the victim liaison as provided in the Victim and Witness Assistance Policy.

Members should make reasonable efforts to assist the victim by providing available information on local assistance programs and organizations as provided in the Victim and Witness Assistance Policy.

609.9 DISPOSITION OF CASES

If the assigned investigator has reason to believe the case is without merit, the case may be classified as unfounded only upon review and approval of the Detective supervisor.

Classification of a sexual assault case as unfounded requires the Detective supervisor to determine that the facts have significant irregularities with reported information and that the incident could not have happened as it was reported. When a victim has recanted his/her original statement, there must be corroborating evidence that the allegations were false or baseless (i.e., no crime occurred) before the case should be determined as unfounded.

609.10 CASE REVIEW

The Detective supervisor should ensure cases are reviewed on a periodic basis using an identified group that is independent of the investigation process. The reviews should include an analysis of:

- Case dispositions.
- Decisions to collect biological evidence.
- Submissions of biological evidence for lab testing.

Operations Planning and Deconfliction

611.1 PURPOSE AND SCOPE

This policy provides guidelines for planning, deconfliction, and execution of high-risk operations and low risk events that are large in scope.

611.1.1 DEFINITIONS

Definitions to this policy include:

High-risk operations - Operations, including service of search warrants, arrest warrants, and sting operations, that are likely to present higher risks than are commonly faced by officers on a daily basis. These include suspected fortified locations, reasonable risk of violence or confrontation with multiple persons, or reason to suspect that persons anticipate the operation. High risk operations may also include operations that assume a higher degree of liability, are politically charged, or operations that have a high "cost of failure."

Low-risk operations - Operations that are handled routinely that do not have any credible threat to officers or members of the public. Large scale low-risk operations should generally be handled using Incident Command (ICS/NIMS) protocol.

611.2 POLICY

It is the policy of the Coeur d'Alene Police Department to properly plan and carry out high-risk operations, including participation in a regional deconfliction system, in order to provide coordination, enhance the safety of members and the public, decrease the risk of compromising investigations, and prevent duplicating efforts.

611.3 OPERATIONS DIRECTOR

The Operations Director will review operation plans with involved supervisors to determine whether a particular incident qualifies as a high-risk operation. The Director will also have the responsibility for coordinating operations that are categorized as high risk. The Lieutenant over the affected unit will serve as the Operations Director unless the responsibility is assigned to another person by the Chief or his designee. The Operations Director is responsible for reviewing or completing the operations plan and ensuring the plan has been reviewed by at least one supervisor of greater rank than the person completing the operations plan.

611.4 RISK ASSESSMENT

611.4.1 OPERATION PLAN PREPARATION

Officers assigned as operational leads for any operation that may qualify as a high-risk operation shall complete an operations plan.

When preparing the plan, the officer may query all relevant and reasonably available intelligence resources for information about the subject of the investigation, others who may be present, and the involved location. These sources may include regional intelligence and criminal justice

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Operations Planning and Deconfliction

databases, target deconfliction systems, firearm records, commercial databases, and property records. Where appropriate, the officer should also submit information to these resources.

The officer may gather available information that includes, but is not limited to:

- (a) Photographs, including aerial photographs, if available, of the involved location, neighboring yards, and obstacles.
- (b) Maps of the location.
- (c) Diagrams of any property and the interior of any buildings that are involved.
- (d) Historical information about the subject of investigation (e.g., history of weapon possession or use, known mental illness, known drug use, threats against police, gang affiliation, criminal history).
- (e) Historical information about others who may be present at the location (e.g., other criminals, innocent third parties, dependent adults, children, animals).
- (f) Obstacles associated with the location (e.g., fortification, booby traps, reinforced doors/windows, surveillance measures, number and type of buildings, geographic and perimeter barriers, the number and types of weapons likely to be present, information that suggests the presence of explosives, chemicals or other hazardous materials, the potential for multiple dwellings or living spaces, availability of keys/door combinations).
- (g) Other environmental factors (e.g., nearby venues such as schools and daycare centers, proximity of adjacent homes or other occupied buildings, anticipated pedestrian and vehicle traffic at the time of service).
- (h) Other available options that minimize risk to officers and others (e.g., making an off-site arrest or detention of the subject of investigation).
- (i) Physical surveillance.

611.4.2 RISK ASSESSMENT REVIEW

Officers will present the operations plan and other relevant documents (such as copies of search warrants, affidavits, and arrest warrants) to their supervisor and the Operations Director.

The supervisor and the Operations Director shall confer and determine the level of risk. Supervisors should take reasonable actions if there is a change in circumstances that elevates the risks associated with the operation.

611.4.3 HIGH-RISK OPERATIONS

If the Operations Director, after consultation with the involved supervisor, determines that the operation is high risk, the operations director should:

- (a) Determine what resources will be needed at the location, and contact and/or place on standby any of the following appropriate resources:

1. SWAT

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Operations Planning and Deconfliction

2. Additional personnel
3. Outside agency assistance
4. Special equipment
5. Medical personnel
6. Persons trained in negotiations
7. Additional surveillance
8. Canines
9. Property section or analytical personnel to assist with cataloguing seizure
10. Forensic specialists
11. Specialized mapping for larger or complex locations

(b) Contact the appropriate department members or other agencies as warranted to begin preparation.

(c) Ensure that all legal documents such as search warrants are complete and have any modifications reasonably necessary to support the operation.

(d) Coordinate the operation.

611.5 DECONFLICTION

Deconfliction systems are designed to identify persons and locations associated with investigations or law enforcement operations and alert participating agencies when others are planning or conducting operations in close proximity or time or are investigating the same individuals, groups, or locations.

The officer who is the operations lead shall ensure the subject of the investigation and operations information have been entered in an applicable deconfliction system (RISSafe) to determine if there is reported conflicting activity. This should occur as early in the process as practicable, but no later than two hours prior to the commencement of the operation. The officer should also enter relevant updated information when it is received.

If any conflict is discovered, the supervisor will contact the involved jurisdiction and resolve the potential conflict before proceeding.

611.6 OPERATIONS PLAN

The Operations Director should ensure that a written operations plan is developed for all high-risk operations. Plans should also be considered for other operations that would benefit from having a formal plan.

The plan should address the following issues as necessary:

- (a) Operation goals, objectives, and strategies.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Operations Planning and Deconfliction

(b) Operation location and people:

1. The subject of investigation (e.g., history of weapon possession/use, known mental illness issues, known drug use, threats against police, gang affiliation, criminal history)
2. The location (e.g., fortification, booby traps, reinforced doors/windows, surveillance cameras and/or lookouts, number/type of buildings, geographic and perimeter barriers, the number and types of weapons likely to be present, information that suggests the presence of explosives, chemicals, or other hazardous materials, the potential for multiple dwellings or living spaces, availability of keys/door combinations), including aerial photos, if available, and maps of neighboring yards and obstacles, diagrams, and other visual aids
3. Other environmental factors (e.g., nearby venues such as schools and day care centers, proximity of adjacent homes or other occupied buildings, anticipated pedestrian and vehicle traffic at the time of service)
4. Identification of other people who may be present in or around the operation, such as other criminal suspects, innocent third parties, children, and animals

(c) Information from the risk assessment form by attaching a completed copy in the operational plan.

1. The volume or complexity of the operation may indicate that the plan includes a synopsis of the information contained on the risk assessment form to ensure clarity and highlighting of critical information

(d) Participants and their roles.

1. An adequate number of uniformed officers should be included in the operation team to provide reasonable notice of a legitimate law enforcement operation
2. How all participants will be identified as law enforcement

(e) Whether deconfliction submissions are current and all involved individuals, groups, and locations have been deconflicted to the extent reasonably practicable.

(f) Identification of all communications channels and call-signs.

(g) Use of force issues.

(h) Contingencies for handling emergencies (e.g., services available at the location, closest hospital, closest trauma center).

(i) Plans for detaining people who are not under arrest.

(j) Contingencies for handling children, dependent adults, animals, and other people who might be at the location in accordance with the Child Abuse, Adult Abuse, Child and Vulnerable Adult Safety, and Animal Control policies.

(k) Communications plan.

(l) Responsibilities for writing, collecting, reviewing, and approving reports.

611.6.1 OPERATIONS PLAN RETENTION

Since the operations plan contains intelligence information and descriptions of law enforcement tactics, it shall not be filed with the report. The operations plan shall be stored separately and retained in accordance with the established records retention schedule. Operations plans should not be released for a public records request without first conferring with the affected Captain or Chief of Police.

611.7 OPERATIONS BRIEFING

A briefing should be held prior to the commencement of any high-risk operation to allow all participants to understand the operation, see and identify each other, identify roles and responsibilities, and ask questions or seek clarification as needed. Anyone who is not present at the briefing should not respond to the operation location without specific supervisory approval outside of an emergency response.

(a) The briefing should include a verbal review of plan elements, using visual aids, to enhance the participants' understanding of the operations plan.

(b) All participants should be provided a copy of the operations plan and search warrant, if applicable. Any items to be seized should be identified at the briefing.

(c) The Operations Director shall ensure that all participants are visually identifiable as law enforcement officers.

1. Exceptions may be made by the Operations Director for officers who are conducting surveillance or working undercover. However, those members exempt from visual identification should be able to transition to a visible law enforcement indicator at the time of enforcement actions, such as entries or arrests, if necessary

(d) The briefing should include details of the communication plan.

1. It is the responsibility of the Operations Director to ensure that the Communications Center is notified of the time and location of the operation, and to provide a copy of the operation plan prior to officers arriving at the location

2. The briefing should include a communications check to ensure that all participants are able to communicate with the available equipment on the designated radio channel

611.8 SWAT PARTICIPATION

If the Operations Director determines that SWAT participation is appropriate, the Director and the SWAT supervisor shall work together to develop a written plan. The SWAT supervisor shall assume operational control until all persons at the scene are appropriately detained and it is safe

to begin a search. When this occurs, the SWAT supervisor shall transfer control of the scene to the handling supervisor. This transfer should be communicated to the officers present.

611.9 MEDIA ACCESS

No advance information regarding planned operations shall be released without the approval of the Chief of Police. Any media inquiries or press release after the fact shall be handled in accordance with the News Media Relations Policy.

High-risk operations should be debriefed as soon as reasonably practical. The debriefing should include as many participants as possible. This debrief may be separate from any SWAT debriefing.

611.11 TRAINING

The Training Manager should ensure officers and SWAT team members who participate in operations subject to this policy receive periodic training including, but not limited to, topics such as legal issues, deconfliction practices, operations planning concepts, and reporting requirements.

Warrant Service

612.1 PURPOSE AND SCOPE

This policy establishes guidelines for the planning and serving of arrest and search warrants by members of the Coeur d'Alene Police Department. It is understood that this policy cannot address every variable or circumstance that can arise in the service of a search or arrest warrant, as these tasks involve rapidly evolving and unique circumstances.

This policy is intended to be used in conjunction with the Operations Planning and Deconfliction Policy (Policy 611), which has additional guidance on planning and serving high-risk warrants.

This policy is not intended to address the service of search warrants on locations or property already secured or routine field warrant arrests by members.

612.2 POLICY

It is the policy of the Coeur d'Alene Police Department to balance the safety needs of the public, the safety of department members, privacy interests, and other relevant factors when making decisions related to the service of search and arrest warrants.

612.3 OPERATIONS DIRECTOR

A Division Commander or the SWAT Team Commander (see the Operations Planning and Deconfliction Policy) shall review and assess the risk with the involved supervisor to determine the risk level of the warrant service.

The SWAT Team Commander will also have the responsibility to coordinate service of those warrants that are categorized as high risk. Deconfliction, risk assessment, operational planning, briefing, and debriefing should follow the guidelines set forth in the Operations Planning and Deconfliction Policy.

612.4 SEARCH WARRANTS

Members should receive authorization from a supervisor before preparing a search warrant application. Once authorization is received, the member will prepare the affidavit and search warrant, consulting with the applicable prosecuting attorney as needed. The search warrant and affidavit shall be read and approved by a supervisor prior to submission to the prosecuting attorney or judge. The member will also assess the risks and discuss them, along with the warrant affidavit, with the appropriate supervisor and the chain of command for review and classification of the risk (see the Operations Planning and Deconfliction Policy).

While assessing the risk of the search warrant service, members shall consider relevant factors for subjects reasonably known to be at the location, such as:

- Prior criminal history (Person crimes, resisting officers, violent history, weapons, etc.)
- Probation or parole status
- Gang affiliation

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Warrant Service

- Mental and emotional stability
- Specialized training (military, ex-law enforcement, etc.)
- Geographical barriers (vicious animals, cameras, fortified entrances/exits, etc.)
- The presence of children and/or vulnerable adults
- Proximity of the location to schools, daycare centers, etc.

612.5 ARREST WARRANTS

If a member reasonably believes that serving an arrest warrant may pose a higher risk than commonly faced on a daily basis (see Section 612.4 for risk assessment considerations), the member should contact the appropriate supervisor and the SWAT Team Commander for review and classification of the risk (see the Operations Planning and Deconfliction Policy).

If the warrant is classified as high risk, the service will be coordinated by the SWAT Team Commander. If the warrant is not classified as high risk, the supervisor should weigh the risk of entry into a residence to make an arrest against other alternatives, such as arresting the person outside the residence where circumstances may pose a lower risk.

612.6 WARRANT PREPARATION

A member who prepares a warrant should ensure the documentation in support of the warrant contains, as applicable:

- (a) Probable cause to support the search or arrest, including relevant dates and times to demonstrate the timeliness and facts to support any request for nighttime or no-knock warrant execution. A NO-KNOCK WARRANT REQUIRES APPROVAL FROM A DIVISION COMMANDER OR THE CHIEF OF POLICE
- (b) A clear explanation of the affiant's training, experience, and relevant education.
- (c) Adequately supported opinions, when relevant, that are not left to unsubstantiated conclusions.
- (d) A nexus between the place to be searched and the persons or items central to the investigation. The facts supporting this nexus should be clear and current. For example, the affidavit shall explain why there is probable cause to believe that a particular person is currently residing at a particular location or that the items sought are currently present at the location.
- (e) Full disclosure of known or suspected residents at the involved location and any indication of separate living spaces involved at the location. For example, it should be disclosed that several people may be renting bedrooms at a single location, even if the exact location of the rooms is not known.
- (f) A specific description of the location to be searched, including photographs of the location, if reasonably available.
- (g) A sufficient description of the items to be seized.
- (h) Full disclosure of any known exculpatory information relevant to the warrant application (refer to Investigation and Prosecution Policy 611 in this manual).

612.7 HIGH-RISK WARRANT SERVICE

The SWAT Team Commander or their authorized designee shall coordinate the service of warrants that are categorized as high risk and shall have sole authority in determining the manner in which the warrant will be served, including the number of officers deployed.

The member responsible for directing the service should ensure the following, as applicable:

- (a) When practicable and when doing so does not cause unreasonable risk, video or photographic documentation is made of the condition of the location prior to the execution of the search warrant. The images should include the surrounding area and persons present.
- (b) Evidence is handled and collected only by those members who are designated to do so. All other members involved in the service of the warrant should alert one of the designated members to the presence of potential evidence and not touch or disturb the items.
- (c) Reasonable efforts are made during the search to maintain or restore the condition of the location.
- (d) Persons who are detained as part of the warrant service are handled appropriately under the circumstances.
- (e) Reasonable care provisions are made for children and vulnerable adults (see Child and Vulnerable Adult Safety Policy 341 in this manual).
- (f) A list is made of all items seized and a copy provided to the person in charge of the premises if present or otherwise left in a conspicuous place.
- (g) A copy of the search warrant is left at the location in a conspicuous place.
- (h) The condition of the property is documented with video recordings and/or photographs after the search.

612.8 DETENTIONS DURING A WARRANT SERVICE

Members must be sensitive to the safety risks of all persons involved with the service of a warrant. Depending on the circumstances and facts present, it may be appropriate to control movements of any or all persons present at a warrant service, including those who may not be the subject of a warrant or suspected in the case. However, members must be mindful that only reasonable force may be used and weapons should be displayed no longer than the member reasonably believes necessary (see Use of Force Policy 300 in this manual).

As soon as it can be determined that an individual is not subject to the scope of the warrant and that no further reasonable suspicion or safety concerns exist to justify further detention, the person should be promptly released.

Members should, when and to the extent reasonable, accommodate the privacy and personal needs of people who have been detained.

Warrant Service

612.9 ACTIONS AFTER WARRANT SERVICE

The supervisor shall ensure that all affidavits, warrants, receipts, and returns, regardless of any associated cases, are filed with the issuing judge or magistrate as soon as reasonably possible, but no longer than any date specified on the warrant or required by Idaho Code.

612.10 OUTSIDE AGENCIES AND CROSS-JURISDICTIONAL WARRANTS

The SWAT Team Commander will ensure that cooperative efforts with other agencies in the service of warrants conform to existing mutual aid agreements or other memorandums of understanding and will work cooperatively to mitigate risks including, but not limited to, the following:

- Identity of team members
- Roles and responsibilities
- Familiarity with equipment
- Rules of engagement
- Asset forfeiture procedures

Any outside agency requesting assistance in the service of a warrant within this jurisdiction should be referred to the SWAT Team Commander. The SWAT Team Commander should review and confirm the warrant, including the warrant location, and should discuss the service with the appropriate supervisor from the other agency. The SWAT Team Commander should ensure that members of the Coeur d'Alene Police Department are utilized appropriately. Any concerns regarding the requested use of Coeur d'Alene Police Department members should be brought to the attention of the Chief of Police or the authorized designee. The actual service of the warrant will remain the responsibility of the agency requesting assistance.

If the SWAT Team Commander (or their designee) is unavailable, the Watch Commander should assume this role and notify a Patrol Lieutenant of the warrant service.

If officers intend to serve a warrant outside of the Coeur d'Alene Police Department jurisdiction, the SWAT Team Commander should provide reasonable notice to the applicable agency, request assistance as needed, and work cooperatively on operational planning and the mitigation of risks detailed in this policy.

Officer will remain subject to the policies of the Coeur d'Alene Police Department when assisting outside agencies or serving a warrant outside Coeur d'Alene Police Department jurisdiction.

612.11 MEDIA ACCESS

No advance information regarding warrant service operations shall be released without the approval of the Chief of Police. Any media inquiries or press release after the fact shall be handled in accordance with Media Relations Policy 328 in this manual.

Items that are not original documents like medical records, documents received via facsimile or copies will be forwarded to records with the report.
- (h) **Sexual Assault Kits** and their contents for sample collection will be determined by Idaho State Police. The Forensics lab will provide the unused kits to hospitals. Any sexual assault kit obtained from qualified staff will require a chain of custody sticker affixed to the box in a manner that does not cover any previous chain of custody information. The kits will be sealed on submission. The kits will be submitted to the refrigerated temporary storage in the packaging room and secured on submission. After the kits have been submitted to the State Lab for processing, they will be retained within the same guidelines as all evidence. The kits will be stored with the other evidence in the case at room temperature when they are returned from the lab provided the contents have been analyzed by the lab. If the kit is returned unanalyzed by the lab, it will remain in refrigeration until the appropriate disposition authorization is received.
- (i) **Wet or Water Soaked Items as well as items with Biological Fluids** will be thoroughly air dried prior to submission to the property room. Biological fluids that are submitted in the dry state will be stored in the dry state until submission to the lab. On return from the lab, the item will remain in a dry state until further notification from the investigating detective.
- (j) **Narcotics** will be packaged separately from any other item.
- (k) **Property belonging to different owners will be packaged separately** according to owner.
- (l) **Property to be tested at separate labs will be packaged separately.** For example, drugs are tested at the Coeur d'Alene Lab and would be separated from any drug item being tested for fingerprints, which would be done at the Meridian Lab.
- (m) **Blood and Urine Kits** will have a property number assigned. The kits will be sealed with the date and initials visible. The case and property number will be written on the outside of the box. The lab submission form and any associated paperwork will be submitted with the kit in the mailer box supplied by the lab. No chain of custody sticker is required for these items. These items will be submitted to the refrigerated secured temporary storage area in the packaging room. Blood and Urine kits will remain refrigerated until submitted to the lab. As of 2009, the lab will return blood kits on completion of testing to the submitting agency. The blood kits will remain

in refrigerated storage pending appropriate disposition authorization. Urine kits that are returned to the property office will be retained in frozen storage pending the appropriate disposition authorization.

- (n) **Items that are in the custody of the evidence room will only be released according to disposition procedures.** Temporary releases or viewing of evidence at the request of a defense attorney or court order or any other authorized request will be addressed by the property officer. Contact will be made with the prosecutor assigned. If the prosecutor requests that contact be made with the investigating detective, this will be facilitated by the Property Officer. On advisement of the investigating Detective, the property officer may facilitate the viewing of evidence.
- (o) **Recovered Stolen Property** will be flagged for review by investigations in order to either contact the prosecutor assigned or to arrange prompt return when appropriate.

801.4 FIREARMS POLICY

All firearms impounded by members will be submitted to the Property Office in accordance with the procedures outlined in Policy §801.3.2.c

Prior to submission, all firearms will be run in NCIC and confirmation of this action and NCIC status will be documented in the police report.

Firearms will have an ATF trace initiated at the request of a Detective or Prosecutor or for any law enforcement purpose. Returned ATF traces will be forwarded to the Records Section for appropriate distribution. A copy will be made for the requester when appropriate.

Firearms that have been impounded for safekeeping or as found property will have any known owner information included on the package and in the police report. An Affidavit of Qualification to accept Return of a Firearm along with a fact sheet will be provided to the owner listed in the report. This process will be initiated by the property office.

Firearms that have been impounded as evidence will be held until a completed PD Form 97 (Coeur d'Alene Police Property & Evidence Disposition Form) is received from the investigating Detective or the Prosecuting Attorney for the case. When the PD 97 is received by the Property Office, an Affidavit of Qualification to Accept Return of a Firearm along with a fact sheet will be mailed Certified U.S. Return Receipt to the owner. The same process will begin when a Judgment and Sentence from the Court is received by the Property Office for misdemeanor offenses for which the firearm is evidence.

Proof of ownership will be considered if it is in the form of an ATF Project Lead trace returning to the owner as a last purchaser, a bill of sale, a receipt for purchase, an insurance receipt or any record or receipt in the name of the claimant for repairs or any other documentation of the firearm having been in their possession prior to the date of impound. All forms of proof of ownership must be dated after the last purchase date, if applicable, on the ATF trace form. In the event that no documentation whatsoever can be provided, a statement from the claimant may be submitted for review to determine ownership.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Property and Evidence Office

After proof of ownership has been provided, a Criminal History Background Check will be conducted to determine if the owner is eligible to possess firearms. The background check will consist of NCIC III, Wanted persons check through NCIC, individual state checks in the states the person was known to have lived in and a local records check. Criteria under Title 18, U.S.C. Chapter 44, Section 922 (g) will be considered in determining eligibility to possess a firearm in addition to State possession requirements.

When practical, firearms will be submitted to Idaho State Police for entry to the National Integrated Ballistics Inventory Network. Firearms will be clear in NCIC prior to return to the Public.

In cases where no response is made to the firearm fact sheet, where no proof of ownership is provided for the firearm or where the firearm is unclaimed or abandoned, it will be placed in archives.

If ownership and possession rights are satisfied, the owner will be notified that they have thirty days from the receipt of the notice to claim the firearm by bringing picture identification in order to sign and have the affidavit notarized at the police department. Firearms not claimed within the thirty day notice period will be forwarded to archives.

All firearms will be stored in a segregated area for firearms while in the possession of the police department with their status indicated in the property record.

When firearms have been identified as forwarded to archives, the property record will indicate their current location and the actual firearms will be placed in a segregated archives area. When the storage allocation for archived firearms impedes the storage required for other firearms, notification will be made to the department Armorer. The notification will consist of a list of all firearms in archives. The list will consist of case number, make, model and serial number of the firearm.

All firearms determined to be abandoned or unclaimed will be melted or scrapped, transferred to official use or sold in accordance with ISC 55-403.

Scrapping or melting will be documented by photograph in a case file and uploaded to VIPER.

Conversion to official use will be accompanied with a signed receipt. Value of firearm will be recorded with the receipt.

Sale of firearms will be by auction to highest bidder, in lots or individually to Federal Licensed Firearms Dealers. Proceeds will be deposited to unclaimed funds account pending claim and then forwarded to the General Fund.

801.4.1 PROPERTY ROOM LAYOUT

The Property and Evidence Room physical areas of responsibility are:

- The Outdoor Storage Area.
- The Indoor Drying Room.
- The Property Packaging Room including the VIPER room in the report writing area.

Coeur d'Alene Police Department

Property and Evidence Office

- The indoor storage area to include the separate narcotics, currency, firearm and high value piflerable items storage area as well as refrigerated and frozen storage.

The substation(s) do not have permanent evidence lockers or storage facilities.

The outdoor storage area consists of a vehicle impound bay, a temporary storage area and a permanent storage area. The vehicle impound area will remain unlocked unless in use. A padlock will remain unlocked on the door until locked by the officer with the impound authority for the vehicle, property or evidence secured in the bay. The bay will then be unlocked by authorized personnel only. Items will only be removed from the bay by the impounding officer or by authorized personnel when accompanied by the appropriate paperwork at the request of the impounding officer.

- The temporary storage area will be accessible only by personnel with key pad controlled access to the building. Items placed in this area will include those requiring more space than is available in a locker in the inside storage area and items cleared for storage that may be hazardous. Items will not be moved from the temporary storage facility unless all the appropriate paperwork is with the item to be stored.
- Access to the outdoor storage area will be by authorized personnel only. Items will be stored in case number order on the north wall. Bicycles to be stored for ninety days with no claim or owner known will be along the north wall. The bikes that are evidence or have a claim will be stored in a row along the south wall. The row between these two will be for bikes that have a known owner, safekeeping or a notice sent to a claimant. This storage configuration will reduce the amount of time required to locate bicycles and will also be a visual aid in order to determine the necessity of an auction. It will also prevent evidence and unclaimed property from being stored in the same location.
- Items pending auction will be stored in the crate area on the east wall and marked as auction items.
- The shelving on the south wall will be reserved for homicide and cold case evidence retention.
- The allocation of outdoor storage space will allow for flexibility of movement in the event of special circumstances.

The indoor storage area is divided in four sections outside the secure firearms storage area.

- The four areas will be utilized by size of item and storage will be in case number order.
- Items that will fit in the seven by twelve inch boxes will be stored in case number order on the east wall, starting with the location number "T1".
- Any other bags or containers will be stored in case number order on the next row starting in case number order.
- Bulk items will be stored in case number order on shelf eight. The location will be "Bulk".
- Found Property and Safekeeping items will be stored in case number order on shelf seven. The location will be "FPB", for found property/bulk.

- Items too large for shelving will be stored along the west wall. The location will be "FLOOR B" for floor bulk.
- Firearms, currency, narcotics and items with a propensity for theft will be stored in the secondary storage area inside the main interior storage area. Firearms will be stored in case number order in firearm boxes in "FAS" for firearm short or "FAL" for firearm long.
- Firearms for archives will be stored in case number order on the north wall in the location "Archives".
- Narcotics will be stored in case number order on the west wall on the shelf with the boxes marked for narcotics. Large narcotics items will have out cards in the boxes with the location and case number in the box. The items will be placed in case number order above the narcotics boxes. Narcotics pending destruction will be stored in a box with the corresponding page number. When a box is full, it will be sealed. Copies of the drug destruction pages in the box will be attached to the box for audit purposes.
- All currency will be placed in the safe on the north wall in the location "V" for vault. Currency pending finance deposit will be placed in the box on top of the safe. A ledger in the box will record the amount and case number of cash pending deposit. A two hundred and fifty dollar (\$250) threshold will apply for cash pending finance deposit per the ledger. A deposit of the cash will be made as soon is practical when the threshold is met.
- All items to be refrigerated will be placed in either the refrigerator or the freezer to coordinate with the refrigeration unit (i.e. FRZ 1 or REF 2). Items will be stored according to the package submission procedures in this manual to include refrigeration of blood, urine and sexual assault samples until lab testing criteria are met. Biological samples will be stored in the condition they are received, for example, dried items will be stored at room temperature pending review and permanent storage in a frozen location if deemed appropriate by the investigating Detective.

These location designators will replace all other designations and will be permanent as of August 1, 2005.

801.5 RECORDING OF PROPERTY

The Property Officer receiving custody of evidence or property shall record their signature and the date the item was retrieved from the evidence locker. The location of the property where the item will be located within the property room will also be recorded on the package. The Property Officer will then create an "Evidence Record" number in the Spillman evidence bar code module. The bar code will be printed and affixed to the chain of custody sticker for the item.

Any changes in the location of the property shall be documented in the computer record in the evidence module under the bar code number assigned for the piece of property. For items in inventory prior to January, 2008, the same information shall be entered in the corresponding computer system used during the time frame of the issuance of the case number assigned for the original report. Additionally, any changes in custody to or from the property office will be signed for on the package itself.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Property and Evidence Office

Once property has been accepted by the property office, either the package itself or a signed receipt with the signature of a person responsible for the property will be on file. This includes a lab receipt for items at the State Forensic Lab, any other lab or forensic service provider that items will be forwarded to, items checked out for court or items returned to owners or agents. Items destroyed will have an entry in the computer log indicating the date of destruction or final disposition.

801.6 AUCTION POLICY

Items that remain unclaimed or abandoned in the custody of the department that have a value obtainable by public auction will be identified as auction hold items. This does not apply to firearms that are addressed in Policy §801.4. Auction hold items will be identified by a notation in the evidence record "auction hold". These items will be held in a separate holding area pending auction. An auction date will be determined when the storage space for the auction hold items impedes the storage requirements of active case storage.

A case number will be generated to document the auction process. The case report will include all items on consignment for the auction, the legal publication certification, a copy of any form of proceeds received from sales and any documentation identifying the sale of a specific item.

Proceeds from sales of Unclaimed Property will be deposited in the City Finance account for Unclaimed Property where it will be available to satisfy claims made against the account in the event a claim is made.

A claim may be made against the account by a property owner by following these steps:

- (a) A written request will be made by the owner to the Property Office. The request will include a complete description of the items being claimed, some kind of proof of ownership, the property owner and the owner's contact information.
- (b) The request will be reviewed by the Property Office. Review will include the verification of ownership, the date of the sale of the item and the dollar amount the item was sold for.
- (c) If more than one year has passed since the date of the sale, the claim will be denied. The Property Office will notify the property owner of a denial in writing after approval from the Support Services Lieutenant.
- (d) If the claim is approved, after approval from the Support Services Lieutenant, a memo requesting funds will be forwarded from the Property Office to the Finance Department. The memo will include the owner's name, the amount of a draft to be drawn and a request to forward the draft to the Property Office where arrangements will be made to provide the check to the claimant.
- (e) The auction follow-up file and the property record will be updated to reflect the owner of the property and a notification of the release of funds will be made in both records by the Property Office.

If evidence is needed for court purposes, notification to the Property Officer will be made as soon as possible. An e-mail that identifies what items are needed will suffice for this purpose.

Administrative Order seventy one, dated February 20, 1992 issued by the First Judicial District Court, identifies evidence items deemed "dangerous". These include weapons, drugs and physiological evidence. Special packaging requirements for these items is identified in the order.

All packaging of "dangerous" evidence for court presentation will be done at the department by the case officer pursuant to the standards set by the Court's Administrative Order unless otherwise directed by the Prosecuting Attorney.

Any evidence checked out for court will be signed for on a PD Form 93. This is a white card that is retained by the Property Officer until the property is returned. A PD form 92 will be provided to the member at the time of the check out. If the court retains the evidence, the official receiving the property will sign the yellow PD form 92. The member who checked the property out will return the yellow PD form 92 or the evidence to the evidence locker by the end of the judicial day on the day the evidence is checked out.

The PD forms 92 and 93 will be maintained in the Property Office until the item is returned.

801.7 DISPOSITION OF PROPERTY

If a member has documented in the report that property or evidence is to be destroyed, the property office will facilitate the destruction. Found Property will be released to the owner as soon as practically possible during public property release hours. A member may return found property to an owner without booking it in to the property room as long as the action is documented in a police record.

Animal Control Procedures

805.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for interacting with animals and responding to calls for service that involve animals.

805.2 [ANIMAL CONTROL] RESPONSIBILITIES

Animal control services are generally the primary responsibility of [Animal Control] and include the following:

- (a) Animal-related matters during periods when [Animal Control] is available.
- (b) Ongoing or persistent animal nuisance complaints. Such complaints may be scheduled, if reasonable, for handling during periods that [Animal Control] is available for investigation and resolution.
- (c) Follow-up on animal-related calls, such as locating owners of injured animals.

805.3 MEMBER RESPONSIBILITIES

Members who respond to or assist with animal-related calls for service should evaluate the situation to determine appropriate actions to control the situation.

Due to the hazards of handling animals without proper training and equipment, responding members generally should not attempt to capture and pick up any animal, but should keep the animal under observation until the arrival of appropriate assistance.

Members may consider acting before the arrival of such assistance when:

- (a) There is a threat to the public safety.
- (b) An animal has bitten someone. Members should take measures to confine the animal and prevent further injury.
- (c) An animal is creating a traffic hazard.

Animal Control Procedures

805.4 DECEASED ANIMALS

When a member becomes aware of a deceased animal, all reasonable attempts should be made to preliminarily determine if the death of the animal is related to criminal activity.

Deceased animals on public property should be removed, sealed in a plastic bag, and properly disposed of by the responding member.

Members should not climb onto or under any privately owned structure for the purpose of removing a deceased animal.

805.5 INJURED ANIMALS

When a member becomes aware of an injured domesticated animal, all reasonable attempts should be made to contact an owner or responsible handler. If an owner or responsible handler cannot be located, the animal should be taken to a designated animal care facility.

Members should diligently address calls related to nuisance animals (e.g., barking dogs), because such calls may involve significant quality-of-life issues.

805.12 DESTRUCTION OF ANIMALS

When it is necessary to use a firearm to euthanize a badly injured animal or stop an animal that poses an imminent threat to human safety, the Firearms Policy shall be followed. A badly injured animal shall only be euthanized with the approval of a supervisor.

Computers and Digital Evidence

804.1 PURPOSE AND SCOPE

This policy establishes procedures for the seizure and storage of computers, personal communications devices (PCD's), digital cameras, digital recorders and other devices that are capable of storing digital information; and for the preservation and storage of digital evidence. All evidence seized and/or processed pursuant to this policy shall be done so in compliance with clearly established Fourth Amendment and search and seizure provisions.

804.2 SEIZING COMPUTERS AND RELATED EVIDENCE

Computer equipment requires specialized training and handling to preserve its value as evidence. Members should be aware of the potential to destroy information through careless or improper handling, and utilize the most knowledgeable available resources. When seizing a computer and accessories the following steps should be taken:

- (a) Photograph each item, front and back, specifically including cable connections to other items. Look for a phone line or cable to a modem for Internet access.
- (b) Do not overlook the possibility of the presence of physical evidence on and around the hardware relevant to the particular investigation such as fingerprints, biological or trace evidence, and/or documents and/or passwords.
- (c) If the computer is off, do not turn it on.
- (d) If the computer is on, do not shut it down normally and do not click on anything or examine any files.
 1. Photograph the screen, if possible, and note any programs or windows that appear to be open and running.
 2. Disconnect the power cable from the back of the computer box (*for laptops, disconnect any power cable from the case and remove the battery*).
- (e) Label each item with case number, evidence sheet number, and item number.
- (f) Handle and transport all devices (*i.e. tape, discs, memory cards, flash memory, external drives*) with care so that potential evidence is not lost.
- (g) Log all computer items in the Property Room. Do not store computers where normal room temperature and humidity is not maintained.
- (h) At minimum, members should document the following in related reports:
 1. Where the computer was located and whether or not it was in operation.
 2. Who was using it at the time.
 3. Who claimed ownership.
 4. If it can be determined, how it was being used.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Computers and Digital Evidence

- (i) In most cases when a computer is involved in criminal acts and is in the possession of the suspect, the computer itself and all storage devices (*hard drives, tape drives, and disk drives*) should be seized along with all media. Accessories (*printers, monitors, mouse, scanner, keyboard, cables, software and manuals*) should not be seized unless as a precursor to forfeiture.

804.2.1 BUSINESS OR NETWORKED COMPUTERS

If the computer belongs to a business or is part of a network, it may not be feasible to seize the entire computer. Cases involving networks require specialized handling. Members should contact a certified forensic computer examiner for instructions or a response to the scene. It may be possible to perform an on-site inspection, or to image the hard drive only of the involved computer. This should only be done by someone specifically trained in processing computers for evidence. Cases involving networks require specialized training which is available through the Northwest Regional Computer Forensic Lab (*RCFL*), the Idaho State Police or another agency having certified examiners.

804.2.2 FORENSIC EXAMINATION OF DIGITAL MEDIA

If an examination of the contents of the computer's hard drive, or floppy disks, compact discs, or any other storage media is required, forward the following items to the Computer Forensic Examiner:

- (a) Copy of report(s) involving the computer, including the Evidence/Property sheet.
- (b) Copy of a consent to search form signed by the computer owner or the person in possession of the computer, or a copy of a search warrant authorizing the search of the computer hard drive for evidence relating to investigation.
- (c) A listing of the items to search for (*i.e. photographs, financial records, e-mail, documents*).
- (d) A duplicate of the hard drive or disk will be made using a forensic computer and a forensic software program by someone trained in the examination of computer storage devices for evidence.

804.3 SEIZING DIGITAL STORAGE MEDIA

Digital storage media, to include hard discs, floppy discs, CD's DVD's, tapes, memory cards, or flash memory devices should be seized and stored in a manner that will protect them from damage.

- (a) If the media has a write-protection tab or switch, it should be activated.
- (b) Do not review, access or open digital files prior to submission. If the information is needed for immediate investigation request the assigned Detective to copy the contents to an appropriate form of storage media.
- (c) Many kinds of storage media can be erased or damaged by magnetic fields. Keep all media away from magnetic devices, electric motors, radio transmitters or other sources of magnetic fields.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Computers and Digital Evidence

- (d) Do not leave storage media where they would be subject to excessive heat such as in a parked vehicle on a hot day.
- (e) Use plastic cases designed to protect the media, or other protective packaging, to prevent damage.

804.4 SEIZING PCD'S

Personal communication devices such as cell phones, PDA's or other hand-held devices connected to any communication network must be handled with care to preserve evidence that may be on the device including messages, stored data and/or images.

- (a) Members should not attempt to access, review or search the contents of such devices prior to examination by a forensic expert. Unsent messages can be lost, data can be inadvertently deleted and incoming messages can override stored messages.
- (b) If additional information is needed to determine if a crime has occurred, document what steps were taken to review the media and discontinue any further action once evidence has been found.
- (c) Do not turn the device on or off. If the device is off, leave it off. If the device is on, contact a Supervisor to determine any further action. The device should be placed in a solid metal container such as a paint can, Faraday bag, or aluminum foil, to prevent the device from sending or receiving information from its host network.

804.5 DIGITAL EVIDENCE RECORDED BY MEMBERS

Members handling and submitting evidence recorded by other members and stored digitally using digital cameras, audio or video recorders will comply with these procedures to ensure the integrity and admissibility of such evidence.

804.5.1 COLLECTION OF DIGITAL EVIDENCE

Once evidence is recorded it shall not be erased, deleted or altered in any way prior to submission. All photographs taken will be preserved regardless of quality, composition or relevance. Video and audio files will not be altered in any way.

804.5.2 SUBMISSION OF DIGITAL MEDIA

The following are required procedures for the submission of digital media used by cameras or other recorders:

- (a) The recording media (*smart card, compact flash card or any other media*) shall be uploaded into the digital evidence system as soon as possible for submission into evidence.
- (b) The assigned Detective will accommodate all requests to copy and/or distribute digital media made from the memory cards or other media.
- (c) Members requiring a copy of the digital files stored in VIPER must go through the Records Division. Digital Evidence stored as an evidence item will be requested

- (b) Where possible, the device should be connected to a computer and the files accessed directly from the computer directory or downloaded to a folder on the host computer for copying to the storage media.

804.5.4 PRESERVATION OF DIGITAL EVIDENCE

- (a) Only Property Officers are authorized to copy original digital media that is held as evidence. The original digital media shall remain in evidence and shall remain unaltered.
- (b) Digital images that are enhanced to provide a better quality photograph for identification and investigative purposes must only be made from a copy of the original media
- (c) If any enhancement is done to the copy of the original, it shall be noted in the corresponding incident report.

Exposure - When an eye, mouth, mucous membrane, or non-intact skin comes in contact with blood or other potentially infectious materials, or when these substances are injected or infused under the skin; when an individual is exposed to a person who has a disease that can be passed through the air by talking, sneezing or coughing (e.g., tuberculosis), or the individual is in an area that was occupied by such a person. Exposure only includes those instances that occur due to a member's position at the Coeur d'Alene Police Department. (See the exposure control plan for further details to assist in identifying whether an exposure has occurred.)

1006.2 POLICY

The Coeur d'Alene Police Department is committed to providing a safe work environment for its members. Members should be aware that they are ultimately responsible for their own health and safety.

1006.4 EXPOSURE PREVENTION AND MITIGATION

1006.4.1 GENERAL PRECAUTIONS

All members are expected to use good judgment and follow training and procedures related to mitigating the risks associated with communicable disease. This includes, but is not limited to:

- (a) Stocking disposable gloves, antiseptic hand cleaner, CPR masks or other specialized equipment in the work area or department vehicles, as applicable.
- (b) Wearing department-approved disposable gloves when in contact with blood, other potentially infectious materials, mucous membranes and non-intact skin can be reasonable anticipated.

- (f) Using a face mask or shield if it is reasonable to anticipate an exposure to an airborne transmissible disease.
- (g) Decontaminating non-disposable equipment (e.g. flashlight, control devices, clothing, and portable radio) as soon as possible if the equipment is a potential source of exposure.
 1. Clothing that has been contaminated by blood or other potentially infectious materials shall be removed immediately or as soon as feasible and stored/ decontaminated appropriately.
- (h) Handling of all sharps and items that cut or puncture (e.g. needles, broken glass, razors, knives) cautiously and using puncture-resistant containers for their storage and/or transportation.
- (i) Avoiding eating, drinking, smoking, applying cosmetics or lip balm, or handling contact lenses where there is a reasonable likelihood of exposure.
- (j) Disposing of biohazard waste appropriately or labeling biohazard material properly when it is stored.

1006.4.2 IMMUNIZATIONS

Members who could be exposed to HBV due to their positions may receive the HBV vaccine and any routine booster at no cost.

Communicable Diseases

1006.5 POST EXPOSURE

1006.5.1 INITIAL POST-EXPOSURE STEPS

Members who experience an exposure or suspected exposure shall:

- (a) Begin decontamination procedures immediately (e.g., wash hands and any other skin with soap and water, flush mucous membranes with water).
- (b) Obtain medical attention as appropriate.
- (c) Notify a supervisor as soon as practicable.

1006.5.2 REPORTING REQUIREMENTS

The supervisor on-duty shall investigate every exposure that occurs as soon as possible following the incident. The supervisor shall ensure the following information is documented:

- (a) Name of the member exposed
- (b) Date and time of the incident
- (c) Location of the incident
- (d) Potentially infectious materials involved and the source of exposure (e.g., identification of the person who may be the source)
- (e) Work being done during exposure
- (f) How the incident occurred or was caused
- (g) PPE in use at the time of the incident
- (h) Actions taken post-incident (e.g., clean-up, notifications made)

The supervisor shall advise the member that disclosing the identity and/or infectious status of a source to the public or anyone who is not involved in the follow-up process is prohibited. The supervisor should complete the incident documentation in conjunction with other reporting requirements that may apply (see the Occupational Disease and Work-Related Injury Reporting and Illness policy).

1006.5.3 MEDICAL CONSULTATION, EVALUATION, AND TREATMENT

Department members shall have the opportunity to have a confidential medical evaluation immediately after exposure and follow-up evaluations as necessary.

The ECO should request a written opinion/evaluation from the treating medical professional that contains only the following information:

- (a) Whether the member has been informed of the results of the evaluation.
- (b) Whether the member has been notified of any medical conditions resulting from exposure to blood or other potentially infectious materials which require further evaluation and treatment.

No other information should be requested or accepted by the ECO.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Communicable Diseases

1006.5.4 COUNSELING

The Department shall provide the member, and his/her family if necessary, the opportunity for counseling and consultation regarding the exposure.

1006.5.5 SOURCE TESTING

Testing a person for communicable diseases when that person was the source of an exposure should be done when it is desired by the exposed member or when it is otherwise appropriate. Source testing is the responsibility of the ECO. If the ECO is unavailable to seek timely testing of the source, it is the responsibility of the exposed member's supervisor to ensure testing is sought.

Source testing may be achieved by:

- (a) Obtaining consent from the individual.
- (b) Contacting the Department of Health and Welfare (DHW) to provide information regarding the circumstances of the exposure and to request that DHW issue an order for the source individual to report for examination. As a result of the examination, a licensed physician may order testing (IDAPA 16.02.10.060; IDAPA 16.02.10.065).
- (c) Complying with the requirements of Idaho Code 39-604 if the person has been arrested and confined.

Under certain circumstances, if the member qualifies as a crime victim, a court may order the result of any source testing to be disclosed to the exposed member (Idaho Code 39-604).

Since there is potential for overlap between the different manners in which source testing may occur, the ECO is responsible for coordinating the testing to prevent unnecessary or duplicate testing.

The ECO should seek the consent of the individual for testing and consult the Attorney General to discuss other options when no statute exists for compelling the source of an exposure to undergo testing if he/she refuses.

1006.6 CONFIDENTIALITY OF REPORTS

Medical information shall remain in confidential files and shall not be disclosed to anyone without the member's written consent (except as required by law). Test results from persons who may have been the source of an exposure are to be kept confidential as well.

1006.7 TRAINING

All members shall participate in training regarding communicable diseases commensurate with the requirements of their position. The training:

- (a) Should be provided at the time of initial assignment to tasks where an occupational exposure may take place and at least annually after the initial training.
- (b) Should be provided whenever the member is assigned new tasks or procedures affecting his/her potential exposure to communicable disease.
- (c) Should provide guidance on what constitutes an exposure, what steps can be taken to avoid an exposure, and what steps should be taken if a suspected exposure occurs.

1009.1.1 DEFINITIONS

Definitions related to this policy include:

1009.2 WEARING OF SAFETY RESTRAINTS

All members shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased, rented or operated by this department, while on- or off-duty, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all other occupants, including those who are not members of the Department, are also properly restrained (Idaho Code 49-673).

Exceptions to the requirement to wear safety restraints may be made only in exceptional situations where, due to unusual circumstances, wearing a seat belt would endanger the department member or the public. Members must be prepared to justify any deviation from this requirement.

1009.3 TRANSPORTING SUSPECTS, PRISONERS OR ARRESTEES

Suspects, prisoners and arrestees should be in a seated position and secured in the rear seat of any department vehicle with a prisoner restraint system or, when a prisoner restraint system is not available, by seat belts provided by the vehicle manufacturer. Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Seat Belts

1009.6 TRANSPORTING CHILDREN

Children 6 years of age and under should be transported in compliance with Idaho's child restraint system requirements (Idaho Code 49-672).

Rear seat passengers in a cage-equipped vehicle may have reduced clearance, which requires careful seating and positioning of seat belts. Due to this reduced clearance, and if permitted by law, children and any child restraint system may be secured in the front seat of such vehicles, provided this positioning meets federal safety standards the vehicle and child restraint system manufacturer's design and use recommendations. In the event that a child is transported in the front seat of a vehicle, the seat should be pushed back as far as possible and the passenger-side airbag should be deactivated. If this is not possible, members should consider arranging alternative transportation when feasible.

1009.7 VEHICLES MANUFACTURED WITHOUT SEAT BELTS

Vehicles manufactured and certified for use without seat belts or other restraint systems are subject to the manufacturer's operator requirements for safe use.

1009.8 VEHICLE AIRBAGS

In all vehicles equipped with airbag restraint systems, the system will not be tampered with or deactivated, except when transporting children as written elsewhere in this policy. All equipment installed in vehicles equipped with airbags will be installed as per the vehicle manufacturer specifications to avoid the danger of interfering with the effective deployment of the airbag device.

When non-uniformed sworn members are assigned to a special operation, stakeout, service of felony arrest warrant(s), or are serving a search warrant at a location where there is reason to believe an armed or felony suspect may be present, the wearing of soft body armor is mandatory.

- A special operation or stakeout, for purposes of this section, is a pre-planned event where time and practicality allow members to put on body armor in anticipation of encountering armed or dangerous suspects or circumstances.

Soft body armor which has expired, been punctured with a sharp instrument, impacted by a projectile, or otherwise no longer meets warranty standards, shall be taken out of service and returned to the Equipment Specialist immediately for inspection and/or disposal, unless the body armor is submitted for evidentiary purposes.

Any member issued soft body armor is responsible for inspecting the armor to ensure it meets these standards.

1010.2.1 ISSUANCE OF SOFT BODY ARMOR

Lactation Break Policy

1016.1 PURPOSE AND SCOPE

1016.2 POLICY

It is the policy of the Coeur d'Alene Police Department to provide, in compliance with the Fair Labor Standards Act (FLSA), reasonable break time and appropriate facilities to accommodate any member desiring to express breast milk for the member's infant nursing child for up to one year after the child's birth (29 USC § 218d).

1016.3 LACTATION BREAK TIME

A rest period should be permitted each time the member has the need to express breast milk (29 USC § 218d). In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable. However, individual circumstances may require more or less time.

Lactation breaks, if feasible, should be taken at the same time as the member's regularly scheduled rest or meal periods. While a reasonable effort will be made to provide additional time beyond authorized breaks, any such time exceeding regularly scheduled and paid break time will be unpaid.

Members desiring to take a lactation break shall notify the [dispatcher] or a supervisor prior to taking such a break. Such breaks may be reasonably delayed if they would seriously disrupt [department/office] operations.

Once a lactation break has been approved, the break should not be interrupted except for emergency or exigent circumstances.

The [Department/Office] will make reasonable efforts to accommodate members with the use of an appropriate room or other location to express milk in private. Such room or place should be in proximity to the member's work area and shall be other than a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC § 218d).

Members occupying such private areas shall either secure the door or otherwise make it clear to others that the area is occupied with a need for privacy. All other members should avoid interrupting a lactating member during an authorized break, except to announce an emergency or other urgent circumstance.

Authorized lactation breaks for members assigned to the field may be taken at the nearest appropriate private area.

Vacation or Comp Time Leave: Members requesting to take leave from their scheduled work time may submit a request through their immediate supervisor. Members will generally use accrued vacation or comp time. The member's immediate supervisor or his designee must approve the vacation or comp time use request prior to the member not attending work on the day(s)/time(s) requested. Supervisors may deny a member's leave request if their absence will have an impact on their duties, assignment or shift.

Sick Leave or Bereavement Leave: If a member has advanced notice that they will need to use allowable sick time or bereavement leave, the member shall notify their immediate supervisor as soon as practical of the date(s)/time(s) the member will be using leave. This will allow the supervisor to make any necessary arrangements in advance if adjustments to a shift or assignment will be required.

Members who may unexpectedly require the use of allowable sick time while on duty, or prior to their scheduled work time, shall notify a supervisor as soon as possible.

Military, Witness, or Jury Leave: Members who are required to take military, jury or witness leave should generally have advance notice of when that leave will be required and shall therefore notify their immediate supervisor as soon as practical of the potential date(s)/time(s).

Human Resources will update the previously documented paperwork, due to medical attention being needed, and submit updated injury information to State Insurance Fund. The Supervisor who receives such notification shall then notify that member's Division Commander.

In no case shall the member accept a settlement without first providing written notice to the Chief of Police. The purpose of such notice is to permit the City to determine whether the offered settlement will affect any claim the City may have regarding payment for damage to equipment or reimbursement for wages against the person who caused the disease or injury, and to protect the City's right of subrogation, while ensuring that the member's right to receive compensation is not affected.

1020.3 INVESTIGATION OF COMPLAINTS

Citizen Inquiry - In the event the supervisor taking the complaint can initially determine the complaint is unfounded or determines the allegation is a minor violation of policy or improper job performance and appropriate action can be handled at his/ her level, the supervisor shall properly document the incident as a citizen inquiry with concurrence of a lieutenant. A citizen inquiry shall be documented and forwarded through the chain of command to the Division Commander. At any point during the review of the inquiry, the incident may be determined to more properly be handled as a personnel complaint and upgraded as such. The Member(s) involved in the violation shall be notified of the complaint and acknowledge receipt by signing the Notice of Investigation (NOI) / Personnel Complaint form. 1020.5 ADMINISTRATIVE INVESTIGATION OF COMPLAINT

The Office of Professional Standards or the supervisor investigating the complaint will use the following procedures:

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Personnel Complaints

Every investigator or supervisor assigned to investigate a personnel complaint shall proceed with due diligence. Recognizing that factors such as witness availability and the complexity of allegations will affect each case, every effort should be made to complete each investigation within a reasonable period following receipt.

The role of the investigator is to gather facts, clarify information, identify relevant policies, and analyze recordings, material, or electronic evidence in order to provide a complete investigation to the chain of command. The investigator will generally not provide a disposition for alleged misconduct violations unless directed by the Chief of Police, Division Commander or their designee.

If the nature of allegations dictates that confidentiality is necessary to maintain integrity of the investigation, the involved employee(s) need not be notified of the pending investigation unless and until the employee is interviewed or formally charged.

If the complaint is associated with criminal charges or a criminal trial, the investigation may be suspended until the completion of the criminal action or trial. The Chief of Police may also suspend, for good cause, any sanction or other disposition of the complaint pending completion of the criminal action.

When any member is questioned pursuant to a personnel complaint by a supervisor, the interview shall be conducted under the following conditions. This section shall not apply to any interview of a member in the normal course of duty, counseling, instruction, or informal verbal admonishment by or other routine contact with a supervisor, nor shall this section apply to an investigation concerned directly with alleged criminal activities.

(a) Employees have the right to union or legal representation at any investigatory interview. Union or Legal representation shall be provided upon employee request or upon the request of the union representative consistent with Weingarten and International Ladies' Garment Union v. Quality MFG. Co. A request for union or legal representation should be made before or at the time of the interview. Employees shall not be punished nor shall any adverse action be taken because of this request.

(b) After the employee makes a request for representation, the investigator shall grant the request and delay questioning until a union representative has a chance to consult privately with the employee and is able to be present for the interview. Delays must be reasonable and may not be for longer than two weeks unless mutually agreed upon by the employee, the representative, and the investigator.

(c) If the member requests that a representative be present, the representative will be informed by Administration of the subject of the investigation. The representative will be allowed to speak privately with the member before the interview. During the interview, the representative may ask for a caucus to meet with the member privately. The investigator will determine when to recess to allow for a caucus. The Union and/ or Legal representative may object to argumentative, abusive, misleading, or confusing questions to the extent it does not disrupt the interview process. However, only the member's licensed attorney may instruct the member not to answer a question. At the

end of the interview the representative may ask questions and/or provide information for the investigating supervisor to consider regarding the investigation. If the representative requested by the member is unavailable, the department will not delay the investigation if another representative is readily available to assist the member at the interview.

(d) The interview should be conducted at a mutually agreed upon reasonable hour, preferably at a time when the member is on duty, unless the seriousness of the investigation requires otherwise or there is a mutual agreement to conduct the interview during off duty time. If the interview must occur during off-duty time, the member shall be compensated for any off-duty time in accordance with department policies. Notice to members of an impending interview shall be given no less than 24 hours before the scheduled interview unless a delay in conducting the interview would jeopardize the successful completion of the investigation or compromise the wellbeing of the member, department personnel or the public at large. Interviews shall not be unreasonably delayed or repeatedly rescheduled.

(e) At the start of the interview, all parties present shall identify themselves by rank or title and organization. All questions shall be asked by and through no more than two interrogators at a time.

(f) Prior to any interview, the member will be informed of the nature of the investigation. This notice will include information necessary to reasonably apprise the member of the allegation(s). Generally, the member being interviewed, or his/her representative, may request access to any documents generated by him/her pursuant to the incident for which he/she is being interviewed (reports, videos, audio recordings, etc.) unless the production of those documents would jeopardize the wellbeing of the member, department personnel and/or the public.

(g) All interviews will be for a reasonable period and the member's personal needs will be accommodated. The length of the interview shall be for a reasonable period of time taking into consideration the gravity and complexity of the issue being investigated. Effort should be taken to limit the scope of the interview to the allegations delineated in the NOI/Personnel Complaint form. The member shall be allowed to take reasonable breaks during the interview process.

(h) No member shall be subjected to offensive or threatening language, nor shall any promises, rewards or other inducements be used to obtain answers. Any member refusing to answer questions directly related to the investigation may be ordered to answer questions administratively or be subject to discipline for insubordination pursuant to *Garrity v. New Jersey*, 385 U.S. 493 (1967). Garrity warnings shall consist of the following:

1. You are being compelled by the Coeur d'Alene Police Department to truthfully answer questions relating to your duties and/or conduct. You will be asked questions specifically, directly and narrowly related to performance of your official duties or fitness for office. The purpose of this questioning is to obtain information which will assist in the determination of whether administrative disciplinary action is warranted in this matter.

This policy establishes this department's position on the utility and management of social media, and provides guidance on its management, administration and oversight. This policy is also intended to address the issues associated with member use of social networking sites and to provide guidelines for the regulation and balancing of member speech and expression with the needs of the department.

Nothing in this policy is intended to prohibit or infringe upon any communication, speech or expression that is protected or privileged under law. This includes speech and expression protected under state or federal constitutions as well as labor or other applicable laws.

This policy is not meant to address one particular form of social media or networking due to the ever evolving advances in technology that will occur.

1027.2 POLICY

Public employees occupy a trusted position in the community, and thus, their statements have the potential to contravene the policies and performance of this department. Due to the nature of the work and influence associated with the law enforcement profession, it is necessary that employees of this department be subject to certain reasonable limitations on their speech and expression. To achieve its mission and efficiently provide service to the public, the Coeur d'Alene Police Department will carefully balance the individual employee's rights against the department's needs and interests when exercising a reasonable degree of control over its employees' speech and expression.

Employees should therefore not disseminate or post any information on any forum or medium that could reasonably be anticipated to compromise the safety of any employee, an employee's family or associates. Line-of-Duty Deaths

1028.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to members of the Coeur d'Alene Police Department in the event of the death of a member occurring in the line of duty and to direct the [Department/Office] in providing proper support for the member's survivors.

The Chief of Police may also apply some or all of this policy for a non-line-of-duty member death, or in situations where members are injured in the line of duty and the injuries are life-threatening.

1028.1.1 DEFINITIONS

Definitions related to this policy include:

Line-of-duty death - The death of an officer during the course of performing law enforcement-related functions while on- or off-duty, or a civilian member during the course of performing assigned duties.

For an officer, a line-of-duty death includes death that is the direct and proximate result of a personal injury sustained in the line of duty (34 USC § 10281).

Survivors - Immediate family members of the deceased member, which can include spouse, children, parents, other next of kin, or significant others. The determination of who should be considered a survivor for purposes of this policy should be made on a case-by-case basis given the individual's relationship with the member and whether the individual was previously designated by the deceased member.

1028.2 POLICY

It is the policy of the Coeur d'Alene Police Department to make appropriate notifications and to provide assistance and support to survivors and coworkers of a member who dies in the line of duty.

It is also the policy of this [department/office] to respect the requests of the survivors when they conflict with these guidelines, as appropriate.

1028.3 INITIAL ACTIONS BY COMMAND STAFF

- (a) Upon learning of a line-of-duty death, the deceased member's supervisor should provide all reasonably available information to the Shift Commander and Central Dispatch.
 1. Communication of information concerning the member and the incident should be restricted to secure networks to avoid interception by the media or others (see the Public Information Officer section of this policy).
- (b) The Shift Commander should ensure that notifications are made in accordance with the Officer-Involved Shootings and Deaths and Major Incident Notification policies as applicable.

Coeur d'Alene Police Department

- (c) If the member has been transported to the hospital, the Shift Commander or the authorized designee should respond to the hospital to assume temporary responsibilities as the Hospital Liaison.
- (d) The Chief of Police or the authorized designee should assign members to handle survivor notifications and assign members to the roles of Hospital Liaison (to relieve the temporary Hospital Liaison) and the [Department/Office] Liaison as soon as practicable (see the Notifying Survivors section and the [Department/Office] Liaison and Hospital Liaison subsections in this policy).

1028.4 NOTIFYING SURVIVORS

Survivors should be notified as soon as possible in order to avoid the survivors hearing about the incident in other ways.

The Chief of Police or the authorized designee should review the deceased member's emergency contact information and make accommodations to respect the member's wishes and instructions specific to notifying survivors. However, notification should not be excessively delayed because of attempts to assemble a notification team in accordance with the member's wishes.

The Chief of Police, Shift Commander, or the authorized designee should select at least two members to conduct notification of survivors, one of which may be the [Department/Office] chaplain.

Notifying members should:

- (a) Make notifications in a direct and compassionate manner, communicating as many facts of the incident as possible, including the current location of the member. Information that is not verified should not be provided until an investigation has been completed.
- (b) Determine the method of notifying surviving children by consulting with other survivors and taking into account factors such as the child's age, maturity, and current location (e.g., small children at home, children in school).
- (c) Plan for concerns such as known health concerns of survivors or language barriers.
- (d) Offer to transport survivors to the hospital, if appropriate. Survivors should be transported in [department/office] vehicles. Notifying members shall inform the Hospital Liaison over a secure network that the survivors are on their way to the hospital. Notifying members should remain at the hospital while the survivors are present.
- (e) When survivors are not at their residences or known places of employment, actively seek information and follow leads from neighbors, other law enforcement, postal authorities, and other sources of information in order to accomplish notification in as timely a fashion as possible. Notifying members shall not disclose the reason for their contact other than a family emergency.
- (f) If making notification at a survivor's workplace, ask a workplace supervisor for the use of a quiet, private room to meet with the survivor. Members shall not inform the

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Line-of-Duty Deaths

workplace supervisor of the purpose of their visit other than to indicate that it is a family emergency.

- (g) Offer to call other survivors, friends, or clergy to support the survivors and to avoid leaving survivors alone after notification.
- (h) Assist the survivors with meeting child care or other immediate needs.
- (i) Provide other assistance to survivors and take reasonable measures to accommodate their needs, wishes, and desires. Care should be taken not to make promises or commitments to survivors that cannot be met.
- (j) Inform the survivors of the name and phone number of the Survivor Support Liaison (see the Survivor Support Liaison section of this policy), if known, and the [Department/Office] Liaison.
- (k) Provide their contact information to the survivors before departing.
- (l) Document the survivors' names and contact information, as well as the time and location of notification. This information should be forwarded to the [Department/Office] Liaison.
- (m) Inform the Chief of Police or the authorized designee once survivor notifications have been made so that other Coeur d'Alene Police Department members may be apprised that survivor notifications are complete.

1028.4.1 OUT-OF-AREA NOTIFICATIONS

The [Department/Office] Liaison should request assistance from law enforcement agencies in appropriate jurisdictions for in-person notification to survivors who are out of the area.

- (a) The [Department/Office] Liaison should contact the appropriate jurisdiction using a secure network and provide the assisting agency with the name and telephone number of the [department/office] member that the survivors can call for more information following the notification by the assisting agency.
- (b) The [Department/Office] Liaison may assist in making transportation arrangements for the member's survivors, but will not obligate the [Department/Office] to pay travel expenses without the authorization of the Chief of Police.

1028.5 NOTIFYING [DEPARTMENT/OFFICE] MEMBERS

Supervisors or members designated by the Chief of Police are responsible for notifying [department/office] members of the line-of-duty death as soon as possible after the survivor notification is made. Notifications and related information should be communicated in person or using secure networks and should not be transmitted over the radio.

Notifications should be made in person and as promptly as possible to all members on-duty at the time of the incident. Members reporting for subsequent shifts within a short amount of time should be notified in person at the beginning of their shifts. Members reporting for duty from their residences should be instructed to contact their supervisors as soon as practicable. Those members who are working later shifts or are on days off should be notified by phone as soon as practicable.

Coeur d'Alene Police Department

Coeur d Alene PD Policy Manual

Line-of-Duty Deaths

Members having a close bond with the deceased member should be notified of the incident in person. Supervisors should consider assistance (e.g., peer support, modifying work schedules, approving sick leave) for members who are especially affected by the incident.

1028.6.1 [DEPARTMENT/OFFICE] LIAISON

The [Department/Office] Liaison should be a Division Commander or of sufficient rank to effectively coordinate [department/office] resources, and should serve as a facilitator between the deceased member's survivors and the [Department/Office]. - The liaison should be an individual the survivors know and with whom they are comfortable working.
- The selection may be made from names recommended by the deceased member's supervisor and/or coworkers. The deceased member's partner or close friends may not be the best selections for this assignment because the emotional connection to the member or survivors may impair their ability to conduct adequate liaison duties.
- The liaison must be willing to assume the assignment with an understanding of the emotional and time demands involved.
